

DEPARTMENT OF BIOLOGY

Application for Seminar, BIO 730

Guidelines: BIO 730 is required of students receiving the M.S. in Biology, Plan A. CR/NC only. Student will present a formal, oral presentation of Plan A thesis research to the department. The seminar date, time and title must be advertised within the University community. The public is invited to attend. It is strongly recommended that the seminar and thesis defense take place during the same semester.

Directions: 1) Complete section A. 2) Select seminar date and time in consultation with Seminar Coordinator. 3) Notify committee members of seminar date and time. After all sections of the application are complete, submit 1 copy to Seminar Coordinator and 1 copy to main office. Please email picture to the Graduate Program Administrator at least a week in advance for posters.

A. Major Advisor approval:

Student Name _____

Seminar Title _____

Major Advisor Name _____

I agree this student has completed enough of his/her thesis research and analysis to apply for seminar credit, BIO 730, and select a seminar date via the seminar coordinator.

Signature of Major Advisor _____

B. Committee notification:

I have notified my committee members of the seminar date and time, and all have agreed to attend.

Signature of Student _____

C. Seminar Coordinator approval:

Selected Seminar Date/Time/Location: _____

Signature of Seminar Coordinator: _____
