

Session 2: Mouse Overview

Pre-requisites: Session I and all Session I pre-requisites

Overview: Required for all personnel who will be handling or performing procedures on awake mice. The course includes a demonstration of proper techniques for humane handling, restraint, and use of mice. Instruction is provided on recognition of normal and abnormal physical and behavioral changes, gender determination etc. This will be a hands-on training performed in the vivarium.

Video is available online at:
