READI-CUT HOMES

THE ALADDIN COMPANY WAS FOUNDED FORTY-THREE YEARS AGO

THE NEWPORT—SEE PAGE 2—FOR PLANS AND DESCRIPTION

SAVE FOUR
PROFITS

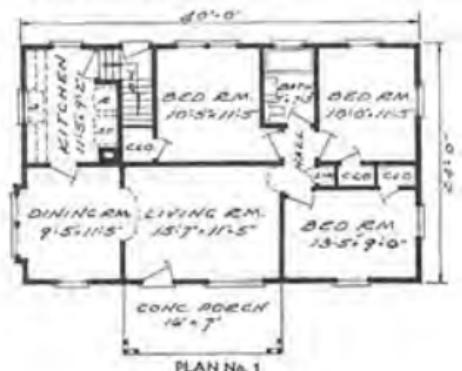

LUMBER. MILLWORK. HARDWARE AND LABOR

THE NEWPORT—Shown on FRONT COVER

As new, as fresh and as lovely as tomorrow's colorful sunrise, the Newport is a shining example of all that is good in a modern and modest home. The usual severity of a plain roof is broken by the slight offset at the right, the porch roof with triple columns blends perfectly and protectively into the whole structure while the picture window is well proportioned and attractive. Note the left elevation where you find perpendicular siding in the gable and offering contrast to the usual siding being separated at the ceiling line by dentils. The projecting mullion window completes a picture of originality and charm.

Four sizes with five floor plan arrangements offer a wide choice, one of which is almost sure to meet your ideas of a delightfully lovable and conveniently arranged home of today. Plan No. 2 is

priced with second floor unfinished, which permits later expansion by the addition of two rooms above. Refer to page 33 for further information about stairways—and the optional ornamental screen door shown on the Newport is described on page 34. WE PAY THE FREIGHT.

PAY YOURSELF THOSE HIGH WAGES

Perryburg, Ohio

Dear Sirs:

We are coming along fine with our lovely new Brewster No. 2 house and only wish you could personally hear some of the many compliments we received on the quality of material, floor plan, workmanship, etc. My husband and sons are doing practically all the labor themselves in their spare time, evenings and weekends.

THE HAMILTON—A Tremendously Popular Design

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

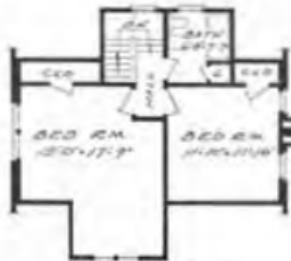

Many Aladdin houses have been built of brick veneer. We, of course, will quote on any design in the book, omitting siding and furnishing special window and door frames. The Hamilton illustrates the attractions of the type. While the vestibule entrance shown above is of stone, it can be constructed of brick. The Hamilton is a beautifully proportioned structure and will match the finest homes in any neighborhood. We will, of course, furnish this design with siding if preferred. Siding for the front gable and rear dormer are included in price given on enclosed price list but no siding for the rest of the house is included. We do not furnish brick or stone. Ask for price with siding.

Every modern that is expressed in the arrangement of the interior. Note the large vestibule with cloak closet, and arched opening leading from living room. Kitchen design is planned for step saving. Two splendid bedrooms are found on second floor with linen closet and bath.

We are proud to present this Aladdin home, confident that it will give the highest satisfaction to every owner. We would like to give you more information about it if you will write us. Complete detail specifications will be mailed on request.

THE GABLES—Quaint and Original—

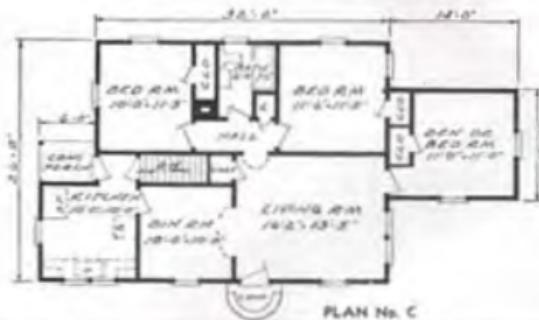

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

Unusual features distinguish this new and original home. A charming hood graces the front entrance. It is supported by well proportioned brackets and offers ample protection to the terraced steps. Roof lines, both gable and hip, are distinctive. The rear service porch is an attractive feature. Two sizes are offered to you, if you are attracted by the Gables. In Plan A, the living room is large and given greater spaciousness by the alcove type dinette. Note that the kitchen has light and exposure on two sides. Cellar entrance is provided directly from the kitchen. Two bedrooms with ample closets, hall and bath offer every convenience and comfort. Plan C shows an added bedroom and incorporates a dining room. The built-in goodness, genuine quality of all materials and the beauty of this home will be a great satisfaction to every owner. Remember Aladdin's guarantee of satisfaction or your money back is your protection in building in the Aladdin way. "Sold by the Golden Rule" has been tested by thousands of home builders to their lifetime gratification. Write for detail specifications.

PLAN No. A

PLAN No. C

Lexington, Virginia,
May 24, 1948

Dear Sir:
Again I must say that I am very proud of my Aladdin house and the materials that was furnished for it. Thanking you for your prompt service that I have received from the Aladdin Company,

Yours truly,
H. F. Reynolds

Capsie, New York,
October 9, 1948

Dear Sirs:
To date I have received everything and I am going to tell you I can't see how you can do such a perfect job! the material was perfect in every respect. I just never could praise your job on the home enough. I have had hundreds of people come to look it over. Two weeks from the day I started the house itself, the frame, all sheathing, sub-floor and roof boards were up.

FREIGHT

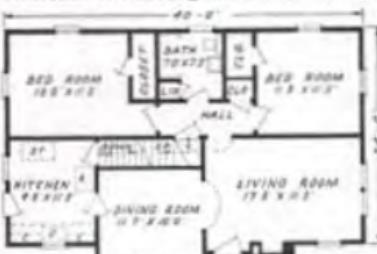

SHELBYNE No. 1—FIRST FLOOR PLAN

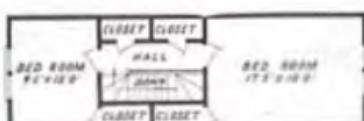

SHELBYNE No. 1—SECOND FLOOR PLAN

The Shelburne was first erected in Bay City and opened to the public by Aladdin as a Model Home. Public approval was instant and unanimous and confirmed the good judgment of our designers. It is modeled along ultra modern lines, strong colors and contrast in the chimney, enlivening the picture from the approach. An intriguing front door, with circle top and embellished with large antique hammered hinges adding distinction to the entrance. The No. 1 Plan is priced with two large bedrooms and bath on second floor making this a three-bedroom home. In Plan No. 2 you will note that an enclosed stair leads to second floor from hall. We have priced the Plan No. 2 including enclosed stairway to second floor and a subfloor making a large attic storeroom. We will be glad to quote a price on the upstairs furnished as shown in the second floor plan, or the upstairs can be finished off at any time in the future when it is convenient for you to do so. This gives you a chance to convert a two-bedroom home into a four-bedroom home when conditions require additional rooms. Write for specifications in detail.

