

Neuroscience M.S. and Ph.D. Program Student Annual Evaluation

This form is intended to document student progress in the Neuroscience graduate programs. Students should complete this form and forward it to their primary research advisor in May every year. If the advisor approves the document, s/he should forward the completed document to the NSC coordinator. The NSC graduate program will review the document to evaluate students progress. Once completed, this form will be archived.

Student Name _____ Date _____

1) Date of entry into the NSC program (semester, year): _____

2) Coursework completed in the last academic year (note if you did NOT receive a B or better in a course):

3) Research progress over the last academic year (presentations, manuscripts submitted, etc.–full citations):

4) Dissertation/thesis committee formed? If yes, please list members and academic affiliations

5) for PhD: advancement to candidacy completed? If yes, please list date completed.
