

## Appendix B Forms

### Request for Authorization to Purchase Radioactive Materials

Please submit a copy of this form to Jennifer Walton, Foust Hall 108. A signed copy will be returned and MUST accompany any requisition for any radioactive materials.

1. Isotope needed.
2. Chemical or physical form.
3. Quantity needed.
4. Please indicate the maximum amount that will be on the CMU campus at any one time. Will this material be reordered within two years and if so, what quantity will be ordered?
5. Where will the material be stored?
6. Briefly outline the purpose for which this material will be used.
7. Has a protocol been filed for review by the Radiation Safety Committee? (Select One)
8. List the individual (s) who will come in contact with or use this material. Please include the extent to which the individual will be exposed or use this material, their training and badge application.
9. What radiation training will be provided for the individuals using this material?
10. Applicant name and position  
\_\_\_\_\_

11. Department \_\_\_\_\_

12. Signature. In signing this form the applicant acknowledges his/her responsibility to adhere to the rules of the NRC license and radioisotope use on the CMU campus, to use common sense and to provide training time for individuals using the material that is the subject of this application.
