The ALADDIN COMPANY through this catalog offers you an opportunity to buy a complete home direct from the manufacturers, saving four profits on the lumber, millwork, hardware and labor.

The Emerald—Six Rooms and Bath—Price $956 And We Pay The Freight

A LITTLE gem, designed to gladden the hearts of the whole family, is pictured here—The Emerald. It is astonishing to find so complete a home, in such small compass—and as naturally follows—so low a price. Note the space saving arrangement of living room, dining room and kitchen—with the grade cellar entrance. They are excellently proportioned.

The second floor is revealed three fire bedrooms, each with closet, a well located bathroom and all reached from the central hall. The Emerald can be built the narrow way to the front of your lot, if desired.

The Emerald is priced at $956, for single construction, specifications for which are shown at bottom of page, and the price for double construction is $1099. Double construction specifications are the same as for single construction except that the following materials are added: Sub-floor sheathing under finished floors with building paper to be placed between the two floors, outside wall sheathing under bevel siding with building paper to be placed between, sash weights, cord, pulleys and sash locks for all double sliding windows, and additional rails for the above extra materials. Porch size, 12x8 feet, will be furnished by your adding $75 to the price. We pay the freight.

Specifications, The Emerald: (Single Construction.) Size 26x18. 6x6 built-up sill: 2x8 inch joists on 16 inch centers 1st and 2nd floors. Clear 2 1/4 inch face tongued and grooved flooring. 2x4 inch wall and partition studding on 16 inch centers. Lath for lining all walls and ceilings. Clear A redwood bead siding for outside walls. Clear outside finish. 2x4 inch ceiling joists. 2x4 inch rafters on 24 inch centers. Roof sheathing laid tight. Best quality green slate surfaced roofing. Check rail windows and frames size of glass in each sash 20x38 inches. 1st Floor, 20x42 2nd floor. Sash glazed ready to hang. Kitchen and bath room supplied with check rail window, size of glass in each sash 20x16 inches. Clear interior trim. Clear 6 inch two member baseboard. Door frames and doors size 2 feet 8 inches by 6 feet 8 inches, highest quality fir. Front and rear doors upper half glazed. Cased openings furnished where shown in plans. Attractive circle tread stairs as shown on plans. Grade entrance cellar stairs under main stairs. Two coats of paint for exterior. Stain and varnish for interior trim and doors. All rails, mortised locksets, hinges, double acting floor hinges and spring window bolts to complete house. Height of ceiling 9 feet 1st floor—8 feet 2nd floor, sloping to 6 foot 6 inches at front and rear walls. Roof 14 pitch. Exposed eaves 1 foot projection. Plans reversed without charge. See page 23.
The Columbia—A Real Gem—9 Plans—Price $478

And We Pay The Freight

This pretty cottage offers a chance to start home ownership on the very smallest of savings. Later successes may come, enabling a larger and more expensive home. But the Columbia is the starting point, conserving expenses, inspiring thrill, and saving rent.

You may choose any one of the nine floor plans shown. They are all priced alike—$478 and we pay the freight. The Columbia is size 18 x 26 ft. Strong 4 x 6 built-up sill supports clean straight 2 x 6 No. 1 floor joists on 24-inch centers. Studding and ceiling joists are of splendid No. 1 2 x 4 stock and on 16 inch centers. Rafters of same stock on 24 inch centers. Finest grade close grained, clear tongued and grooved flooring with 2 1/4 inch face, supplied for every house. Beautiful Clear A—Redwood bevel siding offers indestructible protection to the home, while the exposed finish lumber such as corner boards, porch work, window and door casings are practically free from any defect such as knots, etc. No. 1 air-

The porch size 14 x 6 feet shown in picture below may be had by adding $47 to the price.

(Continued on next page)
The Savings After Building a Small Home will add more to your Happiness than the luxuries of a big home—All Columbia's $478

dried lath are supplied for all walls and ceilings. Sound roof sheathing is to be laid tight. Roof is covered with best grade green slate surfaced roofing. Double sliding sash windows with clear glass, size 26x24, glazed ready to hang for all rooms except bath room, where swinging casement glass size 18x24 is furnished. Interior woodwork is made of clear, beautiful grained stock, while all inside doors are of handsome two-panel design, size 2 feet 8 inches by 6 feet 8 inches. Glass in upper half of front and rear doors. Clear 6 inch two member base boards. Cellar stairs furnished when shown in plans. Highest grade paint manufactured is supplied for two coats for outside while stain and varnish is furnished for the interior trim and doors. This quality insures perfect protection to materials and most attractive finish. Mortised locksets with brushed brass escutcheons in attractive designs come for each door in the house, except dining room door which is furnished with double acting floor hinge. Spring window bolts for all windows together with all nails necessary for constructing house are included. The height of ceilings is eight feet and the roof has one quarter pitch. Exposed eaves are of one foot projection. The foregoing is an accurate description of the Columbia as furnished for $478 in Single Construction. Double Construction is identical except that following materials are added: Outside wall sheathing under bevel siding with building paper between; sub-floor sheathing under finish floor with building paper between two floors. Sash weights, sash pulleys, and sash locks for all double sliding windows and additional nails for the above materials. Price of any Columbia in Double Construction is $559. Plans reversed without charge. See page 23.
The Bluebird—A Home of Dream-Like Perfection—Price $765

The Bluebird is a home of beautiful proportions, interesting detail and excellent interior arrangements. To own it insures the fullest satisfaction in everything that goes to make a real home. It will measure up to your highest expectations, from the strength of its sturdy timbers to the charm and beauty of woodwork and finish. Three floor plan arrangements are shown below. They are all priced alike. The price in single construction, specifications for which are shown at the bottom of the page, is $765. The price in double construction is $869 and the specifications are the same as above except that the following materials are added: Sub-floor sheathing under finished floor with building paper between two floors, outside wall sheathing under bevel siding with building paper between, sash weights, cord, pulleys and locks for all double sliding windows and additional nails for this extra material. Porch size 16x8 feet shown in picture may be had by adding $99 to above prices.

Specifications, The Bluebird:

BLUE BIRD—(Single Construction). Size 22x34, 6x6 inch built-up sill. 2x8 inch joists on 16 inch centers. Exposed eaves 1 foot projection. Plans reversed without charge, see page 23.
WHEN twenty years time and thought are devoted to one subject, surely you can know that the experience gained is of great value.

For twenty years the Aladdin Company has devoted all its energy toward perfecting homes. Perfection in a home means much.

It means, among other things, that the materials of which the home is constructed must be of the very highest quality.

It means that the construction used in the building of the home must give strength, sturdiness, and the ability to withstand the wear of time.

It means that the roof must be weather proof, and the paints used must be of the highest quality to give not only a well appearing home but perfect protection from the action of the weather in all seasons of the year.

The completed home must be well insulated. It should be easy to heat in winter and easy to keep cool in summer.

It means that the inside and outside doors must be so carefully located that they will be of convenient access in going from one room to another. These locations must also be studied to permit satisfactory arrangement of furniture and furnishings.

The location of windows is a problem in itself. Not only must the position of large pieces of furniture of common use in all homes be considered, but the number of windows to insure perfect ventilation cannot be lost sight of.

Windows must be properly placed to present the best appearance within a room and also to give a balanced appearance from the exterior of the house.
It has been the ambition of Aladdin to provide all these points of perfection in a home and at the same time sell that home at a lower price than it could be purchased for from any other source.

Six arrangements of the Victory, all with the same outside dimensions, offer an opportunity to pick exactly the floor plan you need's demand. Any of these Victory homes can be had for $898.

Another point of perfection is brought out in considering these six different plans of the Victory home. There are valuable features included in each, yet each offers a particular arrangement for a particular need. If you desire to stucco the outside of your home, we will furnish sheathing and lath for the outside walls at the price quoted above. Price in single construction $898 as described in specifications below. Price of Victory in double construction is $1024 and specifications are same as below except that following materials are added: Sub-floor sheathing under finished floor with building paper to be placed between the two floors; outside wall sheathing under bevel siding with building paper to be placed between; sash weights, cords, pulleys and sash locks for all double sliding windows, additional nails for above extra materials.

Specifications, The Victory: VICTORY—(Single Construction.) Size 26x36, 8x6 inch built up sill 2x8 inch joists on 16 inch centers. Clear 2½ inch face tongued and grooved flooring. 2x4 inch wall and partition studding on 16 inch centers. Clear A redwood bevel siding for outside walls. Clear outside finish, 2x4 in. ceiling joists on 16 in. centers. 2x6 in. rafters on 24 in. centers. Roof sheathing laid tight. Best quality green slate-surfaced roofing. Check rail windows and frames, size of glass in each sash 2x8x24 inches, sash glazed ready to hang. All Bathrooms also Kitchens in plans X, Y and Z supplied with check rail windows, size of glass in each sash, 2x8x16 inches. Clear interior trim. Clear 6 inch two member baseboard of attractive design. Door frames and doors size 2 feet 8 inches by 6 feet 8 inches, highest quality fir. Cased openings furnished where shown in plans. Front and rear doors glazed upper half. Cellar stairs furnished when shown in plans. Two coats of paint for exterior. Stain and varnish for interior trim and doors. All nails, mortised locksets, hinges, double acting floor hinges and spring window bolts to complete house. Height of ceiling 8 feet. Roof 1½ pitch. Exposed eaves 1 foot projection. Plans reversed without extra charge, see page 23.
The POTOMAC is a master design. Colonial atmosphere is ever appealing to the home owner for it bespeaks hospitality, generosity, old-fashioned simplicity and true goodness. From its clean straight timbers to its beautifully machined siding, and handsomely grained woodwork it represents the very best in everything desirable in a real home. The snubbed gable ends lend a quaint touch making the Potomac a home of distinction. Three attractive floor plan arrangements for the Potomac are shown here—Pergola type porch comes extra at $69—size 8x14 feet. This porch has matched ceiling roof covered with sheet tin. The price of the Potomac in single construction is $919 as described in specifications below. The price in double construction is $1043 with specifications the same as below except that the following materials are added: Sub-floor sheathing below finish floor with building paper between; outside wall sheathing under bevel siding with building paper between, sash weights, cords and sash locks, for all double sliding windows and extra nails for this additional material.

Specifications, The Potomac: (Single Construction)

A strong, substantial, dignified and complete American home! This might be described, in one sentence, the splendid Liberty. To avoid the wasting of a single penny, is a duty we all owe to our families and ourselves. To accomplish this object in the building of a home is the most laudable of all ambitions. Aladdin designers set about the task of creating a structure in which there would not be wasted one foot of material—one inch of space.

Clean square lines, well proportioned walls and roof, regular placement of windows, blend into perfect harmony. Two interior arrangements are offered at the same price, one having three bedrooms and one with four bedrooms. The Liberty is priced at $959 for single construction, specifications for which are shown at bottom of page, and the price for double construction is $992. Double construction specifications are the same as for single construction except that the following materials are added: Sub-floor sheathing under finished floors with building paper to be placed between the two floors, outside wall sheathing under bevel siding with building paper to be placed between, sheath weights, cord, pulleys and sheath locks for all double sliding windows, and additional nails for the above extra materials. Porch size 16 x 8 foot will be furnished by your adding $112 to the price.