THE SUNSHINE — An Honor Design —

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

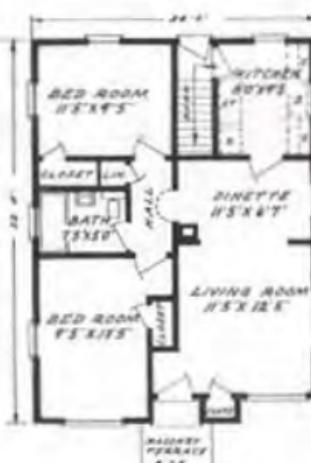

New and sparkling is this latest creation of Aladdin designers. It received first honors in a recent contest. The Sunshine promises to be a first choice of many homebuilders this year, too. Wherever it has been shown, it has received high praise for exterior beauty and effective interior planning.

Three sizes are shown in the plans below. One 22' x 30', one 24' x 32', and one 24' x 34'. Each plan offers the last degree of efficiency in arrangement and remarkable utilization of space. Observe the careful location of windows and doors to give greatest possible amount of usable wall space. Exceptional closet space is provided in each plan.

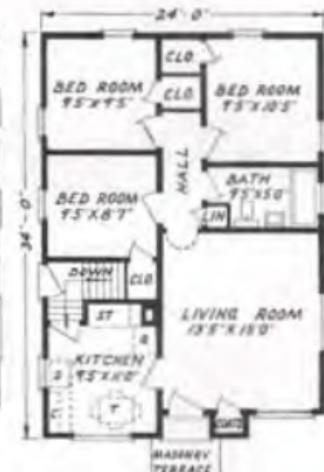

You will be permanently happy in the possession of any of the three Sunshines, because through the efficiency of the Aladdin Readi-Cut System and economy of erection cost every dollar invested will give full and highest value.

THE CONCORD—One of Aladdin's Newest

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

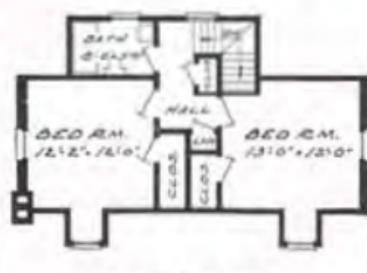

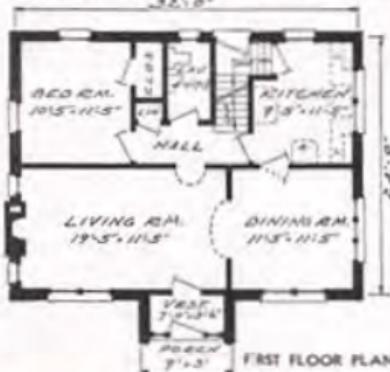

Distinctive is given this charming design by an entrance at one original and appealing. Pillars grace the gabled vestibule while an arched ceiling adds a new touch to the design. Narrow side lights on each side of the front door afford light to the vestibule. The main structure of the Concord is beautifully proportioned. Besides a splendidly spacious living room, the first floor contains a suite including bedroom, lavatory, linen closet and clothes closet. These are entered from the separate hall from which the stairway also leads to the second floor. Grade cellar entrance occupies the space under the main stairway. All four down-stair rooms have double exposure for light and air. The fireplace may be built in as shown, or omitted if desired. On the second floor are found two well planned bedrooms, bathroom and four closets. The Concord is priced without brick or any masonry material. We do not ship brick but can quote price if you would like siding on the exterior. Always keep in mind the high quality of materials built into all Aladdin houses and that this quality can be had at such great economies only from The Aladdin Company. The Ready-cut System backed by volume production is the reason. Our Golden Rule Service and money back guarantee are your protection. Complete detail specifications mailed on request.

The Construction Used in an ALADDIN HOME Is the Same as That Used in the Best
Architect-Designed, Contractor-Built House Erected Anywhere

BRICK VENEER

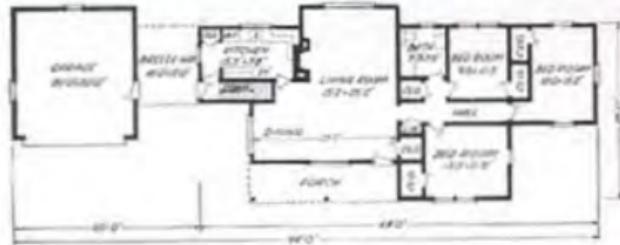

Any Aladdin House allows in brick veneer can also be had with siding on the exterior if preferred. Write us for prices regarding this change.

Any Aladdin House shown with siding or shingles can be built having a brick veneer exterior. We do not furnish any of our houses for a solid masonry exterior wall, such as solid brick, concrete blocks or stones.

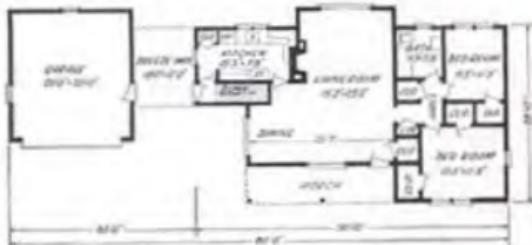

THE PALM SPRINGS—A Typical Western Ranch House

PLAN No. 1

SHOWN HERE ARE TWO FINE PLANS. EACH CAN BE HAD WITH GARAGE AND BREEZEWAY

QUALITY ENDURES THROUGH THE YEARS — READ PAGE 35

PLAN No. 2

RANCH HOUSES

The inspiration for the ranch house type of home originated in the West and its present great popularity is based on sound reasons. It is a one-story type home which features plenty of light and air. Its longest dimension usually faces the street or road and its approach is inviting and friendly. If you require a one car garage, we will be glad to quote with breezeway connecting, or if you desire a two car garage, we can quote the arrangement as shown in the illustration above.

Present day homebuilders have shown a tremendous interest in Western Ranch House Architecture. Its attractions are many and by all means sensible. It is a type that is suitable for all climates, east or west, north or south. It is featured by a low roof, wide eaves, a covered porch and unusual spaciousness. The Palm Springs plan incorporates all these features harmoniously and in good proportion.

The Breezeway connecting the house proper and garage is used as a shady porch, an outdoor dining place or a covered space for garden furniture and children's playthings. Of course it is excellent protection to reach the garage in inclement weather. Two plans are illustrated above, each of almost identical exterior appearance. Cellar stairs may be omitted from either plan if no basement is desired. Our plans contemplate concrete floor for both the garage and Breezeway. We furnish no masonry. Each plan is priced without Breezeway or Garage. Write for prices on these items. Send for detail specifications. We pay the freight.

WE PAY THE
FREIGHT

PLAN NO. 1

OVER FORTY-THREE
YEARS HOME BUILDERS
TO THE NATION

An exquisite example of modern simplicity in home architecture is presented in this wholly new creation. It appeals instantly to the most fastidious. Originality of treatment is shown in this recessed entrance, surmounted by small, well proportioned gable. A triple window is observed in the front of the living room, while double or mullion window matches this in the front bedroom. Two sizes are illustrated below, one of two bedrooms and one of three. These plans merit the closest study which will result in highest approval of the skill of our designers. Thoughtful consideration has been given to the comfort and needs of the family. Well proportioned rooms, ample closet room and wall space and step saving placing of communicating rooms, testify to the values of the Ferndale. Write us for additional information, and detail specifications.

ALADDIN'S

What Induces Us to Supply Such Matchless Quality? Aladdin believes the modest home merits the same goodness as the mansion. We intend to nail Aladdin quality on the highest attainable pinnacle and keep it there. While these are excellent reasons for the careful, thinking home buyer, the real undebatable reason is summed up in the goodness, soundness and the thoroughness of the quality of Aladdin Houses. Aladdin's Guarantee: Satisfaction or your money back.

