Here you will find the GREATEST HOME VALUES ever offered in one book. Big production methods, no dealers' or agents' profits and cash terms are the reasons
The New Day in Home Building

Alert Home Builders Profit by Newest Methods, Latest Styles and Up-To-The-Minute Construction Efficiency

Gone Are the Ancient Hand-Saw Methods of Home Building

Read Here How to CONTROL Your Building Costs

The Aladdin Company believes the costs and profits of middlemen—that is, dealers, jobbers, wholesalers—are mainly the cause of present day high prices. The major purpose of The Aladdin Company is to cut out all wastes—which instantly results in lower prices.

When the customer buys direct from the manufacturer there are no middlemen's costs and profits in the price he pays. That's just plain horse sense.

You can buy your house direct from the manufacturer. You can save the costs and profits of middlemen. You can save from $200 to $2,000 on the materials. This is your good money that would otherwise go into the pockets of middlemen.

Why shouldn't you save these profits, like thousands of other homebuilders have been doing through The Aladdin Company for the past 24 years.

Aladdin houses are sold direct.

Waste can and does influence the cost of everything you buy. This is especially true of home building.

Waste consumes your dollars and gives nothing in return. Aladdin proves to you that the Readi-Cut System will save you 18 dollars out of each $100 on your lumber costs.

Aladdin proves to you that the Readi-Cut System will save you nearly 30 dollars out of each 100 dollars labor cost.

It's the safest, soundest, cleanest and wisest way to build.

This catalog is our only salesman. Your letters to us and our replies to you easily explain everything you want to know. Read the catalog and write us today.

The ALADDIN Guarantee: Satisfaction or Your Money Back
The Cedarwood is a beautiful bungalow, marvelously priced, and remarkably designed. This home has enjoyed a continuous popularity for nearly twenty years. Its architecture, while simple and plain, is dignified and in perfect taste and proportion — it is the type that never is out of fashion, being as much in demand today as ever before.

Five fine plans are shown below, while the photograph above illustrates the charm and home-appeal of the exterior. The prices quoted are for siding on the exterior. In order to use shingles on the walls it is necessary to use wall sheathing under the shingles. See quotation for wall sheathing and building paper on page 31. The porch is 16 feet wide and 8 feet deep. If you do not wish to build the brick piers as shown in the photograph we can furnish full length columns to extend to porch floor. Porch is priced separately so you can order this porch or some other porch shown in the catalog or leave it off entirely if you so desire.

See specifications on back cover.

Remember ALADDIN pays the freight and guarantees the safe arrival of all materials.

ALADDIN Guarantees Both Quality and Quantity of Materials and Also the Safe Arrival at Your Station

THE ST. CLAIR

Tens of Thousands of American Families Have Been Convinced of the Tremendous Saving Effected by Building an ALADDIN HOME

The modest cottage is the foundation of the American Republic. The American Citizen is master of himself and his destinies when he steps across the threshold of his own home. "He owns his own home" is a recommendation for thrift, character and integrity that all the world recognizes. The St. Clair breaks through the clouds of obstructions, high prices, middlemen's profits, architects and contractors' fees and opens up the big opportunity to "Start right now," to start with less cost than you thought possible.

Two five room plans each with inset porch, are shown for the St. Clair. Either plan makes an attractive and complete home at a remarkably low price.

Please remember that the materials supplied for the St. Clair are of the same high quality that have made The Aladdin Company famous as "Home Builders to the Nation." You are protected by a guarantee of Satisfaction or your Money Back.

A Real House—Not Portable—Not Sectional

The Biggest Bargain ever offered in a Sturdy Little Home. Our instructions and drawings show every step of erection.

Since the Basswood faces the wide way to the street, it gives the appearance of a much larger home than it really is. It's one of our biggest values too. You will be proud to point out the wonderful materials furnished with this home. Every piece of lumber, every article furnished is of highest grade. Clear and knotless siding, flooring and woodwork are guaranteed. The Basswood is offered in your choice of two floor plans and prices are quoted above. Also, the price of the 30' x 6' porch is given above so you can purchase it with your home, or not, as you prefer. See specifications on back cover and also additional information on page 31. Order blank will be found at the bottom of page 31. Shipment can be made within five days after receipt of order.

ALADDIN FILLING STATION

LOW IN COST EASY TO ERECT

Carefully designed to give proper clearance for autos and pumps. Attractive in appearance and easy to build. The Aladdin Filling Station being ready-cut it can be erected by any one who can drive nails. The enclosed section of the filling station is one room, 16x10-ft. in size and the open section, covered by the same roof, is 16x12-ft. in size. As the illustration shows, two large windows and a door are furnished for the front wall. One small window is furnished for each of the two end walls.

SPECIFICATIONS: Exactly the same high quality of materials is furnished as for our regular houses. See specifications on back cover. The filling station is furnished with five 4x8-in. sills and with 2x6-in. floor joists on 16-in. centers, so constructed as to give ample strength for oil barrels, etc., that may be displayed in the room. The ceiling height is 9-ft. 6-in. It has a 15' pitch hip roof and exposed eaves with a 1-ft. 354-in. projection. The front windows are of the check rail type, the glass in each sash measuring 38x24-in. in size. The two side windows are of the swinging casement type, the glass measuring 18x24-in. in size. A 3x7-ft. French Door is provided at the front. Wooden columns are provided for the two corners of the open section, as shown in illustration. Matched ceiling is furnished for the ceiling of the open section.

SAVE RENT!

THE WALNUT

Two plans in size 20'x18' and two plans size 30'x18' are shown for the Walnut House. The price of each is given at the right, and the freight is paid to your station. Plan “A” or “B” can be erected on a lot that is restricted to a higher priced house, and it will serve for a comfortable home until the time comes to build a bigger one. Then it can be used as a single or double garage. If you would like Plan “A” or “B” without garage doors, we will omit the same, furnishing window in their place without extra charge.

Plans “C” and “D” represent one of the most practical of the new, modern ideas of home building—that of having the garage attached to the house. It is a decided convenience and gives you both home and garage for not much more than the house alone.

The plans need not be built unless desired as we do not cut the opening for it before shipping.

Any one of these can be erected by inexperienced men easily and rapidly. We guarantee the material, guarantee safe arrival and guarantee you will be satisfied. You take no risk.

Specifications printed on the back cover list and describe the materials furnished.

No floor is furnished for garage section in Plans “C” and “D”.

TOURIST COTTAGE

Build these Aladdin Money Makers and you will have a fine income. A few hours time will complete one, all materials Readi-Cut.

The demand by tourists for safe and comfortable sleeping quarters, outside of hotels, has initiated the idea of over-night cottages and created a plan that will both serve the tourist and make profitable investment for the owner. Ample space is arranged across the rear of the Tourist Cottage so two double banks can be installed one over the other, giving sleeping accommodations for four people. A splendid income, in addition to the nightly rental of the cottage, will come in from the sale of supplies from the Roadside Store. The end of the Roadside Store is arranged to open up as shown in picture.

