

School Psychology Doctoral Program Student Handbook

Fall 2013

August 26, 2013

Welcome to the Psychology Department and the School Psychology Doctoral Program at Central Michigan University. We are excited that you choose our program to achieve your professional goals. Our Ph.D. program is accredited by the American Psychological Association (APA) and is approved by the National Association of School Psychologists (NASP). This Student Handbook is designed to serve as a resource, reference, and guide as you progress through the program. The handbook summarizes a number of policies and procedures that will be directly applicable to you and your graduate education. These policies have been approved by the School Psychology Program faculty. If you have any questions, please discuss them with your advisor and/or the Program Director.

From time to time, while you are a student and after you graduate, we will be asking you about your experiences in our program. We hope you will assist us in our program evaluation efforts so that we can improve the quality of training we have to offer you and future students. At all times, we welcome your suggestions on ways to improve the program.

Katrina Rhymer, Ph.D., Program Director
Sharon Bradley-Johnson, Ed.D., Admissions Coordinator
Timothy Hartshorne, Ph.D., SASP Advisor
Michael Hixson, Ph.D., Practicum Coordinator
Susan Jacob, Ph.D., NASP Liaison
Sandra Morgan, Ph.D., Internship Applications Coordinator

Questions related to the program's accredited status should be directed to the Commission on Accreditation: Office of Program Consultation and Accreditation, American Psychological Association, 750 1st Street, NE, Washington, DC 20002. Phone: (202) 336-5979; E-mail: apaaccred@apa.org; Web: www.apa.org/ed/accreditation.

TRAINING MODEL AND PROGRAM GOALS

The School Psychology Program at CMU began in 1965, and at that time was the only program that offered the specialist degree (at that time the highest degree offered by the University). We have had hundreds of students graduate from the Specialist Program and our graduates span the continent. In the late 1970s, planning began for the doctoral program. The first student graduated in 1986. In 1998, the doctoral program degree offering was changed from a Psy.D. to a Ph.D. Our doctoral graduates are working in school, medical, and academic settings.

Our program demonstrates our commitment to the quality of services to school children by providing excellence in training, scholarship and service to our community. Our curriculum is regularly reviewed to ensure that we are meeting training goals. Faculty work closely with students and ensure quality field experiences and opportunities to develop their individual interest and career path. Our faculty members are active scholars, producing a variety of quality work and providing numerous workshops to professionals at professional meetings and individual school districts.

Our program strives to prepare school psychologists to provide consultation, intervention, and diagnostic services to children. School psychologists, by working with students, teachers, parents, administrators and community programs, promote learning environments in which all children and adolescents can achieve their potential. Our Ph.D. program is designed to prepare our graduates to serve educational systems and the larger community. The program prepares school psychologists who are knowledgeable and flexible enough to assume a variety of roles in the delivery of mental health services. Graduates of our programs work in school settings, medical centers, private practices, and/or universities.

Training Model

The training model is based on the scientist-practitioner tradition emphasizing the application of behavior science in education systems and the larger community. Training emphasizes practice (including consultation, intervention, and assessment services) and to evaluate their practice in order to improve serves as well as contribute to the field of school psychology. The program is committed to fostering in its students sensitivity to, appreciation for, and understanding of minority group members. Similarly, the program strives to promote understanding of, and responsiveness to, the special needs of individuals with disabilities.

School Psychology involves the systematic study of the effects of social, biological, and psychological variables on students/ achievement and behavior for the purposes of a) aiding in decision making regarding academic intervention, b) preventing and intervening with academic, behavioral, and emotional concerns, and c) advancing the field. Scientific knowledge enables psychologists to have confidence and skill in their practice of school psychology and in their research. Thus, training requires the development of increasingly complex skills initially through lectures, discussion, modeling, and practice under supervision in the classroom. Later training involves practice under supervision in the field, use of self-monitoring, and evaluation of outcomes to plan future action. The ability to consider multiple factors that may affect learning and behavior, including student characteristics, classroom and instructional variables, and home support, is critical. Hence, a developmental ecological approach to assessment, intervention, prevention and research is stressed. Training includes various theoretical orientations such as learning theory, cognitive psychology, and systems/ecological approaches as well as providing a strong background in the foundation areas of science. Data-based decision making is strongly emphasized along with ethical decision making and accountability. Finally, enhancing an appreciation for diversity is critical in training school psychologists to function effectively in our pluralistic society.

The Ethical Codes of the American Psychological Association (www.apa.org/ethics/code) and the National Association of School Psychologists (www.nasponline.org/standards/ethics) are the foundation for the School Psychology training programs. Students are introduced to ethical codes and ethical decision-making early (in the first semester of coursework), and they are expected to demonstrate high standards of professional conduct in coursework and field work. Consistent with our ethical codes and professional standards, students are taught to respect the dignity and worth of the individual, and to strive for the preservation and protection of fundamental

human rights. Throughout their training, students must demonstrate a commitment to using the science of psychology to promote human welfare.

Program Goals

Based from the scientist-practitioner training model, we strive to prepare school psychologists who will work to improve the quality of services for children in a variety of settings. Consistent with our training model and philosophy, the School Psychology Ph.D. Program seeks to prepare psychologists who (see Appendix A):

- employ a systematic approach to problem-solving, engage in practice based on the application of scientific knowledge, and who view data collection and analysis as an integral part of the services delivery process.
- view intervention as the core of service delivery and who can apply knowledge of assessment, instruction, learning, behavioral theory, human development, psychotherapeutic techniques and positive mental health practices to prevent or remediate learning and adjustment problems among children and adolescents.
- are knowledgeable of professional ethics; who use ethical reasoning skills to anticipate and prevent problems from arising; and who make informed, well-reasoned choices in resolving problems when they occur.
- respect the dignity and worth of all persons, who are committed to fairness and nondiscrimination, and who work to ensure school policies and practices are consistent with the values of fairness and nondiscrimination.
- are knowledgeable of family, schools, and community systems; who are skilled in systems level consultation; and who use the science of psychology to promote human welfare in the provision of systems-level consultation.
- have the knowledge, research skills, and leadership ability to participate meaningfully in efforts to create more effective schools.
- can play a leadership role in ensuring the delivery of comprehensive and coordinated health, education, and mental health services to children and families.
- have a specific area of expertise within School Psychology.
- have the skills to mentor or supervise less-advanced trainees, and provide on-going training to others by way of in-services, workshops, or university teaching.

COURSE OF STUDY

This program of study typically includes four years of intensive academic preparation and field experience plus a one-year, full-time internship. Students must successfully complete 3 years of graduate study. Students are accepted into the program on a full-time basis. Normal progress through the program requires full-time study and will involve a course load of 9 to 12 credits per semester. Students are expected to take a minimum of 6 hours per semester. For at least one year of the program, students must be in full-time residence at Central Michigan University.

Students entering with a BS/BA degree will be required to complete approximately 106 graduate credit hours. Those entering with a MA/MS degree in School Psychology will be required to complete approximately 70 graduate hours. Students are required to complete at least two years of academic training at Central Michigan University. The following courses must be completed while enrolled at Central Michigan University: PSY 767, PSY 890/891, PSY 898/899, and PSY 990/991. At least 50 percent of the minimum post-baccalaureate hours for a doctoral degree must be completed at Central Michigan University. A minimum of two-thirds of the credit hours for the doctoral degree must be at the 600 level or above, that is, no more than one-third of the credit hours may be at the 500 level. Any credits more than 10 years old at time of graduation will not be accepted towards meeting degree requirements.

Courses

Our curricula reflect high standards in applied psychology. Our program emphasizes breadth of training in the foundation of psychology, assessment, intervention, consultation and applied research skills related to the application of behavioral science to school systems.