THE PILGRIM—Three Splendid Plans—

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

Skillful planning of Colonial and modern details is immediately evident in the picture of the Pilgrim shown above. In Plan 4 and also in Plan 5, we can arrange a stair to the attic leading out of the living room and running up over the stair to the basement. This item is not included in our list prices but we will be glad to quote on this change which will include windows for the second floor. Write for detail specifications.

ATTIC

Turn to page 33 and note the beautiful arrangements that can convert an attic into a usable second floor.

PILGRIM with BREEZEWAY and GARAGE

The photo above pictures the Pilgrim with the ever popular breezeway connecting the house proper with the garage. The breezeway can be used as a shady porch, outdoor dining place and a covered space for garden furniture and children's playthings. It affords excellent protection to reach the garage in inclement weather. We can quote on furnishing the above described breezeway with garage (for one car or two cars) for the Pilgrim home or most any Aladdin home shown in our catalog.

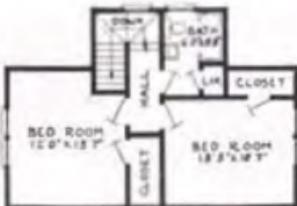

THE VASSAR—Model Story and One-Half

Price Given
On Enclosed
Price List

1st FLOOR PLAN No. 2

2nd FLOOR PLAN No. 2

Complete specifications mailed on request.

The Vassar is a master design. It is typical of the demand in the modest American home. The Vassar possesses originality, character and beauty. The vestibule entrance is surmounted by a half pitch gable roof, the front of which is embellished with artistic mouldings while pilasters form the frame for the front door. This entrance gable harmonizes with the larger gable which is a harmonious background for the fireplace chimney. Note the convenient arrangement in the hall which gives you access to the first floor lavatory, stair to second floor, kitchen and bedroom.

ALADDIN INTERIORS

Shown here are two typical Aladdin interiors in full actual colors. They were photographed in the Pilgrim home of Mr. and Mrs. John S. Clark of Petoskey, Michigan. Their Pilgrim was built in the spring of 1948. Mrs. Clark writes us that she will be proud to show her lovely home to any interested prospective Aladdin home builders. You, too, can create equal beauty in the Aladdin of your choice.

THE BRENTWOOD — A Notable Design —

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

Here's a home of sunshine, flowers, trees and foliage, one of Aladdin's most notable offerings to home builders. The observer has a desire to stroll up the walk and step into a home that breathes hospitality and charm.

The excellent balance of the exterior is immediately apparent to the observer, the terraced entrance surmounted by a gabled vestibule and flanked by twin mullion windows.

Two sizes are shown below for the Brentwood. Each has many desirable features and each will furnish the owner with the utmost home satisfaction.

Plan A is 32' x 24' and presents well proportioned rooms of maximum efficiency and convenience. Note alcove dinette with particularly splendid lighting.

Plan C is size 36' x 26'. Altogether the Brentwood fulfills the highest expectation of exacting home-builders. Iron railing on terrace not included. Our facilities and experience are at your service. Write for detail specifications.

PICTURE WINDOWS

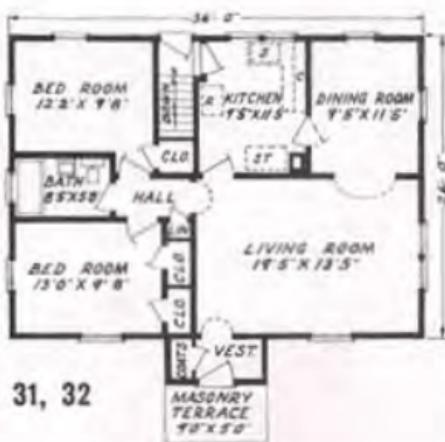

We can substitute a picture window for a single or double window in any of our plans at an extra cost. Write us for prices. Our picture window designs are shown on page 34 of this catalog and come in two sizes, one 64 inches wide and the other 72 inches wide.

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

PLAN 1

PLAN 2

Skillful treatment is portrayed in the well proportioned gables fronting the Rosewood. Perpendicular siding at the front offers pleasing contrast to the usual clapboard siding, and permits a contrasting color of your choice.

Picture windows are shown in both living room and dining room of each of the three floor plans. In Plans No. 1 and No. 2 you will note that the overall size of the house is the same, but the dining room is omitted from Plan 2 and becomes a third bedroom. All three arrangements merit your careful study to choose the one which best suits your needs.

The stairway to second floor makes possible the addition of extra bedrooms at some future time—"a house that grows." Our price does not include any materials for the second floor. Send for detail specifications.

THE Mt. VERNON—A Typically Modern and Economical Design—

Price Given
On Enclosed
Price List

This modest but beautiful home is one of our newest. Its simplicity of form, its cleanliness of lines and its perfect proportions fill all observers with enthusiasm and admiration. It will measure up to its surroundings wherever built. Its choice of three sizes is shown below for the Mt. Vernon, each plan to express the best features of model interiors. Plan 2 is 28' wide and has a depth of 22'. A generous sized living room affords excellent wall space for your furniture. The kitchen arrangement admits the placing of dinette table and chairs. Two conveniently placed bedrooms with four closets and bath complete the plan. Plan 4 is the same size as Plan 2 and is designed for those not wishing to have a basement. A storage or utility room is provided in this arrangement. The largest of the three, Plan 3, is 30x24' and with all the foregoing and added features offers rooms of proportionately larger sizes. The Mt. Vernon is proving to be one of our most popular homes. Write us about it. We will send you detail specifications.

The Bristol is embellished with two typically Colonial features, the front entrance and the bay window in the dining room. Fluted pilasters bordering each side of the front door, are topped by a head casting designed with dentils. This beautifully proportioned ensemble is of true Colonial inspiration, and affords a genuine welcome to those who enter its portals. The Bristol has proven very popular and has received loud praises of its beauty, convenience and economy from those who have built it. Its interior arrangement includes very desirable features of the ultra modern American home. The Plan B arrangement provides 3 bedrooms of a commodious size that will take care of the needs of the average family. The 2 bedroom arrangement, which is the Bristol, Plan A, provides dining room accommodations. Both plans surely deserve a careful study to be fully appreciated. We will be glad to discuss with you further details of your individual wishes. Write us for detail specifications.

THE WINSTON—Latest in Exterior

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

One of the newest developments in plastic building materials is the Cement-Astbestos wall shingle which is pictured above on the side walls of the Winston. These shingles are 24 x 12 inches in size, fireproof and never have to be painted. We can of course furnish them in place of siding for any Aladdin house. Write for information.

The Winston is one of our newest designs and we present it in two attractive sizes. A special feature of this home is the original columned entrance, rising from a masonry terrace. A study of the floor plans below will show you a choice of size and design that covers a wide range of investment. Plan No. 1 is 24x40 feet over all and includes large living room, sun room, dining nook, kitchen, grade cellar entrance, two bedrooms, bath and closets. Fireplace may be omitted if desired. Plan 5 will warrant careful study to appreciate the desirable features. All materials in these Winston plans are of the same high quality and the sturdy construction is unchanged from that of the largest Aladdin home. Write us about the plan that appeals to you. Complete detail specifications mailed on request.

