Supplemental Instruction
Supplemental Instruction (SI) is a series of weekly peer-led review sessions for students taking historically difficult courses at CMU. SI is provided for all students who want to improve their understanding of course material and their grades. Each SI session is led by an SI leader, an exemplar student who had previously completed and excelled in the course, is specially trained in SI methods, attends the class to take notes, models effective student behavior, and is culturally competent to serve a diverse student body. SI is a chance for students in the class to get together to compare notes, discuss important concepts, develop strategies for studying the subject, and to test themselves before the professor does.
