How to Help

You may have heard the term **bystander intervention** to describe a situation where someone who isn't directly involved steps in to change the outcome. Intervening may give the person you're concerned about a chance to get to a safe place or leave the situation.

You don't have to be a hero or stand out from the crowd to make a big difference in someone's life.

Take steps to protect someone who may be at risk in a way that fits your comfort level.

Whether you're taking a friend home who has had too much to drink, explaining that a rape joke isn't funny, or getting law enforcement involved when someone is behaving aggressively, choosing to intervene can impact the way those around you think about and respond to sexual aggression.
