PLAN No. 1

## The Gables

THE GABLES is a particularly attractive and distinctive home. Two sizes and floor plans are shown. In both the living room is large and given greater spaciousness by the alcove type dinette. Note that the kitchen has light and exposure on three sides. Two bedrooms with ample closets, hall and bath offer every comfort and convenience. The genuine quality of all materials in Aladdin Homes is a great satisfaction to every owner.

PLAN No. 2

METHOD OF MARKING LUMBER  
READY-CUT SYSTEM

**I**N BUILDING an Aladdin Home, you make a large saving in the cost of erection. The part of the work that is the hardest and takes the most time, the measuring, sawing and dressing, is all done at our Mill in the most efficient manner and with absolute accuracy. We cut the lumber to exact size required with modern high speed machinery and can do immensely better work at a much lower cost than hand labour.

With large production and modern factory manufacturing methods, we effect a saving for you on all items entering into the construction of your home.

#### THE ALADDIN READI-CUT SYSTEM

##### Doss Away with the Waste Pile Saves 30% Time and Cost of Erection

Not a piece of lumber is wasted in building an Aladdin Home. You pay only for the material actually used in the construction. Our efficient methods mean a saving of many dollars to you. You have seen the waste pile around homes built with lumber cut by hand. Wasted lumber costs just as much as lumber actually used. All this is eliminated with Aladdin Homes.

You save in cost of erection because it takes very much less time to build an Aladdin Home with all the figuring, measuring, and sawing eliminated. Why waste time and money in doing things by hand which can be done much more quickly and cheaply by machinery.

Aladdin Readi-Cut Homes are not a new idea. Thousands of them have been built throughout Canada during the past thirty-three years with the greatest satisfaction. Quantity production results in the same saving in building homes as it does in manufacturing any other product.

You know in advance what the materials will cost, you know there will be no shortage, you know that there will be no waste

and you know that your home will be built at a minimum cost. Buying an Aladdin Home is the safest, easiest and wisest way to obtain your new home.

The fact that the length is marked on each piece, all pieces of the same length are interchangeable, and the various items bundled and marked, means

##### Locating Back Piece Simplifies Joints

The Simple Plan of Laying Out Material on the Site

#### Where the Saving Comes In

FIRST — Machine cutting at the Mill and quantity production in large volume costs so much less than hand cutting on the job, and it's more accurate.

SECOND — You buy the lumber and mill-work at wholesale price and get the very highest grade of dry material at a lower price than you pay locally for just ordinary lumber.

THIRD — Cost of erection is just about one-third less. An Aladdin Home can be built as much more quickly. Hundreds have been built without skilled carpenters as there is practically no sawing or cutting of lumber to be done on the job.

FOURTH — You pay only for the material needed to build your home and there is no waste. We guarantee ample quantity in every respect.

FIFTH — All hardware, paint, glass, nails, etc., are supplied at wholesale rates, and are guaranteed to be first class quality in every respect.

that it is the matter of only a moment to lay your hand on each piece as required and to nail it into position. You save all the time otherwise required for measuring, marking, cutting and fitting each piece by hand.

#### CUTTING THE "CUTTING COSTS"

We illustrate below one of the many minor economies which become possible in mills such as ours which are day after day repeating the same operations. It is natural that each workman should become an expert in his own particular duty, with the result that he discovers short cuts, and develops simple methods for the saving of time and material.

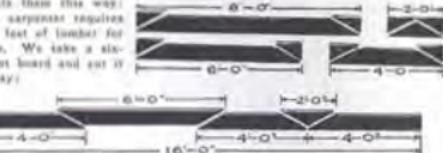

FOR EXAMPLE—TWENTY FEET OF LUMBER FROM A SIXTEEN-FOOT BOARD—HOW IT IS DONE

To cut the sheathing for this gable, the carpenter usually takes an eight-foot board, a six-foot board, a four-foot

board and a two-foot board and cuts them this way:

The carpenter requires twenty feet of lumber for the job. We take a sixteen-foot board and cut it this way:

and get twenty feet of lumber at the cost of sixteen feet—and YOU get the saving.

#### ALADDIN HOMES LEAD IN QUALITY, CONSTRUCTION AND VALUE

Aladdin Homes are exactly the kind of homes that would be erected by the best and most experienced builder. They are not portable or sectional in any way and are the equal of the most soundly constructed homes anywhere. The only difference is in the saving in cost of material and erection, the elimination of all dealer's profit and your assurance of unsurpassed quality.

All the Planning—all the Cutting—all the Experimenting and a large part of the work of Building your home has been done before we ship the materials.

Thousands of enthusiastic owners of Aladdin Homes throughout Canada are firmly convinced that they have built the finest homes at a large saving over the old-fashioned method that is wasteful of materials and labour. What we have done for so many others, we can do for you.

Aladdin Homes are expertly designed and every piece of material is of adequate size and strength for the use to which it is put. No matter what you pay, you cannot have a home more solidly and substantially built or of better materials than an Aladdin Home.

# Only The FINEST MATERIAL

## Goes Into ALADDIN HOMES

1. SPECIALLY SELECTED LUMBER
2. FIRST-CLASS HARDWARE
3. BEST QUALITY PAINTS

### SPECIFICATIONS

**FRAMING MATERIAL**—No. 1 Quality selected for strength and thoroughly seasoned. Accurately cut to fit.

**SILLS**—Cut to fit. Early age 2" x 8" from 2" x 6". High quality, sound, seasoned stock.

**FOUNDATION WALL PLATES**—2" x 4" fastened to sills on top of entire foundation, set in 8".

**MAIN FLOOR JOISTS**—2" x 8" and 2" x 10" according to spans. Spaced on 16" centres and of strength according to best building practice. Doubled around openings.

**SECOND FLOOR JOISTS**—2" x 8" second floor joists spaced on 18" centres for all two story homes.

**PORCH JOISTS**—Outside joists are doubled. Double porch joists through centre as required.

**CETTING JOISTS**—According to span, placed no 16" centres.

**RAFTERs**—2" x 4" and 2" x 6" all accurately cut to length, levelled, notched and marked.

**COLLAR BEAMS**—Where required, in proper sizes to ensure the sturdiness and construction possible, set in 8".

**WALL AND PARTITION PLATES**—2" x 4" plate used at the bottom, and double 2" x 6" plate at the top of all walls and partitions.

**BRIDGING**—Cross bridging in all floor joists. On larger spans two rows of bridging. Cut to fit.

**STUDDING**—2" x 4" wall and partition studing, dressed to uniform size, accurately cut to fit, placed on 16" centres. Doubled over door and window openings.

**GABLE STUDDING**—Mirrored to shape of eaves.

**SUB-FLOORING**—Both upstairs and downstairs, took thick marshalled shingles, laid diagonally on four joists.

**WALL SHEATHING**—The outside walls are sheathed with best quality material. No. 1 matched shingle or tongue and groove dressed.

**ROOF SHEATHING**—No. 1 dressed and matched lumber, covered with heavy asphalt felt under the asphalt slate shingles. All roofs are close boarded and laid tight.

**WATERPROOF LINING PAPER**—Heavy, dense, tough, waterproof lining paper between sub-floor and hardboard floating.

**INTERWALL INSULATION**—Heavy Aladdin Interwall insulation placed on the outside of the wall sheathing, under the siding, shingles, asbestos or brick veneer. It makes the walls tightly, keeping the warmth inside and the cold outside.

