POLICY
Deceleration will be available to students under certain atypical circumstances.

DEFINITIONS
Deceleration: Enrolling in fewer courses per academic year than the curriculum schedule dictates, thus increasing the length of time the student is enrolled in the College of Medicine program.

PROCEDURES
Deceleration will be difficult due to the integrated nature of the College of Medicine curriculum. However this may occur in certain situations for students having academic difficulty at the discretion of the Senior Associate Dean/Academic Affairs, with involvement of the Assistant Dean/Student Affairs and review by the Student Promotion and Conduct Committee (SPCC).
CMED and CMU Partners reserve the right to make exceptions, modify or eliminate this policy and or its content. This document supersedes all previous policies, procedures or guidelines relative to this subject.