Required Courses I (9 Hours)

PSY 609- History and Systems of Psychology 3(3-0)

PSY 630- Advanced Social Psychology 3(3-0)

PSY 687- Physiological Foundations 3(3-0)

Required Courses II (3 Hours) Human Development

PSY 624- Advanced Developmental Psychology 3(3-0)

Required Courses III (3 Hours) Cognitive and Affective Aspects of Behavior

Select one of the following:

PSY 589- Cognitive Psychology 3(3-0)

PSY 680- Learning 3(3-0)

Required Courses IV (3 Hours) Multicultural Issues

Select one of the following:

PSY 850- Ethnic and Minority Issues in Therapy 3 (3-0)

HDF 603/SOC 611 - Human Diversity Within and Between Families 3(3-0)

PSY 533- Psychology of Racism 3(3-0)

Required Courses V (6 Hours) Educational Foundations

PSY 677- Assessment and Development of Academic Skills II 3(3-0)

PSY 760- Seminar: School Services 3(3-0)

Required Courses VI (28 Hours) Assessment and Intervention

PSY 562- Therapeutic Intervention: Foundations 3(3-0)

PSY 605- Assessment of Affective and Behavioral Disorders of Children and Youth 3(3-0)

PSY 655- Introduction to Intelligence Testing 2(2-2)

PSY 656- Advanced Intellectual Assessment 2(2-2)

PSY 662- Advanced Therapeutic Interventions 3(3-1)

PSY 667- Assessment and Development of Academic Skills I 3(3-1)

PSY 751- Psychopathology 3(3-0)

PSY 766- Seminar: Consultation Skills 3(3-0)

PSY 767- Assessment and Intervention for Developmental Disabilities 3(3-1)

PSY 780- Behavior Therapy 3(2-2)

Required Courses VII (9 Hours) Methods Statistics and Program Evaluation Courses

PSY 611- Research Design 3(3-0)

PSY 612- Applied Multiple Regression and Correlation 3(3-0)

PSY 818- Program Evaluation 3(3-0)

Required Courses VIII (3 Hours) Ethics

PSY 765- Seminar: Ethics and Professional Issues 3(3-0)

Thesis (6 hours)

PSY 798- Thesis 1-6

Required Experience-Based Courses (18 hours)

PSY 790- Practicum I A: Professional Services 3
 PSY 791- Practicum I B: Professional Services 3
 PSY 890- Practicum II A: Professional Services 3
 PSY 891- Practicum II B: Professional Services 3
 PSY 990- Internship A: Professional Services 3-6
 PSY 991- internship B: Professional Services 3-6

Doctoral Dissertation (12 hours)

PSY 898- Doctoral Dissertation: Design 3-12
 PSY 899- Doctoral Dissertation: Implementation 3-12

Electives (6 hours)

Chosen in consultation with advisor

Total: 106 semester hours**Typical Sequence of Courses**

The following chart represents the typical sequence of courses. However, individual course of study plans will be developed with your advisor. Sequences may change based on progress, faculty teaching loads and sabbaticals. It is important to meet regularly with your advisors prior to registering for classes.

1 st Year			2 nd Year		
Fall	Spring	Summer	Fall	Spring	Summer
PSY 667 (3) PSY 760 (3) PSY 680 (3) PSY 624 (3)	PSY 605 (3) PSY 677 (3) PSY 767 (3) PSY 655 (2)	PSY 798 (3) PSY 656 (2)	PSY 562 (3) PSY 780 (3) PSY 790 (3) PSY 612 (3)	PSY 662 (3) PSY 766 (3) PSY 791 (3) PSY 850 (3)	PSY 798 (3)
3 rd Year			4 th Year		
Fall	Spring	Fall	Spring		
PSY 687 (3) PSY 890 (3)	PSY 611 (3) PSY 891 (3) PSY 751 (3) PSY 765 (3)	PSY 609 (3) PSY 898 (6)	PSY 630 (3) PSY 818 (3) PSY 899 (6)		
5 th Year					
Fall	Spring				
PSY 990 (3)	PSY 991 (3)				

Sequencing of Doctoral Milestone Events

First Year	Complete coursework
Fall Semester	Select thesis topic and chair Receive formal feedback on progress
Spring Semester	Defend thesis proposal Select Practicum Sites FBI Background Check completed (required for 790-791)* Submit Authorization of Degree Forms Receive formal feedback on progress
Second Year	Complete coursework
Fall Semester	Implement Thesis
Spring Semester	Students take the PRAXIS II School Psychologist Exam* Receive formal feedback on progress Defend thesis Select dissertation topic and chair
Third Year	Complete coursework
Fall Semester	Take Comprehensive Exam
Spring Semester	Receive formal feedback on progress Defend dissertation proposal Obtain information on internship sites
Fourth Year	Complete coursework
Fall Semester	Implement dissertation Complete APPIC internship application*
Spring Semester	Interview and select internship Receive formal feedback on progress Defend dissertation
Fifth Year	Complete internship Receive formal feedback on progress

*Additional fees required

STUDENT REVIEW POLICY

Introduction

The *Graduate Bulletin* for the College of Graduate Studies discusses the Academic and Retention Standards for all graduate programs. This policy authorizes specific departmental requirements and particularly recognizes the special responsibilities of clinical programs. The following policy provides detailed information about the expectations and review procedures for students pursuing graduate degrees in School Psychology.

Procedures

Students will receive written feedback regarding their progress at the end of each semester during their first year and upon completion of the spring semester for subsequent years. Because of the nature of school psychology work, the evaluation process associated with training relies not only on academic proficiency as a gauge of competence, but ethical behavior, good judgment, and other personal and professional factors associated with clinical work. The latter includes positive interactions with clients and peers, the ability to cope with work demands, and the ability to utilize supervision effectively. These ordinarily involve judgments by the student's supervisors and instructors. Student review measures will include core faculty ratings of academic and interpersonal skills via the *Student Progress Report* (see Appendix B) and Practicum/Internship Supervisor ratings via the *Competency Evaluation Performance Review* (see Appendix C). In addition, student progress on milestones including thesis, comprehensive exam, and dissertation as well as their performance as a graduate assistant (if applicable) are discussed and evaluated.

Expectation of Progress

Students are expected to complete the program in five successive years. They are encouraged to work with their advisor to ensure proper progress and course selection. Progress through the program is based upon satisfactory grades, comprehensive exam, practica and internship evaluations and timely development, completion of PRAXIS Exam (second year), and completion of the thesis and dissertation. Detailed descriptions of the comprehensive exam, PRAXIS exam, practica and internship experiences, thesis and dissertation requirements are provided later in this handbook. Students must complete all requirements for graduation within 10 years from the date of the first class completed.

In terms of academic performance, students are expected to maintain between 9 and 12 hours a semester and must maintain a "B" or better overall grade average. In addition, a B or better in all assessment, intervention, consultation, practica, and internship courses; and a B- or better in all other classes. Grades in these courses are based upon satisfactory supervisor ratings and turned in materials. Timeliness of research projects, comprehensive exams, and performance as a graduate assistantship is led by the student's advisor and include factors such as regular communication, timeliness of drafts, data collection and analysis. Further, students must achieve satisfactory evaluations of pre-professional functioning (e.g., appropriate interpersonal skills, ethical, and professional conduct) by faculty and field supervisors. Serious and persistent difficulties in pre-professional functioning may result in recommendation for dismissal from the program. The program director is responsible for checking academic performance in all courses and for composing the letters describing the review.

Scheduling

A formal review of students is scheduled twice a year for the first year of the program and involves the School Program faculty who have taught courses to enrolled students. The review takes place at the end of each semester. It focuses on general preparation and suitability for responsibilities in practicum.

Further reviews are scheduled at least once during each of the remaining years of the program. An unscheduled review may occur whenever a faculty member is concerned about a student's skill, ethical behavior or suitability (personal and professional factors associated with applied work). A student may request a review of his or her own work at any time.

Program Faculty Actions

In this review, it is recognized that students experience a new situation in which responsible professional activity creates common problems in adjustment. The faculty in its review of first year students will ordinarily take no formal notice of minor difficulties and may, at its discretion, suggest to the advisor to discuss the student's functioning with the student. A decision to suspend or dismiss a student is recognized as an extraordinary action and is undertaken where, in the opinion of the faculty; there are indications of substantial difficulties in any of the areas outlined under Student Review Policy.

Following a scheduled or unscheduled review, if in the judgment of the majority of the full time School Psychology faculty, the student's professional behavior or academic functioning indicates serious difficulties; one of the following actions will be taken:

1. Letter of advisement signed by the Director of the School Psychology Program
2. Letter deferring practicum for a period of one year or more, and/or requiring other preparation, signed by the Director of the School Psychology Program
3. Letter placing the student on probation
4. Letter of intent to have the Dept. Chair write a letter suspending the student from the program
5. Letter of intent to have the Dept. Chair write a letter dismissing the student from the program

For number 2, 3, 4, and 5 the student is asked to be present at a School Psychology faculty meeting prior to any decision. At this meeting, the student may present any relevant materials. He/she also may be accompanied by another student, faculty member, or other person in presenting his/her position.

At any meeting, between the program faculty and the student, the student will be informed of the faculty's concern and the reasons for it. The student will then be provided an opportunity to respond to these concerns and to tell his/her side of the story. After hearing whatever relevant information is available, the faculty will come to a decision based on the reasons and evidence presented at the meeting. If there is a decision to dismiss, or suspend the student, a letter of intent described in number 4 or 5 will be forwarded to the Department Chair. In all instances, students will be informed of any faculty decision.

