

In Blackboard versions before 7.1, students submitting an assessment received a vague confirmation message when exams were submitted. Since the messages were essentially the same for each student, they provided very little in the way of “proof” that an assessment was in fact submitted.

As part of the upgrade to Blackboard 7.1, students now receive a detailed submission confirmation screen including confirmation of subscription, student name, assessment title, course, and date and time of submission.

Assessment Submitted: Example Test

Assessment successfully submitted.

Student: Sue Student

Assessment: Example Test

Course: Distance & Distributed Learning's "Preview" Course (DDL-Preview01)

Submitted: 1/14/08 11:27 AM

Monday, January 14, 2008 11:27:49 AM EST

OK

Students should be encouraged to print and retain the confirmation screen for their records.