WE WERE inspired to develop the Welland because of the great popularity of this type on Long Island and the evident satisfaction it has given to all owners in this suburban community adjoining New York City and elsewhere. The utility of a two-story type with the beauty of the story and a half is accomplished, while holding the apparent height of the house down, through splendid handling of eaves and roof lines. If you will study the interior plans carefully you will enthusiastically approve our statement that there was never a more harmonious arrangement or a more complete attainment of convenience than is accomplished here. A spacious entrance hall with semi-open stairs, a large and well proportioned living room, an attractive dining room, an efficiently planned kitchen with entrance direct to front hall, grade cellar entrance and nook for ice box complete the first floor. On the second floor are found three light airy bedrooms, each with closet and a large bathroom. And the Welland can be built on a lot of thirty feet frontage, or less.

The Welland is priced at $1098 for single construction, specifications for which are shown at bottom of page, and the price for double construction is $1285. Double construction specifications are the same as for single construction except that the following materials are added: Sub-floor sheathing under finished floors with building paper to be placed between the two floors, outside wall sheathing under bevel siding with building paper to be placed between, sash weights, cord pulleys and sash locks for all double sliding windows, and additional nails for the above extra materials. Porch size 12x8 foot will be furnished by your adding $75 to the price.

Specifications, The Welland: (Single construction). Size 22x26. 6x6 built up sill; 2x8 inch joists on 16 inch centers 1st and 2nd floors. Clear 2 1/4 inch face tongued and grooved flooring. 2x4 inch wall and partition studding on 16 inch centers. Lath for lining all walls and ceilings. Clear A redwood bevel siding for outside walls. Clear outside finish, 2x4 inch ceiling joists. 2x6 inch rafters on 24-inch centers. Roof sheathing laid tight. Best quality green slate surfaced roofing. Check rail windows and frames, size of glass in each sash 26x28 inches 1st floor, 26x24 2nd floor. Sash glazed ready to hang. Kitchen and bath room supplied with check rail window, nine pane glass in each sash 26x16 inches. Clear interior trim. Clear 6 inch two member baseboard. Door frames and doors size 3 feet 8 inches by 6 feet 8 inches, highest quality fir. Front and grade doors upper half glazed. Cased openings furnished where shown in plans. Attractive circle tread stairs as shown on plans. Grade entrance and cellar stairs under main stairs. Two coats of paint for exterior. Stain and varnish for interior trim and doors. All nails, mortised locksets, hinges, double action floor hinges and spring window bolts to complete house. Height of ceiling 9 feet 1st floor—8 feet 2nd floor, sloping to 6 foot 6 inches at front and rear walls. Roof 3/4 pitch. Exposed eaves 1 foot projection. Plans reversed without charge. See page 23.
The Adams—A Typical American Home—Price $1089 And We Pay The Freight

The Adams is an American home of chaste simplicity. Straight architectural lines create a pleasing and substantial style of home, which fulfills the ideals of those home builders who would rather invest their money in conveniences than embellishments. Note the exposed rafters, shingled gable and belt at second story. A spacious living room with semi-open stairway, well proportioned dining room and model kitchen with grade cellar entrance, complete the first story. The second story has three excellent bedrooms, four closets and bath. We show an optional second story which incorporates four bedrooms; either may be had at the same price. The price in single construction is $1089 as per specifications below.

The price in double construction is $1255, with specifications same as below except the following materials are added: Sub-floor sheathing under finished floors with building paper to be placed between two floors, outside wall sheathing under bevel siding with building paper to be placed between, sash weights, cord, pulleys and sash locks for all double sliding windows and additional nails for the above extra materials. The porch size 16x8 will be shipped if you will add $99 to price.

Specifications, The Adams: (Single construction.) Size 22x26, 660 built up sill; 2x8 inch joists on 16 inch centers 1st and 2nd floors. Clear 2 ½ inch face tongued and grooved flooring. 2x8 inch wall and partition studding on 16 inch centers. Lath for lining all walls and ceilings. Clear A redwood bevel siding for outside walls. Clear outside finish, 2x4 inch ceiling joists on 16 inch centers. 2x4 inch rafters on 24 inch centers. Roof sheathing laid tight. Best quality green slate surfaced roofing. Check rail windows and frames, size of glass in each sash 20x28 inches 1st floor, 20x24 2nd floor. Sash glazed ready to hang. Kitchen and bathroom supplied with check rail window, size of glass in each sash 20x16 inches. Clear interior trim. Clear 6 inch two member baseboard. Door frames and doors size 2 feet 8 inches by 6 feet 8 inches, highest quality fir. Front and rear doors upper half glazed. Cased openings furnished where shown on plans. Attractive circle tread stairs as shown on plans. Grade entrance cellar stairs under main stairs. Two coats of paint for exterior. Stain and varnish for interior trim and doors. All nails, mortised locksets, hinges, double acting floor hinges and spring window bolts to complete house. Height of ceiling 9 feet 1st floor—8 feet 2nd floor. Roof 3/4 pitch. Exposed eaves 1 foot projection. Plans reversed without charge see page 25.
THE PILGRIM is an interesting adaptation of Dutch architecture to the American Colonial type. This style has come to be the most popular for modest two-story homes all over the country. Perfect harmony is manifest in the Pilgrim. While the impression is of a story and a half house, all ceilings both first and second floors are square with full height side walls. Study the interior. A 14x22 foot living room, 12x12 foot dining room, 12x10 foot kitchen, a coat closet and grade cellar entrance complete the first floor. The second floor has three bedrooms, hall, three closets, linen closet and bath. The price of the Pilgrim in single construction, specifications for which are shown below, is $1148. The price in double construction is $1308 and specifications are the same as for single construction except that the following materials are added: Sub-floor sheathing under finished floors, with building paper between the two floors. Outside wall sheathing under bevel siding with building paper between, sash weights, cord, pulleys and sash locks for the double sliding windows, and additional nails for the extra materials. Pergola porch shown in the picture is roofed, giving protection and may be had at $69 additional. Size of porch 8 feet by 14 feet.

