Gone Are the Ancient Hand-Saw Methods of Home Building

## Read Here How to CONTROL Your Building Costs

The Aladdin Company believes the costs and profits of middlemen—that is, dealers, jobbers, wholesalers—are mainly the cause of present day high prices. The major purpose of The Aladdin Company is to cut out all wastes—which instantly results in lower prices.

When the customer buys direct from the manufacturer there are no middlemen's costs and profits in the price he pays. That's just plain horse sense.

You can buy your house direct from the manufacturer. You can save the costs and profits of middlemen. You can save from \$200 to \$2,000 on the materials. This is your good money that would otherwise go into the pockets of middlemen.

Why shouldn't you save these profits, like thousands of other homebuilders have been doing through The Aladdin Company for the past 24 years.

Aladdin houses are sold direct.

Waste can and does influence the cost of everything you buy. This is especially true of home building.

Waste consumes your dollars and gives nothing in return. Aladdin proves to you that the Readi-Cut System will save you 18 dollars out of each \$100 on your lumber costs.

Aladdin proves to you that the Readi-Cut System will save you nearly 30 dollars out of each 100 dollars labor cost.

No dealers' or jobbers' profits in the price you pay. No financing charges. We sell for cash only. You KNOW in advance what the materials for your house will cost you. You KNOW there will be nothing forgotten. You KNOW there will be no extras. You KNOW you will save all waste. You KNOW you will receive high grade lumber, mill-work, hardware—Aladdin CERTIFIED materials. You KNOW everything will be on hand when you want it—all in one shipment and all guaranteed by Aladdin. And you know in advance what your house will look like and what it will be in every way. KNOWING gives you control—mastery of your money, of materials, of labor and of RESULTS.

It's the safest, soundest, cleanest and wisest way to build.

This catalog is our only salesman. Your letters to us and our replies to you easily explain everything you want to know. Read the catalog and write us today.

## The ALADDIN Guarantee: Satisfaction or Your Money Back

# Selling for Cash Makes These Low Prices Possible

THE CEDARWOOD

The Cedarwood is a beautiful bungalow, marvelously priced, and remarkably designed. This home has enjoyed a continuous popularity for nearly twenty years.

Its architecture, while simple and plain, is dignified and in perfect taste and proportion — it is the type that never is out of fashion, being as much in demand today as ever before.

Five fine plans are shown below, while the photograph above illustrates the charm and home-appeal of the exterior.

The prices quoted are for siding on the exterior. In order to use shingles on the walls it is necessary to use wall sheathing under the shingles. See quotation for wall sheathing and building paper on page 31. The porch is 16 feet wide and 8 feet deep. If you do not wish to build the brick piers as shown in the photograph we can furnish full length columns to extend to porch floor. Porch is priced separately so you can order this porch or some other porch shown in the catalog or leave it off entirely if you so desire.

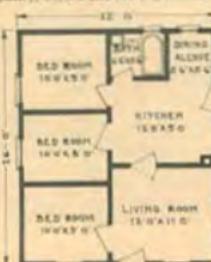

See specifications on back cover.

**Remember ALADDIN pays the freight and guarantees the safe arrival of all materials.**

PLAN A

Note the double windows in living-room and dining room, covered arch between these two rooms; good sized bath-room, pantry, kitchen and two bed-rooms.

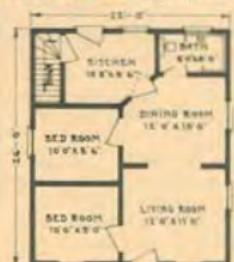

PLAN B

Kitchen with entrance on side, dining alcove, built-in good-sized living room and three bed-rooms. A cozy, convenient home as you will agree.

PLAN C

The Cedarwood, Plan "C", provides a three bed-room plan with big living room and big kitchen. Note the double windows in both these rooms.

PLAN D

For those desiring a basement with inside cellar stairs the Cedarwood Plan "D" has proven very popular. Living room, dining room, kitchen, bath and two bed-rooms. A fine home.

# You Will Start Saving Money the Day You Move Into an Aladdin

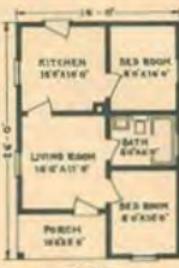

THE ST. CLAIR

Tens of Thousands of American Families Have Been Convinced of the Tremendous Saving Effect by Building an ALADDIN HOME

PLAN A

Plan "A" has no bath but includes dining room of generous proportions.

PLAN B

Plan "B" shows a modern arrangement including bath room.

The modest cottage is the foundation of the American Republic. The American Citizen is master of himself and his destinies when he steps across the threshold of his own home. "He owns his own home" is a recommendation for thrift, character and integrity that all the world recognizes. The St. Clair breaks through the clouds of obstructions, high prices, middlemen's profits, architects and contractors' fees and opens up the big opportunity to "Start right now," to start with less cost than you thought possible.

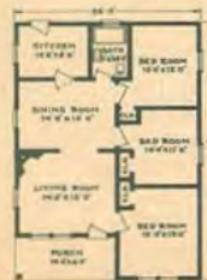

Two five room plans each with inset porch, are shown for the St. Clair. Either plan makes an attractive and complete home at a remarkably low price.

Please remember that the materials supplied for the St. Clair are of the same high quality that have made The Aladdin Company famous as "Home Builders to the Nation." You are protected by a guarantee of Satisfaction or your Money Back.

THE BASSWOOD

The Basswood—Plan 1

The center living-room and the well-located and finely proportioned bed-rooms, dining-room and kitchen, distinguish this plan.

The Basswood—Plan 2  
A twenty foot long living-room, together with a good arrangement of bed-rooms, dining-room and kitchen make this plan popular.

This Five Room House \$492  
FREIGHT PAID

A Real House—Not Portable—Not Sectional

The Biggest Bargain ever offered in a Sturdy Little Home. Our instructions and drawings show every step of erection.

Since the Basswood faces the wide way to the street, it gives the appearance of a much larger home than it really is. It's one of our biggest values too. You will be proud to point out the wonderful materials furnished with this home. Every piece of lumber, every article furnished is of highest grade. Clear and knotless siding, flooring and woodwork are guaranteed. The Basswood is offered in your choice of two floor plans and prices are quoted above. Also, the price of the 30' x 6' porch is given above so you can purchase it with your home, or not, as you prefer. See specifications on back cover and also additional information on page 31. Order blank will be found at the bottom of page 31. Shipment can be made within five days after receipt of order.

Plan No.2. 468  
Plan No.3. 474  
20'x6' Porch 74  
24'x6' Porch 93

The smaller size Rodney—Plan No. 1 is shown with living-room, dining-room, bed-room and kitchen. If two bed-rooms are wanted this can be arranged by omitting the dining-room and furnishing a door instead of the arch shown, making the arrangement of floor plan the same as Plan No. 3 with 10 foot by 8 foot rooms. This change in Plan No. 1 can be made at an additional cost of \$6.00.

The porch is priced separately so it can be ordered shipped with the house or left off.

Freight Paid Price on all plans and porches quoted above.

See specifications on back cover.

# Paying CASH Is One Big Reason For This Amazing Price

THE FIRWOOD

PRICE INCLUDES: LUMBER CUT TO FIT, MILLWORK, WINDOWS, DOORS, FLOORING, SIDING, HARDWARE, PAINT, NAILS, LOCK-SETS, HINGES, COMPLETE PLANS. BUILD IT YOURSELF. EXPERIENCE UNNECESSARY.

Here is a real jewel—big value in a modest home of modern features. Every foot of material is made to give the greatest value in room space, convenience and arrangement. It has been

PLAN A

A very practical arrangement is shown above. Living-room is full width of house which opens into dining-room. Two bed-rooms and kitchen complete this plan.

said that no house could be designed to offer more value than the Firwood. Every part of it is planned to use material without waste, which means that your every dollar brings biggest investment return. The amazingly low price for which you are able to buy the Firwood, together with a little of your time, will make you the owner of a fine home at a price about half the usual cost. Four splendid room arrangements are shown here—even a three-bed-room plan for a family of six. The porch is quoted separately so the house can be built with or without the porch as you desire. Instructions for ordering are given on page 31.

**Specifications given in full detail on back page of this Catalog.**

PLAN B

Thoroughly modern and complete is Plan B. Note convenient bath-room and closets arrangement. Cellular stairs are included.

