## Creating a Community of Belonging: What Can Institutions Do?

12:00-1:15 P.M., Bovee University Center, Auditorium

From the classroom to the board room, decisions are being made that impact the opportunities for students to “make a home for themselves” at CMU. New research shows that the effects of the sense of belonging are deeper, broader, and longer lasting than expected. How do our institutional culture and climate measure up? What can we do?

## Growth Mindset: What it Is, How it Works, & Why it Matters

7:00-8:15 P.M., Plachta, Auditorium (NEW LOCATION!)

While the impact of a growth mindset on learning and other activities has been well established, recent national experiments are turning up new insights into what helps build a growth mindset, and what doesn't. Common mistakes are being identified and evidence based strategies are emerging from this research, along with new information about the links between mindset and stress.

*“Yeager ...is emerging as one of  
the **world's leading experts** on the  
psychology of education.”*

– Paul Tough, “Who Gets to Graduate?” *New York Times Magazine* (May 18, 2014)