Failure to Make Satisfactory Progress – Dismissal from Program

All students are required to show satisfactory progress through their programs. Failure to maintain satisfactory progress may result in dismissal from the program. Satisfactory progress is defined as: Achieving all program requirements on a timely basis including academic, pre-professional skills, research requirements, involvement in the program and profession, field-based experiences, comprehensive exam, PRAXIS exam, and program documentation. Additional requirements are described in the *Graduate Bulletin* under **Academic and Retention Standards** and in the Student Review Policy.

Appeals Procedure

If the student wishes to appeal any program faculty action, the student may ask the Psychology Department Chair to review the School Psychology faculty's recommendation within ten days of the student's receipt of the faculty decision described above. In any appeal taken pursuant to this section, the decision of the Department Chair shall be final and not subject to further review.

ACADEMICS

Advisors

Upon admission, the Coordinator of Admissions serves as the temporary advisor until the student selects a thesis chair who then becomes the student's academic advisor. Each student is encouraged to schedule periodic meetings with his/her advisor to review academic progress and planning.

Academic Integrity Policy

Because academic integrity and ethical behavior are vital to an academic environment and to the development of qualified psychologists, graduate students are responsible for learning and upholding professional standards of research, writing, assessment, and ethics in psychology. In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. Written or other work which a student submits must be the product of his/her own efforts and must be consistent with appropriate standards of professional ethics. Academic dishonesty, which includes plagiarism, cheating and other forms of dishonest behavior, is prohibited. Ethical standards, as articulated in the standards of the American Psychological Association and American Psychological Society, must be observed by all graduate students. Allegations of academic dishonesty or unethical behavior will be handled according to the policies given here. Appeals of decisions are processed according to the policies set forth in the **Academic Integrity Policy for Graduate Students**, which is published in the *Graduate Bulletin*. Any appeal decision reached pursuant to this section shall be final and not subject to further review.

Although no specific timelines are included in this policy, it is understood that matters should be handled expeditiously.

1. In cases where an instructor, supervisor, or fellow student believes a student has demonstrated academic dishonesty or professionally unethical behavior, the instructor, supervisor, or fellow student should report the incident to the Program Director.
2. The Program Director will discuss the allegation(s) with the person(s) making them. If the Program Director believes that there is evidence to support the allegation(s), the Director will notify the student of the charges, in writing.
3. In the letter to the student, (s)he will be told the allegation(s) and told that the Program faculty will be asked to review the allegation(s), look at the evidence, and determine what, if any, sanctions should be issued. The student will be offered the opportunity to admit to the violations, remain silent, meet with the committee to share his/her perceptions of the incident, or submit a written rebuttal to the charges. The student will be given a response deadline, at least two weeks in the future.
4. The Program faculty will review the allegation(s) of academic dishonesty or unethical behavior. In any case where a member of the Program faculty made the original allegation(s), the faculty member will be excluded from judging the particular case.
5. If the student elects to meet with the committee to present his/her version of the events under investigation, the student may bring another person (i.e., an advocate) to the meeting to provide support and advice.
6. The faculty's decision on culpability and appropriate sanctions will be communicated in writing to the student. If the student is found not culpable or if sanctions, other than dismissal or suspension from the program are issued, this will be communicated in writing to the Department Chairperson.
7. If the sanction is dismissal or suspension from the program, the sanction will be communicated through the Department Chairperson to the Dean of the College of Graduate Studies who will communicate the decision to the student. This decision shall be final and is not subject to further review.
8. If sanctions are issued, committee records will be retained for at least one year.

Registration for Classes

Students are encouraged to register for classes during Phase I registration to ensure course requests can be honored. The Psychology Department has no obligation to honor course requests when students fail to pre-register and classes are full. When enrolled in the program, students must have, and use, an activated CMU email address.

Minimum Enrollment Policy

Any student who has completed all academic coursework except the final project (Plan B project or internship, thesis, dissertation, doctoral project) must be enrolled in at least one CMU graduate credit hour each fall and spring semester until graduation (summer sessions as well if summer coursework is normally required in the program). The Continuing Registration for Final Research Project within the student's home department can fulfill this one credit hour requirement (PSY 619). If, after all academic course work except the final project is completed, a student does not enroll each semester (and summer, where appropriate) until graduation, the student must enroll retroactively for each missed semester (and summer, where appropriate) once s/he returns to complete the project. A student can request a leave of absence by submitting a Leave of Absence Request form to the College of Graduate Studies; if approved; continuous registration will be waived during the approved leave period. Regardless of whether the student has a leave of absence, the student must still complete the degree within the time-to-degree limitations set forth under the degree requirements presented under **Duration of Admission Status** in the *Graduate Bulletin*.

Waiving Courses

Please be informed that course “waiver” means that the student has previously taken course(s) deemed equivalent to those required by CMU’s School Psychology Ph.D. program (see Graduate Bulletin, “Waiver of a Program Requirement”). If a course is approved for waiver, then the student is not required to complete the course deemed equivalent that is required for CMU’s school psychology doctoral program. However, the student does not receive credit for a waived course towards CMU’s doctoral degree minimum program credit requirements. In contrast, the university allows a limited number of transfer course credits towards a doctoral degree. The procedure and forms for evaluation of a request for a course waiver or transfer are similar; however, unlike a waiver, transfer credit (maximum 6 semester hours) can be counted towards doctoral degree course credit requirements (see **Transfer Credit Policy** in the *Graduate Bulletin*).

Psychology 767, 890-891, 898-899, 990-991 must be completed at Central Michigan University. The requirements for waiving a course follow: 1) Students first discuss the likelihood of waiving the required course with the Program Director. 2) A Graduate Transfer/Waiver Credit request, available from the School Psychology secretary, and supporting materials (e.g., course outline, texts used, bulletin description) are submitted to the current course instructor. 3) The instructor must approve the prior course as equivalent to the required course. “Equivalent” means that the student received a “B” or better grade in a course or courses and the content appears to cover at least 85% of the required course. 4) Students submit the Graduate Transfer/Waiver Credit request to the Program Director. 5) The Program Director presents the request to the School Psychology faculty. The school psychology program faculty consider whether evidence exists (e.g., time since completion of prior coursework and relevant professional experience) that the student has maintained competency and currency in the content domain for the requested course waiver. 6) The School Psychology faculty must vote to approve a course waiver. 7) Copies of waiver decisions are placed in the student’s file. The Dean of the College of Graduate Studies must approve the Transfer Credit request.

Requesting a Leave

Students who would like to request a leave from the program for up to one year should submit their request in writing to the program no later than April 1st for the following academic year (see **Continuous Registration** in the *Graduate Bulletin*).

English Language Proficiency

CMU welcomes students from a wide variety of backgrounds. School Psychology students take several courses during their first year in the program that requires work with school children. If an instructor believes that children

may have difficulty understanding a student's spoken English, the student will be referred to CMU's English Language Institute (ELI) for evaluation of his or her spoken English. The ELI staff are trained to assess spoken English and may recommend coursework or attendance at an accent reduction clinic. Similarly, if problems are identified in the area of written English, a referral to ELI for assessment and remediation may be made. If students have concerns about their proficiency in English, they are welcome to contact ELI on their own for assistance.

Financial Support

The *Graduate Bulletin* provides a description of financial aid opportunities for graduate students. You may also obtain information on financial aid from the **CMU Scholarships & Financial Aid Office**.

Students with Disabilities

CMU provides individuals with disabilities reasonable accommodations to participate in educational programs, activities and services. Students with disabilities requiring accommodations to participate in class activities or meet course requirements should first register with the office of Student Disability Services (120 Park Library, telephone 989-774-3018, TDD #2568), and then contact the individual instructors as soon as possible.

Student Grievances

CMU has university-wide procedures to safeguard the rights of students to be heard and treated fairly when student-faculty disagreements arise. Such disagreements may trigger university procedures to resolve disagreements concerning issues such as grades (grade grievance policy), academic and research integrity (of the student or the faculty), sexual harassment, and discrimination, among others. However, the school psychology program also has procedures to address complaints about the conduct of a faculty member in his or her professional role (i.e., in the classroom or other academic role such as dissertation chair or advisor). It is not the intent of school psychology program's complaint procedures to intrude on or limit the academic freedom of faculty. However, students must be given an opportunity to express their concerns and have those concerns considered if students believe the conduct of a faculty member is incompetent, unprofessional, and/or substantially interferes with their ability to make progress in the program.