**SIDING**—Clear and laminated 6" British Columbia Cedar or 8" wear quality White Pine siding as preferred.

**ROOF SHINGLES**—Best quality 216 lb. asphalt slate shingles of the colour you select.

**ROOF FELT**—To be placed under the asphalt slate shingles.

**WALL SHIMMERS**—Where wood shingles are desired on the outside walls clear Western Cedar shingles are furnished with special shingle pins.

**LATH**—First quality wood lath for the interior. Gypsum Rock Lath plaster base instead of wood lath will be furnished at a small cost if you request.

**STEPS**—For front and rear, cut to fit and finished.

**VERANDAH HAILINGS, BALUSTERS, ETC.**—White Pine, all machined, ready to put in place. Verandah ceiling clear Fir V-joint with varnish.

**VERANDAH FLOORING**—White Pine, best quality, varnished fit and finished.

**OUTER FINISH LUMBER**—All No. 1 White Pine stock, dressed four sides, cut to length, sawn and finished.

**EXTERIOR BOARD AND Drip CAP**—For outside walls, except home houses with shingled walls.

**WINDOW AND DOOR FRAMES**—Finest quality White Pine dressing stock. Cut to fit and carefully finished.

**INTERIOR TRIM**—Moulded base, Quarter round, Door and Window Trim, etc., all Clear Fir taking a beautiful finish of stain and varnish. If you wish to paint the interior trim, White Pine trim will be furnished for a paint finish, without added cost.

**INTERIOR DOORS**—Finest quality, clear Fir doors.

**EXTERIOR DOORS**—Best quality, of design shown in illustration.

**HARDWOOD FLOORING**—First grade class Black hardwood flooring, both stripers and dominoes laid over subflooring.

**MAIN STAIRS**—Clear Fir with birch risers. Newels, handrails, balusters, etc., all machined, cut to fit and finished.

**CELLAR STAIRS**—Always furnished where shown on floor plan. Cut to fit and finished.

**WINDOWS**—The finest glass produced; glass with fine quality window glass, well putted. Furnished with frame and trim, cut to fit and finished.

**FLOWER BOXES, SHUTTERS, TRELLIE, ETC.**—Always furnished where shown on illustration.

**NAILS**—We supply nails of all necessary sizes—extra quantity, galvanized shingle nail, etc., etc.

**FLASHINGS**—Heavy gauge galvanized safety chimney door and window flashings.

**FINISH HARDWARE**—We furnish all finish hardware, including mortise lock sets, modern door knobs, door handles, knobs, hinges, window fittings, etc., of American Brush Brass.

**GLASS**—All windows and doors are shipped with the glass securely packed in glass.

**ROCK WOOL INSULATION**—Insulating Rock Wool is furnished for every Aladdin Home to be placed between the ceiling joists, under the roof. It thermally insulates this area, reducing fuel cost and keeping your home warm and comfortable the year round.

**METAL LATH**—When outside walls are to be stuccoed, we furnish heavy galvanized metal lath for the outside walls.

**PAINTS AND STAINS**—Finest quality ready mixed paints and stains of the colours selected for the outside woodwork, trim, verandah floor steps, verandah ceiling, and all woodwork of the interior. No better paints and stains are manufactured than those you receive with your Aladdin Home.

**INTERIOR WOODWORK FINISH**—For the clear Fir doors and interior trim, we furnish highest grade stain and varnish of the colour selected. Paint will be furnished for the interior trim and doors if preferred.

**FLOOR FINISH**—For the clear birch hardwood flooring, we furnish best grade white statice and wax.

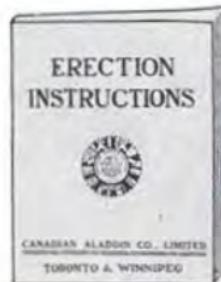

**FOUNDATION, FIREPLACE, CHIMNEY, ETC.**—We do not furnish masonry or plaster materials, as they can be purchased as cheaply in one locality as another. The foundation plan we furnish shows just how the foundation is to be put in. If poured concrete is used for the foundation, the lumber we furnish can be used for the foundation forms and afterwards laid on the forms itself. If you do not have a basement, the house may be built on concrete piers or granite and we will supply the piles around the outside as well as the inside sill.

We do not cut the openings for fireplaces and chimney and they can be located wherever you desire as omitted entirely. Some of the floor plans show the suggested locations. We will furnish windows in place of any fireplace above the floor plan.

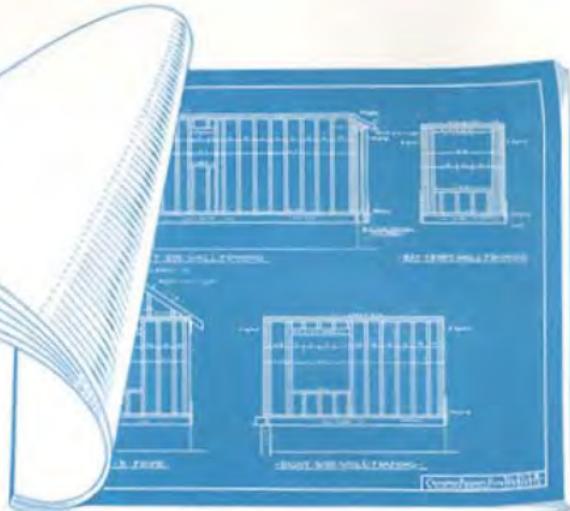

### WALLBOARD

We will furnish Gyproc, Tensil-Test or any type of Wallboard you prefer for the interior. Ask us for quotation on Wallboard for the home you select.

# COMPLETE ERCTION PLANS and INSTRUCTIONS

Furnished  
**FREE**

Foundation Plan

WITH every Aladdin Home we furnish **FREE OF CHARGE** a complete set of Erection Plans and Instructions prepared by our architects showing every board in the house. Every step in the work of erecting the home is explained and pictured. It is impossible to make a mistake. The foundation plan shows exactly how the foundation is to be built for your Aladdin Home. You also receive a Checking List of the complete materials and an Assembly Bill listing the materials in just the order required in building. Our Erection Plans are so complete and easy to follow that many Aladdin Homes have been erected by the owners themselves.

## Nothing To Figure Out

With an Aladdin Home you receive the benefit of valuable and complete architectural service. The materials are selected and manufactured exactly in accordance with the detailed plans and specifications and you are assured that your home will be properly constructed in every particular. We will send you the foundation plan in advance and the complete blueprint plans before the arrival of the materials. The erection of your Aladdin Home is easy, simple, systematic and economical.

## Change In Floor Plan May Be Made To Suit Individual Taste

The plans for every Aladdin Home have been developed by our designers with great care so that they are most practical from the standpoint of convenience in arrangement and economy in building. Maximum saving is the result.

If you find, however, that a change in the plan is desirable, write us about it. We will be glad to accommodate you by making such changes as are practical.

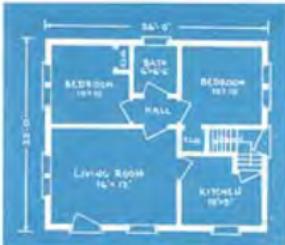

### The Belhaven

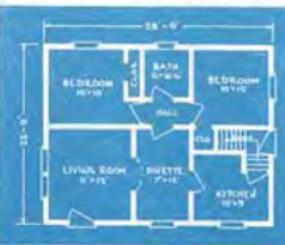

THE BELHAVEN combines a fine exterior with two splendid floor plans at low cost. Plan No. 1 has two bedrooms, bath, kitchen and excellent size living room. Plan No. 2, which is slightly larger, has the added convenience of a dinette. The plans are compactly arranged to obtain the most space from every room. The ornamental shutters illustrated are included.