SPECIFICATIONS: In general, the specifications for our summer cottages as printed at the bottom of page 38 apply. Both the Roadside Store and the Tourist Cottage are one room buildings, 7' x 13' in size. Both contain one screen door and window screen, with hardware. Shelving is furnished for the Roadside Store.

THE HICKORY

Three Great Manufacturing Plants are Exclusively Devoted to the Manufacture of Aladdin Readi-Cut Houses

A strong, substantial, dignified and complete American home! You will find the Hickory built in attractive residential sections in hundreds of American towns and cities. It has given unflinching satisfaction wherever erected for it offers the home owner the very highest value for every dollar invested. Never before have we priced the Hickory so low as right now. Never before would your dollars buy so much as right now. Note the generous windows—generous in number and size. That means plenty of light and air in every room. The hip roof gives the maximum amount of strength to any house while holding down the apparent height. Two plan arrangements are offered. The plan "J" has three bed-rooms, the Plan "N" two bed-rooms. The ceilings in the bed-rooms are full height, not sloped. Height of ceilings; first floor 9 foot; second floor 8 foot. The finest materials obtainable of their respective kinds are furnished to build this home. The porch is priced separate from the house. It is 16 foot wide and 8 foot deep and can be purchased and shipped with the Hickory at the special price quoted below.

Plan 1 $420; 20'x20'
Plan 2 $427; 20'x20'

PLAN 1 PLAN 2
ALADDIN Readi-Cut System Saves 18% of Usual Lumber Waste

The Oakwood

Nine Splendid Plans Are Shown Below

Here is as pretty a home as you will find anywhere—modern in design, attractive in appearance, sturdy in construction. It is shown in nine plans, one size 20x26 feet, one size 18x30 feet and seven in size 20x30 feet. These are the best liked floor plan arrangements of many thousand customers during the past twenty years. You will be proud to own and live in The Oakwood wherever it may be erected. All the lumber is ready-cut (Not Portable) and is so easily handled and erected that a carpenter is not necessary. You can build it yourself and save the cost of high wages. It has been twenty years since we quoted so low a price for a 20x30 house. Readi-Cut construction, modern, efficient manufacturing methods and Cash Selling brings the cost down to before-the-war prices. Immediate shipment can be made and the complete materials will reach you in one car—safe arrival positively guaranteed. See instructions for ordering and specifications on last page.

See Specifications on Last Page

Plan A

A very popular and widely copied plan designed by Aladdin. It is complete in accommodation including a well-placed bath-room.

Plan B

Plan "B" will go on narrow lot and offers a fine arrangement for a family of six—three bed-rooms, living-room, dining-room and kitchen.

Plan C

A thoroughly proven plan offering everything demanded for a home of five rooms and bath. It is impossible to secure greater utilization than is here represented.

Plan D

This plan was inspired by a study of modern city apartment designs. It is housed in a bungalow to make a perfect home and meet every expectation.

Plan E

Larger bed-rooms feature the Oakwood Plan "E." The house is designed to face the street the long way. On this plan the Walnut Hood is furnished in place of the one shown in picture. See page 7.

Plan F

Note the arch in front of living-room and dining-room. Also observe large amount of wall space in the big living-room. Hall from dining-room leads to two bed-rooms and bath. Walnut Hood is furnished instead of hood shown in picture. See page 7.

Plan G

Big rooms well planned—a five-room home of truly remarkable spaciousness for the size and price of this Oakwood Plan "G" makes it a rare bargain. Walnut Hood is furnished instead of hood shown in picture. See page 7.

Plan H

Larger rooms are made possible in Plan "H" by omitting the bath-room. This is a splendid three bed-room arrangement suitable for the big family.

Plan J

A special feature of the Oakwood Plan "J" is the inclusion of a cellar stairs. A living-room size 12x14 is most unusual in a house of this size.
**The Maples**

$374 FREIGHT PAID

You Can Easily Erect It Yourself

**THE MAPLES**

There is more pleasure and satisfaction in owning a small home than living in a large rented one. At the end of the year what work you have done has been for yourself and not for the landlord.

The Maples is being put up by many owners who have had no experience in carpenter work. Our instructions with pictures explain every step.

The Maples is shown below in four different room arrangements. The plans are for the 18 x 18 foot size. The Maples can also be furnished in a 22 x 22 foot size or in a 26 x 26 foot size. If purchased in the 22 x 22 foot size each room would be two feet larger each way than shown in the plans on this page. If purchased in the 26 x 26 foot size each room would be four feet larger each way.

See specifications on last page.

**Order a Kitchen Cabinet Shipped with Your Home at the Special Price of $16.50**

This is a high grade cabinet manufactured of absolutely clear stock, every piece fitted ready to be built into the kitchen. Paneled doors give access to shelves above, while below, a roomy drawer is arranged over deep cupboard space which is also equipped with panel doors. A convenient, sliding bread board is over drawer. All hardware nickel plated. These cabinets are furnished in the natural wood so they can be finished in the same treatment as the other kitchen woodwork.

We carry this cabinet in two widths, one 2 feet 6 inches wide the other 3 feet 6 inches wide. All cabinets are 7 feet 9½ inches high, upper section 12 inches deep, lower section 22 inches deep.

- **2 feet 6 inches wide cabinet** $16.50
- **3 feet 6 inches wide cabinet** $19.25

Cabinets sold and shipped with house orders only.

FREIGHT PAID

One Cash Price Brings You Complete Materials at Lowest Possible Price

THE LARCHWOOD

A most interesting effect is secured by the gable roofed porch on the Larchwood pictured above. It gives originality and distinction to this fine home. The house is priced without porch, the porch being quoted as a separate unit so it can be ordered with this house or some other plan shown in the catalog.

Five choice floor plan arrangements are shown, there being four different sizes—each priced at amazingly low figures. The three bedroom Plan “A” size 24x24 feet lends itself to several different arrangements, for instance, the rear bed-room can be used for a dining-room, or the present kitchen can be converted into a large dining-room and the rear bed-room made into kitchen by moving the rear outside door. We will make this change for you if you request it when ordering.

Impressive indeed are the results obtainable in building a fine home when the price is based on direct shipment from the Aladdin Mills—and based on cash terms. The Larchwood is a very popular home. See Instructions for ordering on page 31. Immediate shipment can be made if desired.
CASH Cuts The Cost—Every DollarBrings 100 Cents Value

THE REDWOOD

The Redwood is one of the prettiest small homes ever turned out. It is a real prize winner and gladdens the hearts of all owners. Its proportions are most harmonious while its selection of interior arrangements offers four carefully thought out plans. It is simply impossible to get more for your money in an attractive little home. Every square inch of space is used to the best advantage. The materials are all of Aladdin’s famous high quality and priced lower than any time in the whole history of our business. Read specifications on last page. Instructions for ordering on page 31.

