Students explore Chippewa River

When Kaylin Hansen and her classmates steered their canoes through the cool water of the Chippewa River last fall, they embarked on a journey that carried them far beyond their English classroom.

The students in English professor Danny Patterson’s senior seminar studied the river to better understand the role of “place” in literature. The river then became the lead character in a book co-written by Patterson and his students.

“This seminar offers students a very hands-on lesson in how to represent a river in words,” said Patterson. “A place cannot express itself until it inspires a human to know the place intimately and then write that place into existence.”

Patterson divided his class of 12 students into six chapter teams. Each student was responsible for writing and illustrating two chapters of the book, “The Chippewa River Watershed: Our Place on Earth.”

“Each chapter focuses on one aspect of the Chippewa River Watershed, such as its topography, hydrology, environmental history, ecology, plant and animal species, history of human inhabitation, economic roles, and cultural aspects,” said Patterson. “The final chapter discusses its current conditions and future prospects.”

Patterson plans to give copies of the book — free of charge — to area schools, libraries, canoe liveries, and groups such as the Chippewa Watershed Conservancy so that other individuals can benefit from his students’ research.

Hansen, a senior from Cheboygan who is majoring in English education, says the project has given her a new perspective on writing.

Continued on page 3
As dean of the College of Humanities and Social and Behavioral Sciences, I am proud of the many ways that our academic departments extend learning opportunities beyond the classroom. This newsletter shares information about some of the ways we are bringing our students to the world and bringing the world to our students.

Each semester our students, as well as members of the surrounding community, attend performances, lectures, panel discussions, and creative readings hosted by individuals acclaimed as experts in their areas of study.

Last semester journalist Mike Wallace discussed his career at “60 Minutes,” faculty members hosted panel discussions for students to express their concerns about Hurricane Katrina, and award-winning author and undertaker Tom Lynch amused audiences with his mix of humor and literature, to name a few.

In addition, CHSBS faculty members facilitated real-world learning opportunities for our students. This newsletter shares information about neuroscience professor Justin Oh-Lee, who traveled with several of his students to a national neuroscience conference in Washington D.C., and English professor Danny Patterson’s students who created a book about the Chippewa River watershed.

Projects such as these provide valuable learning experiences for our students that cannot be replicated in the classroom. These experiences, along with academic coursework, help prepare our students with the knowledge and skills necessary to be successful in their professional and academic careers.

Another important way that we bring the world to our students is through maintaining connections with our alumni either by inviting them to campus to meet with current students or by establishing internship opportunities at their places of employment. We are always working to create new internship opportunities for our students, and we invite you to contact us with any ideas about internship opportunities that you might help us make available to our students.

As dean, it also is my responsibility to remind you that many of these class projects and guest speakers are funded through money donated to CMU by alumni, faculty, staff, and friends of the university. I extend my gratitude to those of you who have already made a gift to CMU and encourage all of you to consider making future gifts to CMU. Your efforts will have a direct benefit on our students and faculty.

For example, we recently received a commitment from a generous donor who has pledged $50,000 to support Justin Oh-Lee’s Parkinson’s research, providing we raise a matching $50,000 from other donors. By participating in this matching gift campaign, not only will you help provide valuable research opportunities for our students and faculty, but you also have the potential to help countless individuals who will benefit from the results of their research.

If you would like more information about supporting any of the programs mentioned in this newsletter or if you would like help in determining which of our funding needs best match your giving interests, please contact Alison Miller, the CHSBS development director, at (989) 774-3354 or mille1as@cmich.edu.

Sincerely,

E. Gary Shapiro
Dean
Students present research at neuroscience conference

Neuroscience professor Justin Oh-Lee traveled to Washington D.C. with 12 of his laboratory students to attend the 35th annual national meeting of the Society for Neuroscience in November.

Oh-Lee and the students — the largest contingency of CMU students ever to attend this conference — presented their original research on novel therapeutic and diagnostic strategies for Parkinson’s disease.

The students also had opportunities to interact with researchers and fellow students in the neuroscience field. They visited other researchers’ poster displays and attended seminars on topics ranging from molecular genetics to neuroethics. Many of the students also secured interviews for post-doctoral positions, internships, and jobs.

Students write watershed book (continued from front page)

“Creating the watershed book added purpose to my writing,” said Hansen. “Because the book will reach a broader audience than just to be read and graded by a professor, the purpose of writing it went beyond just earning a grade.”

The project also helped her gain a new appreciation for nature.

“I’ve learned that there are more things to see and discover in nature if you take the time to notice them,” said Hansen. “There is nothing simple about nature. Each piece of it is part of a much bigger concept if you examine it beyond just seeing that it exists.”

The students in Patterson’s seminar, ENG 460: The Concept of Place in Literature, also read several river narratives including “Life on the Mississippi” and “A River Runs Through It.”

Patterson is printing 1,000 copies of the book, which will be available this spring. The English department and the College of Humanities and Social and Behavioral Sciences both have contributed to the publishing costs, with additional funds yet to be raised.

Giving Opportunities

If you are interested in providing financial assistance for the costs of printing the watershed project books or to assist Justin Oh-Lee and his students in conducting research for treatments of Parkinson’s disease, please contact the CHSBS development office at (989) 774-1788 or CHSBS@cmich.edu.
Web site tests leadership skills

A group of CMU psychology graduate students have devised a way to identify good leaders.

The result of a year of studying literature and data on leadership culminated in the creation of a Web site designed to help people determine, based on a list of 120 different characteristics, which skills are strengths and in which areas they need to improve.

Industrial organizational psychologist Stephen Wagner oversaw the project.

“I hope the Web site continues to grow over the years,” said Wagner. “We wanted to make it a very comprehensive model for leadership.”

The Web site assessment takes about 20 to 30 minutes to complete. When a person finishes, he or she will see a list of strengths and weaknesses on traits like creativity, communicating, stress management, and forecasting. A development plan for improving weaknesses and leveraging strengths also can be created.

The Leadership Competency Model also can be customized for private business and organizations based on the leadership characteristics most valued in each organization.

Wagner said he hopes to work with some local businesses and organizations and develop the model as a product. So far, there’s already been interest from CMU’s Leadership Institute as well as a few other on-campus groups.