These Ceiling Joists are insulated with Rock Wool. It protects from the Summer Sun and the Winter Cold.

BELHAVEN PLAN No. 1

BELHAVEN PLAN No. 2

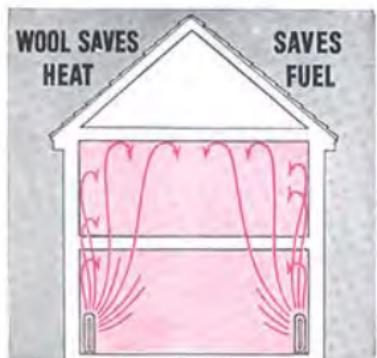

## ROCK WOOL INSULATION FOR EVERY ALADDIN HOME

The most important place to insulate in any home is the ceiling below the roof. For every Aladdin Home we furnish a warm layer of Super-Seal Insulating Rock Wool to be placed between the ceiling joists under the roof. The rising heat is thus forced back into the living quarters of your home, making it warm and comfortable in the coldest winter weather. Reducing the loss of furnace heat reduces the amount of fuel used.

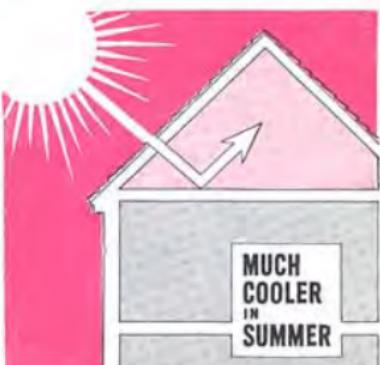

The fluffy resilient layers of Rock Wool are the exact size to fit between the ceiling joists, are simply laid out and the work of insulation is completed. It will permanently keep your home warm and comfortable and effect a substantial saving in fuel every year.

Rock Wool keeps your home warm in the same way that a knitted sweater keeps you warm. Heat cannot pass through its millions of tiny air cells. It is the most efficient insulating material known and has a moisture proof barrier on the underside of the insulation.

Rock Wool keeps the hot rays of the sun from entering your home in summertime, making every room comfortable the year round.

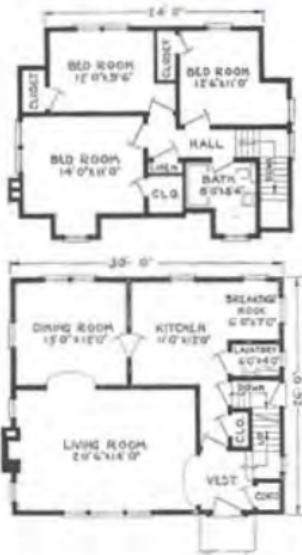

This illustrates the flow of heat during the winter months. Rock Wool keeps the furnace heat in your home.

This shows how Rock Wool keeps out the summer heat. The living rooms remain cool and comfortable.

# A New Favorite with Two Splendid Arrangements

## The Kendal

NOTHING has been omitted that would add to the attractive exterior or the convenient interior of the Kendal. Not an inch of space has been wasted. The front elevation has two small dormers and the rear has one large dormer. Plan No. 2 is smaller than Plan No. 1 and its cost is proportionately lower. The floor plan is ideal in both arrangements. Note the convenient hall and well-located coat closet in both plans. In choosing the Kendal or any other Aladdin Home, you have definite assurance of greatest value, best construction and finest materials.

# **TORONTO ASPHALT SHINGLES**

## **FORTIFY EVERY ALADDIN HOME**

**Y**OUR roof protects your home from the destructive action of fire, wind, rain, snow and sun. From day to day, season to season, your roof must battle to retain its life, its pleasing appearance, and protective qualities.

Toronto Asphalt Shingles are built like a fortress through every step of production, to give long-life protection. The surface of fireproof, permanent, coloured rock granules adds the final touch of colour and beauty to every Aladdin Home.

Let the illustrations, on the next two pages, assist you in selecting the Toronto Asphalt "Fortified" Shingle best suited to your home.

TORONTO ASPHALT SHINGLES • BRIAR BLEND

TORONTO ASPHALT SHINGLES • SUNSET BLEND

### DESCRIPTION OF

ROBIN RED is a bright red colour frequently used where a noted contrast is desired with green foliage.

STANDARD RED is a quiet maroon shade and blends into the surrounding landscape with less contrast.

BLUE BLACK is a bluish black slate colour, preferred where a conspicuous colour would not be desirable.

ROYAL BLUE is a bright blue producing a most artistic effect. Particularly attractive with exterior walls painted white.

TORONTO ASPHALT SHINGLES • CLOVER BLEND

TORONTO ASPHALT SHINGLES • RUSSET BLEND

## PLAIN COLOURS

MOUNTAIN GREEN is the shade of new green grass and is vigorous in colour yet soft in tone.

STANDARD GREEN is a natural green shade with a dark grey green tone. It is very popular because of its conservative, uniform beauty.

ALUMINUM is a grey white silver shade. This shade provides considerable insulation because of its radiant heat reflection during both summer and winter months.

# WHAT IS MEANT BY

## ASPHALT PROTECTION

**FIRE PROTECTION** — Toronto Asphalt Shingles are mineralized with rock granules which resist fire and flying embers, and thereby reduce insurance and fire loss.

**WEATHER PROTECTION** — Asphalt, felt, and mineral granules are carefully selected and combined under scientific control to fortify your home from rain, snow, sun and wind.

**DURABILITY** — Careful manufacture, modern equipment and

extensive research provide durable qualities that make Toronto Asphalt Shingles last longer.

**BEAUTY** — Highly-coloured permanent granules provide lasting beauty. The wide selection of colours and blends enables you to select a roof that will stand out in any community.

**REPUTATION** — Toronto Asphalt Roofing Co. has manufactured roofing for over 20 years.

The Toronto Asphalt Shingles provided for Aladdin Homes weigh 210 pounds per square. A layer of felt is applied under every roof to give extra warmth and protection.

## The Marsden

We Pay  
The Freight

THE MARSDEN gives the greatest accommodation and home comfort for a very small investment. Four plans are shown—No. 1 and No. 2 being 22 feet by 28 feet in size and No. 3 and No. 4 being 20 feet by 26 feet in size. Plan No. 4 does not have the basement stairway and is designed to be built without a basement. The Marsden may be built with either the broad side or the narrow side facing the street. Interchanging the front door and window in the other wall of the living room accomplishes this. The trim lines of the exterior and the convenient arrangement of the interior make the Marsden a most desirable home.

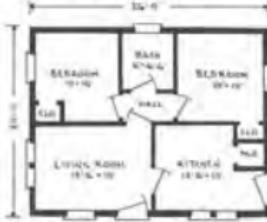

SAVE WASTE — SAVE TIME — SAVE MONEY

# An Appealing Home—Three Plans—Priced Alike

## We Pay The Freight

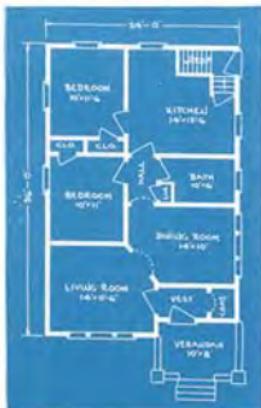

THE ROSEDALE is a perfect example of the sturdy Canadian home. It will always remain attractive, substantial and a real home in every sense of the word. The three plans below are of equal size and are all excellently arranged. It is simply a question of which one is best suited to your own requirements.

