## Introduction

The Office of Academic Planning & Analysis conducts an on-going study of persistence and graduation rates of overall undergraduate students at Central Michigan University. This report includes a summary of the results along with tables that present the persistence and graduation rates for first-time freshmen students. The tables present data on overall persistence and graduation rates, as well as rates broken down by students' gender and ethnicity.

For this study, a student is defined as having persisted into a given semester if he or she attended CMU during that semester or had previously graduated from CMU with a baccalaureate degree. Non-persisters include transfers (students who have transferred to other colleges/universities), stop outs (those who have dropped out temporarily and who will return to college in the future), and dropouts (those who no longer will continue with their education).

## Summary

This report contains information about the persistence and graduation rates of Central Michigan University first-time freshmen entering CMU in the fall semesters between 2009 and 2019.

The major findings over the most recent three cohort years, on average, are:

- About 76.1% of first-time freshmen entering CMU in the fall semester began their second year at CMU.
- Female students have higher second-year persistence rates (77.3%) on average than Male students (73.3%).
- Second-year persistence rates by ethnicity are:
  - Nonresident Alien (81.9%)
  - Hispanic/Latino (72.5%)
  - American Indian or Alaska Native (58.2%)
  - Asian/Native Hawaiian or Pacific Islander Students (75.1%)
  - Black or African American (69.7%)
  - White (77.4%)
  - Two or more races (68.3%)
  - Race and Ethnicity unknown (82.4%)
- Of a typical first-time freshman class, 60.9% graduate from CMU with a bachelor's degree within seven years. Also, 33.9% graduate in four years or less, 56.5% graduate in five years or less, and 61.5% graduate in six years or less.
- Female students graduate within seven years at a higher rate (64.2%) on average than Male students (56.9%).
- Seven-year graduation rates by ethnicity are:
  - Nonresident Alien (57.9%)
  - Hispanic/Latino (50.1%)
  - American Indian or Alaska Native (59.9%)
  - Asian/Native Hawaiian or Pacific Islander Students (63.8%)

- Black or African American (44.5%)
- White (63.6%)
- Two or more races (44.0%)
- Race and Ethnicity unknown (57.7%)

## Introduction

The Office of Academic Planning & Analysis conducts an on-going study of persistence and graduation rates of On-campus enrolled undergraduate students at Central Michigan University. This report includes a summary of the results along with tables that present the persistence and graduation rates for first-time freshmen students. The tables present data about on-campus persistence and graduation rates, as well as rates broken down by students' gender and ethnicity.

For this study, a student is defined as having persisted into a given semester if he or she attended CMU during that semester or had previously graduated from CMU with a baccalaureate degree. Non-persisters include transfers (students who have transferred to other colleges/universities), stop outs (those who have dropped out temporarily and who will return to college in the future), and dropouts (those who no longer will continue with their education).

## Summary

This report contains information about the persistence and graduation rates of Central Michigan University first-time freshmen entering CMU in the fall semesters between 2009 and 2019.

The major findings over the most recent three cohort years, on average, are:

- About 76.1% of first-time freshmen entering CMU in the fall semester began their second year at CMU.
- Female students have higher second-year persistence rates (78.0%) on average than Male students (73.6%).
- Second-year persistence rates by ethnicity are:
  - Nonresident Alien (81.9%)
  - Hispanic/Latino (72.5%)
  - American Indian or Alaska Native (57.3%)
  - Asian/Native Hawaiian or Other Pacific Islander (75.6%)
  - Black or African American (70.3%)
  - White (77.8%)
  - Two or more races (68.8%)
  - Race and ethnicity unknown (82.4%)
- Of a typical first-time freshman class, 61.7% graduate from CMU with a bachelor's degree within seven years. Also, 34.3% graduate in four years or less, 57.2% graduate in five years or less, and 62.1% graduate in six years or less.
- Female students graduate within seven years at a higher rate (64.9%) on average than Male students (57.2%).
- Seven-year graduation rates by ethnicity are:
  - Nonresident Alien (59.9%)
  - Hispanic/Latino (51.1%)
  - American Indian or Alaska Native (59.9%)
  - Asian/Native Hawaiian or Other Pacific Islander (65.3%)
  - Black or African American (49.1%)

- White (63.6%)
- Two or more races (44.7%)
- Race and ethnicity unknown (58.3%)

## Introduction

The Office of Academic Planning & Analysis conducts an on-going study of persistence and graduation rates of global-campus undergraduate students, who did not enroll on-campus at Central Michigan University. This report includes a summary of the results along with tables that present the persistence and graduation rates for first-time freshmen students. The tables present data on global campus persistence and graduation rates, as well as rates broken down by students' gender and ethnicity.

For this study, a student is defined as having persisted into a given semester if he or she attended CMU during that semester or had previously graduated from CMU with a baccalaureate degree. Non-persisters include transfers (students who have transferred to other colleges/universities), stop outs (those who have dropped out temporarily and who will return to college in the future), and dropouts (those who no longer will continue with their education).

## Summary

This report contains information about the persistence and graduation rates of Central Michigan University first-time freshmen entering CMU in the fall semesters between 2009 and 2019.

The major findings over the most recent three cohort years, on average, are:

- About 44.6% of first-time freshmen entering CMU in the fall semester began their second year at CMU.
- Male students have higher second-year persistence rates (40.6%) on average than Female students (37.9%).
- Second-year persistence rates by ethnicity, in ascending order are:
  - Black or African American (22.9%)
  - White (51.4%)
- Of a typical first-time freshman class, 7.5% graduate from CMU with a bachelor's degree within seven years. Also, 1.9% graduate in four years or less, 3.7% graduate in five years or less, and 4.1% graduate in six years or less.
- Female students graduate within seven years at a lower rate (6.6%) on average than Male students (9.2%).
- Seven-year graduation rates by ethnicity, in ascending order are:
  - Black or African American (3.8%)
  - White (15.2%)