“I wanted to expose the students to the process of developing a product with the hope of turning it around and marketing it, creating products, and going out and consulting in the community,” he said.

Graduate students who contributed to the project included Ashwini Bapat, Misty Bennett, Gary Burns, Cathy Bush, Kirsten Gobeski, Sara Langford, Matt Monnot, Brigitte Pfeiffelmann, Brian Siers, and Aaron Stehura.

Right: The leadership Web site is located at www.chsbs.cmich.edu/leader_model.

Students display human evolution research

Chelsea Mead describes her research project to fellow classmates (from left to right) Erin Westman, Cassandra Jensen, and Sarah Smith.

Students in assistant professor Rachel Caspari’s anthropology seminar had the opportunity to share their research on humans’ early ancestors with the CMU community when they displayed their class projects in CMU’s Park Library in December.

The students studied topics related to human evolution and then created posters that summarized or challenged the research. The students examined topics such as how females are portrayed in human evolution research, meat consumption throughout human evolution, and the depiction of Neanderthals in research and popular culture.

“Public display allows the dissemination of knowledge and ideas — a major goal of all academic endeavors,” said Caspari. “It also rewards the students’ time and effort.”

“The posters encourage a focused approach, help teach hypothesis testing, and help teach students to present their research succinctly.”

Welcome to Leadership Central

Steps To Becoming A Better Leader

1. Review The Essentials
   Have a handle on the leadership competency model.

2. Take The Self Assessment
   Learn your leadership strengths and weaknesses.

3. Create A Development Plan
   Make a plan for your research and development.

4. Use The Self-Development Guide
   Make the most of your leadership potential.

Welcome to Leadership Central.

Note: Please run the database applications in a web browser (example: the developer’s plan, the research plan, the class projects, and my other projects).
Center helps CMU students improve writing skills

The CMU Writing Center helps an average of 60 students improve their writing skills every day.

“The Writing Center is founded on the philosophy that writing should be at the center of a college education,” said Mary Ann Crawford, director of the center.

The Writing Center began providing help to the whole university community in 1997, after 22 years of being available only to students enrolled in basic writing classes. In eight years, the number of sessions during a semester have gone from 400 to more than 3,000. About 350 students visit the Writing Center every week.

“We’ve grown because of the value of peer feedback for writing and because of the growing demand for writing skills at the university and in professions,” Crawford said.

Students who go to the Writing Center represent departments and classes throughout the university. Some classes require students to visit regularly during the semester, but many students go to the center on their own accord.

Crawford says students report coming away from sessions feeling more confident about their writing.

The Writing Center also provides orientations, writing workshops, and, through a program called “Writing Across the Curriculum,” works with professors to integrate writing into classes across the university.

“Students with good writing skills would more readily be able to work in their majors and professions,” Crawford said.

The Writing Center employs more than 30 student writing consultants, who must take an intensive training course during their first semester at the center.

As well as offering campus services, the Writing Center offers online services for CMU’s off-campus programs. Students may submit work via a Web site and get feedback on areas the consultants identify as needing improvement.

Student Paper Competition

The College of Humanities and Social and Behavioral Sciences is proud to recognize the winners of the 2005 Student Paper Competition.

Each graduate winner receives a $750 prize and each undergraduate winner receives a $500 prize. The awards are funded through gifts from faculty, alumni, and friends of CHSBS.

Graduate Students

**Sean Hill**
“La Pronunciacion de la/rr/ Puertorriquena en Contacto con el Espanol Mexicano de Michigan”
Faculty Adviser: Luz Marcela Hurtado, (FLLC)

**Darren McVittle**
“The Evolution of the British Music Hall and the Invention of Popular Culture”
Faculty Adviser: James Schmiechen, (HST)

**Mark Soderstrom**
“Enveloped in a St. Petersburgian Obscurity Russia’s ‘Window’ at the Apogee of Empire”
Faculty Adviser: James Schmiechen, (HST)

Undergraduate Students

**Sarah Gillam**
“CINDI: A REALITY TALE”
Faculty Adviser: Susan Steffel (ENG)

**Crystal Ann Harris**
“From Housewives to Careers: Rethinking Gender Stereotypes in the 1950’s”
Faculty Adviser: Kathleen Donohue, (HST)

**Sandra Russo**
“Mexico: la pintura y la historia”
Faculty Adviser: Krzysztof Kulawik (FLLC)

**Kristen Ulmanis**
“Taking Tragedy out of the Tractatus: Disentangling David Rozema from His OwnTrap”
Faculty Adviser: Jordan Lindberg (PHL & REL)
Each year the academic departments and centers within the College of Humanities and Social and Behavioral Sciences host a variety of events, lectures, and workshops to provide their students with access to experts in their fields of study.

These activities provide students with unique opportunities to expand on their classroom instruction.

The following pages show some examples of the many activities that took place at CMU during the fall semester.

**English Department**

The English department hosted several guest speakers during the fall semester, including author Hal Jaffe and poet Terrence Hayes.

Jaffe, nationally known for his experimental fiction, is a faculty member in the English and Comparative Literature Department at San Diego State University. Among his works are “Mole’s Pity,” “Mourning Crazy Horse” and “15 Serial Killers.”

**Foreign Language Department**

Guitarist Francesc de Paula Soler performs during an acoustic concert at CMU in October.

Francesc de Paula Soler, known as the poet of the guitar, hosted a musical reading presentation from Cervantes’ “Don Quixote” with foreign language students who read selections from the book in Spanish.

Soler also treated the community to a two-hour acoustic concert that paid homage to “El Quijote” and included Latin American guitar selections and a show-stopping original composition.

**History Department**

Carl Osthaus, professor and chair of history at Oakland University, was the keynote speaker for the third annual George M. Blackburn Endowed Lecture on the Civil War and Reconstruction.

During his presentation, “Who’s buried in Grant’s Tomb: Reflections on the Good General/Bad President Enigma,” he stated that the brilliance of Ulysses S. Grant’s military career never sparkled in the White House.

Carl Osthaus, Oakland University professor, gives an evaluation of Ulysses S. Grant’s presidency.

**Military Science Department**

Retired military intelligence officer gives talk on leadership

Retired Colonel R. John Cully Jr., ’70, was the featured speaker for the Colonel William B. Nolde Lecture Series held during CMU’s Leadership Week.

