

Become a McNair Scholar

This is what McNair Scholars have to say •

www.mcnair.cmich.edu

Charmane Thurmand – Chemistry major

The McNair program has been an extremely enriching adventure. It has open doors that I never known existed. This program has given me the tools to make my dreams into goals that are reachable. •

Angela Lentz – Health Fitness major

Through the McNair Scholars Program I have achieved exponential growth as a future Ph.D. student. The program sets high expectations and provides you all the resources necessary to be successful. •

Heather Minkel – Neuroscience major

From general information about graduate education, to GRE training, and insight on where to go and how to pay for it, I couldn't imagine going through this process without McNair. When your family and friends don't have Ph.D.'s it is hard to know what you're up against. McNair provides you with insight every step of the way. •

Eric Schulz – Political Science major

I learned and experienced more than I could have imagined about graduate school and the world of opportunities it can create for eager and dedicated students. I also learned a great deal about myself, my interests, my abilities, and most importantly my potential. •

Courtney Hardwick – Psychology major

The Summer Research Institute challenged me mentally and physically to become a better student, scholar and researcher. I am now fully prepared for the task of applying to graduate school and achieving my Ph.D. •

Joe Witzke – History major

In addition to the invaluable academic training I have been provided with, being a part of the McNair Scholars Program has allowed me to form solid friendships with a great group of people. •
