• Respected in their fields
• Dedicated to teaching evidence-based psychiatry
• Faculty and residents value a positive culture that promises learning and individual well-being

Why Choose CMU
• Clinical, academic, research, and collaborative care opportunities
• 100% fellowship match rate
• Investment in board-prep resources
• Multiple in-state and international projects presented at conferences
• Inpatient psychiatry rotation at psychiatric hospital
• High patient population, collaborative care model

Begin Your Career in Psychiatry
A Psychiatry Residency from the Central Michigan University (CMU) College of Medicine prepares graduates from medical schools across the country for a broad range of fulfilling careers. The residency program is strengthened by world-class faculty, robust teaching, research and publication opportunities, state-of-the-art facilities, and diverse practicum environments. It is based in Michigan’s Great Lakes Bay Region, which includes major hospitals, a Veterans Administration Medical Center, a freestanding psychiatric hospital, private practice settings, Federally Qualified Health Centers, and a large and progressive Community Mental Health center.

The CMU College of Medicine is dedicated to preparing residents to be leaders in the field of psychiatry, without socioeconomic or geographic limitation of any kind. It is anticipated that many residents will share the College’s idealism, becoming partners in reaching out to groups that most need their knowledge, skill, and compassion.

Excellence in Graduate Medical Education

Medical school graduates pursuing an exceptional residency program choose Central Michigan University (CMU) College of Medicine, which offers training for more than 120 resident physicians in seven specialties and two advanced fellowships. The College trains 104 students per class, with the first two years on campus in Mount Pleasant and the clinical years in Saginaw, Michigan.

Our residency programs are fully aligned and committed to serving the underserved and addressing Michigan’s most pressing public health concerns. Residency programs are accredited by the Accreditation Council for Graduate Medical Education (ACGME) with Podiatric Medicine and Surgery accredited by the Council on Podiatric Medical Education (CPME).

CMU offers personalized education focused on the resident, often with one-on-one learner-to-faculty interaction. The high patient-to-learner ratio in Saginaw enables quality learning in a real-world setting.