Specifications, The Pilgrim: (Single Construction.) Size 22x26. 6x6 built-up sill; 2x8 inch joists on 16 inch centers 1st and 2nd floors. Clear 2½ inch face tongued and grooved flooring. 2x4 inch wall and partition studding on 16 inch centers. Lath for lining all walls and ceilings. Clear A redwood bevel siding for outside walls. Clear outside finish. 2x4 inch ceiling joists on 16 inch centers. 2x4 inch rafters on 24 inch centers. Roof sheathing laid tight. Best quality green slate surfaced roofing. Check rail windows and frames size of glass in each sash 20x28 inches 1st floor, 20x24 2nd floor. Sash glazed ready to hang. Kitchen and bath room supplied with check rail window, size of glass in each sash 20x16 inches. Clear interior trim. Clear 6 inch two member baseboard. Door frames and doors size 2 feet 8 inches by 6 feet 8 inches, highest quality fir. Front and rear doors upper half glazed. Cased openings furnished where shown in plans. Attractive circle tread stairs as shown on plans. Grade entrance cellar stairs under main stairs. Two coats of paint for exterior, Stain and varnish for interior trim and doors. All nails, mortised locksets, hinges, double acting floor hinges and spring window bolts to complete house. Height of ceiling 9 feet 1st floor — 8 feet 2nd floor. Roof 3½ pitch. Boxed eaves 1 foot projection. Plans reversed without charge see page 23.

Remember Aladdin pays the freight and guarantees the safe arrival of all materials.
The entrance hall with semi-open stairway and cloak closet demand your admiration the minute you enter. Arches lead to the right and left into living room and dining room. Think of the possibilities of a living room 26 feet deep and 14 feet wide! Leading from this interesting room is a library or den. On the other side of the house is found pantry separating dining room and kitchen, with cellar entrance under the main stairway. There are six rooms on the second floor—and closets. The Capitol is priced in single construction at $1695. The price in double construction is $1929 and the specifications are the same as for single construction except that the following materials are added: Sub-floor sheathing under finish floors with building paper between: outside wall sheathing under bevel siding with building paper between and extra nails for all additional materials. Pergola porch, with covered roof, size 8x14 feet, will be furnished by your adding $69 to the price. If you want the 10x14 foot Porte Cochere shown on right side of house add $58 to price.

Specifications, The Capitol: (Single Construction) Size 30x26. 6x8 inch built-up sills, 2x8 inch joints on 16 inch centers 1st and 2nd floors. Clear 3 1/4 inch face tongued and grooved flooring. 2x4 inch wall and partition studding on 16 inch centers. Lath for lining all walls and ceilings. Clear A redwood bevel siding for outside walls. Clear outside finish, 2x4 inch ceiling joints on 16 inch centers. 2x6 inch rafters on 24 inch centers. Roof sheathing laid tight. Best quality green slate surfaced roofing. Check rail windows and frames size of glass in each sash 26x28 inches, 1st floor; 20x24 inches, 2nd floor. Sash glazed ready to hang. Bath room and kitchen supplied with check-rail window, size of glass in each sash, 26x16 inches. Clear interior trim. Clear 6 inch two member baseboard. Door frame and doors size 2 feet 8 inches by 6 feet 8 inches, high quality fir. Front, rear, and side doors upper half glazed. Attractive circle tread stairs as shown on plan. Collar stairs under main stairs. Cased openings furnished where shown in plans. Two coats of paint for exterior. Stain and varnish for interior trim and doors. All nails, mortised locksets, hinges and double acting floor hinges, sash weights, sash cord, sash pulleys and sash locks to complete house. Height of ceilings 9 feet 1st floor, 8 feet 2nd floor. Ceilings on 2nd floor are full height not sloped. Roof 3/4 pitch. Boxed eaves 1 foot projection. Plans reversed without charge. See page 23.

First Floor Plan—The Capitol

Second Floor Plan—The Capitol
The Marigold — Story-and-a-Half — Price $789 And We Pay The Freight

The Marigold offers a story and a half home that can be built at the very lowest cost. The price quoted above provides you with the home with the first floor finished in the same way as all our other houses are furnished. The second floor is unfinished except for the floor. The Marigold can be furnished in either of the two first floor plans shown below. Regardless of which plan you select it is possible for you to arrange for two extra bed rooms on the second floor. Our suggestion of a convenient and practical arrangement is shown opposite the first floor plans. When you purchase the home if you wish to also include materials for finishing the second floor in accordance with our suggestion, we will be glad to do so for $93 additional. The small sketch over the plan arrangement suggested for the second floor, will inform you of the ceiling height obtainable.

The price of the Marigold in Single Construction, specifications for which are listed below, is $789. In Double Construction the price is $888 and the specifications are the same as in single construction except that the following materials are added: Sub-flooring for first floor only with building paper to be placed between the sub-flooring and finishing floor. Outside wall sheathing under bevel siding with building paper between, such weights, cord, pulleys and locks for all double sliding windows and additional nails for extra materials. Whether you purchase in Single Construction or Double Construction, materials with which to finish the second floor in accordance with our suggestion can be furnished for $93 additional. Porch shown in picture may be had by adding $120. Size of Porch 20x8 feet.