PLAN C

Think of a home for a family of six at the price quoted for the Plan C. Both living room and kitchen are unusually large.

PLAN D

This is a new and highly attractive plan. It will be one of the best selling houses in the whole catalog. Study it thoroughly.

LOW IN COST  
EASY TO ERECT

Carefully designed to give proper clearance for autos and pumps. Attractive in appearance and easy to build. The Aladdin Filling Station being ready-cut it can be erected by any one who can drive nails. The enclosed section of the filling station is one room, 16x12-ft. in size and the open section, covered by the same roof, is 16x12-ft. in size. As the illustration shows, two large windows and a door are furnished for the front wall. One small window is furnished for each of the two end walls.

**SPECIFICATIONS:** Exactly the same high quality of materials is furnished as for our regular houses. See specifications on back cover. The filling station is furnished with five 4x8-in. sills and with 2x6-in. floor joists on 16-in. centers, so constructed as to give ample strength for oil barrels, etc., that may be displayed in the room. The ceiling height is 9 ft. 6 in. It has a  $\frac{1}{3}$  pitch hip roof and exposed eaves with a 1-ft.  $\frac{3}{4}$ -in. projection. The front windows are of the check rail type, the glass in each sash measuring 38x24-in. in size. The two side windows are of the swinging casement type, the glass measuring 18x24-in. in size. A Ja-Tet French Door is provided at the front. Wooden columns are provided for the two corners of the open section, as shown in illustration. Matched ceiling is furnished for the ceiling of the open section.

THE ALADDIN FILLING STATION

# You Pay 20 to 40% More When You Don't Pay Cash

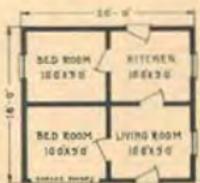

Two plans in size 20'x18' and two plans size 30'x18' are shown for the Walnut House. The price of each is given at the right, and the freight is paid to your station. Plan "A" or "B" can be erected on a lot that is restricted to a higher priced house, and it will serve for a comfortable home until the time comes to build a bigger one. Then it can be used as a single or double garage. If you would like Plan "A" or "B" without garage doors, we will omit the same, furnishing window in their place without extra charge.

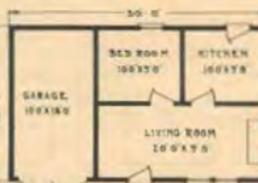

PLAN A

The Walnut Plan A is designed to meet the needs of a couple requiring one bed-room and a large living room.

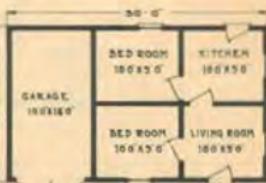

PLAN B

The very popular two bed-room plan. Easy to build, easy to convert into a high class garage at any time.

PLAN C

The Walnut Plan C makes a wonderful combination home and a garage. Note the big living room 20 feet long.

PLAN D

A better balanced, more artistic exterior on a combination home would be hard to conceive. We consider at the best that has ever been offered to the public.

## TOURIST COTTAGE FREIGHT PAID \$90 - ROAD SIDE STORE FREIGHT PAID \$96

Build these Aladdin Money Makers and you will have a fine income. A few hours time will complete one, all materials Readi-Cut.

The demand by tourists for safe and comfortable sleeping quarters, outside of hotels, has initiated the idea of over-night cottages and created a plan that will both serve the tourist and make profitable investment for the owner. Ample space is arranged across the rear of the Tourist Cottage so two double bunks can be installed one over the other, giving sleeping accommodations for four people. A single bed may be placed in the right room so the company comes in from the side as suggested from the Roadside Store. The end of the Roadside Store is arranged to open up as shown in picture.

SPECIFICATIONS: In general, the specifications for our summer cottages as printed at the bottom of page 28 apply. Both the Roadside Store and the Tourist Cottage are one room, 10' x 12' wide. Both contain one outside door with glass in the top section of size 18" x 24". Both contain one outside door with glass in the top section. The price quoted for the Tourist Cottage includes screen door and window screen, with hardware. Shelving is furnished for the Roadside Store.

THE WALNUT

Plans "C" and "D" represent one of the most practical of the new, modern ideas of home building—that of having the garage attached to the house. It is a decided convenience and gives you both home and garage for not much more than the house alone.

The fireplace need not be built unless desired as we do not cut the opening for it before shipping.

Any one of these can be erected by inexperienced men easily and rapidly. We guarantee the material, guarantee safe arrival and guarantee you will be satisfied. You take no risk.

Specifications printed on the back cover list and describe the materials furnished.

No floor is furnished for garage section in Plans "C" and "D".

THE HICKORY

## Three Great Manufacturing Plants are Exclusively Devoted to the Manufacture of Aladdin Readi-Cut Houses

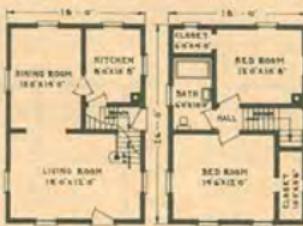

A strong, substantial, dignified and complete American home! You will find the Hickory built in attractive residential sections in hundreds of American towns and cities. It has given unfailing satisfaction wherever erected for it offers the home owner the very highest value for every dollar invested. Never before have we priced the Hickory so low as right now. Never before would your dollars buy so much as

right now. Note the generous windows—generous in number and size. That means plenty of light and air in every room. The hip roof gives the maximum amount of strength to any house while holding down the apparent height. Two plan arrangements are offered. The plan "J" has three bed-rooms, the Plan "N" two bed-rooms. The ceilings in the bed-rooms are full height, not sloped. Height of ceilings; first floor 9 foot, second floor 8 foot. The finest materials obtainable of their respective kinds are furnished to build this home. The porch is priced separate from the house. It is 16 foot wide and 8 foot deep and can be purchased and shipped with the Hickory at the special price quoted below.

## Nine Splendid Plans Are Shown Below

Here is a pretty home as you will find anywhere—modern in design, attractive in appearance, sturdy in construction. It is shown in nine plans, one size 20x26 feet, one size 18x30 feet and seven in size 20x30 feet. These are the best liked floor plan arrangements of many thousand customers during the past twenty years. You will be proud to own and live in The Oakwood wherever it may be erected. All the lumber is ready-cut (Not Portable) and is so easily handled and erected that a carpenter is not necessary. You can build it yourself and save the cost of high wages. It has been twenty years since we quoted so low a price for a 20x30 house. Ready-Cut construction, modern, efficient manufacturing methods and Cash Selling brings the cost down to before-the-war prices. Immediate shipment can be made and the complete materials will reach you in one car—safe arrival positively guaranteed. See instructions for ordering and specifications on last page.

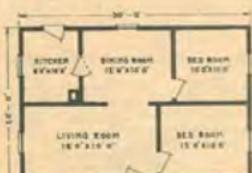

PLAN E

Larger bed-rooms feature the Oakwood Plan "E". The house is designed to face the street the long way. On this plan the Walnut Hood is furnished in place of the one shown in picture. See page 7.

PLAN F

Note the arch between living-room and dining-room. Also observe large amount of wall space in the big living-room. Hall from dining-room leads to two bed-rooms and bath. Walnut Hood is furnished instead of hood shown in picture. See page 7.

PLAN G

Big rooms well planned—a five-room home of truly remarkable spaciousness for the size and price of this Oakwood Plan "G" makes it a rare bargain. Walnut Hood is furnished instead of hood shown in picture. See page 7.

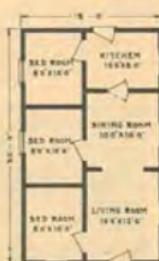

PLAN D

This plan was inspired by a study of modern city apartment designs. It is bound to make a perfect home and meet every expectation.

See Specifications  
on Last Page

PLAN B

Plan "B" will go on NARROW lot and offers a fine arrangement for a family of six—three bed-rooms, living room, dining-room and kitchen.

PLAN C

A thoroughly proven plan offering everything demanded for a family of five rooms and bath. It is impossible to secure greater utilization than is here represented.

PLAN H

Larger rooms are made possible in Plan "H" by joining the bath-room. This is a system of three bed-room arrangements suitable for the big family.