“Each year we look for outstanding ROTC alumni who can act as role models for our cadets by inviting them to speak at our Nolde lectures and other events,” said Denise Gallagher, military science administrative secretary.

After Cully graduated from CMU he completed flight training and flew attack helicopters in Vietnam before being transferred to the military intelligence branch and joining the special forces.

He assumed command of the Special Intelligence Squadron in 1988 and retired in 1997. Also in 1997, he became the national vice president of sales at Resort Condominiums International in Indiana.

The goal of the Nolde Lecture Series is to promote an understanding of the role the U.S. Armed Forces plays in American society and history and to help people understand the nature of war and the importance of leadership roles.

R. John Cully Jr.
CMU’s Center for Professional and Personal Ethics hosted a full schedule of events last semester to help support the study, teaching, and practice of ethics, which included the following:

- **Howard Weyers**, CEO of Weyco, Inc., visited campus in September to discuss his company’s controversial policy that prohibits employees from any and all smoking.
- **Dr. Christopher Peterson**, positive psychologist and University of Michigan professor of psychology, visited campus in October to discuss the latest research on happiness. Peterson is the co-author of “Character Strengths and Virtues.”
- **David Callahan**, author of “The Cheating Culture: Why More Americans are Doing Wrong to Get Ahead,” discussed his views on the state of morality and ethics in the United States during his visit to campus in November. His presentation was sponsored by the Dr. Jeffrey Wigand Ethics Lecture Series.
  
  In his 2004 book, Callahan argues that cheating occurs in every sector of life, from stealing cable television to embezzling money from a corporation, and that cheating is gaining widespread acceptance.

- Attorneys from area law firms volunteered their time to provide free legal clinics for students, faculty, and members of the community for three days in November.

  Clients met one-on-one with attorneys who then provided objective opinions about their options.

  **Tom Weiss**, attorney and partner of McClintic & Weiss, **Becky Bolles** of Hall, Lewis & Bolles PC, and **Matt Romashko** of Lynch, Gallagher, Lynch, Martineau & Hackett PLLC participated in the clinic.

---

**Interviewing the interviewer**

Acclaimed journalist **Mike Wallace**, known for asking difficult and sometimes confrontational questions of many high-profile individuals, found himself in the hot seat when he visited CMU in October to be interviewed by one of his former subjects.

Tobacco control advocate **Jeffrey Wigand** talked to Wallace about some of his most memorable interviews over his 50 years at CBS, including the controversial interview that he conducted with Wigand about the tobacco industry.

Wigand, former vice president of research for Brown & Williamson Tobacco, is the highest-level tobacco executive to speak out against the industry to date. His life, and the story that brought him and Wallace together, inspired the movie “The Insider.”

Wallace, who has been a correspondent on “60 Minutes” since its 1968 premiere, is noted for interviews with several American presidents, as well as international figures such as Deng Xiaoping, Manuel Noriega, and the Ayatollah Khomeini. His new book, “Between You and Me: A Memoir,” was released in October by Hyperion.

His visit to CMU was sponsored by the Dr. Jeffrey Wigand Ethics Lecture Series and organized by the Center for Professional and Personal Ethics.
**Psychology Department**

The Central Neuroscience Society hosted two guest speakers during the fall semester.

**Laurent Lescaudron** (pictured below) of the Institute of Transplantation and Research on Transplantation at Nantes County Hospital/University of Nantes - France gave a presentation on “Stem Cells and Neuronal Differentiation” in September.

Lescaudron runs a transplant research group at the University of Nantes and spent one month as an adjunct professor at CMU. He is collaborating with CMU’s BRAIN Center on projects involving use of adult bone-marrow stem cells for treatments of cognitive and motor dysfunction in rodent models of Huntington’s and Parkinson’s diseases.

While at CMU he taught students techniques for harvesting and culturing bone marrow stem cells, as well as how to surgically implant them into the brains of mice carrying the mutant gene for Huntington’s disease.

During the second annual BRAIN Center Open House, **Scott Janis** of the National Institutes of Neurological Disorders and Stroke discussed his odyssey from “CMU to NINDS.”

Janis also received the BRAIN Center Distinguished Alumnus Award at the open house, which was held during CMU’s Homecoming weekend in October.

The Industrial Organizational Psychology Association hosted guest speaker **Ann Marie Ryan**, editor-in-chief at “Personnel Psychology.” She discussed the publishing process from an editor’s point of view.

The psychology department wrapped up the fall semester with a lecture by **Ellen Kossek** of Michigan State University’s School of Labor and Industrial Relations in December.

She hosted a discussion titled “Crafting Lives that Work: Work-Family Research.” Students from MGT312: Introduction to Management also participated in the presentation.

**Political Science Department**

**Forum addresses Michigan’s economy**

Panelists at the Griffin Policy Forum discuss the challenges of improving Michigan’s economy. *Seated from left to right: Tom Walsh, Daniel Howes, Sharon Miller, David Hollister, and Alan Gilmour.*

**Question:** What do you get when you ask two business columnists, an entrepreneur, a Big Three executive and a policy maker, “Can the Michigan economy be saved?”

**Answer:** One interesting Griffin Policy Forum.

The panelists discussed Michigan’s challenges in economic competition with other states, outsourcing, globalization, unemployment, and the decline of the domestic automotive industry and other heavy manufacturing.

CMU’s Griffin program seeks to build interest and increased engagement in politics among young adults, faculty, and the general citizenry. The endowment honors Robert and Marjorie Griffin, both distinguished CMU alumni.

**Laurent Lescaudron** of the Institute of Transplantation and Research on Transplantation discusses his research on stem cells during his presentation at CMU in September.
When the tragic events of Hurricane Katrina unfolded at the beginning of last semester, faculty members in the Department of Sociology, Anthropology and Social Work knew they had to offer the CMU community a platform to express their sadness, confusion, and anger about the disaster and, most importantly, to understand the factors contributing to such events.

Their answer was to host an interdisciplinary discussion series about the causes and human impact of Hurricane Katrina. Faculty from the SASW, political science, and speech communication and dramatic arts departments took turns organizing the panels and leading discussions on topics such as race, inequality, displaced children, the role of the government, and the role of the helping professions.

“"The series addressed several social and political dimensions of the tragedy."”