Plans reversed without charge. See page 27.

First Floor — Plan A

First Floor — Plan B

Suggested Second Floor Plan

The Aladdin Co. guarantees the quantity and quality of all materials and their safe arrival at destination.
THE Mayflower brings happiness to thousands of families who do not require a larger home. Also, it permits the family of modest means to get into a snug, warm and strong little home at almost unbelievable little cost. This home is being put up by many owners who have had no experience in carpenter work. Our instructions with pictures explain every step. The Mayflower is shown below in four different plan arrangements and any one of the four plans can be furnished in your choice of three different sizes. The illustration and plans are of the 18x18 ft. Mayflower Homes. The house can also be furnished in a 22x22 ft. size or in a 26x26 ft. size. If purchased 22x22 ft. in size, each room would be two feet larger each way than as shown in our 18x18 ft. plans. If purchased 26x26 ft. in size, each room would be four feet larger each way than as shown in our 18x18 ft. plans.

The size, 18 x 18 feet, is priced at $375 in Single Construction and at $442 in Double Construction. The size, 22 x 22 feet, is priced at $485 in Single Construction and at $568 in Double Construction. The size 26 x 26 feet is priced at $635 in Single Construction and at $749 in Double Construction. Porch as shown, size 14 x 6 feet, will be furnished with the Mayflower in any of the three sizes by your adding $47 to the price. Any of our larger porches shown on other homes in our catalog can be purchased in preference to the Mayflower porch if you desire and providing the width of the porch is not too great for the width of the Mayflower home in the size you have selected.

Specifications, Mayflower Single Construction, Size 18 x 18:

4x6 inch built-up sill. 2x6 inch joists on 24 inch centers. Clear tongued and grooved flooring. 2x4 inch wall and partition studding on 16 inch centers. Lath for lining all walls and ceilings. Clear A redwood bevel siding for outside walls. Clear outside finish. 2x4 inch ceiling joists on 16 inch centers. 2x4 inch rafters on 24 inch centers. Roof sheathing laid tight. Best quality green slate surfaced roofing. Check-rail windows and frames size of glass in each sash 20x24 inches, sash glazed ready to hang. Kitchen, size of glass in each sash 20x16 inches. Clear interior trim. Clear 6 inch two member baseboard. Door frames and doors size 2 feet 8 inches by 6 feet 8 inches, highest quality fir. Front and rear doors upper half glazed. Ceiling finish furnished when shown on plans. Cased openings furnished where shown on plans. Two coats of paint for exterior. Stain and varnish for interior trim and doors. All nails, mortised locksets, hinges, double acting dining room floor hinges and spring window bolts to complete house. Height of ceilings 8 feet. Roof 1/2 pitch. Exposed eaves 1 foot projection. Size 22x22 ft. The Specifications are the same for the 22 ft. size except all is built up to 60 x inches and the floor joists are 2x8 inches on 16-inch centers. Size 26x26 ft. Specifications for the 26 ft. size are the same as for the 22 ft. size except rafters are 2x6 inches on 24 inch centers. Double Construction takes the same specifications as single construction with the following additions: Sub-floor sheathing under finished floor with building paper to be placed between the two floors, outside wall sheathing under bevel siding with building paper to be placed between, sash weights, cord, pulleys and sash locks for all double sliding windows and additional nails for the above extra materials. Plans reversed without charge. See page 21.
EXTRA FEATURES OBTAINABLE FOR ALADDIN HOUSES

For those Customers who wish to embellish their homes with a few distinctive touches, we have provided a number of features, as shown here, at but slight additional costs.

HOME CRAFT BOOKCASE ARCH

Has been used in thousands of homes and in every case has given perfect satisfaction. The cases are 3 ½ feet wide, the columns 8 inches square. Sent out complete with hardware and glass doors, as shown. Bookcase Arch.

3C-6 $66.00

CLOSET DOORS

Closet doors are not shown, or included in our plans as a great majority request the doors omitted, but the cased openings left so they can use a curtain on the closet. If closet doors are desired they can be supplied at $5.65 each, complete with mortised lock set and hinges.

SPECIAL DOORS

Here we show two types of front doors, either one of which may be substituted at an additional charge of $3.00, for the glazed door shown and regularly furnished in the various designs. The No. 14 door, which is 2 feet 8 inches x 8 feet 8 inches in size, can also be furnished in pairs for the arch openings shown in the various designs at $20.00 per pair.

The price not only includes the doors but also the astragal for between the doors, lock set, two pairs of butts, top and bottom bolt, and stain and varnish. When ordering special doors please specify on your order the style and number of the door you desire.

FOUNDATION POSTS

We can furnish with your house shipment, wooden foundation posts 8 feet long at $1.00 per post, or posts 4 feet long at 50 cents per post.

GREEN SLATE SURFACED SHINGLES

We can furnish green slate surfaced shingles instead of the slate surfaced roofing specified on the various houses, at the following additional charge:

</table>

They are made of the same high grade materials as the roofing. The size of each shingle is 9 inches wide by 12 1/4 inches long. They lay 4 inches to the weather, thereby giving you better than three thicknesses on your roof. We can recommend them in every way to give perfect satisfaction.

CELLAR WINDOWS

For wall openings 1 feet wide by 2 feet high, complete with frame, glazed sash and hardware, $13.10

For wall openings 2 feet wide by 2 feet high, complete with frame, glazed sash and hardware, $3.75

It is not necessary to forward the cellar frames before the house is shipped for by leaving the wall openings described above the frames can be set in after the foundation has been erected.