PLAN J

A special feature of the Oakwood Plan "J" is the inclusion of a cellar stairs. A living room size 12x14 is most unusual in a house of this size.

A very popular and widely copied plan designed by Aladdin. It is complete in accommodation including a well placed bath-room.

Erect It Yourself

## THE MAPLES

There is more pleasure and satisfaction in owning a small home than living in a large rented one. At the end of the year what work you have done has been for yourself and not for the landlord.

The Maples is being put up by many owners who have had no experience in carpenter work. Our instructions with pictures explain every step.

The Maples is shown below in four different room arrangements. The plans are for the 18 x 18 foot size. The Maples can also be furnished in a 22 x 22 foot size or in a 26 x 26 foot size. If purchased in the 22 x 22 foot size each room would be two feet larger each way than shown in the plans on this page. If purchased in the 26 x 26 foot size each room would be four feet larger each way.

*See specifications on last page.*

PLAN A

The quality of the materials is of the same high grade as furnished with largest homes we manufacture.

PLAN B

In ordering from The Aladdin Company you take no chances; we guarantee safe delivery of all materials.

PLAN C

Prices quoted are freight paid to your railroad station, materials are delivered at our time. This means no delay during erection.

PLAN D

Satisfaction on your money back is the guarantee back of every Aladdin Home. Fine quality materials in the small home as well as the large.

Plan C	<b>739</b>
Plan D	<b>776</b>
Plan E	<b>799</b>
Porch 12'x8'	<b>88</b>

See Specifications  
Back Cover.

PLAN A

Plan "A" illustrated above can be changed to a two bed-room plan as explained in the reading matter at the right.

PLAN B

Larchwood "B" is a desirable four room and bath plan including cellar stairs. Note size of all rooms.

A most interesting effect is secured by the gable roofed porch on the Larchwood pictured above. It gives originality and distinction to this fine home. The house is priced without porch, the porch being quoted as a separate unit so it can be ordered with this house or some other plan shown in the catalog.

Five choice floor plan arrangements are shown, there being four different sizes—each priced at amazingly low figures. The three bed-room Plan "A" size 24x24 feet lends itself to several different arrangements, for instance, the rear bed-room can be used for a dining-room, or the present kitchen can be converted into a large dining-room and the rear bed-room made into kitchen by moving the rear outside door. We will make this change for you if you request it when ordering.

Impressive indeed are the results obtainable in building a fine home when the price is based on direct shipment from the Aladdin Mills—and based on cash terms. The Larchwood is very popular home. See Instructions for ordering on page 31. Immediate shipment can be made if desired.

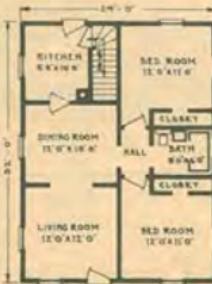

Interior of Larchwood

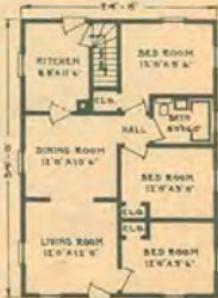

PLAN C

The above plan is size 24x30 feet. A feature is the hall leading from dining-room to two bed-rooms and bath. Closets are unusually large.

PLAN D

Larchwood "D" is size 24x32 feet and gives besides the accommodations of No. 1, larger rooms with a cellar stairs adjacent to the kitchen.

PLAN E

The largest size of the five plans, the Larchwood "E" includes all convenience possible in a house of this size—rooms being unusually well proportioned.

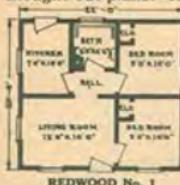

# CASH Cuts The Cost—Every Dollar Brings 100 Cents Value

THE REDWOOD

The Redwood is one of the prettiest small homes ever turned out. It is a real prize winner and gladdens the hearts of all owners. Its proportions are most harmonious while its selection of interior arrangements offers four carefully thought out plans. It is simply impossible to get more for

your money in an attractive little home. Every square inch of space is used to the best advantage. The materials are all of Aladdin's famous high quality and priced lower than any time in the whole history of our business. Read specifications on last page. Instructions for ordering on page 31.

THE MAGNOLIA

**The Construction Used in an ALADDIN HOME Is the Same as That Used in the Best Architect-Designed, Contractor-Built House Erected Anywhere**

The Magnolia illustrates the popular story and a half type of home. It saves money because it saves materials. It presents a handsome appearance and makes a home you

will be proud to live in, proud to own and proud to show your friends. Remember that the lumber you will receive is far better than you will find in most homes of this size elsewhere. Good materials make a sturdy lasting home and one that is always easy to sell should you want to do so. We are offering this excellent home

at a price only made possible because of our tremendous buying power, our direct to you sales plan and our cash prices. We make it easy for you to buy right, easy for you to build well and easy for you to own this splendid home. The second floor plan fits either Plan "A," Plan "B" or Plan "C" and the prices quoted include the second story furnished as shown on plan. The 20'x8' porch is priced separately for your convenience. It can be purchased or not, as you prefer. The wooden columns of the porch can be furnished to extend down to the porch floor if desired, making the brick piers unnecessary.

THE CYPRESS

## The Saving After Building a Small Home Will Add More to Your Happiness Than the Luxuries of a Big House

Here is a real gem of a home. It has been built by thousands of families with unfailing satisfaction to everyone. It is pretty because of its perfect proportions. It is economical to keep up and to heat. It is warm because of its sturdy construction, and will give years of comfort and happiness because of the real goodness of all materials we furnish. Never before have we offered the Cypress at such a low price. Right now is the biggest opportunity you will ever have to get a good home at so big a saving.

Six choice plans are shown on this page. Choose the one that meets your needs. The porch is 16 feet wide, 6 feet deep and is priced separate from the house so it can be ordered or left off or some other porch ordered in its place. Our desire is to make it easy for you to order just what you want.

If you want more information before sending in your order we will be glad to hear from you and answer any questions.

**\$483**  
FREIGHT PAID

The Same High Grade of Material Is Used in All Aladdin Houses

PLAN A

A great big living room is shown in this plan, together with two bed-rooms, nice kitchen and bath-room.

PLAN B

The rooms in Plan "B" are proportioned differently although of the same accommodations as shown in Plan "A."

PLAN C

Notice the arch between the living-room, and dining-room; also double windows on side of living-room.

PLAN D

Inside cellar stairs distinguish this plan. Every inch of space is used to good advantage.

PLAN E

Fewer rooms but bigger ones give this plan special attraction to many customers. Note the two big closets.

PLAN F

This is a new bed-room plan for a small family. All rooms are generous in size and well laid out.

THE WHITEHALL

Newlyweds have found a strong appeal in this pretty hip roof cottage. It is a new design. And it is just as good as it is new. Strong sturdy timbers carefully selected and readi-cut at our mill are furnished for the joist, studding, rafters, etc. and the finish materials such as flooring, siding, trim, window and door frames are all clear and knotless.

PLAN A

Generous sized living-room and kitchen, two bed-rooms, bath and closet—all corner rooms, offer convenience and comfort.

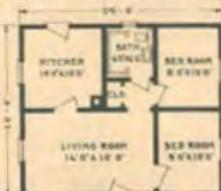

PLAN B

This is the conventional size arrangement giving the greatest amount of room possible in a house of this size—and very popular.

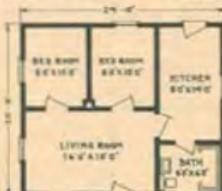

PLAN C

A good three bed-room arrangement making possible a real home for a family of six is shown in the above Plan "C".

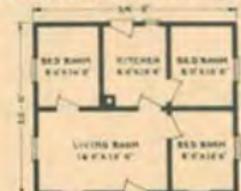

PLAN D

Fronting the long way this plan gives big living-room, a kitchen a little larger than usual and two bed-rooms, closet and bath.

PLAN E

Plan "E" is a novel arrangement finding great favor where a bathroom and a large kitchen are especially desired.

PLAN F

A good three bed-room plan with the house to be facing the 24 foot way to the street. Living-room is 16 feet long.