The cottage roof and wide over-hang of the eaves gives the homelike air. The verandah is part of the house, and is included in the quoted price.

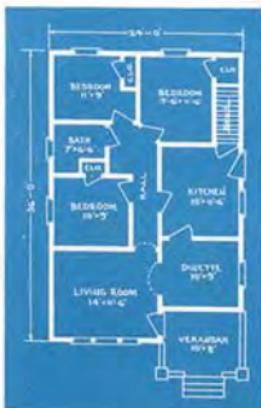

## The Rosedale

### Price Given On Enclosed Price List

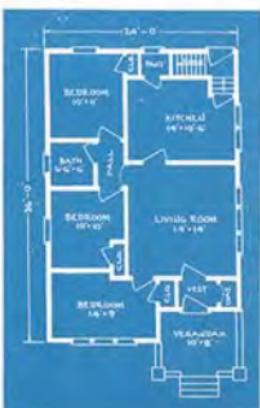

Nothing which will add to the beauty and attractiveness of this model bungalow has been overlooked. See the many artistic windows, the unusual verandah with attractive battlement rail, piers and columns. The whole house has artistic lines which lend dignity and distinction. All-in-all, the Rosedale is "quite out of the ordinary" yet a solid, sensible home that anyone will be proud to own.

ROSEDALE PLAN No. 1

ROSEDALE PLAN No. 2

ROSEDALE PLAN No. 3

If you wish to finish the exterior with siding, shingles or brick veneer, instead of stucco as illustrated, the Rosedale will be so supplied at a price quoted upon request.

If you like this home, but require more bedrooms, or to have the bedrooms upstairs, please refer to the "Windom", illustrated on page 12.

The plan of any Aladdin Home will be reversed without added cost. The rooms shown on the right side will be on the left side and those shown on the left side will be on the right side.

# Aladdin Homes

## ALADDIN EASY PAYMENT PLAN PRICE LIST

The following pages show the down payment and convenient monthly payments for the complete materials we furnish for the Aladdin Homes illustrated in Catalogue No. 49. By taking advantage of this convenient payment plan you may enjoy now the many comforts of a modern, well-designed home—a home that will belong to you.

To ensure your satisfaction, we have adopted the principle that we will purchase only materials that are one hundred percent Number One. Any home is only as good as the materials used in its construction and it is only after many safeguards and inspections that we are satisfied all material for your Aladdin Home is "THE VERY BEST FOR ITS PURPOSE".

We not only guarantee the quality of all materials, but also guarantee that there will be ample of each item to fully complete your Aladdin Home in accordance with the specifications and that it will be delivered free from damage in transit. We know how entirely pleased you will be with Aladdin Materials, Aladdin Service and Aladdin Plans.

Your Aladdin Home is built of the same joists, studding, flooring, doors, windows, stairs and trim that are built into the finest homes. The only difference between an Aladdin Home and the best home constructed in the old-fashioned way is that you save the expensive hand cutting and hand fitting and the large amount of waste always present in the "cut-as-you-go" method.

Aladdin Homes are "Proven-In-Use" Homes. Each home has been carefully designed, been altered here and there, this and that feature added, until they are as nearly perfect as long experience can make them. During the past thirty-three years thousands of Aladdin Homes have been built—enough to make a large city. Their worth is proven.

### EXTERIOR FINISH

#### SIDING, SHINGLES, STUCCO OR BRICK VENEER

Unless otherwise stated, the above prices include siding for the outside walls. Cedar shingles will be furnished for the outside walls at the same price as siding. If the outside walls are to be stuccoed, we furnish galvanized metal lath, instead of siding, but not the stucco materials. If brick veneer is to be used, we omit the siding and furnish special door and window jambs for brick veneer. We do not furnish the brick, as they can readily be procured locally. If you wish an exterior finish other than that quoted, ask for the difference in price.

### WALLBOARD

The above prices include lath for plastering the interior walls, ceiling and partitions. Gyproc, Ten-Test or any type of Wallboard you prefer will be furnished instead of lath. We also include the special nails required for mounting the Wallboard in place. If you wish to use Wallboard, ask for quotation for the home you select.

## LUMBER FOR FOUNDATION FORMS

It is not necessary to purchase additional lumber for forms for poured concrete foundation walls. The lumber we furnish can be used for this purpose and afterwards used in the home itself.

## BASEMENT WINDOWS

Basement windows are not included in the standard price, as many times our customers want to obtain them locally. They will be furnished complete with hardware and glass if desired. The sash have three lights, each 10 x 16 inches. Price, each \$3.00

## FRENCH DOORS, MIRROR DOORS

French doors, complete with hardware, each door with 15 lights of glass will be furnished at a price of \$10.00

A panel door fitted with a full length glass mirror on one side will be furnished in place of any door at a price of \$19.00

## STORM SASH AND STORM DOORS

Best quality storm sash and storm doors will be furnished for any Aladdin Home. They are shipped ready for furnishing with hardware so that they may be put on from the inside and easily opened outward. Ask for quotation on storms for the home you select.

## SCREEN DOORS, SCREEN SASH, VERANDAH SCREENS

We will quote on complete sets of door, window or verandah screens for any Aladdin Home. The price includes all hardware. For sliding sash windows, unless otherwise specified, we quote screens for lower sash only.

## VERANDAHS

Verandahs illustrated in the catalogue are always included in the quoted price of the home unless otherwise noted on the price list. They are square structures which when they can be omitted without interfering with the construction or symmetry of the home.

## REVERSING THE PLAN

The plan of any Aladdin Home will be reversed without charge. The rooms shown on the left will be on the right and those shown on the right will be on the left.

## CLOSET DOORS

Doors shown on the floor plan in illustration, are included at the standard price.

On a few homes where framed openings are shown as indicated, closet doors are not included. They will be furnished complete with hardware at a price of \$5.00

## WEIGHTS AND PULLEYS

For sliding sash windows, we furnish friction fasteners to hold the sash open in the position desired. Special box window frames with sash weights, pulleys and cord will be furnished for any Aladdin Home at a small cost quoted upon request.

## The Lorraine

We Pay  
The Freight

THE LORRAINE is the greatest value for the money from any viewpoint — whether considered from the angle of available floor space, attractive appearance or convenience of interior arrangement. Our designers have used every inch of available floor space in these plans which means economy to the builder. Three well-arranged plans are shown below for the Lorraine. Plans A and B have two bedrooms, while Plan C has three bedrooms.

Siding will be furnished for the outside walls of the Lorraine, instead of Cedar shingles, without additional cost. First quality asphalt slate shingles of the colour you select are furnished for the roof of every Aladdin Home.

For those who prefer, outside the front door, a stoop and steps of wood (instead of making these of brick, as illustrated, or concrete), we will include these at small added cost.

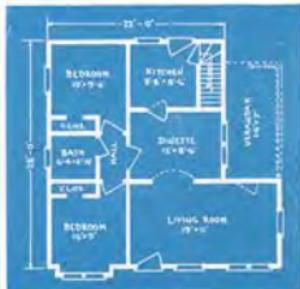

For those desiring a verandah, provision has been made, as shown in dotted outline on the floor plans, size 14 feet by 7 feet. The door giving access to the verandah from the living room is shown in dotted outline, and is only provided, of course, if the verandah is ordered.

In choosing this or any other Aladdin Home, you may do so with assurance that your money will bring you the very highest quality materials obtainable and that every representation is backed by a guarantee of Complete Satisfaction.

