Flip Video Camera Instructions

- Your camera will come with new batteries installed.

- To turn the camera on/off:
  - Hold the camera with the red button facing you. Press downward on the small button on the right side of the camera.
  - The camera will make a short beep sound and the Flip Video logo will appear/disappear quickly on the screen. The screen will then read “ready” in the top left corner.

- To begin filming: *Please be sure to state the student’s name at the start of the footage.*
  - Point the camera in the direction of the people/activities you wish to record and press the red button. The camera will begin recording and will display a counter (in red) in the top left corner.

- To zoom in and out:
  - You can choose to zoom before or during filming. To do this, use the plus and minus buttons above and below the red “record” button. Use the plus button to zoom in (closer) to the person/activity being filmed and the minus button to zoom out (away) from the person/activity.

- When you are done filming, press the red button to stop. You can begin filming again without effecting the previous information by simply pushing the red button.

- To review your footage:
  - After recording, press the arrow button to the left of the square record panel. You can scan through each of your clips by pressing the arrows to the right and left of the red record button.

- To delete a clip:
  - If you come across a clip that you would like to delete, press the trash button to the right of the square record panel. The screen will read “Delete Video?” Press the “trash” button a second time to confirm. If you do not wish to delete the clip, do NOT press the button a second time.