- Mary Senter
Department Chair

When the tragic events of Hurricane Katrina unfolded at the beginning of last semester, faculty members in the Department of Sociology, Anthropology and Social Work knew they had to offer the CMU community a platform to express their sadness, confusion, and anger about the disaster and, most importantly, to understand the factors contributing to such events.

Their answer was to host an interdisciplinary discussion series about the causes and human impact of Hurricane Katrina. Faculty from the SASW, political science, and speech communication and dramatic arts departments took turns organizing the panels and leading discussions on topics such as race, inequality, displaced children, the role of the government, and the role of the helping professions.

“"The series addressed several social and political dimensions of the tragedy."”

- Mary Senter
Department Chair

The series, aptly titled “How We Lost New Orleans,” was a big success, drawing audiences of more than 200 students, faculty, and community members to nearly every discussion.

“We were very pleased with student interest not just in the immediate days after the hurricane but throughout the semester,” said Senter.

“Faculty involvement and encouragement of student attendance kept the discussion going both inside the classroom and without and helped students see the connections between what is learned in the classroom and the world around them.”

- Mary Senter
Department Chair

Women’s Studies Program

The Women’s Studies Program hosted a week-long poster exhibition and a panel discussion on gender research in October. CMU students and faculty members shared their research on a variety of issues, including women and substance abuse and refugee policies for women.

In November, Jessica Jernigan, a frequent contributor to the magazine “Bitch: A Feminist Response to Pop Culture,” discussed her career as a writer and read from her work. Jernigan is pursuing a degree in religion at Bryn Mawr College.
Award-winning author, undertaker visits campus

Thomas Lynch, the author of a collection of essays that became the inspiration for the HBO series “Six Feet Under,” visited CMU in November to discuss his work as a funeral director and author and to read excerpts from his new book, “Booking Passage: We Irish and Americans.”

His latest publication recounts his own experiences in Ireland and contrasts life — and death — in a remote Irish village with the modernity of American life.

“Lynch hits on a wide range of topics with an unusual combination of humor, heart, and intelligence,” said Merlyn Mowrey, associate philosophy and religion professor.

“He can get ‘embalming’ to ‘iambic pentameter’ into a single coherent sentence, and after the initial laugh, leave you with something to think about. He’s a good reminder of the power and pleasure of good writing and reading,” she said.

“Six Feet Under” creator Alan Ball came up with the idea for his award-winning show after reading Lynch’s “The Undertaking: Life Studies from the Dismal Trade.”

Lynch’s visit to CMU was sponsored by the College of Humanities and Social and Behavioral Sciences, the English department, the College of Communication and Fine Arts, and the philosophy and religion department.

Snapshots from the Michigan Story Festival

Mythical stories, insightful songs, and a bevy of artistic performances returned to Mount Pleasant during the annual Michigan Story Festival in October. The festival allows storytellers to share their tales and life experiences with people of all ages and backgrounds.

The festival featured more than 20 performances and exhibitions by national storytellers, entertainers and artists, including headliners James Bruchac, Carmen Deedy, Rex Ellis, Laura Simms, pianist Vladimir Svoysky, Linda Park-Fuller, Peter Sis, and Robert and Terri Lynn TallTree, as well as a host of regional presenters.

The third annual festival was held at venues throughout the Mount Pleasant community. It was developed — and is sponsored annually — by CMU, the Mount Pleasant community, and the Saginaw Chippewa Indian Tribe.

To learn more about the performers or upcoming events, visit the MSF Web site at www.michiganstoryfestival.org.

Author and funeral director Thomas Lynch signs copies of his books during his visit to CMU in November.

Robert and Terri Lynn TallTree used music, art, and motivational storytelling in their presentation.

Carmen Deedy

Linda Park-Fuller, a cancer survivor and motivational performer, presented “Surviving Cancer: Health and Healing.”

James Bruchac
Weinstock explores ghastly research, ‘Rocky Horror’

Weinstock is the editor of “Spectral America: Phantoms and the American Imagination” and currently is working on the book, “Scare Tactics: Supernatural Fiction by American Women as a Form of Social Protest.”

“Ghosts have remained an area of fascination,” said Weinstock. “But no one had thought to try and actually examine in a book the importance of ghosts to American literature across time.”

Through an examination of literature from the 19th century to the present day for “Spectral America,” Weinstock has found that ghosts and hauntings have played an important role for people over time. During the period following the Civil War, for example, Americans were excited by the idea of spiritualism, or the idea that the living could communicate with the dead — a fascinating prospect for the thousands of people who lost family members to the war.

When Weinstock looks at the differences between ghosts as told by male and female writers, he has found striking differences.

“For women writers, ghosts communicate a sense of unease about the place of women in American culture, an anxiety, a sense of confinement,” he said.

In addition to his research on the supernatural, Weinstock also is an expert on “The Rocky Horror Picture Show,” making him a popular resource for media interviews each year near Halloween.

He currently is editing a collection of essays called “Reading Rocky: The Rocky Horror Picture Show and Popular Culture.”

“‘Rocky Horror,’ it must be acknowledged, is the oddest of things: a relatively low-budget gender-bending mishmash of genres that somehow manages to provoke a response famously from its audience which dances, talks back to the film, and acts out the action along with the characters,” he said.

Visiting history professor teaches course on ‘Humor in the Ancient World’

A few CMU history students might find something to laugh about this spring. 

Paul Schulten, an associate professor at Erasmus University in Rotterdam, The Netherlands, is teaching two history courses as a guest professor at CMU, including a mixed upper-level undergraduate and graduate class on “Humor in the Ancient World.” He also is teaching an ancient Greek and Roman history course for undergraduates.

“This is an excellent opportunity to take a class from an esteemed visiting professor,” said Tim Hall, chairman of CMU’s history department.

Hall said that the department hasn’t brought in a visiting professor for several years. Schulten’s area of expertise — especially in the area of humor — is particularly unique.

“I’m sure it’s something very unusual,” he said. “It’s coming out of his research.”

At Erasmus University, Schulten teaches courses on ancient history, historical representations, and the history of warfare. He has published several scholarly articles and books — the most recent, “Living Next to the Catastrophe: The Netherlands During World War I.”

Paul Schulten, a visiting professor from The Netherlands, is teaching a course called “Humor in the Ancient World” this spring.
CMU extends Ballenger’s term as Griffin chairman

Political science students can look forward to another year under the leadership of media-savvy political pundit Bill Ballenger.

