Central Michigan University Use of Controlled Substances in Research Authorized Agent Log

Each Principal Investigator or research laboratory must keep an updated form on file. Only individuals on this list will be granted access including keys or the combination to the controlled substance storage area. The number of individuals who have access to controlled substances must be limited. Individuals who no longer have access to controlled substances must be crossed off the list along with the date when access was removed. State of Michigan and DEA Diversion Investigators will expect to have an updated copy on hand to review and copy during inspections.

Registrant Name and Department:	
Address as listed on DEA Certificate of Registration:	
DEA Registration #	MI Controlled Substance Permanent ID#

Name (Last, First) Print or type	Job Title	ID#	Signature	Access Granted Date	Access Removed Date
