Has Michigan Gone to Pot?  Current Cannabis Practices and Controversies  
Medical Ethics and Pain Management

Saturday, September 28, 2019 
8:30 am to 12 noon  
Horizons Conference Center  
Registration and breakfast 7:00 to 8:00 am  
This course is designed to meet 1 hour of pain and symptom management and 1 hour of medical ethics

Michigan has legalized both medical and recreational marijuana. New medical conditions were approved in late 2018. Confusion exists among physicians and healthcare professionals concerning: therapeutic uses and limitations of medical cannabis, cannabis pharmacology, toxicity, cannabis and mental health, cannabis use disorder, PTSD, and various risk factors. There are also ethical, political and societal (social justice) issues associated with medical as well as decriminalized and legalized recreational marijuana.

This course is designed to:

• Improve the current understanding of cannabis use and prescribing in Michigan, under current law
• Change how physicians and health care professionals approach marijuana use in pain management, various diseases, toxicity, and mental health
• Increase understanding of cannabis use disorder and addiction
• Increase understanding of the social, medical, ethical and political implications of marijuana, big business and public policy

Central Michigan University College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Central Michigan University College of Medicine designates this live activity for a maximum of 4.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CMU College of Medicine | Office of Continuing Medical Education  
1632 Stone St., Saginaw MI 48602  Phone: 989-746-7602 or 746-7555  Email: CMEDCME@cmich.edu  Website: med.cmich.edu/cme  
We offer Joint Providership accreditation for your CE courses.
INTERNATIONALLY RECOGNIZED CARDIOLOGIST TO SPEAK AT CMU COLLEGE OF MEDICINE GRAND ROUNDS ON AUGUST 8

We are pleased to welcome Ileana L. Piña, MD, MPH, FACC, FAHA. She is a Heart Failure and Cardiac Transplantation Cardiologist expert. She serves as an advisor/consultant to the FDA’s Center for Devices and Radiological Health. In January 2019, Dr. Piña joined the faculty of Wayne State University as Professor of Medicine, and at the Detroit Medical Center, Heart Hospital as Director Cardiovascular Research and Academic Affairs and Regional and National Director of Heart Failure.

In 1999, Dr. Piña joined the faculty of Case Western Reserve University (CWRU) in Cleveland, Ohio as Professor of Medicine and became the Director of Heart Failure and Transplantation Section in the Department of Medicine and the Division of Cardiology at University Hospitals of Cleveland. Dr. Piña is boarded in the ABIM Certification for Heart Failure and Transplantation.

Dr. Piña is internationally recognized for her research in rehabilitation and recovery of heart failure patients. She is the author of over 200 publications in print, a world-renowned speaker on this subject. She has been and is a recurrent presenter/speaker in the World Congress of Cardiology in Spain, Argentina, and Colombia. Dr. Piña is a member of the Get With the Guidelines Scientific Committee and Heart Failure workgroup, a national Spokesperson for Go Red for Women and was on the writing committee of the American Heart Association Guidelines for the Prevention of Heart Disease in Women, Breast Cancer and Heart Failure among other publications. She represents the American Heart Association at the Electronic Health Initiative (EHI) and on the Leadership Committee of the AHA Quality Council.

Since 1982, Dr. Piña has been an American Heart Association volunteer after she completed her Cardiology Fellowship in Miami. She currently serves as the immediate past Chair of the Council on Clinical Cardiology of the AHA and now the Nominating Committee Chair. Involved in NIH DSMB Committees and with the ABIM for the Specialty Exam of Heart Failure/Transplant. She was the recipient of the Wenger Award for Heart Disease in Women in 2017.

<tr>
<td></td>
<td></td>
<td>As admissions for heart failure continue to increase in the United States, so have readmissions. There are now penalties for readmissions at 30 days regardless of the diagnosis for the readmission. The presentation will discuss processes of care to apply quality metrics and interventions with the intent of lowering the readmission rate and hence financial savings.</td>
