DIRECTIONS: **This form is official verification of transferability of courses and is to be used by undergraduate CMU students only.** All information (including CMU equivalencies) must be provided before this request will be processed. Grades and honor points are not accepted in transfer. The transfer credit policy states transferable courses must be completed at a regionally-accredited institution with a grade of C- or better. Grades of D+, D, or D- do not transfer. For a transferred course to be used to fulfill a competency requirement, it must be transferable, and completed with a grade of C or better. Whenever it can be determined that a course has an equivalent, a CMU course number will be given. Where this cannot be determined, the acceptable credit will be designated as "CR".