Here’s a Striking 4 Room House at $481

It will pay you big dividends to put your own time and effort into buying your materials and looking after building your own home the Aladdin way. You save dealers’ profits, you pay for no waste lumber and you save on time and labor building the home. This plan has been popular with our customers for years. Three floor plans are shown below. Choose the one that suits your needs best. Price of porch, if you want it, is given below. You will find instructions for ordering on page 31.

THE BEECHWOOD

Plan A is a very popular two bedroom design. Just think—a 16-foot living-room in a small home.

In this plan and Plan “A” it is not necessary to build the fireplace as we furnish all materials to fill the opening.

Designed for the couple who wish a basement with inside cellar stairs. A very cozy home.

THE MAGNOLIA

The Construction Used in an ALADDIN HOME Is the Same as That Used in the Best Architect-Designed, Contractor-Built House Erected Anywhere

The Magnolia illustrates the popular story and a half type of home. It saves money because it saves materials. It presents a handsome appearance and makes a home you will be proud to live in, proud to own and proud to show your friends. Remember that the lumber you will receive is far better than you will find in most homes of this size elsewhere. Good materials make a sturdy lasting home and one that is always easy to sell should you want to do so. We are offering this excellent home at a price only made possible because of our tremendous buying power, our direct to you sales plan and our cash prices. We make it easy for you to buy right, easy for you to build well and easy for you to own this splendid home. The second floor plan fits either Plan "A," Plan "B" or Plan "C" and the prices quoted include the second story furnished as shown on plan. The 20' x 8' porch is priced separately for your convenience. It can be purchased or not, as you prefer. The wooden columns of the porch can be furnished to extend down to the porch floor if desired, making the brick piers unnecessary.

PLAN A
A great big living-room is shown in this plan, together with two bedrooms, new kitchen and bath-room. Our desire is to make it easy for you to order just what you want.

PLAN B
The rooms in Plan "B" are proportioned differently although of the same accommodations as shown in Plan "A."

PLAN C
Notice the arch between the living-room, and dining-room; also double windows on side of living-room.

PLAN D
Inside cellar stairs distinguish this plan. Every inch of space is used to good advantage.

PLAN E
Fewer rooms but bigger ones give this plan special attraction to many customers. Note the two big closets.

PLAN F
This is a one bed-room plan for a small family. All rooms are generous in size and well laid out.
The Modern Trend in Home Building Has Definitely Turned to Small, Convenient Houses. Lower Investment Costs, Lower Maintenance Costs and Easier House Keeping All Favor Small Homes

You will be sure to find a plan that just suits you among the seven shown on this page. Three are arranged to front the narrow way and four the wide way. Each is priced at a figure so low that your dollars will go far in comfort, warmth, lasting qualities and genuine value. Of course, we guarantee everything will be exactly right and guarantee everything will reach you in perfect condition. Read the specifications printed on last page and write us about the Whitehall if there are any questions you would like answered. We can make shipment within a week after receipt of your order.

Brick terrace and railing at front not included in price.

Newlyweds have found a strong appeal in this pretty hip roof cottage. It is a new design. And it is just as good as it is new. Strong sturdy timbers carefully selected and readi-cut at our mill are furnished for the joist, studding, rafters, etc. and the finish materials such as flooring, siding, trim, window and door frames are all clear and knotless.

THE WHITEHALL

PLAN A
Generous sized living-room—15 feet long, together with kitchen, two bed-rooms, bath and closet—all corner rooms, offer convenience and comfort.

PLAN B
This is the conventional five room plan offering the greatest amount of room possible in a house of this size—and very popular.

PLAN C
A good three bed-room arrangement making possible a real home for a family of six is shown in the above Plan "C".

PLAN D
Fronting the long way this plan gives big living-room, a kitchen a little larger than usual and two bed-rooms, closet and bath.

PLAN E
Plan "E" is a novel arrangement finding great favor where a bathroom and a large kitchen are especially desired.

PLAN F
A good three bed-room plan with the house to be facing the 24 foot way to the street. Living-room is 16 feet long.

PLAN G
A four room plan that is always popular. Additional rooms can be added to the rear at some future date if desired.

The Poplar

There's an ALADDIN Home Near You Wherever You Live. Ask Us for the Names of Satisfied Customers in Your Neighborhood

A true Colonial atmosphere is present in the design of this delightful bungalow. Originality is expressed in the roof lines with hooded gables. Exposed rafter ends lend a touch of individuality while the general proportions of the structure are most harmonious. Genuinely honest construction, sturdy timbers and beautiful interior woodwork combine to create a home any family will be proud of.

Six distinctive floor plan arrangements are shown below. Almost any need will be met by at least one of these plans, which have been given the most careful study by our designers. In some of the plans a door is shown in the side of the living-room in order to give access to the pergola porch. In other plans a window. In any of the plans you can have a door or a window depending upon whether you wish to order the pergola porch. There is no charge for this change from door to window or window to door. The pergola porch has weather tight roof. We will gladly give you any additional information about the Poplar when you write us.

Artistic Exterior Combined With Perfection in Room Arrangement

This is a new product of our designing rooms—and one that has attained tremendous popularity with our customers. It would be hard to find a more charming home than the one shown above.
The circle top door with its ornamental wrought iron hinges and Colonial design lockset add much to the attractiveness of the front entrance.
The roof lines are especially well proportioned. Many letters have been received from enthusiastic owners of this lovely home.

Talked Out of $2,500.00
Morristown, Pa.

Gentlemen:
I am very well pleased with the Glendale and am convinced the ready cut system is the most economical. This is the third house I built in the past couple of years, the other two I purchased the lumber locally and had a contractor build the first one and it cost me a plenty, just about twice as much as the Glendale will when completed. The second one I built myself doing the carpenter work, plumbing and electric, everything but the plastering; and I believe the contractor made about $2500.00 profit on the first one.
I had practically made up my mind to put up a ready cut house but I let the contractor influence me that he could build cheaper, but from the experience I had with the second house and now the ready cut house, I believe he talked me out of about $2500.00.
Respectfully yours, James J. McGlenn.

THE GLENDALE

Four plans are shown and priced below and each one is a masterpiece of interior arrangement. The prices quoted are for siding on the exterior. In order to use shingles it is necessary to use wall sheathing under them. See quotation for wall sheathing and building paper on page 31.
Instructions for ordering and complete order blank will be found on pages 31 and 32. Specifications on back cover. With this home slate surfaced shingles instead of roofing, are included in the price.
ALADDIN Houses Are Sold by the Golden Rule

The Sprucewood Eight Room House

$1070 FREIGHT PAID

Every Merchant Who Sells on Credit Must Add Extra Profit to All Prices to Make Up for His Credit Losses

Chaste simplicity is the keynote of this home—a design that has given pleasure, satisfaction and comfort to hundreds of American families. It is ideal in plan and arrangement. We challenge the world to produce more home conveniences, or equal the cheeriness, beauty and brightness of its interior. The more the Sprucewood is studied the more you will become attached to its splendid values. It includes everything that the housewife values in interior arrangement and convenience. The choice of two sizes and the choice of four upstairs plans will meet the needs of any size family.