PORCHES INTERCHANGEABLE

As you will notice all porches are quoted separately. This is done so that if desired, the porch can be omitted or some other porch shown in the catalog used. This is possible providing the width of the porch is not too great for the width of the house ordered.

GRADE CELLAR ENTRANCE No. 2

This addition size 2x6 ft is designed to afford a grade cellar entrance and can be attached to any Aladdin house.

All material necessary for the complete addition is included together with steps to kitchen and steps to basement. Price of this addition in single construction $70, double construction $75.

SOVEREIGN ALTROLA HEATER
$52.00 FOR COAL, COKE OR WOOD

Above price is for heater in black iron finish, with nickel plated trimmings as standard. Can also furnish the heater with a beautiful grade mahogany finish at extra cost as quoted below. This latter finish is on everlasting porcelain enamel applied under terrific heat permitting it to become a part of the iron itself. It is easily cleaned and gives the heater the appearance of a high grade piece of furniture.

Heats by Altrola Heaters

The same method and same equipment as employed in pipe furnace. Cool air is drawn in at bottom and lower open panel free work at sides and back; from here the air passes upward past floor and body of heater becoming greatly heated and discharged into fresh open work at top into the room at a high temperature. A water-spray properly placed maintains correct degree of humidity in the air. In this way heated, warm air is forced into every nook and corner of your home, insuring an even temperature throughout.

Specifications. Altrola Heaters are made in one size only and are intended for homes having stoves or forced hot air for heating space. Has corrugated cast firepot 19" inches in diameter with almost straight side and made heavy. Body is of Armo steel, extra heavy. Large consists of the roller triangular and operated with shaker through hole in ash door. Has feed door 9½ x 11 inches and 7-inch reversible smoke pipe elbow. Manned on removable base. Requires floor space 25 x 25 inches. Height overall 49½ inches. Weight about 450 pounds.

$74.50

Buys This Complete Heater

Equipment includes check draft, damper, ash pan for cementing joints, water pan, large duplex register, poker, shaker handle, damper chains and wall plate.

**EASY TO INSTALL**

An "Aladdin" is simple to install as there is no tearing up of floors, or any mutilation of walls or ceilings. Careful inspection of all castings at factory before shipment assures customer that he will have no trouble with parts not fitting; in addition to this, we send the casings with all openings and bolt holes properly cut to facilitate the work of assembling everything.

**Convenience**

Think of it! A complete heating plant that costs no more than a good stove and yet heats your entire home evenly with less trouble and fuel—no mussing up the rooms of your home with ashes and fuel as everything is in the basement where it belongs.

**Special Features**

With the exception of grate bars we guarantee all furnace castings against defective workmanship for five years. Has straight side fire pot to allow full grate area; other make furnaces having tapering fire pots permit less grate area and cannot be as efficient. Interchangeable grate bars. Furnace body properly proportioned throughout. Register box allows for installation in basements having depth six to eight feet.
FACTS ABOUT

The Aladdin Plan

The Aladdin Plan of home building has been in successful operation for twenty years.

The whole purpose of the plan is to help builders of modest homes.

Its first object and principal benefit, is to save money for builders of modest homes.

The Aladdin Plan has saved $200, $300, $500, $800—$1200 and even more money on the individual homes of thousands of home builders.

Our home builder customers write us after finishing their homes and tell us these things.

They tell us how we helped them to buy their materials for less than their local lumber dealer would sell them.

They tell us how much better our lumber is than they could get from their local dealers.

They tell us how strong their homes are, how warm they are, how convenient the room arrangements are, and how pretty they look when finished.

The Aladdin Company

And these customers of ours tell us how pleased they are with all their dealings with us.

And, really, we are most pleased when they say this, for the Aladdin people are human. We are just ordinary people whose life work, life experiences are devoted to home building, devoted to making home building simpler, more economical, easier and more pleasant for our customers.

Every stockholder in The Aladdin Company is a worker in the company. We are all interested in every customer and we are all interested in knowing that every customer is satisfied.

Aladdin Homes are the original and first ever sold where the materials were all prepared in the mill, cut to fit and ready to be nailed in place when the house is being built. The ready-cut house industry was founded by Aladdin—by W. J. and O. E. Sovereign and the present workers, in The Aladdin Company.

Tens of Thousands of American families are living in Aladdin houses. For twenty years this organization has devoted its energies, its brains and its experience to making home building simpler, easier and less expensive. The Savings Aladdin offers you, the Service Aladdin offers you and the Safety Aladdin offers you are completely explained on pages 20, 21, 22 and 23 of this book.

The ALADDIN Guaranty

Satisfaction, or your money back, is the soundest guaranty ever written. When this guaranty is backed by a company whose assets run into the millions you are assured of absolute safety in all your dealings. Aladdin guarantees the quantity and quality of all materials and their safe arrival at destination. The Aladdin Company guarantees your satisfaction or your money back in every transaction with us.

Twenty Years of Experience

The houses shown in this book are the best we have planned in our twenty years' experience.

We have learned from furnishing homes for thousands of families, enough to make a city of a quarter of a million population. Each size has many different floor plan arrangements to suit your family and your tastes. We have designed these houses and priced them so that you can get into a home at the lowest possible cost, or you can have added values like porches, kitchen cabinets and other luxuries and necessities. You can buy as much or as little as you like. We want to satisfy you exactly.
How ALADDIN Saves You Money

Now let us tell you how we save you money.

The readi-cut plan avoids wasting lumber when building—saves about $18.00 out of every $100.00 worth of lumber ordinarily used in building your home.