Good Materials Plus Good Construction and Correct Architecture Make  
**ALADDIN HOMES** the Outstanding HOME VALUE of All Time

## The Ashton

Price Given On  
Enclosed Price List

THE ASHTON combines comfortable living accommodation with economy of cost. The front door opens to a convenient vestibule with its coat closet. The living room is well lighted by a double window in the front and two windows in the side wall. The side wall of the living room makes a fine location for a fireplace and the two windows will be moved to make ample room between them for the fireplace. Aladdin quality of materials and construction is your assurance that your home will be well and soundly built in every particular.

We will REVERSE the plans of any Aladdin Home, without charge.

## *The Lynwood*

We Pay  
The Freight

**I**T would be hard to find a home that is better arranged or more convenient and attractive than the Lynwood. It is a most practical design and every foot of lumber used gives the maximum amount of space and comfort. The columned and hooded entrance affords a commodious vestibule. The choice of three interior arrangements are given. It is surprising to find a living room of such generous proportions in a home the

size of Lynwood. In addition to the living room, each plan has two bedrooms, good size kitchen, bath, closets and a grade cellar entrance. Plans No. 1 and No. 2 offer the added convenience of a dinette. Always remember that we guarantee ample quantity of the finest material to fully complete your home according to the specifications and the safe arrival of all material in perfect condition.

LYNWOOD PLAN No. 1

CYNWOOD PLAN Pg. 3

LYNWOOD PLANS No. 1

## The New Brunswick

THE NEW BRUNSWICK is one of our most popular homes, due principally to the fact that it is a splendid example of the "semi-bungalow"—the story-and-a-half house with bungalow lines—and to its excellent floor plan.

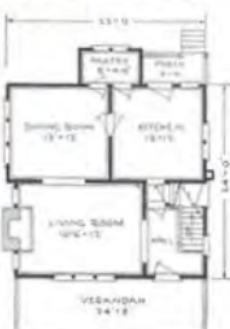

It contains a large, bright living room and dining room; a kitchen 12 feet square; an inside cellar entrance, a front hall for privacy, access from kitchen to front door without going through dining room; three

bedrooms in graduated sizes—all with closets; a large front verandah and a small rear porch and a bathroom over the kitchen.

Note particularly—all bedrooms have full-height ceilings. The large verandah, size 24 ft x 8 ft., and the rear porch are included in the quoted price.

The side entrance, at grade, is a feature appreciated by all, affording direct access from outdoors either to the kitchen or directly to the basement.

Hardwood flooring is furnished for the first and second floors of all Aladdin homes.

Write REVERSE the Plans of any Aladdin Home, without charge.

## The Sunbeam

THE SUNBEAM is an attractive home of up-to-date appearance. Note the large living room. Plans No. 1 and No. 2 have basement stairways, while Plan No. 3 is designed to be built without a basement. The same high quality materials are used in the Sunbeam as in the largest Aladdin Homes. The hood over the front door is included. The Entrance Stoop and Steps, illustrated on page No. 31, may be ordered for the front (instead of making these of brick as shown, or concrete).

# A Perfect Home—The Pride of All Owners

Price Given On  
Enclosed Price List

## The Windsor

We Pay  
The Freight

THE WINDSOR is a spacious home, providing every convenience one can desire. It is attractive with individuality of design. The front entrance opens from the veranda into a vestibule with its coat closet to the left. The large living room is well lighted by a double mullion window and, if desired, a fireplace may be built in the side wall. A framed opening leads to the dining room which, like the living room,

has a dignified double mullion window. The kitchen is complete with breakfast nook and grade entrance to the garden and basement.

There is also a bedroom on the ground floor, a linen closet and spacious hall. Upstairs are two fine bedrooms, with closets, and the bathroom.

If it is desired to have the bathroom downstairs, it can be arranged without additional cost by opening the main stairway from the living room and utilizing the outer portion of the downstairs hall as a bathroom, size 7 feet by 6 feet.

The exterior appearance is just as attractive and dignified as the interior is convenient and spacious. The exterior walls are shown finished with stucco, although you may use siding, shingles or brick veneer if you prefer.

The plans of any Aladdin Home will be reversed without charge if it will suit your building site better that way.

THE WINDSOR—FIRST FLOOR

THE WINDSOR—SECOND FLOOR

Every Aladdin Home Specially  
INSULATED to KEEP IN THE HEAT  
and to KEEP OUT THE COLD

We supply Aladdin Heavy Interwall Insulation for entirely covering and insulating all exterior walls. It is put on outside the sheathing, between it and the siding, shingles, stucco or brick veneer, whichever you select for exterior finish. It seals the house tightly. Heat or Cold cannot go through it.

Insulating Rock Wool insulates and protects the ceiling and roof, keeping furnace heat inside in winter and the hot rays of the sun outside in summer.

FOR PLANS OF THE WINDSOR WITH ALL ROOMS ON ONE FLOOR, SEE NEXT PAGE.

# The WINDSOR "Master Series" of Bungalows—Five Plans

This is the Windsor Bungalow  
It has one storey only—  
No second floor.

## The WINDSOR BUNGALOWS

The Windsor "Master Series" of Bungalows is our most recent achievement. They are meeting with instant popular approval. The lines of the homes are delightful and the many unusual features of roof, gables, verandas, panelled columns and attractive window groupings lend themselves to a contrasting and harmonious colour scheme. It can be truly said that, if you live in a Windsor Bungalow there is no handsomer home in town than yours.

The Master Series is a group of five Bungalows. Each one is a triumph of design in which the maximum of convenience and comfort is arranged in an architecturally perfect home at the absolute minimum of cost.

Like any Aladdin Home, the Windsor may be finished on the exterior walls with siding, shingles, stucco or brick veneer. Ask for quotation if you prefer a type of finish other than that given on the price list. Best quality asphalt slate shingles of the colour you select are furnished for the roof of every Aladdin Home.

### "WINDSOR" BUNGALOW No. 1

22' x 28'

This smallest of the series is adapted to the family that requires a large kitchen but no dining room. The two bedrooms each have closets. The bathroom can be used as a pantry, if desired. The grade cellar entrance is a great convenience.

### "WINDSOR" BUNGALOW No. 2

22' x 30'

Three bedrooms are provided in this design. The living room and kitchen are both large and well lighted. The bathroom is located to permit its being used as a pantry, if desired. All bedrooms have closets. Bungalow No. 2 is a spacious and convenient home.

WINDSOR BUNGALOW  
PLAN No. 1

### "WINDSOR" BUNGALOW No. 3

22' x 34'

The front door opens to a vestibule with coat closet from which access is had to the living room and dining room. A grade cellar entrance goes down from the kitchen. There is a central hall off the dining room from which the bathroom and bedrooms are reached.

### "WINDSOR" BUNGALOW No. 4

22' x 34'

A compact and sunny three-bedroom home with every essential but no waste space is provided by Plan No. 4. Living room, dining room, kitchen and bath are conveniently arranged.

### "WINDSOR" BUNGALOW No. 5

22' x 38'

Plan No. 5 is a very complete and convenient arrangement. Note the central hall opening to the bathroom and two of the bedrooms. The bedrooms have splendid closet space. It is a perfect bungalow plan in every respect and is a great satisfaction to every owner.

## The Sunnyside

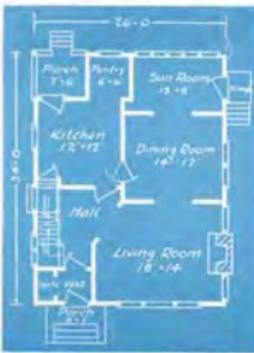

THE SUNNYSIDE is one of our finest designs and has proven to be very popular. It has a well balanced exterior and a spacious and carefully planned interior. The outside walls are shown finished with shingles, but you may use siding, stucco, or brick veneer, as preferred.