The prices quoted are for siding on the exterior. In order to use shingles on the walls, as shown in the photograph above, it is necessary to use wall sheathing under the shingles. See quotation for wall sheathing and building paper on page 31. The porch is 20 feet wide and 8 feet deep. If you do not wish to build the masonry piers as shown in photograph we will furnish full length columns to extend to porch floor. Porch is priced separately so you can order this porch or some other porch shown in the catalog or leave it off entirely if you so desire. See specifications on back cover.

THE PINEWOOD No. 1

You'll Get a Wonderful Home Value in the Pinewood

The Pinewood is an interesting adaptation of Dutch Colonial architecture to the American Colonial Type. This type is always popular. Perfect harmony of design is always good and never goes out of style. Apparent by studying the above picture, story and a half home, all ceilings on the first and second floors are square and full height. The Pinewood will be a joy and the object of admiration wherever it may be built. It can be placed among the finest homes with credit to its owner. Records of savings up to $1000.00 have been sent us by customers who are living in the Pinewood. Two sizes are shown—one 26x22 feet and one 36x26 feet.

The 8x14 foot pergola porch with weather tight roof is priced separately so it can be ordered or left off according to the width of your lot. This also applies to the 10x14 foot porte-cochere shown over the driveway on the Pinewood Number 2.

FIRST FLOOR PLAN—PINEWOOD No. 1
A living-room of generous proportions, 14x22 feet with open stairway is a wonderful luxury. Cloak closet will be noted under stairs. Grade cellar entrance leads from fine big kitchen.

SECOND FLOOR PLAN—PINEWOOD No. 1
Three bedrooms, a big bathroom and four closets complete a second floor plan that is a joy to the housewife. Note size of front bedrooms.

THE PINEWOOD No. 2

Write us for additional information you may wish regarding the Pinewood. Your letters will be answered promptly and fully.

FIRST FLOOR PLAN—PINEWOOD No. 2
One of our very finest homes is represented by the above plan of the Pinewood. Central hall with stairway and cloak closet, a library or den and big serving pantry distinguish this design.

SECOND FLOOR PLAN—PINEWOOD No. 2
Marvelous indeed is the utilization of space shown in the second floor plan above. Four big corner bedrooms, a sewing room, linen closet and bath complete a perfect home.
ALADDIN Company—Homebuilders to the Nation

The Elmwood
This Ideal Home
$680 FREIGHT PAID

There Are No Hidden Profits in These Low Cash Prices

THE ELMWOOD

The ALADDIN Company Belongs To No Price Fixing Trade Associations, Pays No Profits Or Commissions To Dealers Or Agents, And Thus Insures Full Value For Every Dollar You Spend On Your Home

Shrewd buyers immediately recognize the opportunity to avoid paying the top prices charged by regular dealers—an opportunity made possible by dealing direct with the Aladdin Mills. It is just like buying your materials at a special discount of twenty percent to thirty percent. Comparing the price of this attractive home with the price asked by other concerns, prove the big savings Aladdin gives you. Four splendid floor plans are offered to meet your own individual needs. Each has been built many, many times and each has proved its utility.

The pergola type porch with weather proof roof is priced separately so you can order this porch or some other porch shown in the catalog or leave it off entirely if you so desire. If you select the Elmwood you are sure to own a home to be proud of and one that will give lasting satisfaction.

In looking over the plans remember they can be reversed so the living-room, dining-room and kitchen will be on the right hand side if this arrangement will suit your location better. Don’t hesitate to ask for additional information. Your questions will be promptly answered.

**PLAN A**

This is a choice three bedroom design including living-room, dining-room, kitchen and bath. It gives immense value for the cost.

**PLAN B**

This plan gives slightly bigger rooms than Plan "A" by cutting out the bathroom. Makes a splendid plan where running water is not available.

**PLAN C**

A plan including basement stairs, two fine bedrooms, with a hall leading to each and to bathroom. Note extra large closets.

**PLAN D**

Plan "D" is another two bedroom arrangement that has proved its popularity over a number of years.

The Readi-Cut System Saves Your Money From the Waste Pile

THE BELHAVEN

Here is a home that for convenience, compactness and economy cannot be surpassed. All exposed lumber, inside and outside, is knotless. Aladdin Certified lumber, insures highest quality and sturdy construction. Aladdin Homes are warm and snug in coldest winter weather. The gabled hoofer over the front entrance, the French Door and the blinds on the front windows lend a pretty touch to the front of the Belhaven Home and the gabled dormer in the roof adds grace to the whole. Four plans are offered for your choice. Plan "A" provides for two bedrooms with roomy closets and bath. Plan "B" is a three-bedroom plan. Plan "C" is a two-bedroom and bath arrangement and a convenient pantry is included off from the kitchen. Plan "D" is distinguished by the stairs to the basement and in addition includes two bedrooms, each with a closet, living-room, dining-room, kitchen and bath. Freight paid prices are quoted at the right. A list describing the materials furnished with the Belhaven will be found on the back page.

THE BIRCHWOOD

Buying All Materials From One Company Under a Strong Guarantee of Satisfaction Commands for You the Best Price and Saves Trouble

Always remember that Aladdin guarantees you will have sufficient material to complete your house as stated in our specifications. And this guarantee also covers safe arrival of all material in perfect condition.

The Birchwood draws praise from all classes of people, wherever it is erected. It is pretty and dignified and substantial and strong. You will like it immensely. See specifications on back cover.

The porch shown in the picture is 16x8 feet in size and is priced separately so you can purchase it with the home or not, as you prefer. Any Aladdin porch can be purchased and used with any Aladdin home, providing of course, the porch is not too big for the house. If you would prefer not to build the brick corner piers of the Birchwood porch, we will furnish you with longer porch columns that will rest on the porch floor.

"I Saved About $1,000"
Montpeller, Ohio.

I am greatly pleased and satisfied with my house and regard you very highly. I would surely buy another house of you if I were to build again. Some people are afraid, as the carpenters and lumber dealers discourage ready-cut. I disproved their arguments to the extent of a saving of about $1,000.00 by buying from you.

C. R. Gorgas.

Don’t Pay Retail Prices When You Have the Opportunity Here to Save the Middlemen’s Profit

The Hawthorne is a fine example of the average American Home, modern, efficient, convenient, strong and warm. It is a perfect example of Aladdin values, ideal in size, perfect in proportion and effective in everything a home should be. Seven different plans of the Hawthorne are offered for your consideration. The room arrangements are the result of our years of experience in meeting homebuilder’s needs. All materials are of our standard high qualities. All lumber is cut to fit as per specifications. The 22’ x 8’ porch shown in the illustration is priced separately to permit you omitting it or selecting some one of our other porches if you prefer. If desired, the porch columns can be furnished to extend down to the porch floor, making the cement block piers unnecessary. You will be proud to own and call the Hawthorne “Home.” Instructions for ordering are given on page 31. See specifications on back cover.