Nine-tenths of all lumber coming out of the forests are in 8-foot, 10-foot, 12-foot, 14-foot and 16-foot lengths. When you want to use other lengths, you have to pay more money for the same quantity and quality. Aladdin designs houses to use standard lengths. That's the economy of standard parts and that's the same kind of manufacturing economy that enables automobiles to be manufactured so cheaply. And that is what enables us to put in higher quality at lower prices.

Rapid, automatic machinery handles this lumber so swiftly, so accurately and so perfectly, that one man at a machine in our mills will cut as much as nearly a hundred carpenters can in the same length of time. And you get the benefit of this saving.

The Aladdin system of cutting the lumber in the mill saves about $30.00 out of every $100.00 worth of carpenter labor—as against the old system of measure, try, cut and fit on the job.

Sturdy, Honest Lumber Makes Sturdy, Honest Homes

Early in its history, The Aladdin Company started to improve the quality of lumber that had been the custom to put into modest homes. It started to furnish beautiful, interior woodwork. And ever since, it has devoted its efforts to improving its houses. It feels and believes that the modest home should have as good quality as the biggest homes. The beautiful, velvety-grained Oregon fir and yellow pine used in Aladdin homes is the finest coming out of the forests. It takes the handsomest stain, oils and varnish and holds the coloring permanently.

The paints furnished are standard high quality—the beautiful brushed brass hardware and locksets finish off the woodwork attractively. Our roofing is made by one of the largest companies in the country and is of the highest quality. Pleasure and pride can't help but come to you when you know how good a home you have built, and especially when you have secured all these good things and saved a lot of money too.

Some people will tell you not to buy a Aladdin house. But most of them will be people who will lose some profit they expected to make out of you if you do. They will be people who want to sell you something who will want to get your money. They will never be people who have built Aladdin homes.

Twenty Feet of Lumber from a Sixteen-Foot Board

Think of taking a 6-inch board sixteen feet long and getting twenty feet of 6-inch board out of it!

Think of applying this system of saving throughout all the lumber used in building your home!

Think of your own good money it saves!

Think of your money this system saves, for your house is priced to you in exactly the number of feet of lumber going into it.

To eliminate waste by scientific planning, designing and cutting of lumber is to save your money from the waste pile.

W. J. Sovereign, president of The Aladdin Company, conceived this tremendous thought, originated, perfected, and established the system.

The principle has been so thoroughly established through the success of The Aladdin Company, that it is now accepted and approved by lumbermen, contractors, engineers and scientists.

How Lumber is Cut to Fit.

The illustration at the right demonstrates the great saving and the simple work erecting an Aladdin home.

The material is cut to fit in our mills and numbered according to the blueprint which explain every step of the erection. The pieces fit together perfectly. And you save at least 18 percent of the lumber besides 30 percent to 40 percent of the labor of erection. Aladdin is the originator of the Readi-Cut System of construction and has saved thousands of builders from $300 to $800 on their homes.

ALADDIN Homes Not Portable

And please remember, always remember, that there is nothing "portable," nothing "sectional," nothing "fabricated" about an Aladdin home. You can't take an Aladdin house down after it is built. It is designed, constructed and built just like the best architect-designed, contractor-built houses in your neighborhood. Aladdin houses are sturdy, warm and strong—real year-round homes. They have been built and lived in for years in Maine, North Dakota, Michigan, Canada—and in Alaska. The President, the General Manager and most of the executives of The Aladdin Company have been living in Aladdin homes for years.

Aladdin houses are designed to use standard lengths of lumber cut from standard lengths of logs as they come out of the forest. This saves waste of lumber; saves the $18.00 out of every $100.00 we spoke of before.
From the Pyramids to the Woolworth Building

To him who says the Readi-Cut System is not possible or practicable, point to the Pyramids of Egypt, refer to Solomon's Temple as described in the Bible, or inspect Washington Monument, or the 57-story Woolworth Building in New York City. You will find that each was prepared, erected and completed by the Readi-Cut system. But it remained for The Aladdin Company to first apply the system to your benefit in the building of a home. And thousands of American families scattered over this broad land will testify to its economy and practical success.

The pyramids aren't portable, the Woolworth Building is not portable, nor are Aladdin houses portable.

If you attempt to tear apart, or dismantle an Aladdin house, the most expert contractor could not tell it from any first-class frame dwelling because there is no difference.

Build It We usually advise our customers to have Yourself a carpenter, if possible, but we do say that any sensible man can build an Aladdin home if he follows our simple, plain instructions and detailed blueprints of erection.

Every piece of material is cut to fit, with a few exceptions. And these pieces are marked and numbered so that you know just where every piece goes when you look at the pictures and photographs we supply.

Of course if you build your own house, like so many other Aladdin customers have, you, too, will save money you would have to pay a carpenter.

"It's just common horse sense," wrote a customer, after he had moved into his new Aladdin. This man was so proud because he built his Aladdin himself—and he was not a carpenter either.

ALADDIN Customers If you want to ask advice, it is only fair to yourself, and fair to us, to ask people who know about Aladdin houses. Can a man who hasn't built an Aladdin house know as much about it, or about us, as a man who has dealt with us? We will give you the names and addresses of many customers to write to, or call on. We wouldn't do that if we didn't know they saved money, would we? All right then, if a dealer or a contractor tells you not to build an Aladdin house, ask him for his reasons and investigate these reasons by talking with a man who has built an Aladdin house. Don't take anybody's advice, who has not actually built an Aladdin house. Get your facts from people who know.

This Catalog Our Only Salesman With this catalog, you are able to keep the profits in your own pocket that you ordinarily pay to your local dealers. Because we do not sell through dealers, they can't add their several hundred dollar profits to the goods you buy from us. You keep this money yourself.

When your dealer says, "Don't buy your lumber out of town," ask him where he buys the lumber he wants to sell you.