Ballenger, the editor and publisher of Inside Michigan Politics, has accepted CMU’s offer to serve one additional year as the Robert and Marjorie Griffin Endowed Chair in American Government.

The decision to extend the three-year contract is based on Ballenger’s notable success as chairman. His extension was recommended by the political science department and the College of Humanities and Social and Behavioral Sciences.

“I am delighted that Bill has agreed to extend his term as chair,” said E. Gary Shapiro, dean of the college. “He has been a tremendous positive influence on our students and has helped us to increase enrollment in the Griffin seminars.”

“Likewise, his affiliations with individuals in political and corporate communities and in radio and television have enabled CMU to host unique and engaging public forums that pique the interest of diverse audiences,” said Shapiro.

As chairman, Ballenger teaches two political science seminars and organizes two forums that address public policy issues each year.

He also invites prominent business and political leaders to speak in his classes and travels with his students to Lansing to tour the Capitol and meet with elected officials each semester.

Ballenger, who began his term as chairman in the fall of 2003, is a former state representative, state senator, director of the State Department of Licensing and Regulation, and a former state racing commissioner. He served as deputy assistant secretary of the U.S. Department of Health, Education and Welfare in President Gerald R. Ford’s administration.

The Griffin Endowment funds the salary and associated costs of a government and public policy expert who serves as a faculty member in CMU’s Department of Political Science. The endowment honors Robert and Marjorie Griffin, both distinguished CMU alumni.

Jesuit receives income study award

Political science assistant professor David Jesuit received the 2005 Aldi J. Hagenaars Memorial Award for his paper “State Redistribution in Comparative Perspective: A Cross-National Analysis of the Developed Countries.”

The paper, co-written by Vince Mahler, provides an overview of the many opportunities the Luxembourg Income Study data set provides to measure the distributive effect of taxes and transfers in developed countries.

The award was created in 1994 in memory of scholar Aldi Hagenaars to recognize researchers, under the age of 40, who write the best LIS working paper during the previous year.

David Jesuit receives the Aldi J. Hagenaars Memorial Award.

The winner receives a $500 cash prize and an invitation to serve as a faculty member and present the winning paper at the next LIS summer workshop.

Newby receives diversity award

Sociology professor Robert Newby received CMU’s 2005 President’s Award for Diversity Excellence.

The award is given by the President’s Advisory Council on Affirmative Action and Campus Equity to recognize CMU faculty, staff, administrators or units that have made outstanding contributions toward achieving diversity at CMU.

Newby teaches courses on racism and inequality and the civil rights movement.

In 2003 he received a lifetime achievement award from the American Sociological Association in honor of his distinguished career of scholarship, teaching, and mentoring.
Hartshorne receives ‘Star in CHARGE’ award

Psychology professor Timothy Hartshorne received the “Star in CHARGE” award at the International CHARGE Syndrome Conference held in Miami Beach last July. CHARGE syndrome is a congenital disorder with multiple physical, sensory, and behavioral anomalies, such as hearing loss, vision loss, and balance problems which can delay the child’s development and communication.

Hartshorne received the award in recognition of his pioneering research on the complex behavior disorders associated with sensory deficits that are common in CHARGE syndrome.

Last year he edited and contributed to a special edition of the “American Journal of Medical Genetics” devoted entirely to the description of the unique behavioral phenotype in CHARGE syndrome.

His research has helped to establish a knowledge base that is shared with parents and professionals through the CHARGE Syndrome Foundation.

Hartshorne and his wife, CMU psychology assistant professor Nancy Hartshorne, have a teenage son, Jacob, who has this disorder.

The mission of the CHARGE Syndrome Foundation is to provide support to individuals with CHARGE syndrome and their families; to gather, develop, maintain and distribute information about CHARGE; and to promote awareness and research regarding its identification, cause and management.

Clinical psychology receives accreditation

The American Psychology Association recently granted CMU’s clinical psychology program a seven-year accreditation, the longest accreditation period available.

“Seven years clearly indicates they’re not worried about us,” said George Ronan, who was the director of the graduate program during the accreditation process and also is a psychology faculty member at CMU.

Three members of the American Psychology Association came to CMU for three days in April to review the program. Representatives from the University of South Dakota, Duquesne University, and Texas Tech University met with faculty and toured the campus facilities before granting accreditation.

To achieve accreditation the clinical program must meet national standards for training. Every aspect of the program is reviewed, including the quality of the faculty, the quality of the instruction, placements of the students in their residencies, and what the students do after graduation.

Professors receive grant to open library

CMU psychology faculty members Carl Johnson and Sharon Bradley-Johnson received a $250,000 grant from the Michigan Department of Education through support from the Michigan legislature for the first lending library to benefit young children with disabilities.

“The purpose of our grant is to establish a lending library of tests,” said Bradley-Johnson. “We will provide consultation to school staff and lend assessment materials to assist Michigan school districts in meeting the needs of these children.”

The Central Assessment Lending Library (CALL) will lend tests to school personnel for children from birth to 3 years old with low-incidence disabilities such as vision impairment, hearing impairment, motor impairment, severe cognitive impairment, and autism. The tests will be used to examine the children’s psychoeducational progress, including their cognitive development, daily living skills, and social behavior.

“Children with low-incidence disabilities have unique needs making traditional tests inappropriate,” said Bradley-Johnson. “Instead they need specialized tests that are often expensive. Because of the expense, appropriate tests frequently are not available, especially in rural school districts.”

Johnson, Bradley-Johnson, and doctoral students in CMU’s school psychology program will staff the library which opened Jan. 9th in Sloan Hall.
CHSBS Alumni News and Accomplishments

~ 1950s ~

Don A. Blazo (BS Hist. ’53) passed away on June 10, 2005, at William Beaumont Hospital in Royal Oak. His wife, Gloria (Lehman) Blazo (BS Ed. ’51), fondly recalls that they met and fell in love at CMU. They were married on July 10, 1953, and have two sons, David and Steven, and five grandchildren. Don worked for General Motors and was an honorably discharged military veteran. Gloria is a retired teacher. She says “hello to all our friends.”

