

# SEMI-ANNUAL CAMPUS UTILITY SHUTDOWN

## Weekend of May 12-13, 2018

**PLEASE SHARE WITH BUILDING OCCUPANTS AND DEPARTMENT COLLEAGUES**

The semi-annual utility shutdown for the main campus is scheduled for the weekend of **May 12-13, 2018**. Facilities Management designates two shutdown periods per year, weekends in May and August, to perform required utility maintenance work that may have a significant impact across campus. *The May utility shutdown is always scheduled for the first weekend following Commencement and the August shutdown is the weekend following the second summer session classes. Therefore, please avoid planning any events on these dates.*

**Water (affects hot/cold potable water):**

Building	Disruption Information	Shutdown	Restoration
Entire Campus	NONE		

**Steam (affects heating and hot water):**

Building	Disruption Information	Shutdown	Restoration
Entire Campus	NONE

<b>North Art Studio</b>	May experience blink		

**Note: If Saturday’s work can’t be completed due to weather work will start at the same times on Sunday**

**Please ensure that all research and sensitive equipment are monitored during this time to avoid potential loss**

Facilities Management recognizes that service interruptions are inconvenient. However, critical maintenance and repairs are required to ensure long-term reliable operation, facilitate the health, welfare and safety of the campus, and to provide the highest possible degree of safety to our staff and contractors who perform the work.

For questions, please contact Mike Walton at 774-1566 or [walto1mj@cmich.edu](mailto:walto1mj@cmich.edu)