The Sunnyside is available in two sizes, plan "A" and plan "B". Both are designed on the same generous lines. A framed opening is located between the living room and the dining room, the kitchen is conveniently arranged and the second floor contains three large well lighted bedrooms. The bathroom, located at the top of the stairway, is convenient to the whole house. Note the large clothes closets and linen closet.

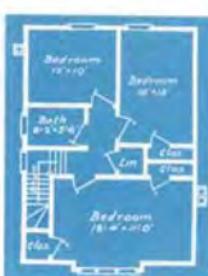

In plan "A" a pantry is placed off the kitchen and can be used as a breakfast nook if desired. The Sunroom opening from the dining room has one wall which is all windows, and a door to the lawn.

PLAN A—SECOND FLOOR

### EXTERIOR FINISH FOR ALADDIN HOMES

Siding — Shingles — Stucco — Brick Veneer

Aladdin Homes may be finished on the exterior walls with siding, shingles, stucco or brick veneer, whichever you prefer. Unless otherwise stated, the price quoted includes siding or shingles which are furnished without difference in price. If stucco is desired, we omit the siding or shingles and furnish heavy galvanized metal lath for the outside walls, but not the stucco materials. If brick veneer is desired, we omit the siding or shingles and the brick may be obtained locally. Ask for quotation with the type of exterior you wish.

PLAN B—FIRST FLOOR

# A Distinctive Home with Many Pleasing Features

## Price Given On Enclosed Price List

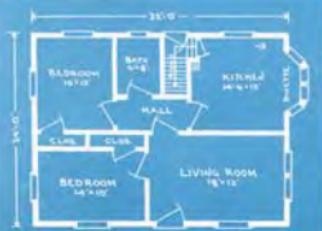

A DISTINCT touch of originality is given this splendid design by the creation of a bay window, the cottage type windows harmonizing splendidly with the whole architectural plan. Note the handsome Colonial doorway and the trimmed shutters which add balance to the windows and contrast to the colour scheme. The Rockport is shown below with

## The Ottawa

We Pay  
The Freight

THE OTTAWA is a modern and distinctive design that will give the greatest satisfaction to every owner. It is shown in brick veneer, but may be built with siding or stucco if you prefer. The vestibule entrance shown above is of stone, although it can be constructed of brick, stucco, or as is often done, in siding. Although compact, the Ottawa has ample floor space with well-proportioned rooms to afford the maximum convenience. Note the large vestibule with cloak closet and the splendid living room. The kitchen is well arranged for step-saving. Two splendid bedrooms with ample closets are found on the second floor as well as a linen closet and the bathroom. We are proud to present the Ottawa, combining the perfect combination of attractive exterior and an ideal interior plan.

## The Cedars

We Pay  
The Freight

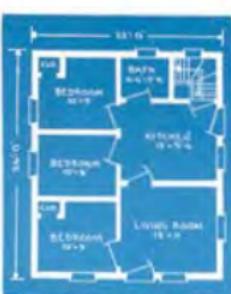

THE CEDARS is a fine bungalow, marvellously low priced and remarkably designed. Its interior arrangement is convenient and its exterior attractive in appearance. It is a home you will be proud to own. The verandah, size 16 feet by 8 feet, shown in the illustration above, may be ordered with

the house or added later. If a basement foundation is not used, the cellar stairway will be floored over without extra cost. If preferred, verandah columns extending down to the verandah floor will be furnished so that the brick piers shown in the illustration will not be necessary.

*Siding will be furnished for the outside walls, instead of shingles, without extra cost.*

For Plans of The Cedars with upstairs, see next page.

### THE CEDARS—22' x 26'—Two Plans

### ALADDIN HOMES — BEST THAT MONEY CAN BUY

An Aladdin Home is built of the same joists, studding, rafters, wall sheathing, flooring, doors, windows, stairs, trim, etc., that are built into the finest houses you have seen. The only difference between an Aladdin Home and the best house constructed in the old-fashioned way is the method by which the finished result is accomplished, at much lower cost. We design our homes to cut without waste, cut our materials in large quantities by the most modern machinery, and use all materials in volume at the lowest price consistent with the very high standard of Aladdin quality.

# A Perfect Bungalow—Excellently Arranged

## The Melrose

THE inset-front porch is an attractive feature of this snug home which provides unusual accommodation at moderate cost. Shown above finished on the exterior walls with Cedar shingles, the Melrose may be built with siding without additional cost or with stucco or brick veneer. If you do not intend building the fireplace, the two small windows in the end of the living room can be omitted and one full size window furnished in their place at no difference in cost. Plan A has a conveniently located dinette and Plan B has a full size dining room.

## The Cedars, 27 (with upstairs)

THE CEDARS 27 has two fine bedrooms upstairs. This is accomplished by raising the roof of the Cedars (shown on previous page). Windows are provided in the gable ends to light these bedrooms. Two alternative first floor plans are shown for the Cedars 27.

The complete materials for finishing the second floor are included in the standard price. Either plan will be furnished without the second floor finishing materials, and the price reduced accordingly.

The Cedars 27 takes the same verandah as the Cedars. The verandah is, of course, optional.

FERNDALE PLAN No. 1

FERNDALE PLAN No. 2

Wallboard will be furnished for the interior of any Aladdin Home.  
Ask for quotation.

FERNDALE PLAN No. 3

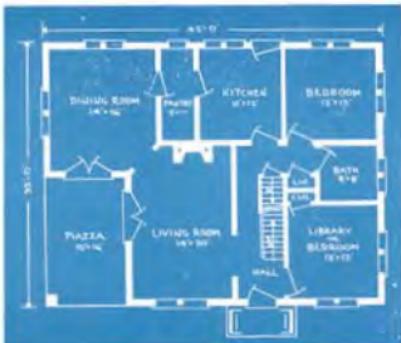

The beautiful lines, the hooded entrance with its Colonial benches and door, the divided light windows and French doors in the front porch, all mark this house as one of the best types of the bungalow designer's art. Note the living room entered through the framed archway on the left of the hall. To the right is the massive fireplace at the rear of the splendid 14' x 20' ft. room with its mulioned front windows and French doors leading to the piazza and framed archway to the dining room.

**THE VICTORIA XVII** is a particularly popular home, distinguished by its attractive exterior lines and excellent arrangement of floor plan. This home is shown stuccoed but may of course be built with siding, stucco or brick veneer, whichever you prefer. The floors of the piazza and the front porch are of concrete or flag stones.

FOR  
SMALLER  
VICTORIA  
PLANS SEE  
OPPOSITE  
PAGE

The Victoria makes a beautiful home with a splendid floor arrangement of the size of the house is had from the fact that through the glass doors to the piazza one can walk out and through the glass doors to the piazza and dining room a distance of about forty feet to the rear of the dining room.

If it will suit your building lot to better advantage, the plan of the Victoria will be reversed without extra cost. This means that the rooms shown on the left side will be on the right and those shown on the right will be on the left.