Disappearing stairway may be installed in hall of either plan. This stairway is shown and described on page 23 of this catalog, and gives access to attic.

Salem, Indiana

Gentlemen:

The Columbia was ready for occupancy within 10 days. The woodwork and doors were such good quality that I used white shellac to preserve the beautiful grain.

The carpenters said the windows were the easiest hung of any they had ever handled, and they rejoiced in the lightness and smoothness of the dry lumber. It was a positive pleasure not to be running here and there to collect material, but to have it on the premises, the lumber ready cut, and after completion, not to spend hours picking up waste.

THE BREWSTER—Beautiful in Its Simplicity—

Supremely good taste was employed by our designers when they formulated the Brewster. It is a choice architectural gem, clean in line, employing a form of simple beauty and exquisite simplicity. It is truly a work of art yet most practical in execution for its very simplicity is reason for its astonishingly low cost.

Waste of material is eliminated, every foot of lumber giving 100% value in space, convenience and comfort. The colonnaded and hooded entrance incorporates a commodious vestibule. The interior has every facility needed in a modern home. The excellent living room will more than answer the average family's requirements as to size and wall space.

If you prefer shingles as shown on page 18, for the exterior instead of clapboard siding, we can meet your wishes altho this Colonial type home is very well adapted to siding for the exterior.

A very convenient hood is furnished at the side over the outside door on Plan 2. Complete detail specifications will be sent on request listing all materials we provide for this home. Attic stairway arrangements are shown on page 33, making possible extra rooms on second floor. Price of stairway given on request.

BREWSTER with BREEZEWAY and GARAGE

The Brewster, Plan 4 arrangement, is shown with Breezeway, size 10' x 8' and with garage 12' x 30' in size. We can also quote the Plan 4 arrangement having a two car garage instead of the one car if you prefer the double garage. This combination of Breezeway and Garage can be furnished with most any Aladdin design shown in this catalog. Write for details.

PLAN No. 4

PLAN No. 2

An Aladdin Home is Safer
than a Wall Street Investment

THE SUMMERSET—Typically Cape Cod

Price Given
On Enclosed
Price List

WE PAY
THE FREIGHT

Beauty and balance distinguish this perfect example of Cape Cod architecture. Thrifty New Englanders evolved a type of home in revolutionary times that matched their well known characteristics of simplicity, directness, economy and common sense. That it is sound architecture is evidenced by its return to popularity on the designing boards of the present day's leading architects. A living room 18' 5" x 13' 5". It's of a size found in few houses twice as large as the Summerset. A dining room, kitchen and grade cellar entrance complete the perfect accommodation on the first floor. Master's bedroom matches the living room in spaciousness, and thoroughly adequate closet space is provided. Every dollar invested in this home gives magnificent values. Quality is built into every part—Aladdin Certified lumber and Aladdin Knotless finish. Complete detail specifications on request.

BUILD IT YOURSELF

THE DRESDEN—From Connecticut Hills—

Price Given
On Enclosed
Price List

WE PAY THE
FREIGHT

Conservative and dignified aptly describes The Dresden, a design whose inspiration comes from the Connecticut hills. At first glance it appears to be a one-story home and its cost approximates just that. Yet provision is made for two good bedrooms on the second floor. The living room is of splendid size and well proportioned and lighted. The Dresden, as priced does not include material for finishing off the second floor but should you desire this accomplished, we will quote price on request. This arrangement adapts itself to a two-bedroom, three bedroom or four bedroom plan, and at a cost astonishingly below expectations. Complete detail specifications on request.

SOLD BY THE GOLDEN RULE FOR FORTY-THREE YEARS

THE BIRCHWOOD—Price Given On Enclosed Price List

The Birchwood is a home of solid attractiveness. It will measure up to your highest expectations, from the strength of its sturdy timbers to the charm and beauty of its woodwork and finish. Shrewd buyers immediately recognise the opportunity to avoid paying the top prices charged by regular dealers—an opportunity made possible by dealing direct with the Aladdin Mills. The Birchwood is presented in two different sizes. The exterior is identical in each case, except as to location of windows. The design of the Birchwood, with porch included in price given, is of standard conventional type that has been so popular for many years. The wooden columns of the Birchwood porch can be furnished to rest on the porch floor at no difference in price. It would then be unnecessary for you to build the ornamental brick piers.

BUILD IT YOURSELF

THE COLONIAL—

This lovely home follows the traditional New England feeling. It avoids decorative frills while abounding in vitality and form.

The floor plan at the right provides for a pleasant and convenient kitchen with adequate location for breakfast set or dining table. There is ample space for cabinets, stove and sink. Two bedrooms, bath and three closets complete the plan. Note attractive picture window.

Detail specifications will be gladly mailed on request. We pay the freight.

Dear Sir:

Glen Falls, N. Y.

I am writing in reference to my order for a Mount Vernon No. 3. The shipment arrived promptly and I am sincerely grateful for receiving the house at the time you hoped we would. The lumber is very good judged by the standards in this area. Our house has created quite a bit of interest and I wouldn't be surprised if you have more inquiries from this area. So far we are very well pleased.

The Brockton is one of the most popular small homes of the past year. A careful study of its interior arrangement reveals the last word in comfort, convenience and efficiency. Ample wall space and cross ventilation have been accomplished in every room by our designers. Note that it contains four closets. Two plans are presented, the

No. 3 Plan shows a cellar stairs where a basement is part of the owner's wishes. A stairway leads from living room to second floor in plan No. 4, which offers a world of added space. Our price does not include flooring or partitions for the second floor but these things can be added now or later if desired. Write us for detail specifications.

SOLD BY THE GOLDEN RULE FOR FORTY-THREE YEARS

UNTO THE THIRD GENERATION GRANDFATHER SON and GRANDSON

EACH STARTS HIS MARRIED LIFE IN HIS OWN NEW ALADDIN HOME

Aladdin home owners who built and have lived in their Aladdins for over thirty years here testify unsolicited to their satisfaction and happiness. AND their sons and their son's sons therefore come to Aladdin for satisfaction, safety and economy.

Dear Sirs:
I am writing to request that you send me one of your catalogs. If you will look through your files you will note that in 1914 we purchased one of your houses, the "Genesia No. 5." We now live happily ever since we were married Oct. 31, 1914. My brother, Lawrence Hesdy, also purchased your "Standard" house. One of my four daughters and her husband are interested in building, too.

Very truly yours, Mrs. H. P. Dell

Grove City, Ohio

Sirs:
Will you please send a catalog of houses as soon as possible. Yours,
Tommy, Mrs. V. H. Parsons
P.S. I built an Aladdin house in Oregon about 25 years ago and now my son is planning on building and would like to see your catalog.

Va Beach, Va.

Yours truly, Mrs. V. H. Parsons
P.S. I built an Aladdin house in Oregon about 25 years ago and now my son is planning on building and would like to see your catalog.

Yours truly, Mrs. Jimmy M. McLean

P.S. I have a son who might be interested in building in our future as he has just purchased 14 acres out of P.S. Wayne, Ind.

Community, Ind.

Dear Sirs:
I am the lady who built an Aladdin cottage on Case Cott. and it is neither the last step. I would like one of your new catalogs.
Yours truly, Mrs. Jimmy M. McLean

Westmont, N. J.

Please send me your latest catalog and descriptions of houses. We have been living in one of your houses for 20 years now and we expect to sell it and build a new one. Please rush and advise.
Yours truly, Julia T. Nichols

Edmonds, Wash.

