Accelerated Master’s Degree
M.S. in Experimental Psychology
Central Michigan University

What is an Accelerated Degree?

Advanced undergraduate students currently enrolled at CMU can earn both a Bachelor of Science degree with a General Major in Psychology and a Master of Science degree in Experimental Psychology in five years.

The accelerated program course requirements are identical to the General Major in Psychology/Master of Science in Experimental Psychology, except that you can apply 12 credit hours of graduate course work toward both your Bachelor of Science degree and your Master of Science degree in Experimental Psychology.

The application deadline is January 15th.

Apply Online:
www.class.cmich.edu/ApplyExperimental
The Accelerated Program

The Master of Science in Experimental Psychology at Central Michigan University is a broad, flexible program designed to develop individual scholarship. Admitted students may:

- Complete bachelor’s program with a Psychology major in the fourth year;
- Complete their Master of Science degree in Experimental Psychology in the fifth year;
- Conduct and defend thesis by the end of the summer terms of the fifth year.

Program Requirements

To be eligible for the Accelerated M.S. in Experimental Psychology program, prospective students must:

- meet all requirements for regular admission to the Master of Science in Experimental Psychology program
  [www.class.cmich.edu/experimentalpsychology](http://www.class.cmich.edu/experimentalpsychology)
- be engaged in research specifically with a CMU Experimental Psychology faculty mentor;
- have completed at least 84 credit hours of undergraduate course work – including all general education, University Program, and competency requirements – with an overall 3.0 grade point average or higher; and
- have 12 credit hours remaining, to complete the undergraduate Psychology program in order to fulfill the joint undergraduate and graduate course work requirements.

For Current Students

Earn your bachelor’s degree in Psychology and your master’s degree in Experimental Psychology within five years!