Pergola Type Porch			
Size 8'x14'			65

A true Colonial atmosphere is present in the design of this delightful bungalow. Originality is expressed in the roof lines with hooded gables. Exposed rafter ends lend a touch of individuality while the general proportions of the structure are most harmonious. Genuinely honest construction, sturdy timbers and beautiful interior woodwork combine to create a home any family will be proud of. Six distinctive floor plan arrangements are shown below. Almost any need will be met by at least one of these plans, which have been given the most careful study by our designers. In some of the plans a door is shown in the side of the living-room in order to give access to the pergola porch. In other plans a window. In any of the plans you can have a door or a window depending upon whether you wish to order the pergola porch. There is no charge for this change from door to window or window to door. The pergola porch has weather tight roof. We will gladly give you any additional information about the Poplar when you write us.

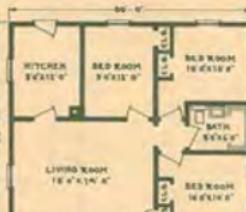

PLAN C

Big living-room and dining-room and kitchen with grade entrance stairs to basement feature this two bed-room plan.

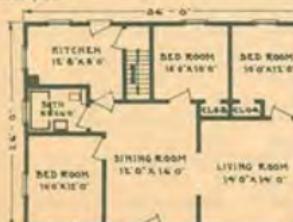

PLAN A

allest advantage is taken of every inch of space in the size 30x26 feet Plan "A"—a fine type of five room home. Living-room, dining-room, kitchen, two bed-rooms and closets.

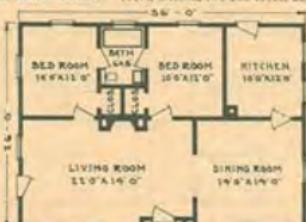

PLAN B

Four closets feature this Poplar Plan "B". Small hall leads to both bed-rooms and bathroom, a highly popular and desirable arrangement. Note size of living-room—20x14 feet.

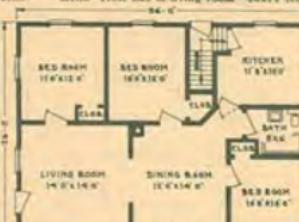

PLAN D

This is a three bed-room plan with unusually large dining-room, a feature appealing to many.

PLAN E

Here is a plan with a great big living-room; big dining-room and two bed-rooms with fine closets.

PLAN F

A brand new three bed-room plan that we are sure you will like for it is a complete home in every respect.

## Artistic Exterior Combined With Perfection in Room Arrangement

This is a new product of our designing rooms—and one that has attained tremendous popularity with our customers. It would be hard to find a more charming home than the one shown above.

The circle top door with its ornamental wrought iron hinges and Colonial design lockset add much to the attractiveness of the front entrance.

The roof lines are especially well proportioned. Many letters have been received from enthusiastic owners of this lovely home.

## Talked Out of \$2,500.00

Morristown, Pa.

Gentlemen:

I am very well pleased with the Glendale and am convinced the ready cut system is the most economical. This is the third house I built in the past couple of years, the other two I purchased the lumber locally and had a contractor build the first one and it cost me a plenty, just about twice as much as the Glendale will when completed. The second one I built myself doing the carpenter work, plumbing and electric, everything but the plastering; and I believe the contractor made about \$2500.00 profit on the first one.

I had practically made up my mind to put up a ready cut house but I let the contractor influence me that he could build cheaper, but from the experience I had with the second house and now the ready cut house, I believe he talked me out of about \$2500.00.

Respectfully yours, James J. McGlinn.

THE GLENDALE

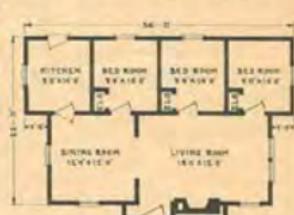

Four plans are shown and priced below and each one is a masterpiece of interior arrangement. The prices quoted are for siding on the exterior. In order to use shingles it is necessary to use wall sheathing under them. See quotation for wall sheathing and building paper on page 31.

Instructions for ordering and complete order blank will be found on pages 31 and 32. Specifications on back cover. With this home slate surfaced shingles instead of roofing, are included in the price.

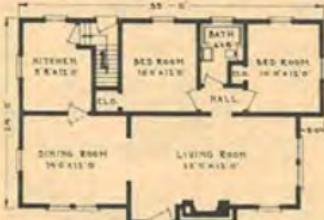

PLAN A

Plan "A" is a perfect three bedroom arrangement that will fit on a 30-foot lot. Big value for every invested dollar is surely represented here.

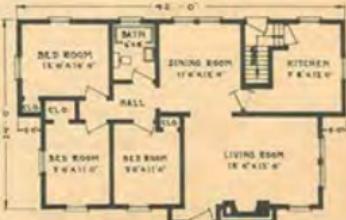

PLAN B

Plan "B" is a three bedroom arrangement giving very desirable accommodations for the large family. It is a particularly popular plan.

PLAN C

Plan "C" is size 39' x 24' feet over all. A wonderful 22 foot living room and large dining room feature this plan.

PLAN D

A beautiful three bedroom home, over 42' x 24' feet over all. Many buyers tell us they have saved a good thousand dollars or more on this house.

# ALADDIN Houses Are Sold by the Golden Rule

THE SPRUCEWOOD

Chaste simplicity is the keynote of this home—a design that has given pleasure, satisfaction and comfort to hundreds of American families. It is ideal in plan and arrangement. We challenge the world to produce more home conveniences, or equal the cheeriness, beauty and brightness

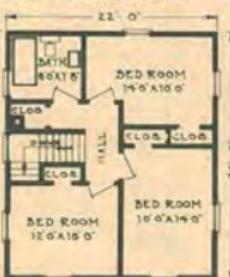

of its interior. The more you will become attached to its splendid values. It includes everything that the housewife values in interior arrangement and convenience. The choice of two sizes and the choice of four upstairs plans will meet the needs of any size family.

The prices quoted are for siding on the exterior. In order to use shingles on the walls, as shown in the photograph above, it is necessary to use wall sheathing under the shingles. See quotation for wall sheathing and building paper on page 31. The porch is 20 feet wide and 8 feet deep. If you do not wish to build the masonry piers as shown in photograph we will furnish full-length columns to extend to porch floor. Porch is priced separately so you can order this porch or some other porch shown in the catalog or leave it off entirely if you so desire. See specifications on back cover.

THE PINEWOOD No. 1

## You'll Get a Wonderful Home Value in the Pinewood

The Pinewood is an interesting adaptation of Dutch Colonial architecture to the American Colonial Type. It is always good and never goes out of style, apparent by studying the above picture. It is a story and a half home, all ceilings on the first and second floors are square and full height. The Pinewood will be a joy and the object of admiration wherever it may be built. It can be placed among the finest homes with credit to its owner. Records of savings up to \$1000.00 have been sent us by customers who are living in the Pinewood. Two sizes are shown—one 26x22 feet and one 36x26 feet.

The 8x14 foot pergola porch with weather tight roof is priced separately so it can be ordered or left off according to the width of your lot. This also applies to the 10x14 foot porte-cochere shown over the driveway on the Pinewood Number 2.

*See specifications

This is a choice three bedroom design, including dining-room, dining-room, kitchen and bathroom. It gives immense value for the cost.

This plan gives slightly bigger rooms than Plan "A" by cutting out the bathroom. Makes a splendid plan where running water is not available.

A plan including a front entrance stairs, two fine bedrooms, with a hall leading to each and to bathroom. Note extra large closets.

Plan "D" is another two bedroom arrangement that has proved its popularity over a number of years.

# Cash Selling Is the Secret of Our Low Prices

THE BELHAVEN

Here is a home that for convenience, compactness and economy cannot be surpassed. All exposed lumber, inside and outside, is knotless. Aladdin Certified lumber, insures highest quality and sturdy construction. Aladdin Homes are warm and snug in coldest winter weather. The gabled hood over the front entrance, the French Door and the blinds on the front windows lend a pretty touch to the front of the Belhaven Home and the gabled dormer in the roof adds grace to the whole. Four plans are offered for your choice. Plan "A" provides for two bed-

rooms with roomy closets and bath. Plan "B" is a three bed-room plan. Plan "C" is a two bed-room and bath arrangement and a convenient pantry is included off from the kitchen. Plan "D" is distinguished by the stairs to the basement and in addition includes two bed-rooms, each with a closet, living-room, dining-room, kitchen and bath. Freight paid prices are quoted at the right. A list describing the materials furnished with the Belhaven will be found on the back page.

