An Expert-Led and Experience-Based Program

The Central Michigan University (CMU) College of Medicine Obstetrics and Gynecology Residency program is comprehensive, fast-paced, and robust. Residents are assigned a panel of patients that they follow, which gives them in-depth experience and training to become capable, independent practitioners and consultants. Resident physicians provide care for a woman through her entire pregnancy, and provide treatment for gynecologic patients with preventive and problem-based care.

Residents train at Covenant HealthCare in Saginaw, Michigan, where more than 2,500 deliveries are performed each year. Covenant HealthCare is a tertiary-level hospital where residents gain exposure to a variety of surgical procedures and a neonatal intensive care unit (NICU). Residents also train at Ascension St. Mary’s Hospital in Saginaw providing gynecological surgery and consultations.

Expert faculty and staff, along with community volunteer physicians, supervise and evaluate residents, while allowing for a great deal of resident autonomy in patient care decisions. They train residents in ultrasound, colposcopy, urodynamics, coding, and contract evaluation in the new simulation center in the CMU College of Medicine educational building and while on site.

Why Choose CMU

- Large patient base of 800,000
- Authoritative source of physicians in underserved and rural areas of Michigan
- Provides full range of general services to women of all ages
- Partner with Michigan Health Improvement Alliance, Inc. and Centering® Healthcare Institute
- 10,000-square-foot simulation center

CMU, an AA/EO institution, strongly and actively strives to increase diversity and provide equal opportunity within its community. CMU does not discriminate against persons based on age, color, disability, ethnicity, gender, gender expression, gender identity, genetic information, height, marital status, national origin, political persuasion, pregnancy, childbirth or related medical conditions, race, religion, sex, sex-based stereotypes, sexual orientation, transgender status, veteran status, or weight. Excellence in Graduate Medical Education

Medical school graduates pursuing an exceptional residency program choose Central Michigan University (CMU) College of Medicine, which offers training for more than 120 resident physicians in seven specialties and two advanced fellowships. The College trains 104 students per class, with the first two years on campus in Mount Pleasant and the clinical years in Saginaw, Michigan.

Our residency programs are fully aligned and committed to serving the underserved and addressing Michigan’s most pressing public health concerns. Residency programs are accredited by the Accreditation Council for Graduate Medical Education (ACGME) with Podiatric Medicine and Surgery accredited by the Council on Podiatric Medical Education (CPME).

CMU offers personalized education focused on the resident, often with one-on-one learner-to-faculty interaction. The high patient-to-learner ratio in Saginaw enables quality learning in a real-world setting.

Residency Programs

- Emergency Medicine
- Family Medicine
- General Surgery
- Internal Medicine
- Obstetrics & Gynecology
- Podiatric Medicine & Surgery
- Psychiatry

Fellowships

- Child & Adolescent Psychiatry
- Emergency Medical Services

Simulation Center

Residents experience hands-on patient care through our Medical Simulation Center, a state-of-the-art facility of more than 10,000 sq. ft. Residency programs have monthly simulation sessions with standardized patients, high fidelity manikins, virtual reality and robotic surgery, clinical skills training, and specialized scenarios.