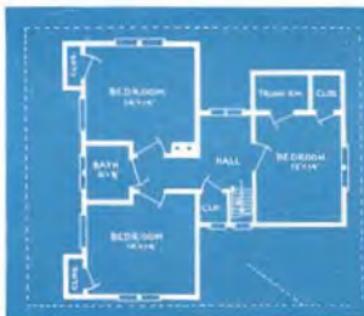

VICTORIA XVII—FIRST FLOOR PLAN

The illustration above shows the front graded up so that little of the foundation wall is visible. Note the large closet opening from the hall and the convenient truck entrance to the rear of the house. The Victoria is an exceptionally well-designed and well-planned house.

If desired, the piazza will be taken into the main body of the house and changed into a heated sunroom with windows on three sides. The additional cost of the materials required for this purpose will be quoted upon request.

Unless otherwise desired, sliding sash windows with the upper sash divided into small lights and the lower sash undivided are provided for the Victoria.

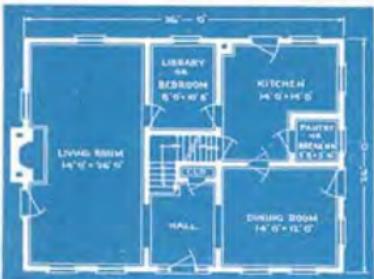

VICTORIA XVII—SECOND FLOOR PLAN

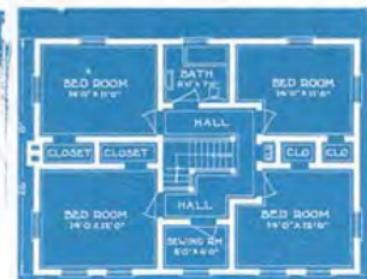

## The Capitol

**BOTH** Plan A and Plan B of the Capitol provide practically the same arrangement. Plan B is smaller in size and is priced accordingly. No space is lost, the upstairs ceilings being full height throughout, yet the artistic roof lines are retained.

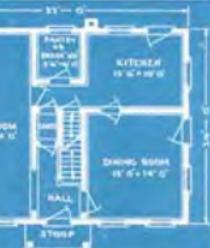

The covered pergola porch at the left is 12 feet by 10 feet 6 inches and the porte cochere at the right is 12 feet by 10 feet 6 inches, providing a covered driveway and protection from the weather. They are priced separately, as in some cases due to the size of the building site it is not desirable to add them.

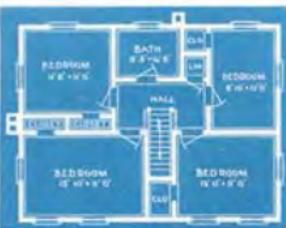

CAPITOL A—FIRST FLOOR

CAPITOL A—SECOND FLOOR

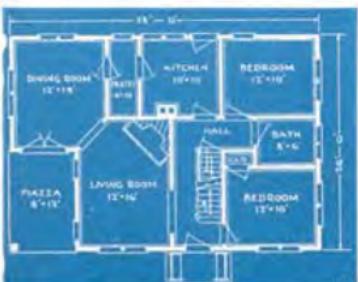

CAPITOL B—FIRST FLOOR

CAPITOL B—SECOND FLOOR

The front entrance of the Capitol is illustrated in the above sketch. It is furnished without added cost and is a very charming addition to the home.

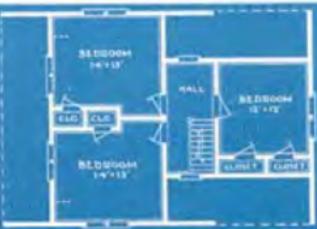

Victoria 109  
PLAN OF THE FIRST FLOOR

## THE VICTORIA 109

A reproduction of the Victoria XVII, but reduced in size to 38 feet by 26 feet, with a proportionate reduction in cost. Designed for the many who admire the Victoria XVII, but do not require as large a home.

The Victoria 109 does not have a bathroom upstairs, but provision can be made for a wash room and toilet upstairs by placing a partition and door across the rear of the upstairs hall. The small cost of the added materials required for this purpose will be quoted upon request.

The piazza can be taken into the main body of the house and changed into a heated sunroom with windows on both sides. The added cost for the required material, including floor, will be quoted upon request.

## The Brentwood

THE excellent balance of the exterior of the Brentwood is immediately apparent and a study of the plans below reveals two very convenient and well laid out interior arrangements. The terraced entrance is surmounted by a gabled vestibule and flanked by attractive windows.

Two sizes are shown for the Brentwood. Each has many desirable features and will furnish the owner with the greatest satisfaction. Plan No. 1 is 32 feet by 24 feet with well-proportioned rooms and a maximum of convenience. Note the alcove dinette with particularly splendid lighting. The two bedrooms, bath, kitchen and living room are all excellent size. Plan No. 2 is smaller, 28 feet by 22 feet, and retains the same attractive lines.

We Pay  
The Freight

The very finest of material goes into every Aladdin Home and it is only after many safeguards and inspections we are satisfied that each piece is the very best for its respective purpose.

BRENTWOOD PLAN No. 1

### THE ALADDIN SYSTEM IS BUILT ON THIS PRINCIPLE

That modern power-driven machinery can do immensely better work at lower cost than hand labor is now all common knowledge. Every machine should be so done. The lumber for Aladdin Homes is cut to fit in the Aladdin Mills and is all ready for erection without measuring, marking, cutting or fitting.

### THIRTY YEARS' ALADDIN SUCCESS

The Aladdin Ready-Cut System was planned and put into operation over thirty years ago. Each year has shown a big increase in the number of Aladdin Homes erected and the large number delighted families throughout the country. The thousands of Aladdin Homes throughout Canada are real proof of merit, value and satisfaction.

BRENTWOOD PLAN No. 2

# A Very Popular and Commodious Bungalow

## We Pay The Freight

THE WABASH is very popular because of its practical and convenient interior arrangement and attractive roof lines. The verandah is large and beautifully ornamented with columns, lattice, rail and balusters. The living room and dining room are each a good size. There are three good bedrooms, each with closet. The Wabash is illustrated with the outside walls finished with Cedar shingles. Siding will be furnished without added cost, or ask for quotation on this home to be finished in stucco or brick veneer.

## The Wabash

Price Given On  
Enclosed Price List

By taking the required space from the rear left corner of the kitchen and changing the location of the cellar stairway, a porch 4 feet by 6 feet in size as shown in the illustration and a pantry 4 feet square may be provided without extra cost.

## ALADDIN HOMES Offer You These Features

1. Rock Wool Insulation between Ceiling Joists. Saving on fuel cost and lower room temperature in summer.
2. Heavy Interwall Insulation over the sheathing.
3. Beautiful interior trim and doors.
4. Best quality asphalt slate shingles of the color selected.
5. Highest quality paints and stains.
6. Finest hardware.
7. Saving in Erection Cost.
8. Elimination of Waste.
9. Soundest Construction.
10. Lowest Prices.
11. Complete Architectural Service—Free.

French doors to the verandah are shown in the above illustration. The floor plan does not show them as in most cases they are not desired. They will be supplied, if desired, at a small cost.

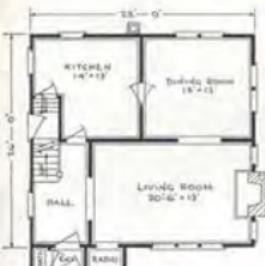

### PLANS CAN BE REVERSED

Any Aladdin Home can be furnished with the plan reversed. This means the rooms shown on the left side in the catalogue plan will be on the right side and those shown on the right side will be on the left side.