# It's Cheaper to Borrow Money, and Pay Cash for What You Buy

THE BIRCHWOOD

## Buying All Materials From One Company Under a Strong Guarantee of Satisfaction Commands for You the Best Price and Saves Trouble

Four very interesting floor plans are shown below for the Birchwood. Every one of these plans has proved genuinely satisfactory over a period of years. Only by buying direct from the manufacturers is it possible to secure first class lumber and materials at so low a price, and then only on a cash basis.

Always remember that Aladdin guarantees you will have sufficient material to complete your house as stated in our specifications. And this guarantee also covers safe arrival of all material in perfect condition.

The Birchwood draws praise from all classes of people, wherever it is erected. It is pretty and dignified and substantial and strong. You will like it immensely. See specifications on back cover.

The porch shown in the picture is 16x8 feet in size and is priced separately so you can purchase it with the home or not, as you prefer. Any Aladdin porch can be purchased and used with any Aladdin home, providing of course, the porch is not too big for the house. If you would prefer not to build the brick corner piers of the Birchwood porch, we will furnish you with longer porch columns that will rest on the porch floor.

### "I Saved About \$1,000"

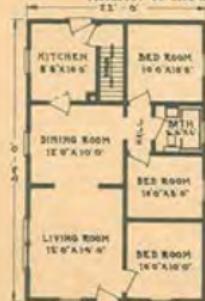

Montpelier, Ohio.

I am greatly pleased and satisfied with my house and regard you very highly. I would surely buy another home if I were to build again. Some people are afraid, as the carpenters and lumber dealers discourage ready-cut houses, that the amounts to the extent of a saving of about \$1,000.00 by buying from you.

C. R. Gorgas.

Interior of the Birchwood

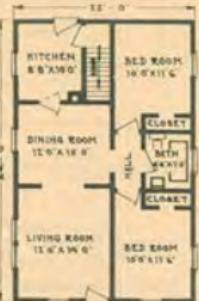

PLAN A

Plan "A" is a good one for the last detail for a family of six. Three bed-rooms, cellar stairs and bath—living-room, dining-room and kitchen.

PLAN B

Plan "B" is another wholesome three bed-room arrangement—light, airy and unusually well planned.

PLAN C

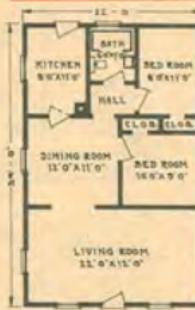

Plan "C" is a very popular two bed-room arrangement—hall leading to both-rooms and both bed-rooms, cellar stairs included in plan.

THE HAWTHORNE

The Hawthorne is a fine example of the average American Home, modern, efficient, convenient, strong and warm. It is a perfect example of Aladdin values, ideal in size, perfect in proportion and effective in everything a home should be. Seven different plans of the Hawthorne are offered for your consideration. The room arrangements are the result of our years of experience in meeting homebuilder's needs. All materials are of our standard high qualities. All lumber is cut to fit as per specifications. The 22' x 8' porch shown in the illustration is priced separately to permit you omitting it or selecting some one of our other

porches if you prefer. If desired, the porch columns can be furnished to extend down to the porch floor, making the cement block piers unnecessary. You will be proud to own and call the Hawthorne "Home." Instructions for ordering are given on page 31. See specifications on back cover.

## See Specifications Page 32

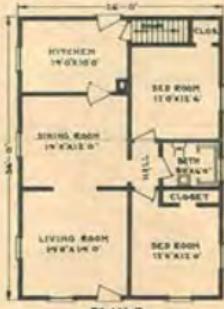

Every inch of space is developed into useful purpose in this three bed-room plan of the Hawthorne. All rooms are well-proportioned and of generous size.

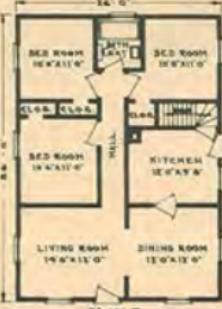

Six rooms and bath—three bed-room plan—this Hawthorne fills the needs of the large family perfectly. Plan "B" is a popular one offering every comfort.

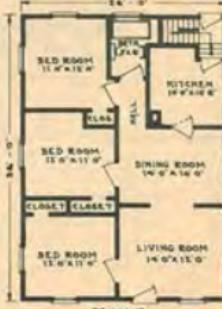

A grade cellar entrance is a special feature of Plan "C" which includes every convenience of the most elaborate home at a most modest cost.

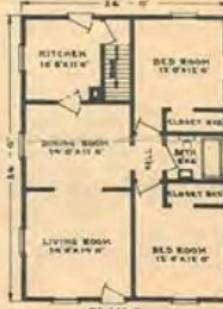

Plan "D" offers complete conveniences with very large rooms. A study of this plan will convince you that it will make a perfect home.

Here is a different arrangement from the usual and one that has a wide popularity. A central marlway is made a part of this plan. A long hall is an especial feature.

Three bed-rooms, grade cellar entrance, ample closet space and well placed bathrooms distinguish Plan "F". Arch between living and dining-room gives desirable air of spaciousness.

A typical example of good conventional design is illustrated in the above floor plan arrangement. Every convenience of the modern American home is incorporated.

# FREIGHT PAID ALADDIN MONEY SAVING READI-CUT GARAGES BUILD IT YOURSELF

The Aladdin garages shown on these pages cover the demand for ninety-five per cent of all garages built. Aladdin garages are sturdy and built of high grade materials. Lumber is all cut to fit. A couple of

days' time will erect and finish one. Experience is unnecessary. Erection instructions furnished. Prices quoted are astonishingly low and the freight is paid to your railroad station.

Best quality green shote surfaced asphalt roll roofing for roofs. Swinging doors, each pair doors eight feet wide and seven and a half feet high. Windows, furnished when shown in illustrations.

are swinging easements, size of glass 18x24 inches. Hardware for doors and windows, nails and two coats of paint for exterior. Materials ready-cut and complete drawings and instructions for erection. All garages are furnished without floors as most owners prefer to build floor of concrete or cylinders. If doors with glass in top section are desired for any garage shown with solid doors, add \$8.00 for each pair of doors to price of garage.

**FREIGHT  
PAID**

# Aladdin Summer Cottages

**BUILD IT  
YOURSELF**

In presenting this line of Aladdin Summer Cottages, we have selected only those cottages which have proved popular during the past years. We have sold thousands of these designs. They can be found nestled on the banks of lakes and rivers throughout the entire country.

Three things are chiefly essential in a Summer Cottage—protection from the sun, light and ventilation. In each design these three important factors have been born in mind. But always we have kept cost down without sacrificing strength or weather tightness. Every cottage is strong, tight and substantially built of Aladdin Certified Materials.

Only high grade materials are furnished for Aladdin summer cottages. Clear and knot-free lumber, fine flooring, flooring, doors, and rear doors, etc., etc. distinguish Aladdin summer cottages from the ordinary kind.

These grades are unusual in summer cottage construction but do not increase YOUR cost. We buy these high grade materials in such large quantities for our Aladdin Homes that there is no saving in substituting second grade materials for our summer cottages.

A comparison of prices with what the same sized cottages can be built for through any other source, will immediately show you the remarkable saving, a saving you cannot afford to lose.

## The Statler

is a substantial, comfortable summer home, and is shown here in three plans and sizes. Prices are quoted at the right.

The Statler No. 1 is size 20x18 feet over all, having three bed-rooms and combined dining-room and kitchen.

The Statler No. 2 is size 20x22 feet, having living-room, two bed-rooms and kitchen.

## The Statler

**Freight Paid Prices**

Plan No. 1 \$332

Plan No. 2 \$362

Plan No. 3 \$361

Our price includes not only the materials but a very large proportion of the labor—all cutting and fitting having been done at our factory.

Every piece of lumber in Aladdin cottages is cut to our mill scale to exact length, breadth and thickness, and is ready to receive paint or varnish when you receive it. Aladdin cottages are not sectional in any sense. They cannot be taken apart, or moved except as building.

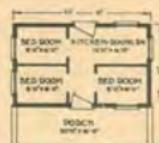

In accordance with customary Summer Cottage Construction, we do not furnish any material for painting, staining, finishing, or varnishing. Two coats of paint are, of course, furnished for the exterior. You can have any color desired.

Doors and rear outside doors are furnished, but we do not provide inside doors nor front or rear steps.

