STUDENT BIO

As a first generation college student, I learned the Pathways Program is welcoming, supportive, and helpful. Pathways believes in all of their students and the program taught me many things such as how to draft a four year plan, find and apply for scholarships, build a time management plan, and how to set goals.

Now, as a Pathways Scholar and College Positive Ambassador, I can help others and lead them in the right direction in the same way that Pathways has led me.