SOVEREIGN SECOND FLOOR

SOVEREIGN FIRST FLOOR

## The Sovereign

**T**HE EXTERIOR of the Sovereign is different and most appealing. The graceful sweeping roof gives added charm. The new type front door with its circle top leads into the entrance hall and the main hall. The living room is excellent size with fine

location for a fireplace. A wide framed opening, or a plastered arch if preferred, leads from the hall into the living room. The dining room is well lighted by mullion windows on two sides. The second floor has three excellent bedrooms all with splendid closet space. The genuine quality of all materials and the staunch construction of your Aladdin Home will be a source of lasting satisfaction.

## Garages Priced Remarkably Low

The four Aladdin Garages shown here cover the demand for 95% of all garages built, designed from our many years' experience in manufacturing garages. Aladdin

Garages are staunchly built of sound materials. The lumber is all cut to fit, so that a couple of days' time will erect and **FINISH** one. These garages are sold only if ordered with an Aladdin Home.

THE FORD, 10' x 18'

The Ford, illustrated at left, size 10 feet by 18 feet, is designed for smaller cars. It is furnished complete with all lumber, cut to fit, hardware, locks, nails, shingles, etc. Paint will be furnished to match the colour of your house.

THE CADILLAC

The Cadillac is an attractive two car garage with four swinging doors. It is size 18 x 20 ft., with plenty of room for two large cars. It is attractive in appearance and can be painted, if desired, to match the color scheme of house. Complete with glass, hardware and paint.

**Specifications** as follows: Sills 4" x 6", 6" centers; Drop siding for side walls; Rafters 2" x 6", 16" centers; Exposed Eaves. Roof Sheathing 1" lumber laid tight. Best quality asphalt shingles for roof. Hardware, nails and paint. Materials ready-cut and complete except posts, setting every step of erection. All garages shown may be built without doors as practically all auto owners prefer to build floor of concrete or cinders.

THE FRANKLIN

Distinctive and attractive, the Franklin, size 20 x 20 ft., two car garage will do credit to any surroundings. It is furnished with siding which can be painted to match color scheme of home. Four swinging doors are provided.

THE STUDEBAKER

The Studebaker, size 12 x 20 feet, will take a large car, with ample room at sides for working about the car, also storage space for supplies. It has swinging doors. It is of a splendid type and always looks well wherever it may be erected. Paint to match your house.

## The Dresden

Price Given On  
Enclosed Price List

MODERN architecture and skilful interior designing distinguish the Dresden. Note that in both plans each room has cross ventilation providing the maximum amount of light and air. Plan No. 2 is featured by the convenient dinette. The stairway to the second floor is a most desirable feature and makes it possible to finish off additional accommodation there at a later date. The stairway is included in the standard price, but not the finishing materials for the second floor, as usually this is left until later.

CAN WE SEND A MAN TO ERECT  
YOUR ALADDIN HOME?

Yes, and a good man, too. Assisted by local help, he will build your home with all possible speed and the work will be well and efficiently done.

Usually, it is not at all necessary for us to send a man, as local labor will erect your home just as well and at less cost because of transportation and board for our men. The complete Erection Plan and Instructions we furnish clearly illustrate and simplify the erection work. Many Aladdin Homes have been erected by the owners themselves.

### THE "CANADIAN LUMBERMAN" SAYS AND EVERY THINKING PERSON AGREES

"Year after year the price of carpenter labor has been advancing, thus making the cost of lumber higher when in position. Framing material will eventually have to come to the building trimmed to length, and we fail to understand why this fact is not more generally realized. The pieces must fit at the factory will be transported to the building ready for position. This thing of cutting and sawing with a handsaw at the building site itself is this is too costly."—SO SAY WE ALL.

# Extra Features Obtainable for ALADDIN HOMES

**COLONNADE WITH BOOKCASE AND CHINA CABINET**

This handsome colonnade, when built into a framed opening between living room and dining room or between living room and hall, is not only a very attractive fitting but is also very useful. The two cabinets are each fitted with glazed doors on both sides so that the living room side may be used for books and the dining room side for china. The colonnade requires an opening of at least seven feet and preferably eight feet.

Price, complete ..... \$55.00

**COLONNADE No. 1** can be supplied in place of a framed opening between hall and living room or between living room and dining room in any home. The columns give an interesting and impressive effect.

Price \$9.00

**COLONNADE No. 1**

## Breakfast Nook Furniture

The Breakfast Nook Furniture consists of a table and two benches of attractive design. They can be used in a corner of the kitchen, on the verandah or on a sun porch. Makes a cozy spot for breakfast, tea or any of the daily tasks that can be done sitting down. The table is 1'-8" wide, 4'-0" long and 2'-6" high. The benches are 1'-4" wide, 4'-6" long and 3'-3" high to top of back. They are furnished in dressing stock and shipped knocked down.

Price, complete ..... \$26.00

**COLONNADE No. 2** consists of a pair of pedestal bases surmounted by square taper columns with caps and bases. It is particularly effective in the opening between hall and living room. It can be had in place of any framed opening at a small additional cost.

Price ..... \$17.00

**ENCLOSED CELLAR ENTRANCE**

Cellar Entrance  
Floor Plan

This addition, size 7 feet by 7 feet, can be added to any Aladdin Home. It gives access to the cellar without going through the house, under the siding or shingles on the walls. Price, complete ..... \$79.00

**BREAKFAST NOOK FURNITURE**

## IRONING BOARD FREE

No home is really complete without an Ironing Board which disappears into the wall when not in use. So, every Aladdin Home is equipped FREE with a folding ironing board, as illustrated. It is inset when building in the most convenient position in the kitchen wall. The ironing board is hinged and swings down in an instant ready for use when the door is opened. A space is provided at the bottom for the iron.

**NO. 3 KITCHEN CABINET**

No. 3 Kitchen Cabinet is supplied as illustrated, in two sections. The upper section is 3 feet long, has shelves 15 inches wide and enclosed by glass doors. The lower section is 1 foot 6 inches wide, 2 feet in length and 3 feet high. It has two cutlery drawers, two shelves for pots and pans enclosed by panelled doors and a tilting flour bin.

Upper Section, price ..... \$20.00

Lower Section, price ..... \$13.00

No. 2 Kitchen Cabinet is narrower than No. 3. Upper section is 2 feet 6 inches wide with two glass doors. Lower section is 1 foot 6 inches with two shelves enclosed by panelled doors. No. 2 Cabinet does not include flour bin.

Upper Section, price ..... \$15.00

Lower Section, price ..... \$12.00

**MEDICINE CABINET**

This cabinet is designed

to be built into the partition of the bathroom. Width 1 ft. 4 in., height 4 ft. 6 in., depth 1 ft. 4 in. It has three shelves and a plate glass mirror door. Price, complete ..... \$6.75

**GABLE ENTRANCE HOOD AND STOOP**

May be added to either front or rear entrance. It is a rustic type with exposed rafters and attractive brackets. Hood, price ..... \$12.00 Stoop, price ..... \$19.00

## The Chatham

Price Given On  
Enclosed Price List

THE CHATHAM is one of the finest small homes ever designed. It is a compact home of up-to-date appearance. Every dollar invested brings the maximum of convenience and comfort. The quality of materials used in the Chatham is identical with that used in the largest Aladdin Homes. Three fine interior arrangements are offered for your choice. One of these arrangements incorporates three bedrooms and two of them have two bedrooms. If Plan No. 2

is to be built upon a basement foundation, the Enclosed Cellar Entrance illustrated on page No. 31 may be placed at the rear door to give access to the basement. You will note that in all three plans the rooms have double exposure, windows on two sides to admit the greatest amount of light and air. The Chatham is one of our most popular designs and every owner is proud to call it home.