A distinct feature in connection with the erection of your Aladdin Summer Cottage is the fact that you can have your entire house erected in one day after the erection and completion of your cottage on the ground at one time. Nothing will be forgotten or overlooked. Summer cottages are usually built at places some distance from town, and you will have to pay extra freight charges for moving money. Your Aladdin Cottage arrives at destination complete. The lumber is all there, ready to nail in place. The windows, glass, doors, roofing, locks, nails, hinges, paint—in fact everything.

Page 28

STATLER No. 1

STATLER No. 2

STATLER No. 3

## The Seaford

Among the large types of summer homes, the Seaford stands out for the many unusual qualities it possesses.

The Seaford No. 1 has three bed-rooms. A big porch, 22x8 feet, living-room and kitchen complete this good type.

The Seaford No. 2 is a decidedly popular plan. Big porch, big living-room, three bed-rooms, kitchen and rear porch. Can be built on a narrow lot.

The Seaford No. 3 has a porch and six rooms. The three bed-rooms can be made four by making a combination living-room and dining-room.

The Seaford No. 4 has a living-room, dining-room, kitchen and two bed-rooms. This plan permits simple alterations if a dining-room is not desired. By omitting the partition between the kitchen and dining-room, a large room across the entire front of the cottage, 24x10 feet in size, will result. Or, if desired, the dining-room can be used as a kitchen and a third bed-room made of the regular kitchen in the plan.

The Seaford No. 5 is a four bed-room plan—permits alterations to suit individual taste. Extra porches can be taken care of by having beds arranged on the large porch or in the spacious living-room. An exceptionally good cottage for a large family.

See Specifications on Page 28

Any Aladdin Summer Cottage can be altered by different previous experience. The materials are cut to exact mill scale and ready for nailing in place, and you will be assisted by complete detailed blueprints and pictures.

SEAFORD No. 4

SEAFORD No. 2

SEAFORD No. 3

SEAFORD No. 5

**The Shasta** The quality of material furnished for Aladdin Summer Cottages is far superior to that used in most cottages. We buy the best material for Aladdin homes and furnish this same material for our cottages. This gives you better material than average summer cottage material, but costs you no more. It is

cheaper for us to give you this extra good material than carry two stocks.

Four sizes and plans are shown for the Shasta, one of our most popular summer cottage designs.

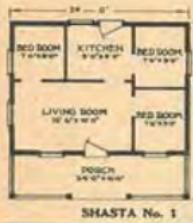

Over all dimensions of Plan No. 1 are 24x24 feet. Porch, living-room, three bed-rooms and kitchen make up a very complete cottage.

Plan No. 2 is 28x26 feet over all. Note the porch, size 28x8 feet, real summer living conditions here. The interior affords a fine living-room, three bed-rooms and kitchen. It is most conveniently planned.

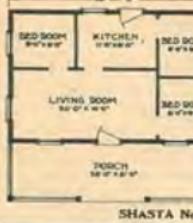

Plan No. 3 is size 36x30 feet over all. Big porch and seven rooms. A splendid summer cottage type.

The No. 4 Plan of the Shasta is 32x30 feet in size and includes three fine bed-rooms and a kitchen, all 8x10 feet in size—generous proportions for a summer home. In addition, a very large living-room, dining-room and porch complete a plan that cannot fail to please.

*See specifications page 28.*

Plan No. 2 — 528

Plan No. 3 — 737

Plan No. 4 — 674

**The Ocean Park** In accordance with customary summer cottage construction, the outside wall studding of Aladdin Summer Cottages is exposed, leaving the smooth inside surface of the drop siding showing. The matched ceiling partitions extend up to the wall height and as the rooms are open overhead, perfect ventilation is obtained.

Some fine features are included in the five Ocean Park plans that will attract folks desiring the utmost comfort in a summer home. The

main roof extends over the porch in each design, giving greater ventilation area inside, and a place for storage. Plan No. 1 is a two bedroom size, and is priced astonishingly low.

Plan No. 2 is the same width as No. 1, but four feet longer and includes three bed-rooms.

Plan No. 3 offers an interesting arrangement and some distinct advantages. It is size 20x36 feet, has big inset porch, three bedrooms, living-room, kitchen and two closets.

The Ocean Park No. 4 is 18x34 feet in size and has a living-room, dining-room, kitchen and two bed-rooms. One owner of this cottage uses a curtain hung on a wire across the living-room, forming a third bed-room when occasion demands, directly in front of the other two bed-rooms. When not in use, the curtain is pushed back to the sides, giving the full efficiency of the 18x10 feet living-room.

The Ocean Park No. 5 has the same arrangement as the No. 2 Plan but all rooms are larger because the cottage itself is 2 feet wider and 4 feet deeper than the No. 2 Plan.

Plan No. 2 — 458

Plan No. 3 — 578

Plan No. 4 — 496

Plan No. 5 — 542

**The Luna** From the standpoint of good architecture, splendid room arrangement and comfortable accommodations, the Luna is a summer home of superior qualities, yet it can be erected at a low cost. It is large enough for the average family. Storage space over the porch is a desirable feature.

The inside partitions of Aladdin Summer Cottages are composed of a single thickness of clear and knotless, double faced, matched

ceiling material. This material stands on end and is held in place by a partition cap at the top, grooved to receive the matched ceiling. At the floor line the matched ceiling partitions are firmly held by a moulding on each side. You will understand from this description that during construction it is usually a very simple matter to rearrange partitions in your cottage at will, providing you prefer a different room arrangement than our plan shows.

Plan No. 1 has three bed-rooms, big living-room and kitchen. Two men have built and finished this house in five days.

Plan No. 2 provides for a spacious sitting room, a kitchen and a good-sized porch. The dimensions of the Luna will permit this house to be built on a narrow lot.

Plan No. 3 has three bed-rooms, big living-room and kitchen. A very popular plan.

Plan No. 5 is distinguished by the size of the kitchen; an important room in a summer cottage. Three bed-rooms, a large living-room and porch are also provided.

Plan No. 6 is a big, roomy cottage with four bed-rooms, living-room and kitchen. All rooms are good size and the big living-room and porch permit the entertaining of many friends at one time.

**The Shoreview** Five sizes of the popular Shoreview are shown here. Any one of them can be built on a very narrow lot.

Shoreview No. 1 is a snug little layout of four rooms and porch. It's good looking, too.

Shoreview No. 2 is an Aladdin design famous the country over. It is the original and the first five room plan we ever produced. And it's a complete home, too. Study it.

Plan No. 5	560

Shoreview No. 3—a new one! Four bed-rooms—think of it—at such an astonishing price. Hold a regular crowd over night, won't it? A big room. You'll be delighted with it.

Shoreview No. 4 is a simple design that is particularly convenient. Three bed-rooms, living-room, kitchen and porch complete the arrangement.

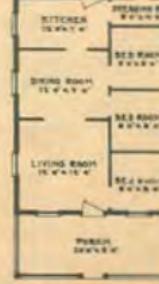

Shoreview No. 5 is a very popular design because of the dressing room space. If preferred, this space can be used for toilet purposes, storage or closet space. It is a cottage you will always be pleased with.

See specifications page 28

Any Aladdin Summer Cottage can be erected by you without previous experience. The materials are cut to fit in our mills ready for nailing in place, and you will be assisted by complete detailed blueprints and pictures.

SHOREVIEW No. 5

**The Genesee** The Genesee is a strikingly good looking summer cottage and is shown here in four sizes.

The Genesee No. 1 is 24x22 feet over all and contains

[View Details](#) [View Details](#) [View Details](#) [View Details](#)

The floor plan shows a single-story house with a total width of 24' and a depth of 47'. The layout includes a central hall, a Living Room (10'0" x 14'0"), a Kitchen (10'0" x 11'0"), and two Bed Rooms (each 10'0" x 11'0"). A front Porch is located at the bottom of the plan.

**The Asbury** The Asbury is a cozy summer cottage of pleasing lines. The porch can be screened in to give an outdoor living-room.

Plan No. 1 is the smallest Aladdin cottage built—two

rooms. But it's just as well built as our larger cottages. Asbury No. 2 is 4 feet deeper than No. 1, and has three rooms. It's just a cute little cottage for the modest demand. Why not build it yourself? You can easily do it.