The Aladdin garages shown on these pages cover the demand for ninety-five per cent of all garages built. Aladdin garages are sturdily built of high grade materials. Lumber is all cut to fit. A couple of days' time will erect and finish one. Experience is unnecessary. Erection instructions furnished. Prices quoted are astonishingly low and the freight is paid to your railroad station.

**The Oakland**
An attractive garage manufactured in three sizes to meet all requirements. Plenty of room for car and work bench.
- Oakland No. 1, 12' wide, 16' deep ................................................ $156
- Oakland No. 2, 12' wide, 18' deep ................................................ 166
- Oakland No. 3, 12' wide, 20' deep ................................................ 176

*Freight is paid to your railroad station*

**The Pontiac**
An English type garage that will harmonize with a great many present day homes. The doors are 8 feet wide and are glazed ready to hang.
- Pontiac No. 1, 12' wide, 16' deep ................................................ $147
- Pontiac No. 2, 12' wide, 18' deep ................................................ 157
- Pontiac No. 3, 12' wide, 20' deep ................................................ 167

*Freight is paid to your railroad station*

**The Studebaker**
The Studebaker will take the largest car on the market with ample room at sides for storage and working.
- Studebaker No. 1, 12' wide, 16' deep ............................................. $137
- Studebaker No. 2, 12' wide, 18' deep ............................................. 147
- Studebaker No. 3, 12' wide, 20' deep ............................................. 159

**The Hudson**
This popular type is made in both 2 and 3 car sizes. The three-car garage will of course have three pair of doors.
- Hudson No. 1, 20' wide, 18' deep ................................................ 236
- Hudson No. 2, 20' wide, 20' deep ................................................ 249
- Hudson No. 3, 2 Car, 20' wide, 20' deep ...................................... 284
- Hudson No. 4, 3 Car, 26' wide, 20' deep ...................................... 307

*Freight is paid to your railroad station*

**The Cadillac**
An attractive 2 car garage, having 4 swinging doors.
- Cadillac No. 1, 18' wide, 16' deep ............................................... $193
- Cadillac No. 2, 18' wide, 18' deep ............................................... 204
- Cadillac No. 3, 18' wide, 20' deep ............................................... 216

**The Lincoln**
Same design as the Cadillac except that it is 20 feet wide instead of 18 feet.
- Lincoln No. 1, 20' wide, 18' deep ............................................... $217
- Lincoln No. 2, 20' wide, 20' deep ............................................... 229

**The Ford**
The Ford is made in four standard sizes. The 8'x14' size is large enough to admit practically all of the light cars on the market.
- Ford No. 1, 8' wide, 14' deep ................................................ $92
- Ford No. 2, 10' wide, 16' deep ................................................ 112
- Ford No. 3, 10' wide, 18' deep ................................................ 121
- Ford No. 4, 12' wide, 18' deep ................................................ 136

**Specifications for Garages**
The same high quality of materials is furnished as for our houses. Sills 4x4 inches, studding 2x4 inches on 24-inch centers, 6-inch clear and knotty pine siding for side walls, rafters 2x4 inches on 24-inch centers, roof shingled laid tight. Best quality green slate surfaced asphalt roll roofing for roofs. Swinging doors, each pair doors eight feet wide and seven and a half feet high. Windows, furnished when shown in illustration, are swinging casements, size of glass 18x24 inches. Hardware for doors and windows, nails and two coats of paint for exterior. Materials ready-cut and complete drawings and instructions for erection. All garages are furnished without floors as most owners prefer to build floor of concrete or cinders. If doors with glass in top section are desired for any garage shown with solid doors, add $8.00 for each pair of doors to price of garage.
Aladdin Summer Cottages

In presenting this line of Aladdin Summer Cottages, we have selected only those cottages which have proved popular during the past years. We have sold thousands of these designs. They can be found nesting on the banks of lakes and rivers throughout the entire country.

Three things are chiefly essential in a Summer Cottage—protection from the elements, a generous porch and plenty of light and air. In each cottage shown, these things have been borne in mind. But always we have tried to keep costs down without sacrificing strength or weather tightness. Every cottage is strong, tight and substantially built of Aladdin Certified Materials.

Only high grade materials are furnished for Aladdin summer cottages. Clear and knotty outside finish, drop siding, flooring, front and rear doors, etc., distinguish Aladdin summer cottages from the ordinary kind.

These grades are unusual in summer cottage construction but do not increase your cost. We buy these high grade materials in such large quantities for our Aladdin Homes that there would be no saving in substituting second grade materials for our summer cottages.

A comparison of prices with what the same sized cottages can be built for through any other source, will immediately show you the remarkable saving, a saving you cannot afford to lose.

The Statler

_is a substantial, comfortable summer home, and is shown here in three plans and sizes. Prices are quoted at the right._

The Statler No. 1 is size 20x18 feet over all, having three bed-rooms and combined dining-room and kitchen. The porch is 20 feet wide and 6 feet deep. This plan is one of our best sellers—very popular.

The Statler No. 3 is size 18x24 feet. It is a popular type affording maximum room for its dimensions.

**See Specifications**

*Page 28*

The Statler

Freight Paid Prices

Plan No. 1 $332
Plan No. 2 $362
Plan No. 3 $361

The Seaford

Among the large types of summer homes, the Seaford stands out for the many unusual qualities it possesses.

The Seaford No. 1 has three bed-rooms. A big porch, 22x8 feet, living-room and kitchen complete this good type.

The Seaford No. 2 is a decidedly popular plan. Big porch, big living-room, three bed-rooms, kitchen and rear porch. Can be built on a narrow lot.

The Seaford No. 4 has a living-room, dining-room, kitchen and two bed-rooms. This plan permits simple alterations if a dining-room is not desired. By omitting the partition between the living-room and dining-room, a living room across the entire front of the cottage, 24x16 feet in size, will result. Or, if desired, the dining-room can be used as a kitchen and a third bed-room made of the regular kitchen in the plan.

The Seaford No. 5 is a four bed-room plan—permanent sleeping accommodations for eight people and extra guests can be taken care of by cot or beds arranged on the large porch or in the spacious living-room. An exceptionally good cottage for a large family.

**See Specifications on Page 28**

Any Aladdin Summer Cottage can be supplied by you without great inconvenience. The materials are cut to fit in our mills ready for delivery at place, and your assistance by complete detailed blueprints and pictures.