The Honorable Fred M. Mester (BA Soc. Sci. ’59), Oakland County Circuit Court Judge, received the 2005 Quality People, Quality County award in recognition of his meritorious service to the Oakland County community. The winners are publicly recognized at an annual event hosted by Oakland County Executive L. Brooks Patterson.

~ 1960s ~

Tim Bazzett (BS Eng. ’69; MA Eng. ’70) has published “Soldier Boy: At Play in the ASA,” a memoir that is a follow-up to his first book, “Reed City Boy.”

Florene (Cook Harden) Burks (BA Soc. Sci. ’64) worked for 37 years as an educator, with 17 of those years as an administrator. She taught in Flint for the first five years and in Detroit for the remaining 32 years. She retired in 2000 and now resides in Saginaw.

George C. Coggins (BA Hist. ’63) is the F.E. Tyler Professor of Law at the University of Kansas.

Roger L. DePue (BS Psych. ’68) is a retired chief of the FBI Behavioral Science Unit and the National Center for the Analysis of Violent Crime. His book, “Between Good and Evil: A Master Profiler’s Hunt for Society’s Most Violent Predators” co-written by Susan Schindehette, was published by Warner Books in 2005. He also is the founder of an elite private sector consulting firm, The Academy Group, Inc.

Charles E. Kidwell (BA Social Sci. & Soc. ’69) is retiring from Romulus Community Schools after 30 years of teaching middle school and six years as a K-12 social studies consultant for Romulus, career prep consultant for the district, presenter, and comprehensive school reform facilitator.

Albert T. Quick (MA Hist. ’64) and his wife, Brenda Jones Quick, spent one month last fall teaching American Government and Legal English to students at the Jilin University School of Law, located in Changchun, China.

The Quicks, both attorneys at Smith Haughey Rice & Roegge, taught on behalf of The John Marshall Law School (JMLS) of Chicago, which has a cooperative agreement with the Jilin University law school.

Of the approximately 400 law schools in China, Jilin University is considered the premier law school. It is located about 500 miles northeast of Beijing.

~ 1970s ~

When Cathy Courtney (BS Soc. ’74) and Janice Fialka were students at CMU in 1971, they worked on political campaigns to legalize abortion, to get a gynecologist on campus, and to form the Women’s Health Project and Women’s Information Center, the first women’s health and information center in mid-Michigan. They have remained friends for more than 30 years and are active in various campaigns and issues organizing, including the March for Women’s Lives in Washington D.C. and the “11 Mothers for Peace on 9/11” peace action vigils.

Fialka lives in Michigan and is a keynote speaker at conferences specializing in issues that families and professionals face in partnerships involving children and
disabilities. Courtney lives in Texas and has focused mainly on health and medical education.

Darryl B. Goncharoff (BS Ed.: Eng. ’72) recently retired from Walled Lake Schools. He now teaches English at Schoolcraft College in Livonia.

Douglas Grossa (MA Clin. Psych. ’70; Spec. School Psych. ’74) retired from Jenison Public Schools in 2005 after 36 years in mental health, international education, and school psychology. He now works full time for Pasco County Schools as a school psychologist.

His wife, Sally Shumway (BA ’72; MA ’84) is a speech and language pathologist for Pasco County Schools in Florida. She also retired from Jenison Public Schools after 32 years in educational administration, international education, and speech and language therapy. Following retirement from Jenison, they took a six-week trip to the southwest before moving to New Port Richey, Fla.

Sharon M. Hanlon (MA Exp. Psych. ’79) and David B. Rawlings (MA Clin. Psych. ’79) met while they were graduate students in CMU’s psychology program. Both have fond memories of working with CMU faculty member Dr. Maureen Levine. They have three children: Brittany, a student at University of Florida; Jacquelyn, a student at Florida State University; and Andrew, a junior in high school.

David received his Ph.D. in psychology from Michigan State University in 1991 and practices as a neuropsychologist in Naples, Fla. Sharon received a juris doctorate from Thomas M. Cooley Law School in 1982. She has worked with several personal injury law firms, specializing in brain trauma/auto accident claims.

James L. Hopp (BS Ed. Hist. and Eng. ’74) retired in July after 31 years of teaching English, history, and journalism at Rogers City High School. He plans to travel, read, and write.

Mitchell Huber (BS Psych. & Pol. Sci. ’75) is a computer operator/supervisor at AVX Corporation. He received a master’s degree from Webster University in 1980. He and his wife, Cathy, have two sons, Bryan and Aaron. Bryan is a junior at Clemson University and Aaron is a high school student.

Sharon (Carberry) Isberg (BS Soc. ’75) owns Drapery Services, Inc. in Grand Rapids. In addition, she has dedicated more than 10 years of volunteer service to the Boy Scouts of America. Her son, Mike, is a freshman at CMU.

Geoffrey Kramer (BS Psych. ’75; MA Clin. Psych. ’77) is a psychology professor at West Shore Community College.

—Sharon M. Hanlon and David B. Rawlings

Development News

New Hart/Milliken endowment will support speaker series on political integrity

Over the past few months, many thoughtful minds have worked together to envision and create a new opportunity for our students through an endowment to support a lecture-series.

Both Hart and Milliken’s distinguished careers in public office serve as shining examples of cooperation and tolerance in a political climate where partisanship and divisiveness are increasingly common obstacles that work to tarnish, rather than enhance, the legislative process.

The thematic speaker series is designed to emphasize political integrity and will challenge students to approach politics in a way that embraces America’s diversity of ideas and perspectives, working to supplant negativity and partisanship with creativity and innovation in shaping future public policy.

The goal to raise $1 million for this endowment will assure future generations of CMU students the opportunity to hear from, and have dialog with, politicians and leaders that represent political integrity and have demonstrated a commitment to stimulate positive change in American politics and policy-making.

We invite you to become a part of this very important endeavor. If you’d like additional information about giving to this endowment, please contact Alison Miller, director of development for the College of Humanities and Social and Behavioral Sciences, at (989) 774-3354 or you may e-mail her at mille1as@cmich.edu.

*Under Discussion*
Michael R. Lehnert  
(BS Ed.: Hist. ’73) was promoted from the rank of Commanding General to the rank of Major General of the Marine Corps Base Installations West. His military decorations include the Defense Superior Service Medal with one oak leaf cluster, the Legion of Merit with Gold Star, the Defense Meritorious Service Medal with two oak leaf clusters, the Navy Commendation Medal with gold star, and the Navy Achievement Medal.