Asbury No. 3 is 16x22 feet over all.

**SEE SPECIFICATIONS  
PAGE 28**

The floor plan shows a rectangular house with the following dimensions:

- BED ROOM**: 8'0" x 11'0"
- BED ROOM**: 8'0" x 11'0"
- LIVING RM**: 10'0" x 13'0"
- PORCH**: 4'0" x 6'0"

A floor plan of a house. The front entrance leads into a Living Room measuring 12' x 16'. To the left is a Dining Room measuring 8' x 10'. A central hall contains a staircase. To the right of the dining room is a Kitchen measuring 8' x 10'. At the rear of the house are two Bed Rooms: one measuring 10' x 12' and another measuring 8' x 10'. A back Porch measures 10' x 12'.

**Hunter's Lodge** This little building has met a demand for a low cost camp or "shack" in the woods. The same high class materials are used in its construction as in our big cottages. The plan shows the 12 feet x 16 feet size but the Hunter's Lodge can also be furnished in a 12 feet x 20 feet size. See specifications page 28.

**SPECIFICATIONS FOR SUMMER COTTAGES**

Sills 4 in., & 6 in., four joists 2 in. x 6 in. on 24 in. centers; clear pine, balsam, spruce and greenwood flooring. Stairs 2 in. treads, 10 in. risers, 12 in. wide. Stairways in top places 2 ft. 6 in. wide. Exterior walls covered with clear drug-siding; interior partitions clear and plain pine. Front door 3 ft. 6 in. wide, 7 ft. 6 in. high, all five sides adjustable of glass or glass and screen. 26 in. x 24 in. back door. Side doors 2 ft. 8 in. x 6 ft. 6 in. upper part of door glassed, lower part of door screen. Back door, wall panelled, doors screened, porch, exposed rafters, H. projection, and sheathing laid tight; green, slate, shingle, or wood shingle roof. Foundation stone or concrete; lock sets, hinges, spring window bolts, doors, etc., to complete house; complete blueprints showing all materials so anyone can follow them. We are the freight.

# FACTS ABOUT ALADDIN HOMES

## What Is an ALADDIN House?

When erected an Aladdin house is exactly the same as any well built house.

There is no difference in the materials; no difference in sizes, grades or kinds.

It is assembled exactly the same, erected the same and finished the same.

## What Is the Difference Then?

The difference is that you buy all your materials in one lot direct from the manufacturers, saving middlemen's profits; and a further difference is that your lumber is cut to fit by modern, fast, accurate machinery instead of hand saws on the job saving you about a third of the labor and saving you at least 18% lumber waste.

## Why Do ALADDIN Houses Cost Less Money?

For exactly the same reason that Automobile Manufacturers can build a good, serviceable automobile so cheaply—big production and modern factory manufacturing methods. And for the further reason that Aladdin Houses are sold direct to home builders—to you—no middlemen to add their profits to the price you pay. Also because Aladdin sells only for cash and you save the charges, costs and expenses the credit dealer adds to his price. Another reason is that this catalog is our only salesman. Aladdin has no agents and therefore nothing has been added to Aladdin prices to take care of agent's commissions.

## What Do You Get When You Buy an ALADDIN House?

The price quoted for each house in this catalog includes all the lumber cut to fit, all windows, doors, door and window frames, outside casings, siding, flooring, interior woodwork, roofing, nails, door and window hardware, glass putted in sash, paints, stains, varnishes, and complete drawings and instructions to make it easy to build—and we pay freight on the whole house.

## How Long Have Readi-Cut Houses Been on the Market?

For twenty-four years. The Aladdin Company was first started twenty-four years ago by W. J. Sovereign, who originated the system, and O. E. Sovereign. Nearly a million ready-cut houses are standing throughout the world today. Aladdin houses have been purchased by the United States Government and many foreign governments, by great corporations and by thousands upon thousands of home builders. They have never failed to give the highest satisfaction.

## What Is the Difference Between Readi-Cut and Portable?

A portable house is built in sections, of lighter materials, and bolted together. It can be unbolted, taken down and moved elsewhere. That's the reason for the name; it can be transported from place to place—hence "Portable." A Readi-cut House, being of standard construction, when erected cannot be taken down or taken apart, except as you would tear apart any other well built house.

## Why Do Some Dealers and Contractors Talk Against Readi-Cut Houses?

For the simplest reason in the world. They have no chance to make a profit on the house you buy from Aladdin. YOU keep the profits in your own pocket that you would ordinarily pay to the local dealer. When your

local dealer says: "Don't buy your lumber out of town," ask him where he buys the lumber he wants to sell you. You see he buys his lumber up here and the only money that stays in your town is his profit. Wouldn't you rather have it in your pocket than in his? Many contractors don't like Readi-cut houses because they lower labor costs about a third. They therefore make less money building one.

## Why Do We Sell for Cash Only?

Because we have found that we can be of greater service to the home builder, to you, by selling high quality materials for a low, cash price than we can by selling on Credit at a much higher price.

It is a fact that most people who buy on a Credit Payment Plan have to pay from one-quarter to one-third more than the Cash Buyer. That means the work and savings of three or four years paid out for nothing. **Compare our cash prices with those offered by others who sell on a credit payment plan and you will find they are charging you heavily for the privilege.** They have to do it.

The way to avoid these extra charges is to buy and build on a cash basis. If you do not have the cash on hand to pay for your home, borrow it from your bank or building and loan company and pay cash for your materials. The bank will charge you the regular rate of interest only. Your saving will amount to hundreds of dollars, the exact amount depending on the house you purchase.

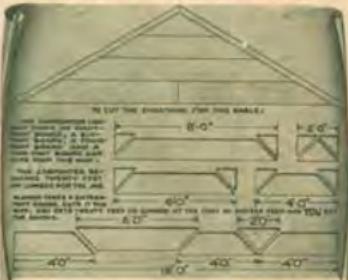

## How Will My ALADDIN House Be Shipped?

Your Aladdin house will be shipped to you freight paid from one of our own mills. It will be shipped complete in a sealed box car. Its safe arrival at your station in perfect condition is guaranteed by us. If anything should be missing or broken WE will immediately make it good. Your home will be shipped from one of our own mills, from Bay City, Michigan, or from Wilmington, North Carolina, or from Portland, Oregon, whichever mill is nearest to you.

## Twenty Feet of Lumber From a Sixteen-Foot Board

Look at the picture below and you will see one of the ways we save your money by

the Aladdin Readi-Cut System. You will learn that you do not buy good lumber to go in the waste pile, where so much of your material would go if you build by the old method. The lumber that's wasted costs just as much as the lumber that's used. Aladdin practices this and similar economies in cutting all materials,

and these savings amount to more than eighteen percent—\$18.00 out of every \$100.00 saved! Factory planning and cutting saves waste—saves your money. You can build an Aladdin home in about half the time it takes to build a house that is not Readi-cut. Even though you decide to hire all the work done, you will make a big labor saving

because so much of the work has been performed for you at our factory. Compare the time it takes a carpenter to measure, mark, saw and fit with the time required to nail a piece in position.

#### What Kind of Lumber Will I Receive?

Aladdin houses are built of the finest grades of lumber ever put into homes. The siding is clear and knotless, the flooring is clear and knotless, the interior woodwork is clear and knotless, the doors are all clear and knotless and the porch lumber is clear and knotless. The joists, studding, rafters and frame work are all sound, clean, straight and strong timbers. All materials furnished are thoroughly seasoned and of standard size. Aladdin Certified Lumber is guaranteed satisfactory.

#### Can I Build My Own ALADDIN Home?

Yes, with our simple easily understood drawings and instructions. Four out of five Aladdin customers build their own houses themselves or with the help of a handy man or carpenter. They thus save a big part of the money usually paid out for labor. Because the lumber is accurately cut to fit when you receive it, the expert knowledge of the carpenter is not needed. And also, because of that fact, the hard work of sawing and fitting is saved you.

#### Facts About the ALADDIN Company

The Aladdin Company is incorporated for \$2,000,000. It owns and operates three great manufacturing plants, one each in Michigan, North Carolina and Oregon. They operate right at the edge of the greatest timber forests

HOME OFFICES THE ALADDIN CO.

mers of the Company started it twenty-four years ago. This management has never changed. The Aladdin Company is the originator of the Readi-cut System of home construction.

