Interior Design Minor

This program provides students with the combination of skills and knowledge to successfully complement an existing major, or satisfy personal interests in the field of design. This minor is for students who want to develop fundamental knowledge and skills in drafting, visual communications, CAD, materials/components, design history and studio design applications. Students will document their work in a portfolio at the conclusion of their final studio course in IND 338.

Admission Requirements, Retention & Termination Standards
1. No more than 12 credits may transfer toward the minor.

2. Students must achieve a 2.7 program GPA or better to graduate with this minor.
