ACADEMIC ADVISING VS. SUCCESS COACHING

• Academic Advisors assist students on matters related to career and academic decision-making, degree requirements, course selection, schedule building, bulletin interpretation, grade point averages, and summer transfer courses.

• Success Coaches work collaboratively with students to develop a plan of action to optimize personal and academic performance. Students learn strategies and techniques, and they receive support to take the steps necessary to enhance their learning and life at, and beyond, CMU. Common coaching themes include: time management, study skills, test taking/test anxiety, goal setting and four-year planning.

GENERAL ADVISORS VS. MAJOR ADVISORS

• General Academic Advisors have academic degrees and training in the profession of academic advising. Students visit General Advisors regarding UP and competency requirements.

• Major Advisors are faculty members that advise on the areas in which they teach. They have knowledge, experience and education in specific subject areas thus why they serve as major and minor advisors. Students visit Major Advisors to discuss specific major/minor courses and requirements.
