The Military Science & Leadership minor/Army Reserve Officer Training Corps (ROTC) program supports all academic programs, is open to all students, and may be completed without any obligation for military service. We offer competitive scholarship and financial aid opportunities.
Program highlights

**Military Science minor** provides an interdisciplinary education in Military Science and Leadership

**Commissioning Program** enables students interested in becoming Army officers to receive their commission upon graduation

**Leadership development** designed to enhance student leader planning, problem-solving and decision making while gaining leadership confidence through hands-on training.

**Diversity experiences** gained through challenging, paid extra-curricular summer training opportunities around the world

### Career options

Completing “the best leadership development program in America” will give you an advantage over your peers for the rest of your life, regardless of your chosen career. In addition to leadership positions in the military, ROTC graduates find careers in civilian leadership and high-tech fields.

- Aviation
- Education
- Engineering
- Government
- Human Resources
- Information Technology
- Intelligence
- Law Enforcement
- Logistics
- Medical Service
- Security
