

CMU Leadership Standards Reference Check Questions

Typically, the hiring authority, who has direct knowledge of the position responsibilities, should conduct reference checking. Be sure to give a brief description of the position to the person giving the reference (current/former supervisors are in the best position to address work performance). Verify facts listed on the resume such as; position, responsibilities, years of service, reason for leaving. The same questions may be used for all references; however, make sure all questions are job related. Keep in mind that all information received is **confidential** and should only be shared with Human Resources and if necessary, the search committee.

Listed below are standard reference check questions that can be used for all positions. As a tool to help in the selection of the best candidate, it is encouraged to ask reference check questions focused specifically on CMU's Leadership Standards, in addition to any standard questions that may be asked. Therefore, listed below are sample questions related to each Leadership Standard. For additional information related to Reference Checks, please refer to the Hiring Process for Staff <https://www.cmich.edu/fas/hr/Documents/hiring-handbook.pdf>

Standard Questions

1. What is/was your working relationship with the candidate?