**Freight Paid Prices**

Plan No. 1 $465
Plan No. 2 $508
Plan No. 3 $583
Plan No. 4 $498
Plan No. 5 $548
The Shasta

The quality of material furnished for Aladdin Summer Cottages is far superior to that used in most cottages. We buy the best material for Aladdin homes and furnish this same material for our cottages. This gives you better material than average summer cottage material, but costs you no more. It is cheaper for us to give you this extra good material than to carry two stocks.

Four sizes and plans are shown for the Shasta, one of our most popular summer cottage designs.

Over all dimensions of Plan No. 1 are 24x24 feet. Porch, living-room, three bed-rooms and kitchen make up a very complete cottage.

Plan No. 2 is 28x26 feet over all. Note the porch, size 28x8 feet, real summer living conditions here. The interior affords a fine living-room, three bed-rooms and kitchen. It is most conveniently planned.

Plan No. 3 is size 36x30 feet over all. Big porch and seven rooms. A splendid summer cottage type.

The No. 4 Plan of the Shasta is 32x30 feet in size and includes three fine bed-rooms and a kitchen, all 8x10 feet in size—generous proportions for a summer home. In addition, a very large living-room, dining-room and porch complete a plan that cannot fail to please.

See specifications page 28.

The Ocean Park

In accordance with customary summer cottage construction, the outside wall studding of Aladdin Summer Cottages is exposed, leaving the smooth inside surface of the drop siding showing. The matched ceiling partitions extend up to the wall height and as the rooms are open overhead, perfect ventilation is obtained.

Some fine features are included in the five Ocean Park plans that will attract folks desiring the utmost comfort in a summer home. The main roof extends over the porch in each design, giving greater ventilation area inside, and a place for storage. Plan No. 1 is a two bedroom size, and is priced astonishingly low.

Plan No. 2 is the same width as No. 1, but four feet longer and includes three bed-rooms.

Plan No. 3 offers an interesting arrangement and some distinct advantages. It is size 20x36 feet, has big inset porch, three bedrooms, living-room, kitchen and two closets.

The Ocean Park No. 4 is 18x34 feet in size and has a living-room, dining-room, kitchen and two bed-rooms. One owner of this cottage uses a curtain hung on a wire across the living-room, forming a third bed-room when occasion demands, directly in front of the other two bed-rooms. When not in use, the curtain is pushed back to the sides, giving the full efficiency of the 18x10 feet living-room.

The Ocean Park No. 5 has the same arrangement as the No. 2 Plan but all rooms are larger because the cottage itself is 2 feet wider and 4 feet deeper than the No. 2 Plan.

See specifications page 28.
The Luna

From the standpoint of good architecture, splendid room arrangement and comfortable accommodations, the Luna is a summer home of superior qualities, yet it can be erected at a low cost. It is large enough for the average family. Storage space over the porch is a desirable feature.

The inside partitions of Aladdin Summer Cottages are composed of a single thickness of clear and knotless, double faced, matched ceiling material. This material stands on end and is held in place by a partition cap at the top, grooved to receive the matched ceiling. At the floor line the matched ceiling partitions are firmly held by a moulding on each side. You will understand from this description that during construction it is usually a very simple matter to rearrange partitions in your cottage at will, providing you prefer a different room arrangement than our plan shows.

Plan No. 1 has three bed-rooms, big living-room and kitchen. Two men have built and finished the Luna No. 1 in five days. The porch is 32' x 9'.

Plan No. 2 provides for a splendid sun living-room, a kitchen and good bed-rooms. The dimensions of the Luna will permit this house to be built on a narrow lot.

Plan No. 3 has three bed-rooms, big living-room and kitchen. A very popular plan.

Plan No. 5 is distinguished by the size of the kitchen, all important room in a summer cottage. Three bed-rooms, a large living-room and porch are also obtained.

Plan No. 6 is a big, roomy cottage with four bedrooms, living-room and kitchen. All rooms are good size and the big living-room and porch permit the entertaining of many friends at one time.

See specifications page 28

The Shoreview

Five sizes of the popular Shoreview are shown here. Any one of them can be built on a very narrow lot.

Shoreview No. 1 is a snug little layout of four rooms and porch. It's good looking, too.

Shoreview No. 2 is an Aladdin design famous the country over. It is the original and the first five room plan we ever produced. And it's a complete home, too. Study it.

Shoreview No. 3—a new one! Four bed-rooms—think of it—at such an astonishing price. Hold a regular crowd over night, won't it? A big seller. You'll be delighted with it.

Shoreview No. 4 is a simple design that is particularly convenient. Three bed-rooms, living-room, kitchen and porch complete the arrangement.

Shoreview No. 5 is a very popular design because of the dressing room space. If preferred, this space can be used for toilet purposes, storage or closet space. It is a cottage you will always be pleased with.

See specifications page 28

Any Aladdin Summer Cottage can be erected by you without previous experience. The materials are cut to fit in our mills ready for nailing in place, and you will be assisted by complete detailed blueprints and pictures.
The Genesee

The Genesee is a strikingly good looking summer cottage and is hewn here in four sizes.

The Genesee No. 1 is 24x22 feet over all and contains a generous porch, living-room, three bed-rooms and kitchen. Plenty of light and air. It has a straight gable roof with one-quarter pitch, exposed eave projections of one foot. The full width of the house is utilized for a front porch.

The Genesee No. 2 offers a unique arrangement of rooms, having living-room and two bed-rooms facing the front of the house. Kitchen and front and rear porches complete the plan.

The Genesee No. 3 is arranged similarly to the No. 1, being 30x22 feet over all.

The Genesee No. 4 will attract you because of the wide expanse of living-room across the front of the cottage. Some builders omit the partition between the living-room and dining-room and then use the end of this enlarged room for dining purposes. Between meals a living-room thirty feet long is then available. Three bed-rooms and kitchen complete the plan. See specifications page 28.

### The Asbury

The Asbury is a cozy summer cottage of pleasing lines. The porch can be screened in to give an outdoor living-room. Plan No. 1 is the smallest Aladdin cottage built—two rooms. But it's just as well built as our larger cottages.

Asbury No. 2 is 4 feet deeper than No. 1, and has three rooms. It's just a cute little cottage in demand. Why not build it yourself? You can easily do it.

Asbury No. 3 is 16x22 feet over all.

FACTS ABOUT ALADDIN HOMES

What Is an ALADDIN House? When erected an Aladdin house is exactly the same as any well built house.

There is no difference in the materials; no difference in sizes, grades or kinds.

It is assembled exactly the same, erected the same and finished the same.

What Is the Difference Then? The difference is that you buy all your materials in one lot direct from the manufacturers, saving middlemen's profits; and a further difference is that your lumber is cut to fit by modern, fast, accurate machinery instead of hand saws on the job saving you about a third of the labor and saving you at least 18% lumber waste.

