

## **SAP Student Life Cycle Management (SLCM) Training**

There are two types of training for our student system (SLCM) and they are as follows:

1. **General** - a general overview on how to navigate Campus Management to access information in this student system. It is for both new employees as well as current employees who feel they need additional training.

To sign up for SLCM training, please contact Vicki Steele at 7227 or by e-mail at [steel1vs@cmich.edu](mailto:steel1vs@cmich.edu).

2. **Student Accounting** – specialized training on the student accounting screens. For details on these training sessions please click [here](#)

If you do not yet have access to the student system, please go to the Sap User Request site for information and to access the **SAP User Request Form** by clicking [here](#)