University-level grievances often must be filed in writing within certain time limits after the alleged misconduct. These time limits should be considered when making a decision to pursue informal remedies through the school psychology program or to follow official university-wide grievance policies, if applicable.

A student may present his or her concerns in writing and/or via face-to-face meetings. In any face-to-face meetings, the student may be accompanied by a person of his or her own choosing (e.g., his or her graduate student mentor). Students with a complaint and/or grievance should first attempt to resolve the concern with the appropriate faculty member, if feasible. It is recognized, however, that a student may not be comfortable expressing a complaint to a faculty member who has grading authority over the student.

If the student does not pursue informal resolution directly with the faculty member against whom they have a complaint, or if informal resolution is unsuccessful, the student may discuss his or her concern with the school psychology program director. If the program director is the subject of the complaint, the student may select an alternative school psychology faculty member to chair an informal problem resolution meeting with all parties involved.

If, at the level of the program director (or his or her substitute), informal resolution of the problem is unsuccessful, the student should discuss his or her concern with the Department Chairperson.

The outcome of the meeting with the Department Chairperson shall be binding. However, if the Department Chairperson perceives the situation to be egregious, the Department Chairperson may take further independent action, or assist the student in filing a written university-level grievance.

FIELD EXPERIENCES

Doctoral Program Field Experiences

Doctoral students complete several field experiences during the program. Students who enter without previous supervised School Psychology experience complete PSY 790-791 during the second year of the program. This amounts to 6 semester hours of class credit (PSY 790-791). Doctoral students complete a second 600-hour supervised advanced practicum in the third year of their program. This amounts to 6 semester hours of class credit (PSY 890-891). A supervised internship of either a full year (12 months) or a school year (10 months) is required (minimum total of 1500 clock hours; however, 2000 clock hours is required for licensure in many states). This can be done in either a school or non-school setting. The internship amounts to 6 semester hours of credit (PSY 990-991). Students are strongly encouraged, but not required, to seek APPIC Internships (required for licensure in some states and some employment positions).

Psychology 790-791. The School Psychology practicum experience involves two days a week in the public schools. In addition to the 600 hours in the school setting, the practicum includes a 3-hour seminar each week. Also, one hour of supervision each week on an individual basis is provided by the faculty supervisor. Students receive supervision from their field supervisors for two hours each week as well. Practicum sites are selected by university faculty members with a preference for sites that are relatively close to campus.

Evaluation of student performance is based in part on the *Competency Evaluation Performance Review* (see Appendix C). These forms are reviewed with the student by the field supervisor and the university supervisor at least once each semester. Successful completion of PSY 790-791 satisfies the field experience requirement for a Preliminary School Psychology Certificate in Michigan. PSY 790-791 may satisfy the field experience requirement for a State of Michigan Limited License Psychologist if supervised by a licensed psychologist (see licensure guidelines).

Psychology 890-891. The School Psychology advanced practicum experience involves two days a week in a school, clinic, or hospital setting. In addition to the 600 hours in the clinical setting, the advanced practicum includes a 3-hour seminar each week. Also, one hour of supervision each week on an individual basis is provided by the faculty supervisor. Students receive supervision from their field supervisors for two hours each week as well. Sites for the advanced practicum are selected cooperatively by the faculty supervisor and student, based on a consideration of available sites and the student's background experiences and interests.

Evaluation of student performance is based in part on the *Competency Evaluation Performance Review* (see Appendix C). These forms are reviewed with the student by the field supervisor and the university supervisor at least once each semester.

Psychology 990-991. To be eligible for PSY 990-991, student must have successfully completed all coursework, achieved a "B" or better in Advanced Practicum, passed the doctoral comprehensive exam, and have an approved doctoral dissertation proposal on file with the Graduate College.

When students are ready to apply for internship (typically during the fall of their fourth year), they must meet with the Internship Coordinator listed in this handbook to discuss the process and options. Students are encouraged to apply for an APPIC internship. If students choose not to apply for an APPIC internship, the internship requirements listed by the Council of Directors of School Psychology Programs (CDSPP) (<https://sites.google.com/site/cdspphome/cdsp-internship-guidelines>) are discussed and used as a basis for developing the internship experience. Non-accredited internship sites are monitored and evaluated in accordance to the CDSPP Guidelines. The Program Director is responsible for ensuring that the non-accredited internship sites meet the CDSPP guidelines prior to internship, midpoint of internship, and at the conclusion of internship using the *Non-accredited Internship CDSPP Requirements* (see Appendix D).

The Internship Coordinator assists the students with the APPIC application form. During the doctoral internship, students learn to self-assess their professional competencies, and plan learning experiences for continued professional growth. For PSY 990-991, students are required to prepare a written plan outlining their learning objectives for the year and describing appropriate experiences for the achievement of those objectives. Objectives

are to be consistent with the Program's broad training goals. For APPIC internships, feedback from the internship director is reviewed and discussed during the annual meeting. Successful completion of the internship as judged by the internship site and completion of the self described goals are evaluated. For non-APPIC internships, the *Competency Evaluation Review Form* is used (see Appendix C). In setting goals for professional growth, students are encouraged to seek feedback from colleagues, supervisors, teachers, and/or parents about their professional performance.

Malpractice Insurance

The Affiliation Agreement entered into between the Psychology Department, School Psychology Program and field-based experience sites (practica, internship) contains the following provision:

- The Parties Mutually agree on this section:
- Both parties agree to maintain Comprehensive General Liability Insurance or its equivalent which covers employees and students whenever the liability might exist.
- Coverage from the University does not include malpractice insurance against suits stemming from the field experience because supervision from CMU faculty is not provided on a day-to-day basis. If malpractice insurance is not provided by the site for the student, we strongly recommend purchase of such insurance.
- Malpractice insurance can be obtained from the American Psychological Association (must be a student member of APA) or National Association of School Psychologists (must be a student member of some professional organization). See your advisor for more information.

DOCTORAL COMPREHENSIVE EXAM

Successful completion of the doctoral comprehensive exam is required for admission to PSY 990. The doctoral exam is written and based on topics covered in the first two years of School Psychology Program coursework, and an approved reading list. One question will appear on the exam from each of the following areas: Ethics and Law, Academic and Behavioral Interventions, Therapeutic Interventions, Consultation, and Assessment and Intervention in Developmental Disabilities. The exam will be given in October and should be taken during the third year of the program. Students will be given three hours to complete the exam on a computer in a designated area. Faculty members will grade the answers on a four point scale with scores of 1 (many errors of fact or omission) and 2 (incomplete answer or inclusion of inaccurate information) indicating that the area was failed. Scores of 3 (acceptable understanding demonstrated; no errors of fact) or 4 (excellent answer) represent passing scores. Failing scores must be independently verified from additional faculty members. If any area is failed, a remediation plan will be developed with the faculty member for that area. The failed section can be retaken once. The exam must be passed prior to applying for internship.

THESIS AND DISSERTATION

Doctoral students are expected to complete a thesis. Students must defend their thesis and pass an oral exam over the dissertation (PSY 898) prior to beginning the doctoral internship (PSY 990-991). In addition, doctoral students must have an approved doctoral dissertation proposal on file prior to beginning the doctoral internship. According to the College of Graduate Studies guidelines, a student may not enroll for more than three credits of the thesis or dissertation until the project prospectus has been approved at the department level.

Students self select their thesis and dissertation chairs based upon research interest. They begin the process by discussing ideas with faculty members. Once a faculty member agrees to serve as a chair of the project, the student can register for the first three credits (PSY 798 for thesis and PSY 898 for dissertation) to design the project.

Options for projects include: traditional research investigations, original theoretical formulations, demonstration projects, behavior change in a community setting, program evaluation projects, reviews and analyses of professional

problems and issues, case study presentations using single-subject research designs, development and evaluations of a new assessment or intervention technique, or synthesis of a body of knowledge. Other innovative topics may be generated by students. A common theme to all projects, however, would be scholarly competence in research methodology.

The same principles generally hold for the master's thesis and doctoral dissertation; however, the master's thesis is not expected to be as massive in scope as the doctoral dissertation. As a general concept, the doctoral dissertation, required of all doctoral students, will be related to the student's interests and to some aspect of professional practice. The goal of the doctoral dissertation is the further integration of the student's graduate education in developing the ability to investigate a professional problem in a scholarly manner.

The thesis and doctoral dissertation committees are composed of a minimum of three faculty members from the graduate faculty at Central Michigan University. They are responsible for acceptance of the final document. Most regular faculty in the Psychology Department are members of the graduate faculty. However, a student might wish to have a school psychologist from their internship or job site serve on their thesis committee. In such cases, on request, the Psychology Department can grant (subject to approval by the Dean of the Graduate College) temporary graduate faculty standing for individuals who meet membership requirements for the purpose of serving on a thesis or dissertation (see the Department secretary for details regarding membership requirements).