Why Do ALADDIN Houses Cost Less Money? For exactly the same reason that Automobile Manufacturers can build a good, serviceable automobile so cheaply—big production and modern factory manufacturing methods. And for the further reason that Aladdin Houses are sold direct to home builders—to you—no middlemen to add their profits to the price you pay. Also because Aladdin sells only for cash and you save the charges, costs and expenses the credit dealer adds to his price. Another reason is that this catalog is our. only salesman. Aladdin has no agents and therefore nothing has been added to Aladdin prices to take care of agent's commissions.

Why Do We Sell for Cash Only? Because we have found that we can be of greater service to the home builder, to you, by selling high quality materials for a low, cash price than we can by selling on Credit at a much higher price.

It is a fact that most people who buy on a Credit Payment Plan have to pay from one-quarter to one-third more than the Cash Buyer. That means the work and savings of three or four years paid out for nothing. Compare our cash prices with those offered by others who sell on a credit payment plan and you will find they are charging you heavily for the privilege. They have to do it.

The way to avoid these extra charges is to buy and build on a cash basis. If you do not have the cash on hand to pay for your home, borrow it from your bank or building and loan company and pay cash for your materials. The bank will charge you the regular rate of interest only. Your saving will amount to hundreds of dollars, the exact amount depending on the house you purchase.

How Will My ALADDIN House Be Shipped? Your Aladdin house will be shipped to you freight paid from one of our own mills. It will be shipped complete in a sealed box car. Its safe arrival at your station in perfect condition is guaranteed by us. If anything should be missing or broken WE will immediately make it good. Your home will be shipped from one of our own mills, from Bay City, Michigan, or from Wilmington, North Carolina, or from Portland, Oregon, whichever mill is nearest to you.

Twenty Feet of Lumber From a Sixteen-Foot Board Look at the picture below and you will see one of the ways we save your money by the Aladdin Readi-Cut System. You will learn that you do not buy good lumber to go in the waste pile, where so much of your material would go should you build by the old method. The lumber that's wasted costs just as much as the lumber that's used. Aladdin practices this and similar economies in cutting all materials, and these savings amount to more than eighteen percent—$18.00 out of every $100.00 saved! Factory planning and cutting saves waste—saves your money. You can build an Aladdin home in about half the time it takes to build a house that is not Readi-cut. Even though you decide to hire all the work done, you will make a big labor saving...
because so much of the work has been performed for you at our factory. Compare the time it takes a carpenter to measure, mark, saw and fit with the time required to nail a piece in position.

What Kind of Lumber Will I Receive?

Aladdin houses are built of the finest grades of lumber ever put into homes. The siding is clear and knotless, the flooring is clear and knotless, the interior woodwork is clear and knotless, the doors are all clear and knotless and the porch lumber is clear and knotless. The joists, studding, rafters and frame work are all sound, clean, straight and strong timbers. All materials furnished are thoroughly seasoned and of standard size. Aladdin Certified Lumber is guaranteed satisfactory.

Can I Build My Own ALADDIN Home?

Yes, with our simple easily understood drawings and instructions. Four out of five Aladdin customers build their own houses themselves or with the help of a handy man or carpenter. They thus save a good part of the money usually paid out for labor. Because the lumber is accurately cut to fit when you receive it, the expert knowledge of the carpenter is not needed. And also, because of that fact, the hard work of sawing and fitting is saved you.

Facts About the ALADDIN Company

The Aladdin Company is incorporated for $2,000,000. It owns and operates three great manufacturing plants, one each in Michigan, North Carolina and Oregon. They operate right at the edge of the greatest timber forests in the country. Every stockholder in the Aladdin Company is a worker in the business, is interested in its success, is interested in the success of its customers. The present officers and managers of the Company started it twenty-four years ago. This management has never changed. The Aladdin Company is the originator of the Ready-cut System of home construction.

Masonry, Chimney and Fireplaces

Chimneys can be located anywhere in the house you like, for we do not cut the materials for these openings. If you do not want the fireplace which may be shown in the photograph you need not build it. Of course any excavation work and the foundation work must be done on the ground. Brick, stone and cement can be had in your locality as cheaply as we could furnish it. We furnish you a foundation plan to tell you exactly how to proceed to build the kind of foundation you want.

Plans Can Be Reversed

Reversing plans means changing rooms to the opposite side of the house. That is, all rooms now on the right hand side would be on the left hand side and all rooms now on the left hand side would be on the right hand side. We can furnish all materials so your house can be reversed and will do so on request without extra charge.

We Furnish Complete Blueprints

Complete blueprints, a book of instructions and pictures showing every step in the erection of your home are furnished with every house, cottage or garage. Even though you are not a carpenter these drawings will show you just how to do the work.

Quick Shipment

We can ship any regular house in this catalog within a week after receiving your order. However, we prefer to give a little more time if convenient to you. Tell us when you want your house shipped when you send in your order.

Freight Paid Prices

The freight paid prices quoted in this catalog apply to shipments into the States of Michigan, Ohio, Pennsylvania, New York, Minnesota, Wisconsin, Iowa, Missouri, Illinois, Indiana, Kentucky, West Virginia, New Jersey, Connecticut, Massachusetts, New Hampshire, Vermont, Maine, Rhode Island, Maryland, Virginia, Tennessee, North and South Carolina, Georgia and Alabama.

ALADDIN Guaranty

Satisfaction or your money back is the strongest and soundest guaranty ever written. When this guaranty is backed by a Two Million Dollar Corporation you are assured of absolute safety in all your dealings. We only carry one quality and that is the best and whether you buy the largest or smallest house you will receive the same guaranteed quality.

Terms

Aladdin Homes, Summer Cottages and Garages are sold only for cash. The price quoted is for full cash with order. Or, if you desire, we will ship on receipt of one-fourth of the amount with order, the balance, plus a charge of $10.00, to be paid on arrival of materials at your station.

No cash is necessary with your order if you will enclose a letter from your bank or Building and Loan Association guaranteeing to us that the full amount of your order, plus a charge of $10.00, will be paid when the materials arrive at your station.

Also, we will ship without cash on receipt of a letter from your bank or Building and Loan Association stating that our money will be paid to us as construction progresses. Write for details.

Prices Subject To Change

All prices quoted in this catalog are subject to advance on May 5th, July 5th, or September 5th.

References

For references you may inquire at Dun's or Bradstreet's Commercial Agencies, The First National Bank, of Bay City, the Murchinson National Bank, of Wilmington, North Carolina, the First National Bank of Portland, Oregon or any City Official of any of these Cities, or write to any of our customers.

Visit Our Mills

If you live near enough to one of our mills we would welcome a visit to us. We will be glad to show you everything we furnish and give you all information you would like to have.

## PRICES ON ADDITIONAL MATERIALS

Aladdin Houses are sold in all parts of the United States and in Foreign Countries. Local climatic conditions and the personal requirements of the builder largely determine whether or not any of the additional materials quoted below will be desired. The figures quoted represent the additional freight-paid prices for the various items designated.