(BA Soc. Sci. ’71; MA Library Sci. ’72) retired after teaching math and serving as a high school librarian for 33 years.

Roderick Martin  
(BS Ed.: Eng. ’76; MA Ed. Admin. ’79) was named superintendent of Tahquamenon Area Schools in Newberry.

Don J. Moore  
(BS Ed.: Psych. and Speech ’74) is owner and president of New Venture Networks, Inc., an Oregon corporation that installs and supports network technology for small to medium sized businesses. Don was elected president of the board of directors for the National Alliance on Mental Illness of Multnomah County in May of 2005.

Don and his wife, Pam (BS Bio. ’73; MS ’77), have a daughter, Tracy, who suffers from schizophrenia. Tracy is featured on the NAMI Artisans page for Multnomah County in May of 2005.

Michael F. Touzeau  
(BS Ed.: Eng. ’70; MA Counseling ’78) is a sports and feature writer for the Green Valley News, with a Sunday column called “In the Ballpark.” He retired in 1999 from Imlay City Schools after 29 years in education. His wife, Linda, (BS Ed.: Bio. ’73) is a pottery artist who teaches pottery classes and hosts shows around Arizona. She retired from Goodrich Schools after 26 years in education. They live in Green Valley, Ariz.

Stephen L. Webster  
(BS Psych. ’79; MSA ’02) is a safety representative at Delphi. He received a BBA from UDF M-Flint in 1997 and PHR certification in 2004.

Ross Wilkinson  
(BA Hist. and Jrn. ’75) was named legislative internship coordinator for Lansing Public Schools. He supervises high school interns at the state capitol. He previously taught English for 10 years at Lansing Sexton High School.

~ 1980s ~

Kim D. Clarke  
(BAA Jrn. & Soc. ’82) was named the presidential speechwriter at the University of Michigan.

Lisa (McDonald) Hudson  
(BS Soc. ’88) and her husband, Gary, announce the birth of their daughter, Katherine Elizabeth, born July 20, 2005. They live in Scottsdale, Ariz.

Joseph G. Jarret  
(MPA ’83) is the chief legal counsel for Polk County, Fla. He has received the Florida Bar Association’s Legal Writing Excellence Award and the Best Author Award from Public Risk Magazine. His article, “Inmate Health Care Dilemmas,” was named article of the year. In addition, he recently lectured on behalf of the Florida Supreme Court, Dispute Resolution Center.

Debra Kubitskey  
(BS Pol. Sci. ’89) was appointed court administrator at the Wayne County 35th District Court.

Sandra (Andrews) Lancaster  
(BS Psych. ’86; MA I/O Psych.’89) has two children and is working on her Ph.D. in psychology with a goal to teach full time. She also works full time at Grand Rapids Community College as an employment services manager for Michigan Works and is teaching one psychology class.

Donald J. Milner Jr.  
(BS Ed.: Hist. ’89) is in his 16th year of teaching and coaching in Texas. He completed a master’s degree in school counseling at the University of Texas-San Antonio in May of 2005. He and his wife, Yvette, celebrated their 10th anniversary last summer. They have two children, John Tristan, 7, and Olivia, 4.

LaMar Neal  
(MA Clin. Psych. ’85; Psy.D. ’94) recently left a full-time position at Hamot Hospital for private practice. He has two daughters. One will graduate from high school next year and the other is in a mechanical engineering program.

Michael P. Spradlin  

John Stanford  
(BSW and Soc. ’85) is special assistant to the superintendent for board and governor affairs for Columbus Public Schools. He is the district’s chief government affairs officer and administrator for the office of board services.

~ 1990s ~

Neva Baron  
(BS Ed.: Hist. ’91) academic adviser in the College of Arts and Sciences at Eastern Michigan University, received the Outstanding New Adviser Certificate of Merit from the National Academic Advising Association. She was one of eight awardees nationwide in the academic advising primary role category.

Eric Burkholder  
(MA Exp. Psych. ’96) runs a small consultation agency and is a consultant to school districts for setting up educational programs for children with autism. He earned his Ph.D. in psychology with an emphasis in behavior analysis from the University of Nevada in Reno.

Marlen Cordes  
(BS Ed.: Eng. ’90; MA Ed. Admin. ’98) was named assistant principal and athletics director at Brethren High School.

Chris Curtis  
(BS Psych. ’90; MA Exp. Psych. ’95) lives in Midland with his wife, Regina, and son, Cameron. He has been a psychology instructor at Delta College since 1996.

Molly (Bourgeois) Darnell  
(BS Ed.: Eng. ’98) and her husband, Chad (IPC ’97),
announce the birth of their daughter, Lucy Ella, born April 24, 2005. She joins her big sister, Abigail. The family lives in Lake Orion.

**Tina Elacqua** (MA I/O Psych. ’95; Psy.D. I/O Psych. ’98) teaches online MBA courses through LeTourneau University. She previously served as executive director for the Office of Institutional Effectiveness and Research at Crichton College. She and her husband, Dr. Laird Jones, have a daughter, Hannah, who was born in December of 2004.

**Heather (Diamond) Frye** (BS Ele. Ed. ’98) received a master’s degree in Early Childhood Education from Oakland University in the fall of 2003. She married **Stephen K. Frye** (BS Hist. ’95; MA Hist. ’00) in 2001, and they have one daughter, Hope, born on August 12, 2004. Heather taught full-day kindergarten for five years and is currently staying home to raise their daughter. Stephen is a reporter for The Oakland Press.

**Laura (Barrett) Huhn** (BS Psych. ’99) and her husband, Ryan, announce the birth of their daughter, Emma, in 2005.

**Matt Jans** (BS Psych. ’98) is a graduate student instructor at the University of Michigan.

**Toni (Callison) Johnson** (BS Psych. ’97; MA School Psych. ’01) and her husband, Kurt, announce the arrival of their son, Jas Riley, born in October.

**Cathy Karry** (BS Psyh. ’93) is the director of career services at the College for Creative Services in Detroit. She also is an adjunct faculty member teaching portfolio development and business.

**CMU alumna discusses conflict resolution**

Lara, who currently is the manager for community relations at Children’s Hospital of Michigan, has dedicated her career to human services and is a nationally recognized expert on managing workplace conflicts.

