

I have a 2-page reflection due to McNair
every first Monday of every month.

Until I graduate.

It is my duty to uphold program expectations
+ **be an awesome scholar.**

This is something I look forward to writing
each month because it's a wonderful tool for
my growth + evolution.

I write this reflection for myself
as well as the program.

It can be what it needs to be at that moment.

I take my time + follow through because
it is a meaningful practice.

And because I am a McNair scholar.