For the doctoral dissertation, the expectation is that the chairperson will be a School Psychology Program faculty member, but a student may petition the School Psychology Program Director to allow a faculty member from outside of the program to serve as chairperson. At least one committee member must be a School Psychology Program faculty member, and at least one committee member must be from a Psychology Department unit other than School Psychology, or from a different Department. Two committee members must be tenure-track faculty from the Department of Psychology who meet graduate faculty status. The third member of a dissertation committee can be anyone with at least adjunct faculty status and graduate faculty standing. Psychologists or other competent persons from field agencies or other universities can qualify for service on the committee through adjunct appointments.

General Comments

Students are encouraged to confer with faculty members about their ideas for a thesis or doctoral dissertation before developing a prospectus. The student is responsible for obtaining a chair and members of the committee for the thesis or doctoral dissertation. University procedures for doctoral dissertation preparation are described in the *Guidelines for the Preparation of Theses and Dissertations*, available from the College of Graduate Studies.

The following general steps are usually followed:

1. Student generates an idea and discusses it with a faculty member who is interested and/or knowledgeable in that area.
2. Student obtains a chair and committee members. If a student changes his/her thesis/dissertation chair or committee membership during the development phase, it is expected that the student will notify all affected faculty of the changes in committee membership. If the chair is not a member of the School Psychology faculty, the student must petition the Program Director for approval of the chair.
3. Student writes a prospectus for committee approval. The prospectus includes the following topics:
 - a. Introduction to the problem (a case is made for the importance of the area of study).
 - b. Review of the literature.
 - c. Statement of the problem.
 - d. Methods (as appropriate)
 - (1) Sample
 - (2) Instrumentation
 - (3) Procedures
 - (4) Statistical Analysis
4. Student gives the committee members at least 10-14 days to read the proposal.

5. Student convenes the committee to discuss, fine tune, and approve/disapprove the idea.
6. Thesis or Doctoral Dissertation Prospectus Form (available from the School Program secretary, Sloan 139) is signed by committee members and filed with the Graduate Office and Psychology Department. If needed, approval from CMU's Institutional Review Board (IRB) is obtained for research involving human subjects. A copy of IRB approval must accompany this form, along with a brief abstract.
7. Project is implemented.
8. Student and chair schedule oral defense of project.
9. Students obtain a Thesis or Dissertation Sign-Off form from the School Program secretary prior to the oral exam. If the project is successfully defended, committee members sign the form. The form is then returned to the School Program secretary, Sloan 139.
10. The Committee Chair clears the "Z" (deferred grade) for thesis/dissertation credits.
11. The final, signed, original manuscript must be submitted to the College of Graduate Studies by the deadline published by the Graduate College, usually approximately six weeks prior to commencement.
12. Students are expected to ask their committee chairperson if they want a bound copy of the dissertation.
13. For a fee, CMU's Printing Services will pick up the signature page, binding page, print out the thesis, and send off the bound copies to the Psychology Department. Please note that there are fee's related to each bound copy of your thesis.

Financial Support for Thesis and Dissertation

The Anne K. Miller-Quimper Scholarship Award was established in 1991 by friends and family in memory of Anne K. Miller-Quimper (1940-1980) to support thesis or dissertation research of School Psychology graduate students. See Dr. Sharon Bradley-Johnson for information, Sloan 232.

The College of Graduate Studies also awards financial support for completion of theses and dissertations. Applications are reviewed once early in the Fall Semester and once in the Spring Semester by a committee at the College of Graduate Studies.

PRAXIS II SCHOOL PSYCHOLOGIST EXAM

All doctoral students are required to take the PRAXIS II School Psychologist Exam in April of their second year in the program. This exam is offered by the Educational Testing Service (ETS) and may be taken at the Center for Learning Assessment Services on campus. Students should register for the exam before the end of February of their second year. To register, go to www.ets.org. Click on "PRAXIS" and look for the PRAXIS II series, the School Psychology Specialist test (# 10400). There is a charge to take the PRAXIS exam. Information about test content is available at the ETS website.

Students who achieve a passing score on the PRAXIS School Psychology Exam will be eligible to become a Nationally Certified School Psychologist (NCSP) after completion of their degree program and one year successful work experience. We use PRAXIS scores for program evaluation and accreditation purposes only; no student is penalized in any way for failure to pass the exam. Students are required to report their scores to the School Psychology Program secretary; individual student scores are not reviewed by faculty.

SCHOOL PSYCHOLOGY CERTIFICATION

General Information:

School psychologists in Michigan are required to hold a valid Michigan **Preliminary School Psychologist Certificate** or a **School Psychologist Certificate** (section 1251 of Act No. 451 of the Public Acts of 1976, as amended, being 380.1251 of the Michigan Compiled Laws). A person employed under the Preliminary School Psychologist Certificate must have local supervision provided by a fully certificated school psychologist. Full rules for Michigan certification as a school psychologist are found on the Michigan Department of Education Website.

The application process is completed on-line. Once the student has applied, the Program Director is notified to verify the application. The Michigan Department of Education charges a fee for the School Psychologist Certificate. If recommended for certification, you will be billed by the Department of Education for the current certification fee (approximately \$160.00). Payment of the fee is a certificate requirement that must be met prior to the issuance of the Michigan Preliminary School Psychologist Certificate and the School Psychologist Certificate.

Applicants are advised that the State Board of Education may deny or revoke school psychology certification for the following reasons: (a) Fraud, material misrepresentation, or concealment in the application for a certificate; (b) Conviction, as an adult, of an act of immoral conduct that involves a child or that contributes to the delinquency of a child or a felony that involves moral turpitude.

Preliminary School Psychology Certificate

What are the CMU requirements for the Preliminary Certificate?

Students must have successfully completed the following coursework (or equivalent) to be eligible for the preliminary school psychologist certificate: PSY 511 or 611, 562, 586 or 780, 605, 655, 656, 662, 667, 677, 760, 766, 767, 790, 791 and one course from each of the foundation areas (cognitive, social, developmental, physiological). Students do not need to have completed their thesis or elective coursework to be eligible for the preliminary certificate.

When does the Preliminary Certificate Expire?

A preliminary school psychologist certificate is **valid for 3 years**. It **expires on June 30** of the expiration year indicated on the certificate. It is not necessary to re-apply for approval with each change in employer; the Preliminary Certificate follows the practitioner from one school setting to another.

How do I apply for the Preliminary Certificate?

To apply for the preliminary certificate, complete the application form online at: <https://mdoe.state.mi.us/MOECs/Login.aspx>. A copy of the application and all supporting documentation are to be submitted to the School Psychology Program secretary, Sloan 139. For the preliminary certificate, students must submit a completed application form that includes an "Experience Report Form for Preliminary School Psychologist Certification" signed by the fully-certified school psychologist who supervised their PSY 790-791 practicum experience on site (not the university supervisor). Students also must include a copy of the school psychologist certificate of their supervising school psychologist.

Along with their application, students must submit official transcripts from universities other than CMU if courses necessary for the certificate were completed elsewhere. Students should not submit their application for certification until the grades for all necessary coursework appear on their transcripts. CMU transcripts will be obtained by the Certification Administrator. The application can be approved only if it is complete and the transcripts show satisfactory grades for all courses required for the preliminary certificate. A recommendation for certification is then made to the Michigan Department of Education.

School Psychologist Certificate

What are the requirements for the School Psychologist Certificate?

An applicant for a school psychologist certificate must meet all of the following requirements: (1) Hold a valid Michigan Preliminary School Psychologist Certificate; (2) Possess a Specialist's Degree or its equivalent in school psychology from an institution with an approved program; (3) have completed a minimum of 15 graduate semester

hours in school psychology, including an internship, in addition to the 45 semester hours required for the preliminary certificate; (4) in addition to the 600 clock hours required for the preliminary certificate, have successfully completed not less than a 600-clock-hour, supervised internship with school-age pupils in an approved school psychologist program, 300 clock hours of which shall be in a school setting under the supervision of a person who holds a Michigan School Psychologist Certificate; and (5) have completed one year of successful experience employed as a school psychologist with direction from a fully certificated school psychologist.

When does the School Psychology Certificate Expire?

