2018 EVALUATION AND CERTIFICATE PROCESS
To obtain AMA PRA Category 1 Credit™, complete the activity evaluation and attestation at med.cmich.edu/cmecert using the unique 5-digit Activity Code provided. First time users must sign in as a New User and follow on-screen instructions. The evaluation remains open for 60 days from the date of the activity. Please contact us via email at CMEDCME@cmich.edu or call 989-746-6042 with any questions.

CREDIT FOR TEACHING
CMU College of Medicine appreciates ALL that you do in teaching our residents and medical students! To ensure that you adequately obtain your Category 2 Credit for Teaching, all forms (2014 to 2018) and instructions are available on our website at Credit for Teaching or med.cmich.edu/cme under Category 2 Credit Forms.

CME CALENDAR For a complete list of our CME accredited courses for January, click HERE.

CME ONLINE
Please check out CME Online for an enduring material on: Human Trafficking Awareness Training. This CME Online course is free of charge and meets the State of Michigan licensing requirements. Additional enduring materials are in preparation. You can also access CME Online by going to our website, med.cmich.edu/cme and then to CME Online on the right banner.
CMU College of Medicine Special Seminar

Preventing Falls in Older Adults

Thursday, February 21, 2019 6:00-8:00 PM

Description:
Physical therapy can be a key intervention in addressing physiological mechanisms underlying imbalance in older adults. This presentation describes an evidence-based, physical therapy approach to address imbalance in community dwelling older adults deemed to be at a moderate risk of fall. Developed in Otago, New Zealand, and modified in the US, this program, often referred to as the Otago Program, has been selected for dissemination by the Centers for Disease Control.

- Dr. Raju Chowdhary PT, PhD
- Dr. Sethu Reddy, MD, MBA
- Dr. Jyotsna Pandey, MD, PhD

Objectives (participants will be able to):
1) State the interdisciplinary context of fall prevention for community dwelling older adults and identify the particular role that physical and occupational therapists are required to play
2) Analyze the broad multisystem framework that underpins imbalance and determines the severity of fall risk in an older individual living in a community setting.
3) Identify methods of measurement of fall risk and the indications for the Otago exercise program
4) Describe the categories and levels of exercises and activities in the Otago exercise program
5) explain the principles guiding individualization of the Otago exercise program.
6) describe the features of the implementation of the program that ensure fidelity to the way an effective use of the program has been demonstrated in research

Target Audience: Physicians and Physical Therapists

Disclosure: Speakers and planners have nothing to disclosure.

Accreditation:
Central Michigan University College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Central Michigan University College of Medicine designates this live activity for a maximum of 1.0AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
