CMU College of Medicine, 1632 Stone Street, Room 1008, Saginaw

Registration at <http://cmich.ly/2yeA3T4> or contact [CMEDCME@cmich.edu](mailto:CMEDCME@cmich.edu), 989-746-7514 or 746-7602

**Adverse Childhood Experiences (ACE) and Trauma-Informed Practice: How “Resilience” is Changing the Medical Landscape for Diagnosis and Treatment of Childhood Trauma.**

Film: *Resilience: The Biology of Stress & The Science of Hope*

This 2-hour accredited CMU course includes presentation of the film *Resilience*, a panel discussion and Question & Answer sessions with experts from medicine and education in our local area.

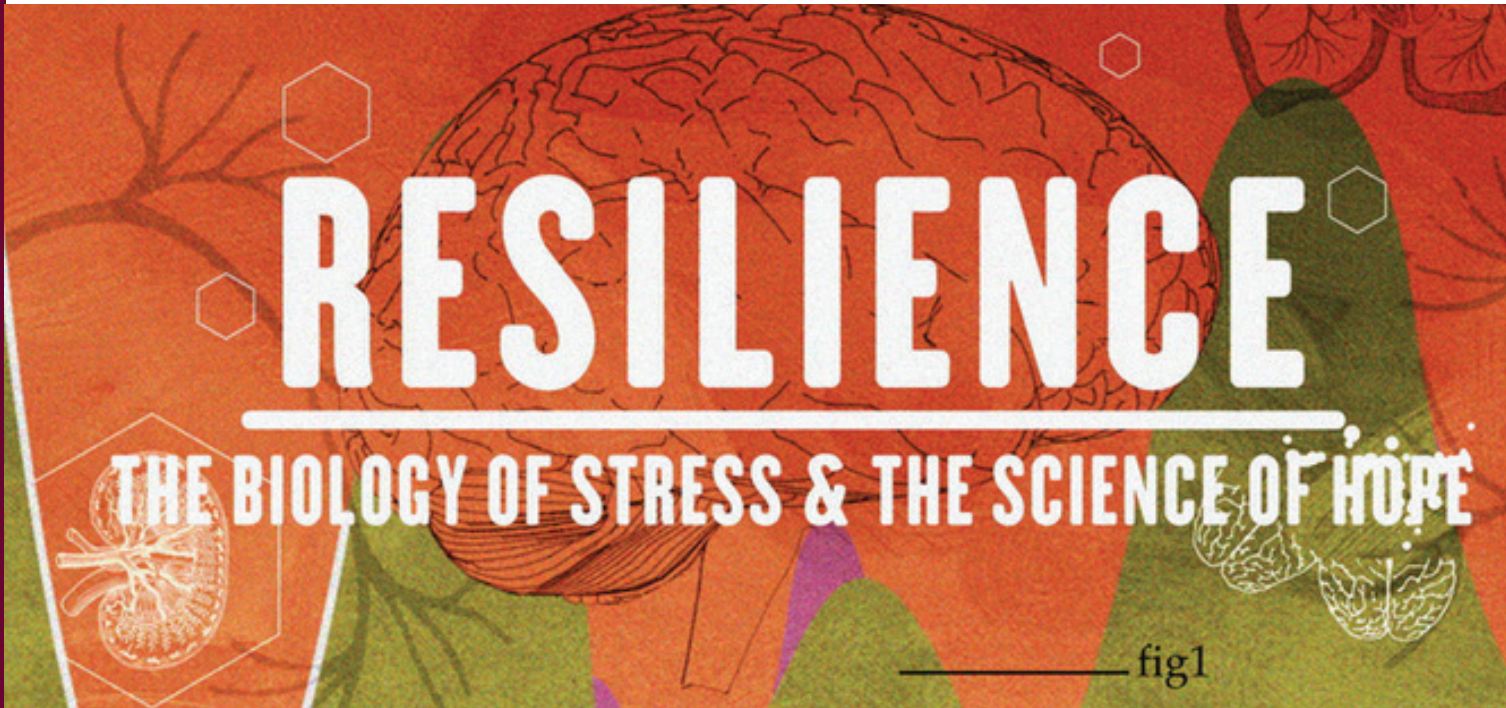

Based on the TEDMED talk of *Resilience* featured physician Nadine Burke Harris, MD, MPH, FAAP:

*How childhood trauma affects health across a lifetime:* <https://www.youtube.com/watch?v=uXXTLf7oouU>

**OPEN-END EVALUATION CHANGES**

We have taken your feedback and would like to thank you all for your continued support. Effective immediately, all CME Evaluations are open for registrations. If you find that you missed the previous 30-day period to claim your CME Credit, you may now go online to enter your time. All 2017 CME activities will remain open until the end of the January 2018. Please contact our office if you have any questions.

# Adverse Childhood Experiences (ACE) and Trauma-Informed Practice Course

**Monday, October 16, 2017**

**Two Session Options: 3 p.m. or 6 p.m.**

**CMU College of Medicine, Saginaw Education Building**

***“RESILIENCE: The Biology of Stress & The Science of Hope” will be featured in a new CME course titled: Adverse Childhood Experiences (ACE) and Trauma-Informed Practice: How “Resilience” is Changing the Medical Landscape for Diagnosis and Treatment of Childhood Trauma.***

The two-hour course includes a presentation of the film and a panel discussion. The target audience for the program includes primary care physicians, nurses, NPs, PAs, social workers, all healthcare professionals. As a result of participation, attendees should be able to develop a basic understanding of the Adverse Childhood Experiences study; discuss the association between childhood trauma and physical and mental health; apply assessment of childhood stress or conditions in diagnosis; understand why children exposed to ACE are at elevated risk for disease and risky behavior; and describe the impact of childhood trauma on child development and the parent-child relationship. Special acknowledgement to the Michigan Association of Health Plans Foundation for granting permission to show the film “Resilience” as part of the training on Adverse Childhood Experiences (ACEs) and Trauma-Informed Practice.

**Please register at <http://cmich.ly/2yeA3T4>**