A school psychologist certificate is valid for five years. It expires on **June 30** of the expiration year indicated on the certificate. The renewal of a School Psychologist Certificate requires the completion of 6 semester hours of credit in an approved School Psychology Program or the equivalent in approved State Board continuing education units. All renewal credit must be completed after the date of issuance of the School Psychologist certificate and within the five-calendar-year period before applying for renewal.

How do I apply for the School Psychologist Certificate?

Complete the application form available online at <https://mdoe.state.mi.us/MOECS/Login.aspx>.

PSYCHOLOGY LICENSURE

Practice as a professional psychologist requires that individuals meet Licensure standards. Students completing our program may choose to pursue licensure for professional practice depending upon their individualized career aspirations. Information regarding licensure requirements in the State of Michigan is available at <http://www.michigan.gov>. At minimum, states require that individuals applying for licensure document appropriate academic training, practice supervised by Licensed Psychologists, and successful completion of a licensing exam. Students may receive supervision from Licensed Psychologists for part of their practica experiences. Predoctoral Internship (PSY 990-991), MUST be supervised by a Licensed Psychologist.

APPENDIX A

GOALS, OBJECTIVES AND COMPETENCIES

Goal #1: Prepare entry-level psychologists who employ a systematic approach to problem-solving, engage in practice based on the application of scientific knowledge and view data-collection and analysis as an integral part of the service delivery model.

Objectives:

- 1.1. Ability to evaluate the technical adequacy of norm- and criterion-referenced tests and curriculum-based measures, as well as correct administers, scores, and interprets these measures.
- 1.2. Knowledgeable of behavioral assessment.
- 1.3. Ability to integrate data from tests and other sources.
- 1.4. Demonstrates diagnostic skills using both IDEA and DSM-V

Competencies:

- 1.1.a. Administers , scores and interprets the Wechsler Scales and one alternative for each age range.
- 1.1.b. Administers, scores and interprets the following specialized measures of intelligence: test for infants/toddlers, non-vocal test, test for pupils with visual impairment, and test for pupils with motor impairment.
- 1.1.c. Administers and interprets the following norm-references measures of achievement: two general achievement tests, two measures of reading skills, two measures of mathematics skills, two measures of oral language, test for written expression, and a readiness test.
- 1.1.d. Administers, scores and interprets criterion-referenced measures.
- 1.1.e. Administers, scores, graphs, and interprets curriculum-based measurement probes.
- 1.1.f. Administers, scores, and interprets two adaptive behavior measures.
- 1.1.g. Critically evaluates the norm sample, reliability and validity of tests using test manuals and other resources such as journals.
- 1.1.h. Compiles an age appropriate assessment batter for pupils with sensory impairments, motor impairments, and pupils with autism.
- 1.1.i. For software programs for assessment, evaluates the technical adequacy of the program.
- 1.2.a. Uses direct observation procedures to record, graph, and analyze data to determine environmental variables affective behavior.
- 1.2.b. Obtains information regarding the relationship between environmental events and problem behavior using functional analysis.
- 1.2.c. Evaluates the technical adequacy, correctly scores, and interprets behavioral checklists.
- 1.3.a. Culls information relevant to the nature of the referral.
- 1.3.b. Analyzes and integrates assessment data, observations, and interview information to form a profile of pupil strengths and areas needing improvement.

1.3.c. Given a referral, takes the case from referral through each step of diagnostic-prescriptive process.

1.4.a. Problem-solves case to determine best eligibility decisions.

1.4.b. Understands and utilizes DSM-V diagnostic system.

Goal #2: Prepare entry-level psychologists who view intervention as the core of service delivery and can apply knowledge of assessment, instruction, learning, behavioral theory, human development, psychotherapeutic techniques, and positive mental health practices to prevent or remediate learning and adjustment problems among children and adolescents.

Objectives:

2.1 Understands and integrates the theoretical and empirical foundations in the science of psychology.

2.2. Knowledge of research-based strategies for academic intervention as well as general and special education curricular.

2.3. Understanding of counseling theories and techniques and their application to schools.

2.4. Knowledge of and skill in the delivery of behavioral interventions.

Competencies:

2.1.a. Understands the history and systems in the field of psychology.

2.1b. Applies basic principles and theories from developmental, social, learning, and physiology to pupils with and without disabilities.

2.2.a. Task analyzes assessment results into clearly defined instructional goals.

2.2.b. Incorporates pupil strengths, as well as instructional variables into intervention plans.

2.2.c. Recommends empirically-based instructional methods and materials for the following academic areas: Reading, Mathematics, Oral Language, Written Expression, School Readiness, and Study Skills.

2.2.d. Evaluates general and special education curricular and methods of instruction using current research methods.

2.2.e. Incorporates knowledge of general education curricula into recommendations for accommodations for pupils with disabilities in the general education classroom.

2.2.f. Uses knowledge of general education curricula when monitoring the effectiveness of interventions.

2.2.g. Recommends materials and instructional procedures appropriate for pupils with sensory impairments.

2.2.h. Reviews the appropriateness of instructional software for particular pupils.

2.3.a. Implements pupil counseling for individual students using methods appropriate to the problem.

2.3.b. Implements group counseling procedures using group methods appropriate to children.

2.3.c. Provides information regarding mental health issues and intervention strategies to parents

and school personnel.

2.3.d. Understands the crisis response plan for their school buildings.

2.3.e. Responds to individuals and groups in crisis using school and community resources consistent with building plan.

2.4.a. Recommends effective management strategies for improving problem behavior and increasing appropriate behavior.

2.4.b. Identifies strengths and areas for improvement in disruptive classrooms in terms of structure, scheduling and teacher tactics and makes appropriate recommendations.

2.4.c. Works with parents in establishing behavior management programs such as contracting and token economies.

Goal #3: Prepare entry-level psychologists who are knowledgeable of professional ethics, use ethical reasoning skills to anticipate and prevent problems from arising and make informed, well-reasoned choices in resolving problems that occur.

Objectives:

3.1 Knowledge of the ethical standards for the profession of school psychology.

3.2. Knowledge of the ethical standards for the profession of professional psychology.

Competencies:

3.1.1. Discusses ethical principles guiding professional relationships with pupils, parents and schools.

3.1.2. Given a case identifies the ethical dimensions of the situation, uses a systematic problem-solving model to identify possible courses of action and discusses the ethical reasons for choices.

Goal #4: Prepare entry-level psychologists who respect the dignity and worth of all persons, and work to ensure that school policies and practices are consistent with the values of fairness and nondiscrimination.

Objectives:

4.1. Knowledge of how cultural and ethnic differences influence behavior and affect evaluation.

4.2 Knowledge of common genetic and developmental disorders.

Competencies:

4.1.a. Considers ethnicity and culture of others when working with members of various ethnic/racial groups.

4.1.b. Considers the appropriateness of norms, reliability, and validity of tests and assessment procedures before interpreting the results for a pupil or a particular gender/ethnic/racial group.

4.1.c. Given a pupil of a different cultural/ethnic racial group develops knowledge about that particular group.

4.1.d. Recognizes the extent to which their own cultural experiences, values, and biases influence their activities.

4.2.a. Understands the etiology and symptoms for common genetic disorders.

4.2.a. Assists parents and other personnel in understanding the educational implications of genetic

disorders.

4.2.c. Assists parents in locating sources of information about genetic disorders and support groups.

Goal #5: Prepare entry-level psychologists who are knowledgeable of family, school, and community systems and use the science of psychology to promote human welfare when providing systems-level consultation.

Objectives:

5.1 Knowledge of federal and state special education laws and other legal aspects of the role of the school psychologist.

5.2 Skills in consultation and collaboration with pupils and parents as well as school and outside personnel.

5.3 Knowledge of families, school, and community systems and the application of the science of psychology to provide prevention and intervention services.

Competencies:

5.1.a When presented with various special education situations, cites relevant Federal and State laws and decides whether or not the situation is appropriate base on the law.

5.1.b Given various situations concerning the qualifications and responsibilities of psychologists, cites relevant state laws and guidelines and decides on the appropriateness of the situation in reference to the laws and guidelines.

5.2.a. Given an interview situation, conducts effective problem-solving interview, follows through with consultation until improvement is objectively demonstrated.

5.2.a. Incorporates concerns of parent, child, teacher or other professionals into instructional plans.

5.2.c Collaborates with interdisciplinary team members in planning intervention.

5.3.a. Advocates for families in working with educational, health, and mental health agencies and supports their efforts for assistance for their children.

5.3.b. For parents experiencing difficulties with parenting, implements parent training based on programs with documented effectiveness.

5.3.c. Identifies family factors that might enhance or interfere with school functioning and determine the implications for intervention.

5.3.d. Describe sources of conflict between families, schools, and agencies and works to reduce conflict.

5.3.e. Describes goals, organization, and operations practica locations. Identifies opinion leaders, and outlines strategies for building or-district level consultation consistent with those factors.

Goal #6: Prepare entry-level school psychologists who have the knowledge, research skills, and leadership ability to participating meaningfully in efforts to create more effective schools.

Objectives:

6.1. Leadership ability to help ensure comprehensive, coordinated health, education and mental health prevention and intervention services to pupils and their families.

6.2. Ability to effectively communicate psycho-educational findings orally and in writing.

Competencies:

6.1.a Analyzes and integrates information from multiple sources to make systems-level changes to improve educational services.

6.1.b. Seeks to establish and maintain collaborative relationships between organizations, medical personnel, and school systems to develop beneficial programs for pupils.

6.1.c. Identifies ways technology can be helpful in management and accountability studies.

6.2.a. Writes clear, well-organized and concise reports.

6.2.b. Writes realistic recommendations relevant to the referral problem.

6.2.c. Orally explains results and recommendations in an understandable fashion to team members including parents, pupils, and other professionals.

Goal #7: Prepare entry-level psychologists to promote strong families and provide leadership ensuring delivery of comprehensive health services to children and families

Objectives:

7.1. Knowledge of educational and community, state and federal agencies providing services to pupils and their families.

7.2. Knowledge of research design, statistical analysis and program evaluation.

Competencies:

7.1.a. Names and defines functions of major agency resources within small communities, metropolitan areas, and those at the state level.

7.1.b. Determines appropriate agency resources at the state level, in small communities, and in metropolitan areas for obtaining services for particular pupils.

7.1.c. Few pupils with sensory or motor impairments, identifies local and state resources for adaptive equipment.

7.1.d. Aids families in identifying needs and resources and in linking resources to needs.

7.2.a. Evaluates the effectiveness of prevention and intervention efforts.

7.2.b. Critically evaluates published research.

7.2.c. Completes a research project providing a unique contribution to the school psychology literature.

Goal #8: Prepare entry-level psychologists who possess skills needed to mentor or supervise less advanced trainings and provide ongoing training to others by way of in-service, workshop, or university training.

Objectives:

8.1. Ability to organize and present information in an understandable, clear and helpful manner.

8.2. Ability to promote the development of less advanced trainees through mentoring and leadership in laboratory, classroom or practica settings.

Competencies:

8.1.a. Presents information in various courses.

- 8.1.b. Develops and conducts training sessions on campus or practica locations.
- 8.1.c. Presents at a professional conference.
- 8.2.a. Participates as a mentor in SASP, helping an incoming student adjust to CMU.
- 8.2.b. Knowledge of different supervision styles and identification of own style and preferences.
- 8.2.c. Knowledge of ethical considerations as a supervisee and supervisor.

Goal #9: Prepare entry-level psychologists who have developed a specialized interest area of expertise.

Objectives:

- 9.1. Develops an area of expertise specific to school psychology.
- 9.2. Seeks instructional and professional development opportunities to further this interest area.
- 9.3. Develops and conducts research projects in area of interest.

Competencies:

- 9.1.a. Describes current research in area selected.
- 9.1.b. Demonstrate skill in diagnosis, treatment and evaluation in area selected.
- 9.2.a. Completes training opportunities in area.
- 9.2.b. Attends professional conferences in area interest.
- 9.2.c. Reads and gathers current research in interest area.
- 9.3.a. Competes a thesis.
- 9.3.b. Completes a dissertation.

APPENDIX B

STUDENT PROGRESS REPORT

Student's Name _____ Semester, Year _____

Name of Rater _____ Course _____

OK = No difficulty; **D** = difficulty; **NOE** = no opportunity to evaluate

If a **D** is circled please explain and include an example that occurred to demonstrate the difficulty. (Use the back of the last sheet of this report).

I. Knowledge of academic materials:

- | | | | | |
|-----|--|---------|---------|--------|
| 1. | The student demonstrated that he/she learned the factual material in this course. | OK | D | NOE |
| 2. | The student demonstrated an understanding of concepts and principles in this field. | OK | D | NOE |
| 3. | The student demonstrated an ability to apply principles from this course to new situations. | OK | D | NOE |
| 4. | The student demonstrated an ability to identify main points and central issues in this course. | OK | D | NOE |
| 5. | The student demonstrated an ability to analyze and synthesize information. | OK | D | NOE |
| 6. | The student demonstrated an ability to evaluate new work in this field. | OK | D | NOE |
| 7. | The student initiated discussion of related topics outside of class. | OK | D | NOE |
| 8. | The student actively participated in class discussion. | OK | D | NOE |
| 9. | The student routinely meets established deadlines. | OK | D | NOE |
| 10. | The student is well organized. | OK | D | NOE |
| 11. | The student can objectively evaluate the quality of his/her own work. | OK | D | NOE |
| 12. | What is the students' current grade in your class? | A A- B+ | B B- C+ | C C- E |

II. Interpersonal Interactions:

1.	This person appears comfortable in interpersonal settings.	OK	D	NOE
2.	The children enjoyed working with this person.	OK	D	NOE
3.	This person works effectively with others.	OK	D	NOE
4.	This person focuses on the strengths as opposed to the negative aspects of situations.	OK	D	NOE
5.	This person genuinely considers directions and suggestions from me.	OK	D	NOE
6.	This person is considerate of others (and is flexible in own) values and viewpoints.	OK	D	NOE
7.	This person is appropriately assertive.	OK	D	NOE
8.	This person sees events as controlled by himself-herself rather than by other variables such as "luck," instructor grading too hard.	OK	D	NOE

III. Communication Skills:

1.	This person communicates clearly and in an organized manner.	OK	D	NOE
2.	This person maintains appropriate eye contact while talking or listening.	OK	D	NOE
3.	When talking to this person, I get enough time to talk about points I feel are important.	OK	D	NOE
4.	This person communicates openly, honestly, and in a direct manner.	OK	D	NOE

IV. Acceptance of Responsibility:

1.	Person performed assigned responsibilities competently.	OK	D	NOE
2.	This person was reliable in starting and completing assigned responsibilities.	OK	D	NOE
3.	This person makes appropriate and timely decisions while performing assigned responsibilities.	OK	D	NOE

V. Work Related Skills:

1.	When faced with problems, this person reacts in a rational as opposed to an emotional manner.	OK	D	NOE
2.	This person takes the time and care in forming recommendations as opposed to “shooting from the hip” without getting all the facts.	OK	D	NOE
3.	This person puts in perspective the problems that arise in everyday educational work.	OK	D	NOE
4.	This person handles frustration well.	OK	D	NOE

I. Data-based Decision-making and Accountability: *School psychologists have knowledge of varied models and methods of assessment that yield information useful in identifying strengths and needs, in understanding problems, and in measuring progress and outcomes. School psychologists use such models and methods as part of a systematic process to collect data and other information, translate assessment results into empirically-based decisions about service delivery, and evaluate the outcomes of services. Data-based decision-making permeates every aspect of professional practice.*

Practicum (PSY 790-791)

- Given a referral, uses ecological assessment approach that considers multiple factors that affect learning and behavior including classroom variables, teacher and instructional variables, and characteristics of the child, and support available from the home.

II. Consultation and Collaboration: *School psychologists have knowledge of varied methods of consultation, collaboration, and communication applicable to individuals, families, groups, and systems. School psychologists collaborate effectively with others in planning and decision-making processes at the individual, group, and systems level. Effective consultation and collaboration skills permeate all aspects of service delivery, including the design, implementation, and evaluation of services and programs.*

Practicum (PSY 790-791)

1. Effectively communicate assessment information and intervention recommendations orally and in writing.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. When collaborating regarding a referred pupil, demonstrates behavioral and

communication skills required for effective consultation.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

3. When collaborating regarding a referred pupil, involves parents, teachers, pupils, and other professionals in a team decision-making process.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____

III. Interventions and Instructional Support to Develop Academic Skills: *School psychologists have knowledge of biological, cultural, and social influences on academic skills; human learning, cognitive and developmental processes; and evidence-based curriculum and instructional strategies. School psychologists, in collaboration with others, demonstrate skills to use assessment and data-collection methods and to implement and evaluate services that support cognitive and academic skills.*

Practicum (PSY 790-791)

1. Recommends research-based interventions to improve phonemic awareness and methods to monitor acceptability, integrity, and effectiveness.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____

