Memorial Healthcare is a 150-bed hospital and healthcare organization serving the greater Shiawassee County area with additional locations in Genesee, Saginaw, and Clinton Counties. Services range from primary care for the whole family to specialty care in areas such as general, neurology, orthopedic, gynecological, urology and endocrinology.

Memorial Healthcare operates over 25 satellite offices throughout Shiawassee County in the communities of Chesaning, Corunna, Durand, Laingsburg, Ovid-Elsie, Owosso and Perry.

Care is provided for nearly 30,000 emergency patients, 200,000 outpatients and 3,800 inpatients each year.

Memorial Healthcare’s 1,200 employees work collaboratively with patients, community leaders and residents to continually create new and expanded services.

One half day per week is designated for students to have time to focus on other specialties, interprofessional/interdisciplinary experiences, continuity of care with patients (e.g. home visits) or community medical education.

They may be hospital or community based.

The following link (ACES) will take you to a spreadsheet of potential opportunities listed by community. These community organizations have confirmed opportunities available to medical students. Mid-Central AHEC staff has contacted and verified each listed organization.