#### Masonry, Chimney and Fireplaces

Chimneys can be located anywhere in the house you like, for we do not cut the materials for these openings. If you do not want the fireplace which may be shown in the photograph you need not build it. Of course any excavation work and the foundation work must be done on the ground. Brick, stone and cement can be had in your locality as cheaply as we could furnish it. We furnish you a foundation plan to tell you exactly how to proceed to build the kind of foundation you want.

#### Plans Can Be Reversed

Reversing plans means changing rooms to the opposite side of the house. That is, all rooms now on the right hand side would be on the left hand side and all rooms now on the left hand side would be on the right hand side. We can furnish all materials so your house can be reversed and will do so on request without extra charge.

#### We Furnish

#### Complete Blueprints

Complete blueprints, a book of instructions and pictures showing every step in the erection of your home are furnished with every house, cottage or garage. Even though you are not a carpenter these drawings will show you just how to do the work.

#### Quick Shipment

We can ship any regular house in this catalog within a week after receiving your order. However, we prefer to be given a little more time if convenient to you. Tell us when you want your house shipped when you send in your order.

#### Freight Paid Prices

The freight paid prices quoted in this catalog apply to shipments into the States of Michigan, Ohio, Pennsylvania, New York, Minnesota, Wisconsin, Iowa, Missouri, Illinois, Indiana, Kentucky, West Virginia, New Jersey, Connecticut, Massachusetts, New Hampshire, Vermont, Maine, Rhode Island, Maryland, Virginia, Tennessee, North and South Carolina, Georgia and Alabama.

#### ALADDIN Guaranty

**Satisfaction or your money back** is the strongest and soundest guaranty ever written. When this guaranty is backed by a Two Million Dollar Corporation you are assured of absolute safety in all your dealings. We only carry one quality and that is the best and whether you buy the largest or smallest house you will receive the same guaranteed quality.

**Terms** Aladdin Homes, Summer Cottages and Garages are sold only for cash. The price quoted is for full cash with order.

Or, if you desire, we will ship on receipt of one-fourth of the amount with order, the balance, plus a charge of \$10.00, to be paid on arrival of materials at your station.

No cash is necessary with your order if you will enclose a letter from your bank or Building and Loan Association guaranteeing to us that the full amount of your order, plus a charge of \$10.00, will be paid when the materials arrive at your station.

Also, we will ship without cash on receipt of a letter from your bank or Building and Loan Association stating that our money will be paid to us as construction progresses. Write for details.

#### Prices Subject To Change

All prices quoted in this catalog are subject to advance on May 5th, July 5th, or September 5th.

**References** For references you may inquire of Dun's or Bradstreet's Commercial Agencies, The First National Bank, of Bay City, the Murchison National Bank, of Wilmington, North Carolina, The First National Bank of Portland, Oregon or any City Official of any of these Cities, or write to any of our customers.

#### Visit Our Mills

If you live near enough to one of our mills we would welcome a visit to us. We will be glad to show you everything we furnish and give you all information you would like to have.

# SPECIFICATIONS

The Aladdin Company guarantees to furnish a sufficient quantity of material to complete your home in accordance with the specifications listed below.

**SIZES OF MATERIALS**—All sizes of all material will be in accordance with well established engineering and architectural standards of safety and strength.

**QUALITY OF MATERIALS**—All lumber is guaranteed to be of high quality—in fact, higher than is customarily used. Only Aladdin Certified Materials are furnished. Every Aladdin house, regardless of size or price, comes under this guarantee.

**GIRDERS**—6"x6" built up of three 2"x6" for all houses except Glendale and Pinewood No. 2 which are provided with 6"x8" girders built up of three 2"x8".

**WALL PLATES**—2"x6" foundation wall plates furnished when solid wall foundation is to be used.

**FLOOR JOISTS**—2"x8" on 16" centers. All joists are dressed and cut to fit. Bridging furnished for all 2"x8" floor joists. Floor joists on St. Clair, Basswood, Cottonwood, Firwood, Walnut, Filling Station, Tourist Cottage and Roadside Store, Convertible, Oakwood, 18'x18' Maples, Redwood, Beechwood, Cypress and Whitehall and second floor of Magnolia are 2"x6" on 16" centers because of the shorter spans in these houses.

**FLOORING**—The flooring used in Aladdin homes is Clear and Knotless, tongued and grooved, accurately matched. It is 3 $\frac{1}{4}$  inch thick with a 2 $\frac{1}{8}$  inch face, machined to give a beautiful finish.

**STUDDING**—For walls and partitions 2"x4" placed on 16" centers, selected for quality. All walls and partitions have top and bottom plates which is the approved type of construction in accordance with engineering standards and good practice. All studding cut to exact length ready to be nailed in place.

**SIDING**—Clear and Knotless bevel siding. Aladdin Certified Quality.

**CEILING JOISTS**—2"x4" on 16" centers. Selected quality, dressed and cut to exact length, ends mitered ready to nail in place.

**CEILING HEIGHT**—All Aladdin houses are furnished with an 8' ceiling height except the first floor of the Hickory, Sprucewood and Pinewood which have a 9' ceiling height and the Glendale which is provided with an 8'6" ceiling height.

**RAFTERS**—2"x4" on 24" centers. Perfectly mitered and cut to fit. Rafters on the Huron, Poplar, Glendale, Belhaven, Hawthorne, Pinewood No. 2 and 26'x26' Maples are 2"x6" on 24" centers.

**ROOF SHEATHING**—Inch lumber to be laid tight. All sheathing dressed, cut to exact length and ready to nail in place.

**ROOFING**—Made of heavy weight felt base, saturated with asphalt and surfaced with natural green slate firmly imbedded in the heavy water proof base. Roll roofing furnished for all houses except Pinewood and Glendale which are priced with asphalt strip shingles. See prices on asphalt strip shingles for other houses on page 31.

**OUTSIDE FINISH**—Such as corner boards, frieze, casings, moldings, etc., manufactured of Clear and Knotless stock.

**WINDOW AND DOOR FRAMES**—Complete including jambs, stops, inside and outside trim. Manufactured of finest Knotless stock, bundled ready to assemble.

**WINDOW SASH**—Manufactured of Knotless stock. Glass is in sash ready to hang. All windows in one story houses and on second floor of two story houses check rail type, size of glass 26"x24". First floor windows in all two story houses except Magnolia are 26"x28" check rails. Exception—Kitchen and bath room windows are usually smaller to permit placing kitchen or bathroom fixtures beneath them.

**DOORS**—All doors are of the best quality, perfect in every way and, of course, Knotless. The outside doors have the glass placed in them ready to hang. The inside doors are of a two panel design. All panels are selected for beautiful grain. See illustration page 30. When they have been stained and varnished you will agree that nothing finer could be furnished. Doors to rooms are 2'8" wide by 6'8" high. See prices on closet doors on page 31.

**INTERIOR WOODWORK**—6" baseboard, base shoe, two member trim for all doors and windows. Clear and Knotless stock. Perfectly machined ready to receive the stain and varnish we furnish.

**LOCK SETS**—Frosted brass finished, mortised lock-sets and 3 $\frac{1}{2}$ " hinges furnished for all doors.

**PAINTS—STAINS—VARNISHES**—Two coats furnished. We have used unusual care in the manufacture of our paints, for the appearance of a house depends to a great extent upon the quality of the paint. We want every Aladdin house to look its best, therefore we use the best paint.

The same care has been exercised in selecting the stain and varnish that is supplied for the interior woodwork and doors.

**HARDWARE**—Nails of all sizes in proper amounts to complete the house, sash cord, weights, pulleys and sash locks for all sliding sash windows, casement locks and hinges for swinging windows and double acting floor hinges for door between dining room and kitchen.

**BLUEPRINTS**—Complete blueprints showing every step of erection are furnished with every order so that even though you may not be a carpenter, you will know just how to erect your home. We also send you a complete book of instructions telling you about every step in the building of your home.

**FREIGHT PAID**—Prices quoted are freight paid to your station. (See freight paragraph Page 30.)

**REVERSING PLANS**—Plans can be reversed without charge. This will place all rooms on opposite side of house from that shown in our catalog. Kindly mention when ordering if this change is desired.

**ROOM SIZES**—Figured from outside of walls to center of partitions.

**NOTE**—See top page 31.