IV. Interventions and Mental Health Services to Develop Social and Life Skills: *School psychologists have knowledge of biological, cultural, developmental, and social influences on behavior and mental health; behavioral and emotional impacts on learning and life skills; and evidence-based strategies to promote social-emotional functioning and mental health. School psychologists, in collaboration with others, demonstrate skills to use assessment and data-collection methods and to implement and evaluate services that support socialization, learning, and mental health.*

Practicum (PSY 790-791)

1. Provides research-based accurate information to parents, teachers, or other professionals regarding “age appropriate” emotional functioning for pupils of various ages.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. Provides research-based accurate information regarding mental health issues to parents and school personnel.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

3. Recommends research-based instructional methods and materials for students with disabilities that are effective in improving adaptive behavior/social skills.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

4. Recommends effective management strategies for improving problem behavior and increasing appropriate behavior.

1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

Advanced Practicum (PSY 890-891)

5. Identifies strengths and areas for improvement in disruptive classrooms in terms of structure, scheduling, and teacher tactics and makes data-based recommendations.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

6. Works with teachers in establishing behavior management programs such as contracting and token economies and uses data-based measures to evaluate their impact.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

V. School-Wide Practices to Promote Learning: *School psychologists have knowledge of school and systems structure, organization, and theory; general and special education; technology resources; and evidence-based school practices that promote academic outcomes, learning, social development, and mental health. School psychologists, in collaboration with others, demonstrate skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments for children and others.*

Practicum (PSY 790-791)

1. Describes the goals, organization, and operation of schools in which they provide services and identifies stakeholders and resources.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. Determines appropriate agency resources at the state level, in small communities, and in metropolitan areas, for obtaining services for particular pupils.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

3. Uses state and local curriculum to develop appropriate assessments and goals.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

Advanced Practicum (PSY 890-891)

4. Helps develop school policies, regulations, services, and accountability systems to ensure effective services for students.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____

VI. Preventive and Responsive Services: *School psychologists have knowledge of principles and research related to resilience and risk factors in learning and mental health, services in schools and communities to support multi-tiered prevention, and evidence-based strategies for effective crisis response. School psychologists, in collaboration with others, demonstrate skills to promote services that enhance learning, mental health, safety, and physical well-being through protective and adaptive factors and to implement effective crisis preparation, response, and recovery.*

Practicum (PSY 790-791)

1. Understands the crisis response plan for their school buildings.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. Responds to individuals and groups in crisis using school and community resources consistent with the building plan (if applicable).

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

Advanced Practicum (PSY 890-891)

3. Utilizes data-based decision making methods, problem-solving strategies, consultation, collaboration, and direct and indirect services for preventive and responsive services.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

4. Uses assessment and data collection methods to develop appropriate goals for and to evaluate outcomes of prevention and response activities and crisis services.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

VII. Family-School Collaboration Services. *School psychologists have knowledge of principles and research related to family systems, strengths, needs, and culture; evidence-based strategies to support family influences on children’s learning, socialization, and mental health; and methods to develop collaboration between families and schools. School psychologists, in collaboration with others, demonstrate skills to design, implement, and evaluate services that respond to culture and context and facilitate family and school partnerships/interactions with community agencies for enhancement of academic and social-behavioral outcomes for children.*

Practicum (PSY 790-791)

1. Identifies family factors that might enhance or interfere with school functioning and determines the implications for intervention.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. Incorporates concerns and strengths of parents into intervention plans.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

3. Identifies appropriate community resources to assist families.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

Advanced Practicum (PSY 890-891)

4. School psychologists use evidence-based strategies to design, implement, and evaluate effective policies and practices that promote family, school, and community partnerships to enhance learning and mental health outcomes for students.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

5. Identifies sources of conflict among families, schools, and agencies and works to reduce conflict.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

VIII. Diversity in Development and Learning: *School psychologists have knowledge of individual differences, abilities, disabilities, and other diverse characteristics; principles and research related to diversity factors for children, families, and schools, including factors related to culture, context, and individual and role differences; and evidence-based strategies to enhance services and address potential influences related to diversity. School psychologists demonstrate skills to provide effective professional services that promote effective functioning for individuals, families, and schools with diverse characteristics, cultures, and backgrounds and across multiple contexts, with recognition that an understanding and respect for diversity in development and learning and advocacy for social justice are foundations for all aspects of service delivery.*

Practicum (PSY 790-791)

1. Seeks knowledge of the origins, family structure, child-rearing practices, values, beliefs, worldview, language, and interactional style of identified groups the practitioner encounters in his or her schools.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. Demonstrates ability to accurately self-assess one’s multicultural competence, including knowledge of when circumstances (personal biases, lack of requisite knowledge, skills, or language fluency) may negatively influence professional practice and adapt accordingly (e.g., obtain needed information, consultation, supervision, or referring the student to a better qualified professional).

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

3. Demonstrates ability to conduct a valid psychoeducational assessment with students including selecting tools appropriate to the student’s characteristics, culture, and background and administering and interpreting assessment information in a culturally sensitive manner.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

- Demonstrates skill in explaining psychoeducational assessment and intervention to parents and students from diverse backgrounds to promote meaningful participation in the process.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

IX. Research and Program Evaluation: *School psychologists have knowledge of research design, statistics, measurement, varied data collection and analysis techniques, and program evaluation sufficient for understanding research and interpreting data in applied settings. School psychologists demonstrate skills to evaluate and apply research as a foundation for service delivery and, in collaboration with others, use various techniques and technology resources for data collection, measurement, and analysis to support effective practices at the individual, group, and/or systems level.*

Practicum (PSY 790-791)

- Demonstrates knowledge of descriptive statistics in explaining test results to parents and other professionals.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

- Identifies and implements appropriate measures to evaluate the effectiveness of interventions with individual students.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

- Evaluates and synthesizes a cumulative body of research findings as a foundation for effective service delivery.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

Advanced Practicum (PSY 890-891)

4. Collects, analyzes, and interprets program evaluation data, in collaboration with others, in applied settings.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

- X. Legal, Ethical, and Professional Practice:** *School psychologists have knowledge of the history and foundations of school psychology; multiple service models and methods; ethical, legal, and professional standards; and other factors related to professional identity and effective practice as school psychologists. School psychologists demonstrate skills to provide services consistent with ethical, legal, and professional standards; engage in responsive ethical and professional decision-making; collaborate with other professionals; and apply professional work characteristics needed for effective practice as school psychologists, including respect for human diversity and social justice, communication skills, effective interpersonal skills, responsibility, adaptability, initiative, dependability, and technology skills.*

Practicum (PSY 790-791)

1. Demonstrates an awareness and knowledge of the content of ethical codes, professional standards, and law pertinent to the delivery of services.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

2. Shows commitment to proactive stance, namely using knowledge of ethical codes, professional standards, and law along with ethical reasoning skills to anticipate and prevent problems from arising.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

3. Demonstrates an ability to analyze the ethical and legal dimensions of a situation and ability to reason about ethical issues. Makes use of a problem-solving model.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

4. Demonstrates knowledge of state and federal rules and regulations regarding identification of students with disabilities.

Review	Novice	Advanced Beginner	Competent	Advanced Competency	Proficient
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____

5. Demonstrates awareness of some of the ways in which legislation and systems-level policies and practices can hinder or promote student learning and well being, and can identify strategies to advocate for change.

APPENDIX D

NON-ACCREDITED INTERNSHIP CDSPP REQUIREMENTS

Requirement	Fall	Winter	Spring
1. Organized training program providing range of activities.			
2. At least 25% time providing face-to-face psychological services to clients.			
3. Provides dated written statement, brochure, or website describing goals. Written agreement between internship site, school psychology program, and intern regarding goals, expectations, salary, benefits, reimbursable travel, and holidays.			
4. Interns receive formal, written evaluation at the end of each university semester grading period via Competency Evaluation Performance Review.			
5. Due process procedures for interns are made available prior to beginning of training and program director is notified if due process procedures are initiated.			
6. Full-time internships are completed in no less than 10 months and include a minimum of 1,500 hours.			
7. Internship agency and school psychology program jointly issue to the intern written documentation reflecting successful completion of the psychology doctoral internship.			
8. Internship agency employs a clearly designated licensed doctoral-level psychologist. Internship agency has at least two psychologists on staff available as supervisors, at least one of whom is licensed.			
9. At least two hours per week of regularly scheduled individual supervision by a licensed doctoral level psychologist.			
10. At least two additional hours per week in scheduled group or individual supervision by a doctoral level psychologist who is either licensed or certified.			
11. Regularly scheduled, supervised, and documented training activities with other doctoral psychology interns.			
12. Licensed psychologist supervisor co-signs intern reports.			
13. Trainee has "intern" title.
