Undergraduate/Doctoral Offerings

19. Does your School offer a PhD Program?   **(Dropdown: Yes / <mark>No</mark>)** (Click symbol to enter data)
20. Does your School offer an Undergraduate Major?   **(Dropdown: <mark>Yes</mark> / No)** (Click symbol to enter data)

Membership Level Data

If your school has more than one degree that falls under your NASPAA membership, you should aggregate the data for each degree into one response for these questions. You will only need to complete this section for your first degree program.

21. **Last fall semester/quarter, what was the number of each of the following? (use headcount, not FTE. If you have only FTE data, please indicate this in the Comments & Caveats section below.)**

   a. Total instructional faculty?   7
   b. Total sections offered by your NASPAA degree program(s)   15
   c. Percentage of those sections taught by full-time faculty   60

Tuition

For the following questions relating to tuition/fees, the program should provide data for a student enrolled on a FULL TIME basis. Please include all mandatory fees as well as tuition in your calculations. Do not include adjustments for financial aid offered to students. If appropriate, report the following separately (Private Institutions should report their tuition under Level 1):

- Level 1: The highest level of tuition (Typically for Out of State students)
- Level 2: For those programs with a second, lower tuition rate (Typically for In State students)

22. **What is the total, non-discounted cost (tuition/fees) for a Full-Time Student who enrolled in fall of the survey year to complete the degree program?**

	Out-of-state	In-state
Tuition	$28,046	$28,046
Fees	$325	$325
Total Cost	$28,371	$28,371

Financial Aid

For this survey, financial aid consists of tuition scholarships, assistantships, fellowships, or work-study support from your institution. This includes direct funding from your program or from other sources within the institution. Do not include loans or other assistance that must be repaid.

Indicate the percentage of students enrolled in the program who received financial aid. Enter separate percentages for Full-time, Part-Time, and International Students. Enter a whole number between 0 and 100 for 0% to 100%.

23. **% of Full-Time Students receiving financial aid**

0

24. **% of Part-Time Students receiving financial aid**

0

25. **% of International Students (Full and Part-Time) receiving financial aid**

34. Please provide a short (300 characters) description of your programs admissions policy. (In this area you may talk about waivers, typical admits, and mission based admissions factors).

Admission to CMU's MPA program requires:
1. An undergraduate grade point average of at least 3.0 (on a 4.0 point scale).
2. Completion of an undergraduate research methods course with a grade of B- or above. Many competent potential students have diverse educational backgrounds. To accommodate these backgrounds, the program requires a broad demonstration of research methods, including those obtained in disciplines outside of public administration.
3. An essay (two to three pages in length) that discusses the applicant's professional goals and how completion of the program will facilitate the achievement of those goals. The essay helps the admissions review sub-committee determine the applicant's knowledge of the degree and their public service motivation.
4. Contact information for three references. References can be former professors, public service professionals, or alumni of the MPA program that attest to the applicant's potential to succeed in the program.
5. A current resume.

Please note: if the applicant does not meet all requirements for regular admission, but the admissions review committee believes that an applicant could be successful (usually due to a strong demonstration of public service motivation in the personal essay), the admissions review committee may decide to admit the applicant with stipulations.

The following questions (33 & 34) on enrollment data refer to the *current Fall*. For example, if you are filling out the 2021-2022 Annual Data Report you are reporting enrollment numbers for **Fall 2022**.

35. What is the total number of new students entering the program in the fall (FALL 2022)?