During her talk at CMU, “Conflict is Welcome: Embracing the Uncomfortable Situations at Work,” Lara said it’s important for co-workers to accept diversity and learn from each other, especially during times of conflict or disagreement.

“There is no shame in having a conflict; only dead people don’t have conflict. There’s only shame if you keep doing the same thing over and over,” she said.

Lara encourages individuals to ask questions instead of making assumptions and to address the behavior rather than analyzing the problem. Most importantly, she asks people to “lose the adjectives.”

“When you meet a person who takes you out of your comfort zone, you have the opportunity to learn something big about yourself,” said Lara. “We all see things differently based on our context. That is why we need to have dialogue.”

Lara has held several positions at Children’s Hospital of Michigan during the past 25 years, including manager of conflict management and diversity initiatives, director of social work, corporate director of social services, and pediatric social worker. She also is a faculty member and training consultant for Eastern Michigan University’s School of Social Work.

She has been appointed by four different Michigan governors to serve and lead state commissions and boards and is president of the Michigan Chapter of the National Association of Social Workers.

Jack Chapis was a faculty member in CMU’s Social Work program from 1972 until his death in January of 2002. The first Chapis Memorial Lecture was held the following spring.
Lynn M. Nee (BS Psych. ‘94) received her MSW from Michigan State University and is the executive director of the Michigan Network for Youth and Families. She is married and has a son, Nicholas, who was born on April 15, 2005.

Valerie (Neft) Martins (MA School Psych. ‘96) and her husband, Ed, announce the arrival of their son, Adam, born on April 25, 2005.

Wendy Odykirk (BS Ed.: Eng. ‘95) and her husband, Jon (BSA Finance ‘95), announce the birth of their daughter, Rachel Elizabeth, born March 2, 2005. They live in Clare.

Vicki (Schmitz) Pohl (BS Psych. & Family Studies ‘99) married her husband, Brian, in 1999. They have two children. Vicki works for the State of Michigan’s Department of Human Services.

Alfonso Salais, Jr. (BS Ed.: Spanish ‘94), a Spanish teacher at Everett High School, Lansing Public Schools, received the Milken National Educator Award and a $25,000 unrestricted cash prize from the Milken Family Foundation’s National Educator Awards Program. The award is given annually to 100 outstanding elementary and secondary school teachers, principals, and other education professionals.

Katherine Scott (BS Psych. ‘94) announces the birth of her daughter, Makena, on February 21, 2005.

Greta (Stroope) Skogseth (BS Eng. ‘94; MA Eng. ‘95) received tenure from Montcalm Community College, where she teaches composition, speech, children’s literature, and young adult literature. She lives with her husband and two daughters, Emma and Alison Grace, in Greenville.

Craig Waite (BS Ed.: Hist. ‘90) and his wife, Loreen, ‘95, announce the birth of their son, Alexander Jefferson, born March 7, 2005. They live in Grand Haven.

Chad Walden (BS Ed.: Eng. ‘99) and his wife, Natasha, announce the birth of their daughter, Avery Hope, born April 28, 2005. They live in Ewells.

Susan Williams (BS Psych. & Family Studies ‘95) graduated from Florida State University’s combined doctoral program in school and counseling psychology in 2003. She completed a two-year postdoctoral fellowship at Yale University Child Study Center. In July she began a faculty position at Virginia Commonwealth University conducting clinical research with children with autism spectrum disorders and their families.

~ 2000s ~

Natasha (Curtis) Allen (BS Psych. ‘00) is working with individuals with disabilities in vocational rehabilitation. She is married and has one child and one on the way.

Monica Brady (BS Eng. ‘03) and her husband, John Brady (BS Econ. ‘93; MBA ‘05), announce the birth of their son, Atticus John, born April 14, 2005. They live in Midland.

Ann Canastra (BS Psych. ‘02) received a master’s degree in community counseling from Syracuse University and passed the National Counselor Exam in April of 2005. She is a mental health counselor for the U.S. Department of Veteran’s Affairs and was accepted as a doctoral candidate in clinical psychology at Argosy University in Chicago.

Nicole Culver (BS Spanish ‘02) works in Scottsdale, Ariz., teaching elementary school children whose native language is not English. She also is her school’s translation specialist. She lives in Chandler, Ariz.

Lucas Ethington (BS Eng. ‘01) and his wife, Toni (IPC ‘92), announce the birth of their son, Dawson Lee, born January 13, 2005. The family lives in Breckenridge.

Nicki (Novak) Garberg (MS Exp. Psych. ‘02) works for Blue Cross/Blue Shield of Minnesota. Prior to BCBS, she was a project manager with InterStudy Publications, a health survey research firm. She and her husband, Mike, have one son, Drake.

Phil Hernandez (BS Hist. and Pol. Sci. ‘02) was elected to the government of the student body at Iowa State University.

Melissa Ingells (BS Eng. ‘00) competed on “Jeopardy!” in September. She is the “Morning Edition” host for WKAR AM/FM in East Lansing.

Christa Janke (BS Psych. and Soc. ‘02) married Jonathon Comer (BS Rec. ‘02) in June 2004.

Tracy (Baldwin) Kaul (BS Psych. & Family Studies ‘00) is a crisis services coordinator for the Sexual Assault Program of Child and Family Services in Saginaw.

Jay Kurowski (BS Soc. ‘00) and Jaime (Prevo) Kurowski (BS Ed.: Eng. ‘01) announce the birth of their son, John Patrick, born May 9, 2005. He joins big sister Katherine. The family lives in Fenton.

Dave Laur (BS Psych. & Family Studies ‘02) received a master’s degree from Ball State University in 2004. He is a residence hall director at the University of Wisconsin - Whitewater.

Ericka Leavesley (BS Hist. and Soc. Sci. ‘04) and her husband, Matt, announce the birth of their daughter, Rebekah Lynne.

Donald Leaym (BS Psych. ‘01) completed a master’s degree in forensic psychology at Marymount University in Arlington, Va. After his security clearance, he will be working for the Office of Personal Management for the U.S. government.

Liz Oberlander (BS Psych. ‘03) and her husband, Jon, announce the birth of their son, Alexander Jefferson, born January 13, 2005. They live in Grand Haven.