You see, he buys his lumber up here and the only money that stays in your town is the dealer's profit. Wouldn't you rather have it in your pocket than in his?

This catalog makes possible this saving—and many others.

Avoid Profits of The Aladdin Company buys immense quantities of lumber from the forests, getting absolutely the lowest prices. You, therefore, buy direct, without any middlemen to add their profit to the price of your lumber, millwork and hardware.

Is it any wonder our customers write us and tell us they saved $300, $500, $800 and more, when we are able to avoid all these wastes that exist for the person who builds the old way?

For years many great corporations have been buying and building Aladdin houses for their employees. The United States Government and many states and cities have been our customers. These facts all prove that there is economy and satisfaction for our customers.
SPECIAL SUMMER COTTAGE CATALOG

A separate booklet is ready to be mailed to you, if you are interested in summer cottages. Aladdin Summer Cottages are single walled, exposed studding, single matched ceiling partitions, with rooms open to the rafters.

Masonry Chimneys and Fire Places Chimneys can be located anywhere in the house you like, for we do not cut the materials for these openings. If you do not want the fireplace which may be shown in the photograph, you need not build it. Of course, any excavation work, and the foundation work must be done on the ground. Brick, stone and cement can be had in your locality as cheaply as we could furnish it. We furnish you a foundation plan to tell you how to proceed to build the kind of foundation you want.

Painting You receive paint for painting the outside, two coats and stain and varnish for interior trim. You may choose natural oil and varnish, light or dark oak stain and varnish or mahogany stain and varnish. These materials are standard high quality and make a beautifully finished job.

Shingled Walls Shingled walls cannot be furnished for single construction. At the double construction price, we will furnish cedar shingles for the side walls instead of siding, without additional charge, which includes all other features called for in double construction.

Stucco Walls Sheathing and lath for stucco side walls will be furnished instead of siding for the side walls without additional charge.

Blue Prints Complete blue prints showing every step of erection are furnished with every order so that even though you may not be a carpenter, you will know just how to erect your home. Any of these houses will be reversed without additional charge. The opening for fireplaces shown in some of the photographs is not cut, so that the chimney may be omitted or its location changed from where it is shown in the picture.

Freight Exception We pay the railroad freight on all our houses to all states, except the following: Texas, Louisiana, Oklahoma, New Mexico, Arkansas, Arizona, Nebraska, Colorado, North and South Dakota, and Kansas. Write us for freight quotations on shipments to above states.

Terms and References Aladdin houses are sold for cash only. We require the full price of the house to be sent with the order to obtain the prices quoted. If, however, you prefer to send only twenty-five per cent or one-quarter of the price, with the order and pay the balance upon the arrival of the shipment, we will accept your order on this basis, providing you add $10.00 to the price quoted to pay for expenses of shipping the house in this way.

NOTE—This catalog supersedes all previous catalogs and all prices herein quoted are subject to revision April 5th, 1926, July 5th, 1926, and September 5th, 1926.

ALADDIN Money-Saving GARAGES

The Aladdin garages shown below cover the demand for 95 per cent of all garages built. Aladdin garages are staunchly built of high grade materials. Lumber is all cut to fit. A couple of days' time will erect and finish one. Prices quoted are astonishingly low and include freight paid to your railroad station.

The Lincoln
An attractive two-car garage, having four swinging doors.
Lincoln No. 1—20 ft. wide, 18 ft. deep—$220 Freight Paid
Lincoln No. 2—20 ft. wide, 20 ft. deep—$231 Freight Paid

The Cadillac
Same design as The Lincoln, except that it is 18 ft. wide instead of 20.
Cadillac No. 1—18 ft. wide, 16 ft. deep—$193 Freight Paid
Cadillac No. 2—18 ft. wide, 18 ft. deep—$204 Freight Paid
Cadillac No. 3—18 ft. wide, 20 ft. deep—$218 Freight Paid

The Studebaker
The Studebaker will take the largest car on the market with ample room at sides for storage and working.
Studebaker No. 1—12 ft. wide, 16 ft. deep—$133 Freight Paid
Studebaker No. 2—12 ft. wide, 18 ft. deep—$143 Freight Paid
Studebaker No. 3—12 ft. wide, 20 ft. deep—$153 Freight Paid

The Ford
The Ford is made in three standard sizes. The 8x14 size being the smallest and will admit a Ford touring car with top either up or down.
Ford No. 1—8 ft. wide, 14 ft. deep—$87 Freight Paid
Ford No. 2—10 ft. wide, 16 ft. deep—$110 Freight Paid
Ford No. 3—10 ft. wide, 18 ft. deep—$119 Freight Paid

Specifications for Aladdin Garages: Sills, 4 x 4 in.; studding, 2 x 4 in., 24 in. centers; drop siding for side walls; rafters, 2 x 4 in., 24 in. on centers; roof, one-quarter pitch; exposed eaves, one foot projection. Roof sheathing, laid tight. Best quality green slate surfaced roofing for roof. Hardware, nails and paint for two coats on exterior. Materials ready-cut and complete blue prints showing every step of erection. All garages shown are furnished without floors, as practically all auto owners prefer to build floor of concrete or cinders.

Summer Cottages from $180 to $745 And We Pay The Freight

The summer cottage illustrated is one of our most popular designs known as The Ocean Park and is manufactured in three sizes. The 18x26 foot size sells for $423, the 18x30 foot size for $475 and the 20x36 foot size for $596. Remember we pay the freight.

Aladdin Summer Cottages are single walled, exposed studding, single matched ceiling partitions, with rooms open to the rafters.

A separate booklet is ready to be mailed to you, if you are interested in summer cottages.