Please send me your latest catalog and descriptions of houses. I have been living in one of your houses for 20 years now and we expect to sell it and build a new one. Please give me the probabilities of immediate delivery.
As you may remember, my father purchased one of your houses in Juneau, Alaska about 15 years ago and it is still in good condition.
Truly yours, James Ramsey

Lakeland, Mich.

Dear Sirs:
Would you please send me your catalog and prices of houses? I bought six cottages from you about 40 years ago. All are in one shape yet.

A. Collier

Grinnell, N. H.

I did some business with you back in 1914 thru a third party who did the building while I furnished the funds, and now I am interested in a house for myself. So would like one of your up-to-date bungalows or bungalows, also prices.

Very respectfully, Joseph Urillen

Westboro, Mass.

Please send me your catalog at once. My grandfather bought a Ready-Cut house about 25 years ago and recommended it to you people.
C. W. Brown

Utica, N. Y.

Gentlemen:
Some 27 years ago I bought my home "The Brentwood" and still live in it. Send me catalog on latest houses, also prices.
Yours sincerely, Ben D. Smith

Huntington, W. Va.

My father bought a house from you in 1912. If you are still in business would like to have a catalog on small houses.
Yours truly, H. B. Mackay

Wool Comber, Mass.

Gentlemen:
Please send me a catalog of your houses. We bought 10 or 12 Aladdin Houses in 1912-13.
Yours truly, F. E. Marlin

Hendersonville, N. C.

Gentlemen:
Will you please forward me your new catalog? It might interest you to know that the house I purchased from you about 1912-13 is still in good condition and looks as good as new.
Charles Fostler

Bridgeton, N. J.

Gentlemen:
We are writing to get information you could give us regarding the Aladdin Ready-cut Houses.
My grandfather had one of these houses some years ago and was very pleased so we decided to try one.

Yours truly, Miss V. J. Keating

Caldwell, Montana.

Dear Sirs:
About 25 years ago we got a ready-cut house from your company. It has been so satisfactory that when we are now time to build another place, we want another Aladdin house. We would like to have one of your catalogs.

Yours truly, Mrs. A. C. Petersen

Orchardstone, N. Y.

In 1914 my Dad purchased a house from you and in the process wrote to you every year. I have just returned from the Pacific and am interested in finding a new home for my family. Would you kindly send me your catalog?

Yours truly, Francis G. Mason

Madison Lodge, Kan.

Dear Sirs:
As I am in the market for another bungalow and bavarian style, I have one of your cut houses. I naturally turn to you for another as I think I saved at least 40% by so doing. Would like to have another set of building plans and prices from you so I can see what I can do about building another ready-cut house. Thanking you for past favors, I am

Yours truly, Chas. L. McCormick

Grand Island, N. Y.

Gentlemen:
Kindly send me catalog with prices and details of your ready-cut houses. I built one of your houses over 35 years ago. Did most of the erection myself and was quite pleased with the job, materials and all.
Yours truly, F. B. Padam

Dear Sirs: Julian, Pa.

Back in 1912 I built one of your Aladdin houses and liked them very much. I am now going to build some more houses and wish to look over what you have available now. Please send me a catalogue.
M. E. Altman, Sr.

Youngstown, Ohio.

Please send me your illustrated catalog at an early date. For your information we constructed 57 of your houses in or about the year 1925.
Yours very truly, Robert M. Kelly Jr.

Sandwich, Ill.

Dear Sirs:
My husband's grandfather bought a ready-cut cottage from you. He lived in it until recently and was very well pleased with it.
Now my husband and I would appreciate it if you would send us full-and-complete information on your ready-cut houses.
Sincerely, Mrs. E. J. Cook II

Baker, Mont.

Dear Sirs:
I bought a Heidi-Cut house, the Yale, from you in 1918. Have been living in it ever since. It is a very nice house yet and I would like to buy another. Will you please send me your catalog?
Mrs. R. M. Larson

Clinton, Mo.

Dear Mr. Aladdin:
I am writing you for catalog and price list on your ready-cut houses. In 1919 I bought a house from you called the "Rochester" and I like it just fine and am well pleased with my house. I may leave my home, if I do I may have to build me a house and I want it to be an Aladdin house, too.
Yours sincerely, L. A. Beaman

Emmitsburg, Md.

Dear Aladdin Friends:
I have a grandson who has been overseas for two years. Now he is married and married and would like to have a house. I am writing to you.
I built an Aladdin house about 22 years ago. It was a "Henderson." It was a beautiful little house. I have been a widow now for 10 years. I hope to have from your catalog.
Yours truly, Mrs. David N. Myers

Mr. Davis, Florida

Dear Sirs:
Will you kindly send to me at once, one of your catalogs. I am a collector of pieces as 1917, 1922 and I think 1927 at Brewster, N. Y. At present I am here at Florida retired, and am looking for a small home.
Yours very truly, John W. Phillips

QUALITY ENDURES THROUGH THE YEARS

THE MADISON—A True American Home—

Price Given
On Enclosed
Price List

WE PAY
THE
FREIGHT

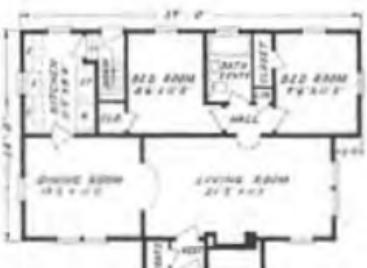

You will find this charming Madison home dotting the landscape in literally hundreds of communities. This design is typically American and its popularity is assured. The roof lines are especially interesting while the sturdy chimney breathes hospitality. On the exterior we illustrate rugged, artistic shingles of long-lived red cedar grooved and etched to resemble the antique hand-rived shales of our forefathers. You have a choice of soft, pleasing colors. These shingles are laid at wide exposure for greatest beauty and economy and provide deep, filtering shadow lines resulting from the application of these shingles directly over an under-course of unstained shingles. They lend an element of distinction to this style of architecture. A double thickness and wide exposure gives maximum insulation—keeps your home warm in winter and cool in summer. This attractive shingle exterior is also shown for our Parkway on page 16 and can be furnished in place of wood siding for any homes shown in our catalog. Folding stairway can be installed in the hall of any one of these plans. Write us for detail specifications.

And You Can Build It Yourself

These attractive ECONOMY homes offer a chance to start home-ownership on the very smallest savings. One of these compact plans is the starting point, conserving expense, inspiring thrift and saving rent. The materials entering into these small houses are identical in quality and value with the materials found in our larger homes. These ECONOMY homes shown on pages 27, 28 and 29 are priced in both single and double construction and are the only homes shown in the catalog priced in this manner. See page 29.

THE CAMEO

The modest cottage is the foundation of the American Republic. The American citizen is master of himself and his destinies when he steps across the threshold of his own home. The Cameo breaks thru the clouds of obstructions — high prices, middlemen's profits, architect's and contractor's fees — and opens up the big opportunity to start right now — to start with less than he thought possible — to start with modest savings. The Cameo is furnished in either size 18x26 or 22x26. See price list.

EASY TO BUILD—Over the past FORTY-THREE years of the Aladdin Company's history, tens of thousands of our customers have built their Aladdin homes with their own hands. In countless instances friends and relatives have pitched in to help, and to shorten the time of erection. The great advantage of being able to purchase the complete material from one source all of guaranteed high grade, and guaranteed to be sufficient to complete the house and at a known cost, has saved money, saved time and saved many troubles.

