Sample Traditional Medical School Interview Questions

Why do you want to be a doctor? What will be your specialty?

What are three values that you live by?

What is a favorite thing you observed or experienced that highlights your observation experience?

What are three characteristics you think a good doctor should possess?

Convince me that you can handle the workload in medical school.

Tell me about your background in research.

What is your greatest fault?

What are the top three issues currently facing the U.S. health care system?

What are your views on mandatory vaccinations within the public school systems?

Describe a time you have shown above and beyond care for other people.

If your medical school application was rejected, what would you do?

What do you want the admissions committee to know about you that is not in your file?
