Welcome

The School Psychology professional must be prepared to meet the educational and mental health needs of all children. Central Michigan University encourages students from diverse ethnic and racial backgrounds to apply to its School Psychology Programs. We make every effort to ensure a climate in which every student knows that she or he is a valued member of our teaching community.

This program meets the State of Michigan school psychologist certification requirements. Students who complete the program and pass the National School Psychology Examination are eligible to become nationally certified school psychologists, a credential that allows certification in 33 states.

Doctor of Philosophy (Ph.D.) in School Psychology

CMU’s School Psychology Doctoral Program is accredited by the American Psychological Association (APA)* and is approved by the National Association of School Psychologists.

Program goals are to prepare entry-level school psychologists who:

- use scientific knowledge as a basis for systematic problem-solving, and view data collection and analysis as integral to service delivery;
- apply knowledge of assessment, instruction, learning, behavioral theory, human development, psychotherapeutic techniques, and positive mental health practices to prevent and remediate students’ learning and adjustment problems;
- use professional ethical reasoning skills to make informed choices in resolving and preventing problems, respect the dignity and worth of all persons, and ensure fairness and nondiscrimination;
- apply the science of psychology to promote human welfare in systems-level consultation;
- develop an area of expertise within School Psychology; and
- mentor and supervise less-advanced students; train others through professional development presentations, workshops, or university teaching.

Doctoral Program Curriculum

This program includes four years of intensive academic preparation and field experience plus a one-year full-time internship. Students must successfully complete 3 years of graduate study. The curriculum is designed to reflect recent developments in applied psychology. Progress through the program is based on earning satisfactory grades, passing a comprehensive examination, and successfully completing the doctoral dissertation and internship.

Students entering with B.A. or B.S. degrees will be required to complete approximately 106 graduate credit hours. Those entering with M.A. or M.S. degrees in School Psychology will be required to complete approximately 70 graduate school credits. Students are required to complete at least three years of academic training at CMU.

* Questions related to the program’s accredited status should be directed to the Commission on Accreditation: Office of Program Consultation and Accreditation, American Psychological Association, 750 1st Street, NE, Washington, DC, 20002. Phone: (202) 336-5979; E-Mail: apaaccred@apa.org; Web: www.apa.org/ed/accreditation.

CMU is an AA/EO institution, providing equal opportunity to all persons, including minorities, females, veterans and individuals with disabilities. See www.cmich.edu/aaeo.
Specialist Admission Requirements

Admission is competitive, with approximately eight to ten students accepted each year. An acceptable Master's degree, 15 credit hours of undergraduate psychology, or the equivalent as determined by the Department of Psychology is required. A 3.0 overall grade point average and scores from the Graduate Record Examination taken within the last five years are required for admission. The application deadline is November 15th.

Financial Support

Financial support is available through doctoral research fellowships, research and teaching assistantships, King/Chávez/Parks fellowships, and other sources. Awards include stipends and tuition waivers. Full-time awards require 20 hours of work per week, and half-time assistantships require 10 hours of work per week.