FOUR PLANS TO CHOOSE FROM

Four plans are shown here for the Columbia in "Economy" construction. Three are size 18 x 26 feet and one is 22 x 26 feet. For each of them the porch is priced separately as shown on our enclosed price list. Among the four plans, one is sure to meet your requirements. The savings after building a small home will add more to your happiness than the luxury of a big home. Ask us for detailed Specifications. You will note that "Economy" homes are priced in both single and double construction. (See Page 29.) We pay the freight.

Price List

POTOMAC NO. 1

POTOMAC NO. 2

POTOMAC NO. 3

Refinement of detail and true simplicity distinguish this well-proportioned home. It satisfies every wish in beauty, comfort, convenience, and too, remarkable value. Either Plan Two or Plan Three of the Potomac can be turned to face the street the long way of the house by transposing the front door. The pergola type porch roof harmonizes with the exposed rafter ends. This porch is quoted as an extra in our price list attached. Write for our "Economy" specifications for the Potomac.

BUILD IT YOURSELF

The Colonial atmosphere of the Potomac is very appealing to the home owner for it bespeaks hospitality, old-fashioned simplicity and true goodness. From its clean, straight timbers to its beautifully machined siding and handsomely grained woodwork, it represents the very best in materials. Five large rooms and bath are shown in the Plan One—truly a home to be proud of. The Potomac has been one of our most popular houses for many years and has always given its owners highest satisfaction.

SINGLE CONSTRUCTION includes everything shown in the specifications except sheathing lumber and building paper under the siding on the outside walls and except subfloor lumber and building paper under the finish floors. See price list for prices on "Economy Homes" shown on pages 27, 28 and 29.

DOUBLE CONSTRUCTION includes everything shown in the specifications. You will note we provide inch wall sheathing and building paper underneath the bevel siding and inch subfloor sheathing and building paper underneath the finish floor. See price list. Porches are priced separately for "Economy Homes" shown on pages 28 and 29.

ALADDIN Enters FORTY-THIRD Year of Manufacturing READI-CUT HOMES

The ALADDIN Organization's Long Experience Means the Perfection of Machine Production, Saving of Labor on the Job and Elimination of Waste of Materials.

ALADDIN SYSTEM IS BUILT ON THIS

PRINCIPLE Modern power-driven machines can do BETTER work at a lower cost than hand labor. Then every bit of work that CAN be done by machine SHOULD be so done. The steel worker with a little hack-saw trying to cut and fit the steel girders of the modern skyscrapers should be no more out of place than the modern carpenter cutting sills, joists, and rafters. The skyscraper framework is cut to fit by machines in the steel mills, marked and numbered ready for erection.

The lumber in the Aladdin houses is cut to fit by machines in the Aladdin mills, marked and numbered ready for erection. The steel system is over sixty years old—the Aladdin system over forty years old.

An Aladdin Readi-cut Home saves you from twenty to thirty percent in your labor bill because the carpenter does not have to spend his time working out the construction details, and cut all the lumber by hand. Our complete drawings give him construction details that have been proven the best over a period of over forty years. When building the Aladdin Way, you save all the time used by a carpenter

ONE-MAN EQUALS SIX CARPENTERS

in measuring, cutting, trying and fitting, because all of this work has been done in our factory by modern machines. A machine cut Aladdin home is better built, stronger and more substantial and it will give you a lifetime of satisfaction.

Standard size materials save waste. We save you eighteen percent in waste because our homes are designed to use standard sizes and lengths. Also all mill work, doors, windows, etc., are manufactured to standard sizes thus making it possible for us to produce them in tremendous quantities. Naturally with the large production and modern factory manufacturing methods, we effect a saving for you on all of the items entering into the construction of your home. All lumber used in Aladdin homes is standard size as adopted by The National Association of Lumber Manufacturers.

Volume the Magic Word The first rule in the discipline of manufacturing is: To lower the cost, divide the several parts of the labor employed into simple, specialized, mechanical operations.

But this won't work without the mystic word.

And that word is "VOLUME!"

Your local contractor may build ten houses a year. Could he afford to invest \$60,000 in machinery to lower his cost on the ten houses twenty per cent?

"Volume" of business makes possible the highly specialized machinery found throughout the Aladdin mills; makes practical the investment of \$10,000 in a single machine which will lower the cost \$5.00 on a house!

But that \$5.00 is multiplied twenty to thirty times on each house and it saves every buyer of an Aladdin from \$100 to \$200 on construction cost alone.

Quantity Buying Because of the tremendous amount of building materials we purchase each year, we are in a position to buy at the lowest possible prices. The large quantity purchased makes it possible for us to obtain prices far lower than any company or individual who has a demand for only a few homes each year.

When the finest grades of materials are used, you are assured of the highest kind of an investment in your home. We never, in any case, sacrifice quality for price or profit. Aladdin Certified Lumber is guaranteed to be satisfactory.

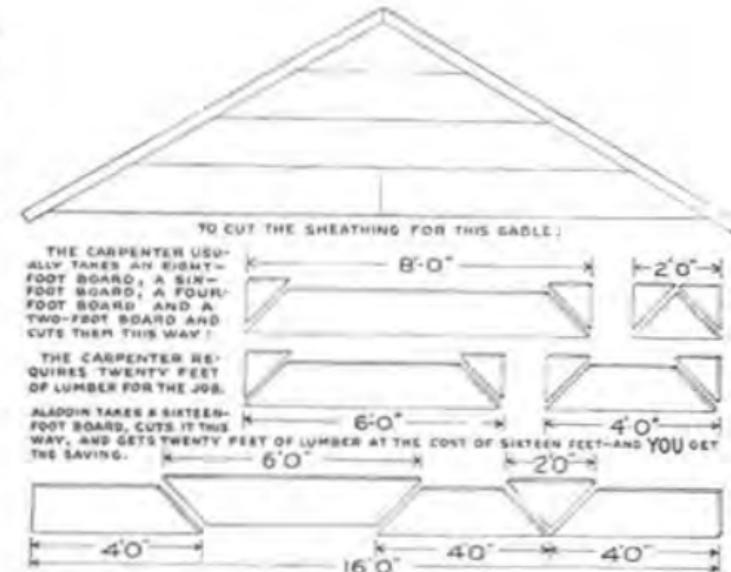

Showing Simple Plan of Laying Out Materials

One of the most amusing remarks made is that the builder of an Aladdin home will lose as much time hunting out his material and finding the right pieces as he will save by the Readi-cut System. Any thought about time lost in hunting for pieces will be found untrue when you see the simple system of laying out materials given in our Instructions Book with every home.

HOW THE ALADDIN READI-CUT SYSTEM SAVES YOU MONEY BY GETTING 20 FT. OF LUMBER FROM A 16 FT. BOARD

An Aladdin Readi-cut Home saves you from twenty to thirty percent in your labor bill because the carpenter does not have to spend his time working out the construction details, and cut all the lumber by hand. Our complete drawings give him construction details that have been proven the best over a period of forty-three years.

REMEMBER THE LUMBER THAT'S WASTED COSTS JUST AS MUCH AS THE LUMBER THAT'S USED. ALADDIN SAVES 18% LUMBER WASTE.

Efficient Planning Saves Your Money

Waste can and does influence the cost of everything you buy. This is especially true of home building.