### ASPHALT ROOFING AND ASPHALT SHINGLES

The green asphalt roll roofing and asphalt strip shingles furnished with Aladdin homes, summer cottages and garages is of highest quality. The slate surfacing is not artificially colored but is the natural color of the crushed slate. This inners surfacing of the color. The shingles are heat-sealed and are self-spacing.

### SHINGLES FOR SUMMER COTTAGES

At the following prices the green asphalt strip shingles can be furnished for summer cottages in place of asphalt roll roofing.

### SPECIAL DOORS

The outside door furnished with each of our houses is a standard size door and has one light of glass about 24 inches square in the top section. If the Aladdin home you select is provided with this design of door, it will show in the illustration of the house. With such houses, if you wish a French Door furnished in place of the regular outside front door, the change can be made for $5.00 additional. A French Door is shown in our illustration of the Oakwood home on page 9. French Doors can also be furnished for the side door with plain openings of all doors for $17.50 per pair. This price includes not only the pair of doors but the astragal for between the doors, locked, two pairs of bolts, top and bottom bolt and strike and finish.

### KITCHEN CABINETS

If one or more kitchen cabinets are desired with your home see description and prices at the bottom of page 10.

### CELLAR STAIRWAY ADDITION

If cellar stairs are not shown in the plan you select and if you wish a basement, see description and prices of our cellar stairway addition at the bottom of page 21.

### EXTRA ROOM ADDITION

If an extra room is desired on your home for any purpose, see description and prices of our special addition at the bottom of page 21.

### WALL SHINGLES

Shingles can be furnished for outside doors in place of glass on any Aladdin home, at no additional price providing wall shawling is being used. See prices on shawling above.

### FOUNDATION POSTS

We can furnish with your house shipment, wooden foundation posts 8 feet long at $1.00 per post, or posts 4 feet long at 50 cents per post.

SPECIFICATIONS

The Aladdin Company guarantees to furnish a sufficient quantity of material to complete your home in accordance with the specifications listed below.

SIZES OF MATERIALS—All sizes of all material will be in accordance with well established engineering and architectural standards of safety and strength.

QUALITY OF MATERIALS—All lumber is guaranteed to be of high quality—in fact, higher than is customarily used. Only Aladdin Certified Materials are furnished. Every Aladdin house, regardless of size or price, comes under this guarantee.

GIRDERS—6" x 6" built up of three 2" x 6" for all houses except Glendale and Pinewood No. 2 which are provided with 6" x 8" girders built up of three 2" x 8".

WALL PLATES—2" x 6" foundation wall plates furnished when solid wall foundation is to be used.

FLOOR JOISTS—2" x 8" on 16" centers. All joists are dressed and cut to fit. All joists are furnished for all 2" x 8" floor joists. Floor joists on St. Clair, Basswood, Cottonwood, Firwood, Walnut, Maple Station, Tourist Cottage and Roadside Store, Convertible, Oakwood, 18" x 18" Maps, Redwood, Beechwood, Cypress and Whitehall and second floor of Magnolia are 2" x 6" on 16" centers because of the shorter spans in these houses.

FLOORING—The flooring used in Aladdin homes is Clear and Knotless, tongue and grooved, accurately matched. It is 3/4 inch thick with a 1/2 inch face, machined to give a beautiful finish.

STUDDING—For walls and partitions 2" x 4" placed on 16" centers, selected for quality. All walls and partitions have top and bottom plates which is the approved type of construction in accordance with engineering standards and good practice. All studding cut to exact length ready to nail in place.

CEILING JOISTS—2" x 4" on 16" centers. Selected quality; dressed and cut to exact length, ends mitered ready to nail in place.

CEILING HEIGHT—All Aladdin houses are furnished with an 8' ceiling height except the first floor of the Hickory, Sprucewood and Pinewood which have a 9' ceiling height and the Glendale which is provided with an 8'6" ceiling height.

RAFTERS—2" x 4" on 24" centers. Perfectly mitered and cut to fit. Rafters on the Huron, Poplar, Glendale, Belhaven, Hawthorne, Pinewood No. 2 and 26" x 26" Maps are 2" x 6" on 24" centers.

ROOF SHEATHING—Inch lumber to be laid tight. All sheathing dressed, cut to exact length and ready to nail in place.

ROOFING—Made of heavy weight felt base, saturated with asphalt and surfaced with natural green slate firmly embedded in the heavy water proof base. Roll roofing furnished for all houses except Pinewood and Glendale which are priced with asphalt strip shingles. See prices on asphalt strip shingles for other houses on page 31.

OUTSIDE FINISH—Such as corner boards, frieze, casings, moldings, etc., manufactured of Clear and Knotless stock.

WINDOW AND DOOR FRAMES—Complete including jambs, stops, inside and outside trim. Manufactured of finest Knotless stock, sanded ready to assemble.

WINDOW SASH—Manufactured of Knotless stock. Glass is in sash ready to hang. All windows in one story houses and on second floor of two story houses check-rail type, size of glass 26" x 24". First floor windows in all two story houses except Magnolia are 26" x 28" check-rails. Exception—Kitchen and bath room windows are usually smaller to permit placing kitchen or bathroom fixtures beneath them.

DOORS—All doors are of the best quality, perfect in every way and, of course, Knotless. The outside doors have the glass placed in them ready to hang. The inside doors are of a two panel design. All doors are selected for beautiful grain. See illustration page 30. When they have been stained and varnished you will agree that nothing finer could be furnished. Doors to rooms are 2'8" wide by 6'8" high. See prices on closet doors on page 31.

INTERIOR WOODWORK—6' baseboard, base shoe, two member trim for all doors and windows. Clear and Knotless stock. Perfectly machined ready to receive the stain and varnish we furnish.

LOCK SETS—Frosted brass finished, mortised lock-sets and 3/4" hinges furnished for all doors.

PAINTS—STAINS—VARNISHES—Two coats furnished. We have used unusual care in the manufacture of our paints, for the appearance of a house depends to a great extent upon the quality of the paint. We will not sell every Aladdin house to look its best, therefore we use the best paint.

The same care has been exercised in selecting the stain and varnish that is supplied for the interior woodwork and doors.

HARDWARE—Nails of all sizes in proper amounts to complete the house, sash cord, weights, pulleys and sash locks for all sliding sash windows, casement locks and hinges for swinging windows and double acting floor hinges for door between dining room and kitchen.

BLUEPRINTS—Complete blueprints showing every step of erection are furnished with every order so that even though you may not be a carpenter, you will know just how to erect your home. We also send you a complete book of instructions telling you about every step in the building of your home.

FREIGHT PAID—Prices quoted are freight paid to your station.

REVERSING PLANS—Plans can be reversed without charge. This will place all rooms on opposite side of house from that shown in our catalog. Kindly mention when ordering if this change is desired.

ROOM SIZES—Figured from outside of walls to center of partitions.

NOTE—See top page 31.
