CampMed is a hands-on educational summer experience for high school students interested in medicine or other health-related fields. This three-day, overnight event is scholarship-based and provided at no cost to the student.

Accepted applicants, with the assistance of current medical students, will participate in typical medical student activities. Throughout the week, students are exposed to the elements of medical school and college life.

Staff and faculty work with the attendees, engaging them in hands-on demonstrations and activities. Campers experience college life by staying in the residence halls, eating in the residential restaurants and participating in organized nightly activities.