Waste consumes your dollars and gives nothing in return. Aladdin proves to you that the Readi-cut System will save about \$18 out of each \$100 on your lumber costs.

Aladdin proves to you that the Readi-cut System will save you about \$30 out of each \$100 labor cost. A study of the above drawing will give you a very clear understanding of the amazing economies of the Aladdin Readi-cut System and what it means to you in dollar savings.

ALADDIN System Gives Control Over Your Costs

Why shouldn't you save these profits, like thousands of other home-builders have been doing through The Aladdin Company for the past forty-three years?

You KNOW in advance what the materials for your house will cost you. You KNOW there will be no shortage of materials—nothing forgotten. You KNOW you will not be paying for more materials than will be used and that you will save the price of all "short ends" that are wasted by the old system.

You KNOW you will receive high grade lumber, millwork, hardware—Aladdin CERTIFIED materials. You KNOW everything will be on hand when you want it—all in one shipment and all guaranteed by Aladdin. And you KNOW in advance what your house will look like and what it will be in every way.

KNOWING gives you control—mastery of your money, of materials, of labor and of RESULTS.

Quick Shipment

We can ship any regular home in this catalog within about eight days after we receive your order. The average time required for delivery after leaving the factory is from three to five days. We prefer to be given a little more time if convenient to you. All homes are shipped complete at one time in a sealed box car from our mill.

ALADDIN Service

You receive a scientifically designed home; a scientifically manufactured home; the benefit of buying power, thousands of times greater than your own. You receive the safeguards of our experience. You are guarded against costly extras. You have our help in keeping costs down. You save many days' time. You save costly waste. You receive everything complete for your home in one shipment. You know exactly what your house will look like when completed. You save all architectural fees. You are assured prompt shipment and quick erection. You receive a bona-fide guarantee of complete satisfaction.

AWARDS OF QUALITY

ALADDIN ORIGINATED THE READI-CUT SYSTEM OF HOME BUILDING

O. E. SOVEREIGN, Gen. Mgr.

THE ALADDIN COMPANY was founded forty-three years ago by W. J. Sovereign and O. E. Sovereign who perfected and established the First Readi-cut System of Home Building in the world.

Today, as in the past, the company is still managed and owned by these two brothers. Customers of forty-three years ago may write to The Aladdin Company today and know that the management is unchanged, and that they are writing to and dealing with old friends.

Their vast experience in the wants and needs of homebuilders, in the choice of the best materials for their use, in the preparation and manufacture of the lumber is of tremendous value to every customer of Aladdin. The Sovereign Brothers are ready to give you their personal time and assistance to guard you from the mistakes so often made by inexperienced homebuilders. This service costs you not one cent extra. It is included as a part of every Aladdin transaction.

The Readi-cut System as originated by The Aladdin Company has been approved by the United States Government, the Michigan State

Government, and hundreds of big corporations by large purchases of Aladdin Houses. This company manufactured and shipped the first complete ready-cut home built in the world.

W. J. SOVEREIGN, President

What You Get When You Buy An ALADDIN House

Foundation wall plates cut to fit.
Foundation Sills cut to fit.
Floor Joists cut to fit.
Floor Joint Bridging cut to fit.
Sub Floor Sheathing cut to fit.
Wall Studding cut to fit.
Wall Sheathing cut to fit.
Partition Studding cut to fit.
Ceiling Joints cut to fit.
Rafters cut to fit.
Roof Sheathing cut to fit.
Roof Ceiling cut to fit.
Water Proof Building paper between sub and finished floor.
Finish Floor Tung-oil and Ground.
Water Proof Building paper between wall sheathing and siding.

Siding squared ready to fit against outside and inside joints.
Cedar shingles or asphalt shingles instead of sooting if preferred.
Outside finishing lumber cut ready for fitting.
Grown, bare, core and quarter round moldings.
Water table and drip cap for exterior.
Window frames complete with inside and outside trim.
Glass in window units ready to frame.
Windows and door glass.
Door frames complete with inside and outside trim.
Doors—Interior and Exterior.

Baseboard and base shoe for all rooms.
For 160 steps—balustrade, stairways, trimmings, stairs, stringers, newel posts, balusters, handlings, etc.—finished ready for mounting.
Cedar Shingle Sheds—shingle—all materials cut in fit.
Nails of proper size.
Lock sets.
Dove Hinges.
Double swing door sets.
Miter Dove Hinges—
All window hardware complete.
Shale—curtains—medium shingles—
Valley, hip and ridge shingles—in
boxed.
Plumbers—cooks. Finish ranges
and ovens desired.

Turpentine, Paint and Oil.
Interior stains—one coat—Floor and Interior Woodwork.
Imperial Varnish—two coats—
Floor and Interior Woodwork.
Pitch joint, porch flooring, steps, curvings, balusters and porch roof shingles and ceiling cut to fit.
Foundation plans and foundation instructions.
Completely detailed blueprints showing every step of erection.
Copyright book of printed instructions and illustrations describing every step in erecting and completing the house.

THE ALADDIN COMPANY

FOUNDED 1906

By W. J. and O. E. SOVEREIGN

HOME OFFICE and MILLS: BAY CITY, MICHIGAN

CATALOGUE No. 54

HOMES THAT GROW

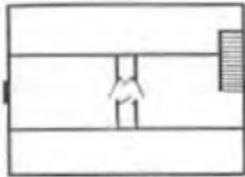

The average total floor space of the one-story homes in this book is approximately 800 square feet. With a few exceptions the plans show two bedrooms. While a two bedroom plan may meet your requirements at the time of building your new home, the future may develop the need of additional rooms—expanding family or guest rooms. To plan ahead now to meet such contingencies, we show on this page some interesting suggestions.

PLAN No. 1

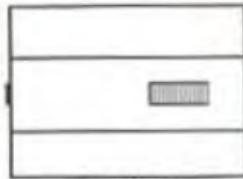

PLAN No. 2

PLAN No. 1

The three suggestions will add another 300 or 400 square feet of living space to your home. You can include in your order (if a permanent stair to the second floor is not included) a folding stairway as pictured on this page. Price will be given on request. When installing this folding stairway you are spared the present cost of finishing off the second-story rooms but are in shape to expand at a later time at minimum cost.

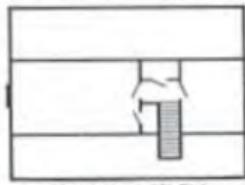

PLAN No. 2

A few of our plans show a permanent stairway to second floor but no materials are included to finish off the second floor, unless the floor plan, and specifications state the second floor materials are included. In most homes valuable attic space is available for future expansion.

OUR FOLDING STAIRWAY

Where no stairway is shown in the floor plan it is always possible to install a folding stairway usually in the ceiling of the hall. The stairway can be lowered or raised with almost finger pressure. When closed, the space is covered with a neat panel. The frame opening in the ceiling is about 26" x 54".

PLAN No. 3 BELOW

Optional Materials and Equipment

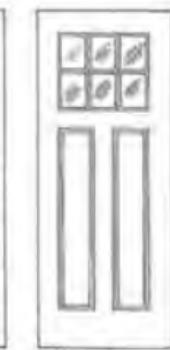

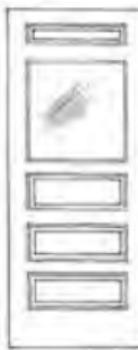

PICTURE WINDOW STYLE 1

PICTURE WINDOW STYLE 2

The recent vogue of installing picture windows is both attractive and sensible. Practical, because this type of window enhances the attractiveness of any home; practical, because of the better light in the room where installed. We are prepared to furnish either of the types shown above in place of any single sash (mission) window. Two sizes are available in either No. 1 or No. 2 frames—5 ft. 4 in. x 4 ft. 6 in., and 7 ft. 6 in. x 6 in. Write for prices.

EXTERIOR DOORS Style No. 8 is provided at the rear. For the front we list in specifications the Style Number of door provided with your home.

EXTERIOR DOORS

Showed at right is the type of Door Canopy which is both attractive and serviceable and can be applied to the entrance of any of our houses. It offers excellent protection from sun, rain, sleet and ice. Write for prices.

SHINGLES

Instead of wood siding for the outside walls we can furnish artistic shingles of long-lived red cedar grooved and etched to resemble the antique shales as illustrated on page 18 and also on page 26. The shingles are laid at a wide exposure with a double thickness at the butt. Write us for further details.

ARCHES

A curved plastered arch can be furnished in any of our homes where arch openings are shown in the floor plan.

SCREEN, STORM SASH

We can furnish window screens, storm sash and combination storm and screen doors for any or all outside openings. The distinctive ornamental screen door shown on the Newport may be had with any Aladdin house. Write for prices mentioning the home selected.

CELLAR WINDOWS

For a foundation wall opening approximately 3 ft. wide and 2 ft. high we can furnish a complete unit with frame, glazed sash and hardware. It is not necessary that the frames be shipped before the house as all you have to do is leave opening 34"x24" and the complete assembled unit can be set in the foundation wall.

OAK FLOORING

Oak flooring can be furnished in any or all rooms of any Aladdin home. If wanted, write us for prices and state in what rooms you will wish to use the oak flooring.

INSULATION

Attic insulation can be furnished with any Aladdin home. It fits easily between your ceiling joist and can be installed at a very low cost. Write us for prices.

KITCHEN CABINETS

Kitchen cabinets can be furnished in accordance with catalog floor plan layouts. Attractive kitchen arrangements can be provided for any Aladdin home you decide on. Write for prices.

CELLAR STAIR ADDITION

If the Aladdin home you select is not provided with a cellar stair, we can furnish the stair addition 7' x 6' in size. It can be added to the home and will include steps to both the kitchen and basement with grade entrance. Write for price.

SUMMER COTTAGES

We have prepared a special pamphlet illustrating in colors our line of Aladdin Summer Cottages. This will be sent you upon request and without obligation. In writing for this, please state if you are in possession of our regular catalog.

ALADDIN BUILDING ESTIMATES

EXCAVATION—Under the heading, "10' Excavation," we give the number of cubic yards of earth necessary to remove in an excavation of that depth. One-third of that amount will be the number of cubic yards private lot so excavated. If your excavation will be less than three feet or more than three feet but not enough to multiply the number of cubic yards for one foot of excavation by the depth you intend excavating and the resulting figure will give you the number of cubic yards to remove in your particular case. Our figures are based on making the excavation one foot larger each way than the sum of the foundations.

FOUNDATIONS—Under the heading, "10' Blanks," we give you the number of concrete blocks that you will need for a foundation with 10 inches high. As concrete blocks are 8 inches high, it takes 10 blocks

Masonry and Fireplaces—Chimneys can be located anywhere in the house you like for we do not cut our materials for these openings. If you do not want the fireplace which may be shown in the photograph and floor plan arrangement, you need not build it. We furnish you a foundation plan which shows you exactly how to proceed to build your foundation.

Plans Can Be Reversed—Any Aladdin Plan can be furnished reversed. A reversed plan would place all of the rooms on the opposite side of the home from that shown in the catalog plan.

Room Sizes—Indicated on catalog floor plans are net dimensions between plastered walls. This system gives accurate information for proper placement of furniture and other equipment.

Special Plans—The success of the Aladdin System depends to a large extent on the reasonable standardization of designs and material sizes. For this reason we find it impractical to quote on special plans of any kind.

wall is approximately 7 feet high. If a wall of different height is built divide the quantities by ten and multiply by the number of blocks high your wall is to be built. If a wall only be necessary to carry your foundation down below the frost line. This is seldom more than 2 to 3 feet below ground or grade line and in many localities is considerably less. Special care use 23 blocks the quantity of blocks required will be one third less. If a raised concrete foundation wall is to stand 10 feet high, add the number of cubic yards of potted concrete required for such height. As the rule differs in every locality your local mason dealer can give you the quantities of cement, sand and gravel required for this type of foundation and also advise you upon the necessary materials for the number of cubic yards of potted concrete listed. The figures are based on a wall 8" thick, not including thickness of brick.

PLASTERING SURFACE—Under the heading we give you the number of square yards of surface of the house to be tacked and plastered with oil stucco or chalk.

CHIMNEYS—Chimneys and fireplaces are sometimes placed on one side to engine a exterior location. Since we do not care the chimney to save money for them, you can change the location or omit them entirely if preferred. The quantity of material required for chimneys is as follows:

One 8" x 8" fire chimney, 20 blocks to each foot of height.

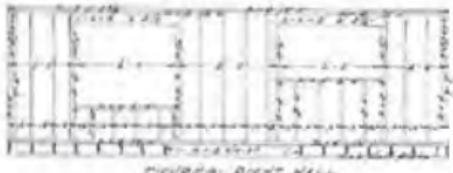

Two 8" x 8" fire chimneys, 30 blocks to each foot of height.

One 8" x 12" fire chimney, 24 blocks to each foot of height.

Two 8" x 12" fire chimneys, 40 blocks to each foot of height.

For interior chimneys 12 1/2" square and 14" on center used for each 1000 blocks.

It's Easy to Follow
ALADDIN Blueprints

Here we have shown in greatly reduced size, a few figures taken from a set of Aladdin Ready-cut House Plans. They show the size, length and position of every piece of material entering into the construction of the home. All materials that need mitering are mitered to the exact length and all you have to do is nail the materials in place.

VISIT US

You are cordially invited to visit us at our Bay City offices. We will be proud to show you thru the Aladdin mills where you can inspect our lumber and see our houses being manufactured. Can also show you some of the many Aladdin Homes built in Bay City.

ALADDIN READY-CUT GARAGES

Aladdin garages are made of only the best materials and when completed are sure to please the most critical person. The lumber is entirely cut-to-fit, making erection a short and easy task. Detailed drawings show where each piece of lumber is to be placed and nailed. Aladdin offers the perfect system of buying and building garages. Safe delivery and no shortages guaranteed.

Specifications: Materials of the same high quality as used in Aladdin houses. Sills 4" x 4", studding 2" x 4" on 24-inch centers. Drop siding for side walls, 2" x 4" rafters on 24-inch centers, roof sheathing laid tight. Best quality green, slate-surfaced, roll roofing. Slate surfaced asphalt strip shingles can be had in place of roll roofing at prices quoted. See Price List. Doors, eight feet wide and seven feet high. Windows furnished when shown in illustration are swinging casements. Hardware for doors and windows, nails and two coats of paint for exterior. Materials Ready-Cut. Drawings and instructions for building. All garages furnished without floors as most owners prefer to build floors of cinders or concrete. Prices given on enclosed Price List.
